AMENDEMENT TO AUDIT ENGAGEMENT LETTER DATED SEPTEMBER 6, 2002

September 19, 2003

Dr. D. B. Karron
CASI LLC
300 East 33rd Street
New York, NY 10016

Dear Dr. Karron:

The purpose of this letter is to confirm our understanding of the amended terms and unanticipated events of our engagement as the independent accountant of CASI LLC, formerly Computer Aided Surgery, Inc.

Entity Change

We were advised during February 2003 that CASI LLC was established in New York State effective August 30, 2002, and effective the same date, Computer Aided Surgery, Inc. merged into CASI LLC.

Timing

The audit reports, which were originally due by December 31, 2002, were postponed to allow additional time to submit a revised budget and receive its approval from NIST. The purpose of this submission was to obtain an approved budget that would allow the cost of equipment in access of that which would be allowed under the existing budget. The audit submission due date was extended for 90 days by NIST, but the new budget was not approved by that time.

The completion of the audit was postponed because the rejection of an additional extension was not received until the individual tax season during which work on the audit was not possible.

The completion of the audit was again postponed to allow CASI to develop and implement procedures, so as to mitigate anticipated negative findings.

Field work was completed on June 27, 2003, however, additional information that we requested prior to the completion of field work was not provided in a timely manner.

Fees

not billed

Additional fees were required as result of the audit postponement and additional time that was required to perform the audit due to the condition of your records and filing system. Your Business Manager approved and you paid $2,500 for such additional fees.

Excess costs for long distance phone calls and travel from your office at late hours will be billed.

Please sign this letter, as indicated below, to confirm our amended agreement and understanding of events. A copy will be provided for your records. Please do not hesitate to contact us if you have any questions or need additional information.

Very truly yours,

Joan M. Hayes, CPA, LLC

The amended terms and occurrence of events as set forth in this letter is agreed to.

CASI LLC

September 6, 2002

Dr. D. B. Karron, President
Computer Aided Surgery, Inc.
300 East 33rd Street
New York, NY 10016

Dear Dr. Karron:

The purpose of this letter is to confirm our understanding of the terms of our engagement as the independent accountant of Computer Aided Surgery, Inc. (CASI).

Services and Related Reports

We will audit the following program-specific financial statement of CASI and deliver the following services at September 30, 2002 and for the year then ending:

- Audit the *Schedule of Fund Sources and Project Costs* for Advanced Technology Program (ATP) Cooperative Agreement Award Number 70NANB1H3050.

- Conduct an examination-level attestation engagement of management's assertions regarding compliance with specified requirements applicable to the ATP Cooperative Agreement referred to above.

We will perform our audit and examination of the management assertions in accordance with the *Program-Specific Audit Guidelines for Advanced Technology Program (ATP) Cooperative Agreements with Single Companies*, issued by the U. S. Department of Commerce, Office of Inspector General, National Institute of Standards and Technology, September 1999.

Upon completion of our audit and compliance examination, we will provide you with the following audit reports and other required documents:

- Our audit report on the *Schedule of Fund Sources and Project Costs* of the ATP award.

- Our report on management's assertions regarding CASI's compliance with specified requirements applicable to the ATP award.

- A management letter documenting the reportable conditions or material weaknesses, if any are noted in the audit of the *Schedule of Fund Sources and Project Costs* or during the examination of the management assertions.

- A Schedule of Findings and Questioned Costs if applicable. This schedule, if applicable, will include all material noncompliance with provisions of laws, regulations, or the cooperative agreement. It will also include, if applicable, all known questioned costs which are greater than $10,000 identified through the audit of the *Schedule of Fund Sources and Project Costs* or the examination of the management assertions.

If, for any reasons caused by you or relating to the affairs of CASI, we are unable to complete the audit and compliance examination, we may decline to issue our reports as a result of this engagement.

Our Responsibilities and Limitations

The objective of the audit is the expression of an opinion on the ATP program-specific financial statement. We will be responsible for performing the audit in accordance with generally accepted auditing standards and the standards for financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the program-specific financial statement is free of material misstatement. The audit will include examining, on a test basis, evidence supporting the amounts and disclosures in the program-specific financial statement, assessing accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation.

The objective of the compliance examination is the expression of an opinion on management's assertions regarding compliance with laws and regulations applicable to the ATP award. We will be responsible for performing the attestation engagement in accordance with *Government Auditing Standards* and the standards contained in the *Statement of Standards for Attestation Engagements (SSAE) No. 3, Compliance Attestations*, as amended by *SSAE No. 9, Statement of Standards for Attestation Engagements Nos. 1, 2, and 3*, issued by the American Institute of Certified Public Accountants (AICPA). Accordingly, the attestation engagement will include examining, on a test basis, evidence regarding CASI's compliance with those requirements and performing such other procedures as we consider necessary under the circumstances. Our compliance examination will not provide a legal determination on CASI's compliance with specified requirements.

We will design our audit and compliance examination to obtain reasonable, but not absolute, assurance of detecting errors or fraud that would have a material effect on the program-specific financial statement as well as other illegal acts having a direct and material effect on financial statement amounts. Our audit and compliance examination will not include a detailed audit of transactions, such as would be necessary to disclose errors or fraud that did not cause a material misstatement of the financial statement. It is important to recognize that there are inherent limitations in the auditing process. Audits and compliance examinations are based on the concept of selective testing of the data underlying the financial statements, which involves judgment regarding the areas to be tested and the nature, timing, extent and results of the tests to be performed. Audits and compliance examinations are, therefore, subject to the limitation that material errors or fraud or other illegal acts having a direct and material financial statement impact, if they exist, may not be detected. Because of the characteristics of fraud, particularly those involving concealment through collusion and falsified documentation (including forgery), an audit or compliance examination designed and executed in accordance with generally accepted auditing standards may not detect a material fraud. Further, while effective internal control reduces the likelihood that errors, fraud or other illegal acts will occur and remain undetected, it does not eliminate that possibility. For these reasons we cannot ensure that errors, fraud or other illegal acts, if present, will be detected. However, we will communicate to you, as appropriate, any illegal act, material errors, or evidence that fraud may exist identified during our audit and compliance examination.

The audit and compliance examination will not be planned or conducted in contemplation of reliance by any third party or with respect to any specific transaction. Therefore, items of a possible interest to a third party will not be specifically addressed, and matters may exist that would be assessed differently by a third party, possibly in connection with a specific transaction.

Management's Assertions

The assertions of management, noncompliance of which could adversely affect CASI's ability to report financial data or comply with the specified requirements related to the *Schedule of Fund Sources and Project Costs* for the ATP Cooperative Agreement referred to above, include the following:

- The cost-share established by the budget in the ATP award has been met. The funds claimed as cost-share are not from a subcontractor or other federal sources and were not used as matching or cost-sharing funds on other federally supported activities. The funds claimed as cost-share meet the definition provided in 15 CFR Part 14, Section 23 and conform to the limitations in 15 CFR Part 295.2(1).

- Equipment acquired with the ATP funds has been accounted for in accordance with federal property management standards found in 15 CFR Part 14 Sections 30-37.

- Federal procurement standards described in 15 CFR Part 14 Sections 40-48 have been incorporated into the purchasing policies and adhered to for ATP award expenditures. Contracts and sub awards have not been made to any organizations or its principles listed in the *List of Parties Excluded from Federal Procurement or Nonprocurement Programs*, issued by General Service Administration.

- The amounts in the quarterly financial status reports and the requests for advance or reimbursement agree with the underlying accounting records and summary records.

- The agreements entered into with subcontractors/subrecipients require that the subcontractors/subrecipients adhere to federal laws and regulations as specified by the ATP award, and sanctions are specified for the subcontractor's/subrecipient's noncompliance.

Management's Responsibilities

The program-specific financial statement referred to above is the responsibility of the management of CASI. In this regard, management is responsible for properly recording transactions in the accounting records and for establishing and maintaining internal control sufficient to permit the preparation of financial statements in conformity with the ATP award requirements. Management is responsible for adjusting the program-specific financial statement to correct material misstatements, if any, and for affirming to us that the effects of any uncorrected misstatements brought to its attention by us are immaterial, both individually and in the aggregate, to the program-specific financial statement taken as a whole. Compliance with laws, regulations, contracts, and cooperative agreements applicable to CASI also is the responsibility of CASI's management.

Management is responsible for making available to us, on a timely basis, all of CASI's original accounting records and related information, documentation of compliance matters and organization personnel to whom we may direct inquiries. As required by generally accepted auditing standards and *Government Auditing Standards*, we will make specific inquiries of management and others about the representations embodied in the program-specific financial statement and the effectiveness of internal control over financial reporting. Generally accepted auditing standards also require that we obtain written representations covering audited financial statements from certain members of management. The results of our audit and compliance examination tests, the responses to our inquiries, and the written representations comprise the evidential matter we intend to rely upon in forming our opinion on the program-specific financial statement and the management assertions.

Release and Indemnification

Because of the importance of oral and written representations to an effective audit, CASI releases Joan M. Hayes, CPA, LLC and its personnel from any and all claims, liabilities, costs and expenses attributable to any knowing misrepresentation by management. Further, in no event shall Joan M. Hayes, CPA, LLC be liable to CASI, whether a claim be in tort, contract or otherwise (a) for any amount in excess of the total professional fees paid by CASI under this engagement letter, or (b) for any consequential, indirect, lost profit, or similar damages relating to Joan M. Hayes, CPA, LLC's services provided under this engagement letter, except to the extent finally determined to have resulted from the willful misconduct or fraudulent behavior of Joan M. Hayes, CPA, LLC relating to such services.

In addition, CASI agrees to indemnify and hold harmless Joan M. Hayes, CPA, LLC and its personnel from any and all claims, liabilities, costs, and expenses relating to Joan M. Hayes, CPA, LLC's services under this engagement letter, except to the extent finally determined to have resulted from the willful misconduct or fraudulent behavior of Joan M. Hayes, CPA, LLC relating to such services.

In the unlikely event that differences concerning our services or fees should arise that are not resolved by mutual agreement, to facilitate judicial resolution and save time and expense of both parties, CASI and Joan M. Hayes, CPA, LLC agree not to demand a trial by jury in any action, proceeding, or counterclaim arising out of or relating to our services and fees for this engagement.

Timing and Fees

Completion of our work is subject to, among other things, (a) appropriate cooperation from CASI's personnel including timely preparation of necessary schedules, (b) timely responses to our inquiries, and (c) timely communication of all significant accounting and financial reporting matters. When and if for any reason CASI is unable to provide such schedules, information, and assistance, Joan M. Hayes, CPA, LLC and CASI will mutually revise the fee to reflect additional services, if any, required of us to complete the engagement.

Our fee estimates are based on the levels of service provided and the time required to perform the services. Hourly rates vary according to the degree of responsibility and experience involved. We estimate our fees for this audit engagement will be $10,000, exclusive of out-of-pocket expenses, subject to the terms and conditions above. We also will bill you for our reasonable out-of-pocket expenses related to this engagement. We will advise management should any other circumstances arise which may cause actual time to exceed that estimate.

Our fees will be billed as follows:

Date	Amount
September 10, 2002	$2,500
October 10, 2002	$2,500
November 10, 2002	$2,500
December 10, 2002	$2,500

Expenses will be billed on a monthly basis as incurred. Invoices rendered are due and payable upon receipt.

Other Matters

Any additional service(s) that you may request and we agree to provide will be the subject of separate written agreement(s).

As your independent accountant, it is expressly understood that we cannot perform services to maintain or prepare your basic accounting records, post transactions to financial records or other records that subsequently provide data to the financial records, process and post your payroll transactions, supervise your accounting and/or system personnel, design your system(s), make management decisions, or any other function that could result in the audit of our own work or provision of services that are significantly material to the subject matter of our audits.

We may be requested to make certain working papers or related documents available to the Secretary of Commerce, the Office of Inspector General, the U. S. General Accounting Office, or their representatives pursuant to authority given to them by law or regulation. If requested, access to such working papers and documents will be provided under the supervision of Joan M. Hayes, CPA, LLC personnel. Furthermore, upon request, we may provide copies of selected working papers to the above regulators. These parties may intend, or decide, to distribute the copies or information contained therein to others, including other governmental agencies.

In the event we are requested or authorized by you or required by government regulation, subpoena, or other legal process to produce our working papers or our personnel as witnesses with respect to our engagement for you, you will, so long as we are not a party to the proceeding in which the information is sought, reimburse us for our professional time and expenses, as well as the fees and expenses of our counsel, incurred in responding to such a request.

CASI agrees that it will not, directly or indirectly, agree to assign or transfer any claim against Joan M. Hayes, CPA, LLC arising out of this engagement to anyone.

This engagement letter reflects the entire agreement between us relating to the services covered by this letter. It replaces and supersedes any previous proposals, correspondence, and understandings, whether written or oral. The agreements of CASI and Joan M. Hayes, CPA, LLC contained in this engagement letter shall survive the completion or termination of this engagement.

Please sign this letter, as indicated below, to confirm our agreement. A copy will be provided for your records. Please do not hesitate to contact us if you have any questions or need additional information.

Very truly yours,

Joan M. Hayes, CPA, LLC

April 25, 2002

Dr. D. B. Karron, President
Computer Aided Surgery, Inc.
300 East 33rd Street
New York, NY 10016

Dear Dr. Karron:

We appreciate the opportunity to work with you and prepare the following federal, state, and city income tax returns and employment tax returns for your Subchapter S Corporation. This letter confirms the scope and related terms of our engagement.

Tax Compliance Services

We will perform the following services:

- We will prepare the federal, state, and city tax returns and supporting schedules for a Subchapter S Corporation, from data you provide, for your corporate tax years ended May 31, 1999, May 31, 2000, May 31, 2001, and May 31 2002.

- We will prepare the quarterly and annual federal and state employment tax returns, from data you provide, for the 2002 calendar year.

- We will not audit or independently verify the data you provide. However, we may ask for clarification of some of the information.

We will prepare the income tax returns, as referenced above, upon receipt of the required information from you. We strongly recommend that you provide this information to us, in the order of due dates from the oldest periods forward, as soon as possible to minimize any interest and penalties that may accrue.

Information for the quarterly and annual employment tax returns is to be provided to us at least 15 business days prior to the due date for each return.

Our engagement cannot be relied on to uncover errors in the underlying information incorporated in the tax returns, or irregularities, should any exist. However, we will inform you of any such matters that may come to our attention.

All returns are subject to examination by the taxing authorities. In the event of an examination, you may be requested to produce documents, records, or other evidence to substantiate the items of income and deductions shown on the income tax returns or compensation and related payroll taxes shown on the employment tax returns. In preparing your returns, we rely on your representations that you understand and have complied with the documentation requirements for your expenses and deductions and for your payroll reporting. If an examination occurs, we will be available, upon request, to assist or represent you. Such additional services are not included in our fee for preparation of your tax returns.

Since you are responsible for your income and employment tax returns, you should review them carefully before you sign and mail them. We should be contacted immediately if you have any questions or need additional information.

Tax Consulting Services

This engagement letter also covers tax consulting matters that may arise for which you seek our advice and consultation, and that are not the subject of a separate engagement letter. To be of greatest assistance to you, we should be advised in advance of proposed transactions. If such matters exceed the scope of this engagement letter, we will issue a separate engagement letter to confirm the scope and related terms of any additional engagement.

Fees

Our fees for this engagement will be based on the complexity of the issues, the level of services provided, and the time required to perform the services. Tax return preparation and other accounting services will be billed at $150 per hour. Fees for other related services will be calculated at rates between $50 and $100 per hour.

A retainer of $1,000 is due upon approval of this engagement letter and should be maintained throughout the engagement. Invoices will be rendered for individual services as completed and will be payable upon receipt.

Please sign this letter to confirm our agreement and return it to us. A copy will be provided for your records. Please do not hesitate to contact us if you have any questions or need additional information.

Very truly yours,

Joan M. Hayes

Computer Aided Surgery, Inc.
300 East 33rd Street
New York, NY 10016

Dear Dr. Karron:

The purpose of this letter is to confirm our understanding of the terms of our engagement regarding certain prior year employment tax reporting requirements of Computer Aided Surgery, Inc. (CASI).

Tax Compliance Services

We will perform the following services:

- We will contact the Internal Revenue Service, New York State Department of Taxation, New York State Department of Labor, State of New Jersey Department of Taxation, and State of New Jersey Department of Labor to determine the status of compliance with their employment related reporting requirements from 1998 through 2001.

- We will prepare the quarterly and annual federal and state employment tax returns, from data you provide, for any periods that are applicable based on the results of our communications with the regulatory agencies referred to above.

- We will not audit or independently verify the data you provide. However, we may ask for clarification of some of the information.

Our engagement cannot be relied on to uncover errors in the underlying information incorporated in the tax returns, or irregularities, should any exist. However, we will inform you of any such matters that may come to our attention.

All returns are subject to examination by the taxing authorities. In the event of an examination, you may be requested to produce documents, records, or other evidence to substantiate the items of compensation and related payroll taxes shown on the tax returns. In preparing your returns, we rely on your representations that you understand and have complied with the documentation requirements for your payroll reporting. If an examination occurs, we will be available, upon

request, to assist or represent you. Such additional services are not included in our fee for preparation of your returns.

Since you are responsible for your employment tax returns, you should review them carefully before you sign and mail them. We should be contacted immediately if you have any questions or need additional information.

Fees

Our fees for this engagement will be based on the complexity of the issues, the level of services provided, and the time required to perform the services. Tax return preparation and other accounting services will be billed at $150 per hour. Fees for other related services will be calculated at rates between $50 and $100 per hour.

A retainer of $1,000 is due upon approval of this engagement letter. Our invoice will rendered upon completion of the engagement and will be payable upon receipt.

Please sign this letter to confirm our agreement and return it to us. A copy will be provided for your records. Please do not hesitate to contact us if you have any questions or need additional information.

Very truly yours,

Re: Audit of the Schedule of Fund Sources and Project Costs for the year ended September 30, 2002
Attestation Examination of Management Assertions for the year ended September 30, 2002

Schedule of Fund Sources and Project Costs

We are providing this letter in connection with your audit of the program-specific financial statement of CASI LLC, formerly Computer Aided Surgery, Inc. ("CASI") for the year ended September 30, 2002 for the purpose of expressing an opinion as to whether such program-specific financial statement presents fairly, in all material respects, the results of operations of our ATP Program in conformity with the award requirements which is a comprehensive basis of accounting other than generally accepted accounting principles. We confirm that we are responsible for the fair presentation in the program-specific financial statement in conformity with the program-specific accounting principles referred to above.

Certain representations in this letter are described as being limited to those matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would have been changed or influenced by the omission or misstatement.

We confirm, to the best of our knowledge and belief, as of June 27, 2003, the date of your report, the following representations made to you during your audit:

1. The program-specific financial statements referred to above is fairly presented in conformity with the program-specific accounting principles referred to, and includes all disclosures necessary for such fair presentation and disclosures otherwise required to be included therein by the laws and regulations to which CASI is subject.

05476

2. We have made available to you all financial records and related data.

3. The financial records, including the electronic copy of our general ledger submitted for audit, are the only official copies of these documents.

4. Documents provided to you from our electronic filing system, Scansoft Visioneer PaperPort, are exact copies of the originals. It is the policy of CASI to scan all source documents and destroy originals which we consider non-archival. Documents are scanned at a high resolution to protect their integrity.

5. There have been no communications from regulatory agencies concerning noncompliance with or deficiencies in financial reporting practices, except for findings that resulted from the recent OIG audit, of which you are aware from the preliminary report that we provided.

6. There are no material transactions, agreements or accounts that have not been properly recorded in the accounting records underlying the program-specific financial statement.

7. There has been no:

   a. Fraud involving management or employees who have significant roles in CASI's internal control.

   b. Fraud involving others that could have a material effect on the program-specific financial statement.

      (We understand the term "fraud" to mean those matters described in Statement on Auditing Standards No.82.)

   c. Violations or possible violations of laws or regulations whose effects should be considered for disclosure in the program-specific financial statement.

8. The following, if material, have been properly recorded or disclosed in the program-specific financial statement or notes thereto:

   a. Related-party transactions, including sales, purchases, loans, transfers, leasing arrangements, and guarantees, and amounts receivable from or payable to related parties. (We understand the term "related party" to include those entities described in Statement on Auditing Standards No. 45, footnote 1.)

   b. Significant estimates and material concentrations known to management that are required to be disclosed in accordance with the AICPA's Statement of Position 94-6, *Disclosure of Certain Significant Risks and Uncertainties*. (Significant estimates are estimates at the financial statement date that could change materially within the next year. Concentrations refer to volumes of business, revenues, available sources of supply, or markets or geographic areas for which events could occur that would significantly disrupt normal finances within the next year.)

9. CASI has satisfactory title to all owned equipment, and there are no liens or encumbrances on such equipment. The only possible exceptions consist of equipment which has been received but only partially paid for.

10. CASI acknowledges limited areas of noncompliance with certain aspects of the cooperative agreement. However, these areas of noncompliance would not have a material effect on the program-specific financial statements. We have taken action to remedy any areas of non-compliance, that may exist, are effectively as possible. Furthermore, we have restructured our accounting policies to bring them into compliance with accounting standards and requirements of the NIST.

11. To the best of our knowledge, there is no pending litigation against CASI. A letter from our attorney to verify this statement cannot be provided because the two attorneys who formerly represented CASI have resigned, and at this time, CASI does not have legal representation.

To the best of our knowledge and belief, no events have occurred subsequent to the financial statement date and through the date of this letter that would require adjustment to or disclosure in the aforementioned program-specific financial statement.

Management Assertions

This letter is also being provided to acknowledge the following assumptions of management, for the year ended September 30, 2002, which were stated in your engagement letter and were examined by you for the purpose of expressing an opinion as to whether such management assertions are fairly stated in all material respects:

1. The cost-share established by the budget in the ATP award has been met. The funds claimed as cost-share are not from a subcontractor or other federal sources and were not used as matching or cost-sharing funds on other federally supported activities. The funds claimed as cost-share meet the definition provided in 15 CFR Part 14, Section 23 and conform to the limitations in 15 CFR Part 295.2(1).

2. Equipment acquired with the ATP funds has been accounted for in accordance with federal property management standards found in 15 CFR Part 14 Sections 30-37.

3. Federal procurement standards described in 15 CFR Part 14 Sections 40-48 have been incorporated into the purchasing policies and adhered to for ATP award expenditures. Contracts and sub awards have not been made to any organizations or its principles listed in the *List of Parties Excluded from Federal Procurement or Nonprocurement Programs*, issued by General Service Administration.

4. The amounts in the quarterly financial status reports and the requests for advance or reimbursement agree with the underlying accounting records and summary records.

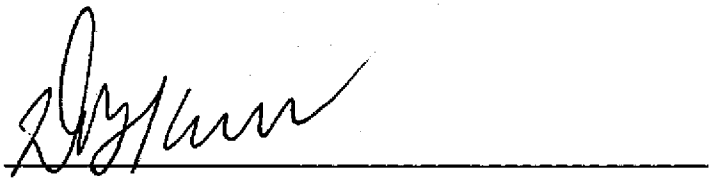
5. The agreements entered into with subcontractors/subrecipients require that the subcontractors/subrecipients adhere to federal laws and regulations as specified by the ATP award, and sanctions are specified for the subcontractor's/subrecipient's noncompliance.

We are aware of areas of non-compliance with the above stated assertions, and we have taken corrective action to come into effective substantiantial compliance.

Audit Reports

We have requested that you submit copies of our audited reports, on our behalf, directly to Ms. Marilyn Goldlstein at NIST and Ms. Belinda Riley at the U. S. Department of Commerce Office of Inspector General.

Very truly yours,



Dr. D. B. Karron, Managing Member

AUDIT PLANNING

ENGAGEMENT ACCEPTANCE FORM

05481

CX-1: Engagement Acceptance Form

Company: Computer Aided Surgery Inc (CASI) Balance Sheet Date: 9/30/02

Completed by: JW Date: _____

Instructions: This form should be completed for all potential audit clients. See section 101. The form is a guide for assessing potential clients, but it is not necessarily a complete listing of all factors that might be considered. Specific circumstances may require additional considerations. Although this form should be prepared before the initial engagement, assessment of these factors continues throughout the engagement. At least annually the firm should evaluate whether to continue auditing the client's financial statements. AP-1a, "General Planning Procedures," includes steps for documenting the continuance decision. If desired, this form, or the optional "Engagement Continuance Form" at CX-1a, can be used to identify issues that should be considered when making that decision. If this form is used to assess continuance at AP-1a, refer to the "List of Substantive Changes" included with each annual supplement of the *Guide* to determine if the form has been revised in the current edition. Information gathered during engagement acceptance/continuance procedures that may be relevant to identifying risks of material misstatement due to fraud should be carried forward to the "Information Gathered" column of the Fraud Risk Table in Part 1 of CX-5, "Fraud Risk Assessment Form," for further consideration.

A. GENERAL INFORMATION

1. Company address: 300 East 33 St #4N
   NYC NY 10016
2. Telephone number: 212-686-8748 Fax No: _____
   E-mail address(es): _____
3. Client key accounting personnel (name and title): DR. D.B. KARRON
   President
4. Client owner/manager or key management officer (name and title): same
5. Type of legal entity: Corporation
6. How was initial contact made (specify) _____
   a. Firm personnel? _____
   b. Outside referral? _____
   c. Other (specify)? client of acquired CPA practice
7. Describe the range of the company's activities and operations (include any specialized industries or

any activities requiring specialized technical audit skills or personnel such as significant accounting applications processed by computer): _____

development of medical revenue software

8. Describe any specialized accounting practices or principles applicable to the industry in which the company operates: _____

accounting req'd by ATP award including FARS 31 cost principles

9. Describe any special regulatory or reporting requirements that apply to the company: _____

reporting as req'd by ATP award

	Yes	No	N/A	Comments
10. Have there been recent changes in management, ownership, financial condition, litigation status, the entity's operations, or the industry in which it operates that create additional risk?		✓		
11. What services does the company desire of our firm:				
a. Audit of financial statements? (program - specific)	✓			
b. Application of procedures to additional information accompanying audited financial statements? (Specify.) _____				
c. Preparation of tax returns? (Specify.) _____	✓			
d. Other? (Specify.) _____				
12. Will the engagement require a principal and other auditors?			✓	
a. If yes, will our participation in the audit be sufficient to allow us to serve as the principal auditor?			✓	

Practical Consideration:

- *In deciding whether our firm should serve as the principal auditor, consider, among other things, the materiality of the portion of the financial statements to be audited by our firm in comparison with the portion to be audited by other auditors, our extent of knowledge of the overall financial statements, and the importance of the components to be audited by our firm in relation to the enterprise as a whole. If the conclusion is that our firm cannot serve as principal auditor, notify the client.*

B. MANAGEMENT INTEGRITY (Explain any "Yes" answers.)

1. Has consultation with the predecessor auditor, when appropriate, including the predecessor's understanding of the reason for the change in auditors, raised any concerns about			✓	initial audit

	Yes	No	N/A	Comments
management's integrity such as:				
a. Has the predecessor had disputes with the client about accounting principles, proposed adjustments, or other significant matters?				
b. Has the predecessor been prevented from applying necessary procedures?				
c. Does the predecessor auditor have reason to doubt management's integrity?				
d. Have other auditors refused to serve this client?				
e. Are there unpaid fees to the predecessor for services rendered?				
f. Are there any fee disputes with the predecessor auditor?				
g. Has management or the owner/manager been domineering in dealing with the predecessor auditor?				
h. Has management or the owner/manager placed unreasonable demands (such as unreasonable time constraints on the completion of the audit) on the predecessor auditor?				
i. Has the predecessor had any communications with the client regarding fraud, illegal acts, or internal control related matters?				
Document the predecessor's understanding as to the reasons for a change in auditors and any additional comments based on inquiries of the predecessor auditor: _____ _____ _____				
2. Have contacts and discussion with bankers, attorneys, credit services, and others having business relationships with the client raised concerns about management's integrity?		✓		
3. Has information come to our attention by other means (e.g., press reports, IRS investigations, legal proceedings, etc.) that calls into question management's integrity?		✓		
4. If the firm's policy is to obtain a background investigation on potential clients, have the results of the investigation raised any concerns about management's integrity?			✓	
5. Is the company having difficulty meeting financial obligations or have operations deteriorated significantly?	✓	award is the only source of income to business owners		
6. Is management prone to taking unreasonable or unnecessary business risks?	Cannot determine			
7. Has there been a high degree of turnover in key management positions?		✓		
8. Is management expecting achievement of a specific result (i.e., obtaining a loan, use of a particular accounting treatment, etc.) as a condition of the engagement?		✓		
Practical Consideration:				

	Yes	No	N/A	Comments
are used, are the numbers accounted for or the totals reconciled at various processing stages?			✓	
4. Are records maintained of physical quantities that are matched with accounting records? For example:				
a. Are records maintained of goods received and subsequently traced to amounts recorded as purchase transactions?		✓		
b. Are records maintained of goods shipped and subsequently traced to amounts recorded as sales transactions?			✓	
5. Are records maintained of open items, e.g., purchase orders, and are unmatched items reviewed on a regular basis to determine the reasons for any such items that have not been matched within a reasonable period of time?		✓		

F. INDEPENDENCE (Explain any "Yes" answers.)

If the conclusion is that the firm lacks independence, the client should be notified that the firm cannot be engaged to perform the audit. According to Article 4 of the AICPA *Code of Professional Conduct*, independence precludes relationships that may appear to impair objectivity, and auditors should be independent in both fact and appearance. The authors believe that independence assumes objectivity. Consequently, objectivity is not referred to separately in this section.

1. Do any firm personnel have a direct or material indirect financial interest in the company?		✓		
Practical Considerations: • *Under the AICPA's engagement team approach to independence, auditors may be able to structure the engagement team so that independence is not impaired.* • *A client list should be routinely circulated to firm personnel to provide a basis for answering the above question, or firm personnel should be requested to identify financial interests. See* PPC's Guide to Quality Control *for procedures necessary to comply with the AICPA Statements on Quality Control Standards and an example independence questionnaire.*				
2. Are any firm personnel associated with the company in any of the following capacities:				
a. Employee, manager?		✓		
b. Member of board of directors or similar capacity?		✓		
c. Other? (Specify.) _____		✓		
3. Are there any relationships with the client or conflicts of interest that might impair independence?		✓		
a. Advocacy relationships?		✓		

	Yes	No	N/A	Comments
a. Adversary relationships?				
b. Fee disputes or unpaid (billed or unbilled) fees for services provided more than one year prior to the date of the report?		✓		
c. Litigation?		✓		
d. Conflicts with the interests of existing clients that may arise if this engagement is accepted?		✓		
e. Other? (Specify.) _____			✓	
4. Are there indications that the client will refuse to or be unable to accept responsibility for the financial statements?		✓		
a. Does management lack sufficient knowledge of the company's activities and financial condition and applicable accounting principles to accept such responsibility?		✓		
b. Does management lack sufficient understanding of accounting matters to assume responsibility for fairness of valuation and presentation and adequacy of disclosure?		✓		
5. Does the firm perform, or do the terms of the new engagement require the firm to perform, other (nonattest) services that impair independence?		✓		
Practical Consideration: • *Other (nonattest) services are discussed beginning at paragraph 101.22 and in* PPC's Guide to Quality Control.			✓	
6. Does the client lack accounting control over data, if any, processed by us?			✓	
7. If staff members from another firm that is not independent of the client are to participate in the engagement, are we unable to arrange for proper supervision of their work?			✓	
G. Has our review of the latest annual and interim financial statements, auditor's reports and other auditor communications, if any, or any other circumstances of which we are aware, provided information that would cause us to regard the engagement as requiring special attention or presenting unusual risks or that would cause us not to want to be associated with the client? (Specify.) _____			✓	
H. Is the company involved in, or being threatened with, any significant litigation?		✓		
I. COST/BENEFIT OF PROSPECTIVE ENGAGEMENT (Explain any "Yes" answers.)				
1. Does the prospective client:				
a. Frequently change auditors?		✓		
b. Have a propensity for litigation?		✓		
c. Operate in a regulated industry?		✓		
d. Engage in significant related party transactions?				

	Yes	No	N/A	Comments
d. Engage in significant related party transactions?	① ✓			① CASI is a closely-held entity
e. Operate in an industry with a high failure rate?	② ✓			② the ATP awarded project is a high-risk scientific project.
f. Have a history of being slow to pay professional fees?		✓		
g. Require professional competence (expertise) that the firm does not have and cannot reasonably obtain?		✓		
2. Does the prospective client lack the ability to pay for services in accordance with the firm's normal billing rates and policies?		✓		
3. Does the prospective fee fail to justify pursuing this engagement in light of anticipated costs of obtaining and conducting the engagement?		✓		
4. Is management aware of any instances of fraud or illegal acts or any allegations of fraud?		✓		
5. Do the size and other characteristics of the prospective client indicate that the engagement cannot be accomplished in accordance with professional and firm standards with adequate profitability?		✓		
6. Does management lack a clear understanding of the type of service being requested, and whether that level of service will be adequate to meet their expectations?		✓		
7. Does the firm lack a clear understanding of the services to be performed and of how the work product will be used?		✓		

Other comments and notes: _____

Acceptance: (Some firms require concurrence with the acceptance decision by the managing partner, another designated partner, or a policy making committee.)

We should accept ✓ or not accept _____ the engagement.

FRAUD RISK ASSESSMENT

05488

CASI
Program-Specific Audit and Attestation
ATP Cooperative Agreement Award # 70NANB1H3050
For the Year Ended September 30, 2002

JW

Fraud Risk Assessment

1) Observations

2) Inquiries

3) Summary

Observations

CASI has a significant amount of equipment & valuable internal information

Risk: misappropriation of equipment
" " intellectual capital

CASI management performs and frequently overrides income / expense transactions, and checks require only one signature

Risk: misappropriation of funds

ATP award is the only source of income to CASI and its significant owner, and award agreement does not require substantiation of expenses before funding is provided.

Risk: misappropriation of funds

Inquiries

Mr D. B. Karron (President)

has no knowledge of improprieties & has trust in his employees.

backs up data periodically to prevent loss, but does not store back-up off site

has equipment tagged to identify ownership

frequently overrides transactions due to his lack of understanding of accounting and "over-confidence" in bank reports

has difficulty retaining accounting professionals

did not have written procedures

was very enthusiastic regarding the completion of the project and marketing of the product under development

appeared willing to make changes needed in the control environment

Inquiries

Lee Gurfein (Business Manager)

expressed very strong feelings regarding Dr. Farris' "excessive" spending of equipment and other "non-essential" items and his inability to control the business aspects of the project without multiple bank signatory requirements

expressed similar feelings regarding Dr. Farris' use of funds for personal and CASI expenses.

Observation: Lee was not able to ~~timely~~ prepare complete award-mandated reports & budgets due to his inability to access & acquire data from the general ledger system

Inquiries

Jim Cook (Programmer)

Jim expressed regard for Mr Karron's knowledge in the project area.

Matt Richman (Programmer)

Matt expressed regard for Mr Karron's knowledge in the project area.

Inquiries

Nicky Tryster (Admin. Asst / Bookkeeper)

Nicky frequently expressed concern regarding Mr. Farron's: (1) constant overriding (after hours) of her work, including business transactions in the general ledger

(2) a complex electronic storage system which req'd multiple entry / retention of the same documents

(3) cashing of salary checks without making agreed-upon payments to reimburse salary draws

Inquiries

Frank Spring (Bookkeeper)

Frank expressed concern regarding:

(1) a very complex & incoherent chart of accounts and general ledger

(2) "excessive" expenditures that appeared to exceed income & could result in the inability to complete project tasks

(3) use of project funds for personal & non-project expenses of Mr. Faron & CASI

Summary of Fraud / Control Risks

management override of transactions

misappropriation of equipment
" " intellectual capital
" " funds

INTERNAL CONTROL QUESTIONNAIRE

05497

CX-20: Internal Control Questionnaire (Internal Control—Control Activities Form)

Instructions

This questionnaire is designed to assist you in obtaining a *further* understanding of control procedures for the audit areas where you have determined that it would be beneficial (as documented at Step 40 of CX-3, "Audit Planning Form"). You should be familiar with section 1601 of this *Guide* before completing this form.

1. For each audit/control area you selected in Step 41 of CX-3, complete the corresponding section of this questionnaire. Section CX-20m can be completed for any audit area in which the client relies on programmed application controls. A separate Form CX-20m should be completed for each relevant application.

2. Within each individual section, the auditor should answer each question—yes (Y), no (N), or not applicable (N/A). Space is provided for a concise comment on each question. Appropriate comments would include: the identity of the employee who performs the procedures for "yes" answers; description or reference to compensating procedures for "no" answers; or a summary of the importance of the client's lack of particular procedures. Note that, because the listing of control procedures is relatively extensive, not all procedures may be necessary in particular circumstances, or the client may have other compensating control procedures. The comments section may be used to describe these circumstances.

3. After completing this questionnaire—

   a. Document in a memo any changes in the audit plan based on your further understanding of control activities, and consider at Step 10 of AP-1a whether the nature, timing, and extent of auditing procedures reflected in the audit programs have been appropriately modified.
   b. Complete a CX-15, "Test of Controls Form," if you plan to test controls.
   (**Note:** Make sure your documentation at Step 41 of CX-3 is consistent with this decision.)

4. This questionnaire is designed to be completed once and updated in subsequent audits. Before updating this form each year, refer to the "List of Substantive Changes" included with each annual supplement of this *Guide* to determine if the form has been revised in the current edition.

CX-20a: Cash (Balances, Receipts, and Disbursements)

Company: _____ Balance Sheet Date: _____

Instructions: See separate instructions at CX-20.

CONTROL OBJECTIVES

1. Cash receipts are recorded accurately as to account, amount, and period.
2. Cash disbursements are recorded accurately as to account, amount, and period.
3. Cash disbursements are made for authorized and received goods and services.

COMMON CONTROL PROCEDURES

	Yes	No	N/A	Comments
Separation of Incompatible Duties and Restricted Access				
1. Check signing:				
a. Are checks signed when needed (that is, not signed in advance)?	✓			
b. Are checks signed by authorized signers?	✓			(1)
c. Is counter-signature required for amounts over a predetermined cutoff?		✓		Purchases payments are made without adequate consideration of cash flows or budget constraints
d. Are checks not returned to the preparer after signing?	✓			
e. If mechanical check signers and signature plates are used, are they kept under the control of the owner/manager or other appropriate person who is independent of the initiator of purchases, approver of purchases, receiving, shipping, preparer of checks, cash receipts, accounts payable, and cash bookkeeping?			✓	
2. Is check signing independent of the initiator of purchases, approver of purchases, receiving, shipping, preparer of checks, cash receipts, accounts payable, and cash bookkeeping?		✓	✓	not practical due to size of organization
3. Is mail opened and a list of daily receipts prepared independent of the cashier and accounts receivable bookkeeping?			✓	
4. Are cash receipts deposited intact and promptly or stored in a secure location?			✓	C/R are secured
5. Are cash funds on hand stored in a secure location and kept independent of mail receipts?			✓	

	Yes	No	N/A	Comments
6. Are complaints on customer statements investigated by an employee who is independent of the preparer of the daily cash receipts list, cashier, and accounts receivable bookkeeper?			✓	
7. Is handling cash independent of sources of noncash credits to accounts receivable and accounts receivable bookkeeping?			✓	
8. Are bank accounts and check signers authorized by the board of directors or owner/manager?	✓			
9. Is adequate employee fidelity bond insurance maintained?			✓	
10. Does the company use a lockbox?			✓	
11. Are checks payable to cash or bearer prohibited?			✓	no indication of such checks
12. Are there adequate controls over non-check disbursements such as debit memos and wire transfers (for example, passwords for individuals authorized to make transfers, bank callback verifications for telephone transfers exceeding a predetermined dollar amount, etc.)?	✓			
13. Are employees with cash disbursement and bank reconciliation duties required to take vacations, and are other employees required to perform those functions when an employee is absent?		✓	✓	N/A due to age & frequent turnover noted
14. Is access to computerized cash receipts and disbursements records limited to those with a logical need for such access?	✓			
Recording				
15. Documents:				
a. Are all disbursements made by check, ~~except for small payments from petty cash~~?	✓			
b. Are checks prenumbered, is the sequence regularly accounted for, and are unissued checks controlled and kept in a secure location?	✓			
c. Are purchasing documents (purchase order, receiving reports, etc.) prenumbered, is the sequence accounted for, and are unissued forms controlled?		✓		(2) purchasing documents were not effectively used
d. Are voided checks and other voided documents canceled and retained? Voided checks were shredded, as were other documents. Lists of missing checks could be downloaded from Quick Books if		✓	✓	see narrative
16. Reconciliations and reviews:				
a. Are bank accounts reconciled by a person who is independent of the cash receipts and disbursements functions?		✓		
b. Are bank accounts reconciled regularly and reconciliations reviewed by the owner/manager or another appropriate person?	✓	✓		(3) person who posts transactions also reconciles cash
c. Are stale checks followed up on periodically by a person who is independent of accounts payable and cash disbursements functions?			✓	
d. Is the list of daily cash receipts compared to postings to customer accounts and deposits by a person independent of the cash receipts and accounts receivable functions?			✓	

	Yes	No	N/A	Comments
e. Are cash disbursement records matched against accounts payable/open invoice files?	✓			
f. Does the owner/manager or another appropriate person periodically compare actual cash receipts and disbursements to budgeted cash receipts and disbursements and follow up on significant variances?		✓		Reg'd budgets (4) were not properly monitored
17. Other checking or processing routines:				
a. Are checks prepared only after proper matching of supporting documentation (vendor's invoice, receiving report, purchase order, etc.)?	✓			
b. Is supporting documentation canceled when the check is prepared and marked with the check number?	✓			
c. Is the clerical accuracy of documents supporting disbursements (e.g., vendor invoice, etc.) checked?	✓			
d. Does the check signer review all supporting documentation?	✓			
e. Are restricted endorsements (e.g., For Deposit Only) placed on check remittances upon receipt?			✓	all C/R were voided from DOC
f. Is the control total of receipts prepared and subsequently compared to the deposit slip and/or cash receipt entries?			✓	
g. Are cash receipts and checks promptly and accurately recorded upon issuance?	✓			
h. Is a corporate imprest payroll bank account utilized?		✓	✓	N/A due to size of company
i. Are cash receipts and disbursements periodically reviewed by the owner/manager or other appropriate person?	✓			(5) owner frequently prepares data comparisons making use ledger sufficient to reconcile
j. Are adjustments of cash accounts approved by the owner/manager or other appropriate person?	✓			
k. Are there adequate procedures for approving and recording interbank transfers?		✓		
l. Is a mechanical check protector used to inscribe checks so that alteration of amounts or payees might be more easily detected?	✓			
18. If "over the counter" receipts are significant—				
a. Are prenumbered receipts or cash registers effectively utilized and controlled?			✓	
b. Are the following functions performed by a responsible person other than a cash register operator (cashier):				
(1) Maintaining custody of the key to the cash register tape compartment?				
(2) Taking periodic readings of the register and comparing the readings with the contents of the cash register?				
c. Are daily cash register reconciliation forms used, a copy of the daily closeout tape attached to the form, and tape totals				

	Yes	No	N/A	Comments
control account and perpetual records reviewed by the owner/manager or other appropriate person?				
k. Does the owner/manager or other appropriate person periodically assess whether excess, slow-moving, obsolete, and defective inventory items are identified and accounted for on a timely basis?				
l. Are there periodic reviews by the owner/manager or another appropriate person of the application of materials, labor, and overhead to work-in-process and finished goods inventories for accuracy and consistency?				
m. Are reconciling amounts on reconciliations between extended counts and general ledger control accounts properly disposed of?				
n. Does the owner/manager or another appropriate person review and approve adjustments to inventory control accounts and/or perpetual records?				

Completed or updated by: (Refer to CX-20 for instructions on updating this form.)

Separation of Incompatible Duties and Restricted Access				
1. Are persons preparing payroll independent of other payroll and personnel duties (e.g., timekeeping, distribution of checks, and hiring employees) and restricted from access to other payroll data or cash?		✓	✓	N/A - size of company.
2. Are responsibilities for payroll accounting separated from the general ledger function?		✓	✓	
3. Is there restricted access to:				
– Blank payroll checks?	✓			
– Facsimile signature plates (if used)?			✓	
– Personnel records?		✓	→	Payroll records (6) are scanned with access to most employees → N/A due to size of company - turnover rate
4. Are employees with payroll responsibilities required to take vacations, and are other employees required to perform those functions when an employee is absent?		✓	✓	
5. Is access to computerized payroll records limited to those with a logical need for such access?	✓			
Recording				
6. Documents:				
Are prenumbered payroll checks used, the sequence accounted for, and unissued checks controlled?	✓			
7. Reconciliations and reviews:				
a. Are the payroll registers and the general ledger reconciled to gross and net pay amounts per the payroll tax returns?	✓	→		by auditor for audit purposes (7)
b. Is there a year end reconciliation of total W-2 wages (including taxable fringe benefits) to the general ledger and payroll register wages paid?	✓	→		
c. Is there a periodic general review of payroll registers by the owner/manager or other appropriate person?		✓		
d. Are totals of payroll registers footed and agreed to amounts recorded in the general ledger?		✓		all reconciled
e. Does the owner/manager or other appropriate person review reconciliations between payroll registers and general ledger control accounts?		✓		
f. Does the owner/manager or other appropriate person periodically compare actual to budgeted payroll and investigate and document significant variances?		✓		
g. Are detail records maintained of the liability for compensated absences and are they regularly reconciled to the control account?		✓		
8. Other checking or processing routines:				

	Yes	No	N/A	Comments
a. Are there adequate authorization, approval, and documentation procedures regarding changes in employment (additions and terminations); in salary and wage rates; and in amounts of payroll deductions?		✓		no termination records nor COBRA letters (8)
b. Are there adequate authorization and approval procedures regarding vacation, holiday, and sick leave compensation?		✓		rules kept changing (9)
c. Are notices of changes in personnel data reported promptly to the payroll accounting function and recorded promptly in a payroll database?	✓			
d. Are there adequate timekeeping and attendance records and procedures (e.g., time cards and time clocks are properly controlled and approved)?		✓		timesheets were not properly used, signed, approved (10)
e. Does the owner/manager or other appropriate person compare current payrolls with previous payrolls and investigate and document significant variances?	✓			
f. Before disbursement, are payroll transactions reviewed and approved to ensure that:				
– Payroll transactions are for authorized employees?	✓			
– Payroll transactions are supported by time records?	✓			
– Authorized pay rates are used?	✓			
– Gross pay, deductions, and net pay are accurate?		✓	✓	N/A [illegible] to emp
– Paychecks agree with payroll registers?	✓			
g. Is a corporate imprest payroll bank account utilized?		✓	✓	N/A [illegible] to emp
h. Are deposits to the payroll bank account compared with the payroll register?			✓	
i. Is payment of wages in cash prohibited, except in prescribed circumstances?	✓			
j. Are unclaimed payroll checks properly controlled initially (i.e., listing of checks) and at the time of their subsequent distribution (i.e., evidence of employment and other identification required and signatures obtained)?			✓	
k. Are procedures in place to ensure that payroll taxes are paid in a timely manner and that payroll tax returns are filed when due?	✓			
l. Are procedures in place to ensure that other withholdings, such as 401(k) and cafeteria plan withholdings, are remitted in a timely manner?			✓	
m. Are there procedures for preparing, mailing, and investigating subsequently returned W-2s and related forms?			✓	outsourced
n. Are procedures in place to ensure year end W-2 forms are prepared accurately and that all taxable fringe benefits are included?			✓	

	Yes	No	N/A	Comments
o. Are personnel files checked to determine that withholding forms and authorizations for payroll deductions exist?				during audit
p. Are monthly payroll-related accruals reviewed for completeness and reasonableness by the owner/manager or other appropriate person?			✓	
q. Are employee benefit matters monitored by individuals who are knowledgeable of the applicable legal, regulatory, actuarial, and accounting requirements?		✓		
r. Are postemployment and postretirement benefit accruals reviewed by a knowledgeable individual to ensure they are accurate and properly recorded?			✓	
s. Are there adequate records and procedures for determining production-based compensation (for example, is measurement of work units controlled and approved)?			✓	
t. Are sales commissions reconciled with sales records?			✓	
u. If payroll is processed by an outside service organization, are controls in place to ensure that:			✓	outsourced after audit period
– Time records submitted for processing are complete and accurate and appropriate control totals are maintained for subsequent reconciliation to payroll registers?			✓	
– All other payroll information provided to the service organization (pay rates, withholdings, etc.) is authorized, and all authorized information is communicated?			✓	
– Payroll registers produced by the service organization are reviewed, reconciled to control totals, and approved by the owner/manager or other appropriate person?			✓	
– Total of paychecks and/or direct deposits agrees with payroll registers?			✓

CX-20I: Computer Controls Questionnaire—General Controls

Company: _____ Balance Sheet Date: _____

Instructions: This questionnaire is designed to assist in obtaining a further understanding of general computer controls for either an in-house system or computer service organization. However, completion of this questionnaire is unnecessary for service centers if there is a suitable service auditor's report on the service organization's internal controls. Paragraph 1703.6 and following discuss when a further understanding of general computer controls might be needed. The auditor should consider whether specialized skills are needed to complete this questionnaire. (See Step 44 at CX-3.)

Due to the highly technical environment and work performed (medical research & software development) IT review was beyond the scope of the audit. The specific govt requirements of the ATP/NIST grant will be included in substantive testing of input assertions

To: 'Joan M. Hayes'; 'Bob Benedict'

Subject: RE: new procedures

Ve need allowances for
) I am on the road a lot and approvals can be given by e-mail if required; cc'ed to Bob I will give Bob countermand authority if he elieves there is a misunderstanding.
2) Bob is traveling a lot; approvals can be given by Bob to Frank directly however I reserve the right to countermand them if there is misunderstanding.\
3) submission of invoices and receipts by e-mail is allowed; paper is to follow.
3.1) certain regular vendors can be managed by website/e-mail, specifically,
Oxford, Verizon, American Express, con Edison, Con Edison solutions, sprint, RCN, etc. etc.
We can discuss that in detail later, but at some point, it needs to be done.
Insurance billing is still payable even if the bill is not posted; we need to allow for that.
4) when I am on the road I will e-mail receipts to Frank for posting. Frank can print things out if needed.
4.1) bills and account payable should be e-mailed with copies of the bills attached. This is to prevent Bob or myself from pproving things blindly.
Any payment decision should have full support appended both in paper for paper presentment or e-mail presentment.
NO GUESSING AT ANY TIME/POINT in the PROCESS.
5) Frank should be courteous and not upset vendors when they call regarding payment and reconciliation of balances.
We have an emergency problem with Webworqs cutting us off Friday. I promised her full payment by the end of next week.

6) We should stop using the burgundy CASI INC NIST account as we are running out of checks and I don't want to order more. I ave to shut down the account
and it does not pay to keep the accounts alive; they cost just to keep open especially with low/zero balances.

Co-Payment:
I need a statement of the co-payment due through now, less in-kind.
I will borrow the cash next week and deposit it into CASI LLC which will forward the money to CASI NIST.
From that money I want to pay off SGI, Silicon City.
I need a budget for the rest of the year that is for real. The budget Bob just sent is no good.

Dis-allowed.
The copay should be for total allowed costs to date;
Making up Disallowed is another matter. If I understand things from Bob, co-pay is more important than disallowed.
As such, the money I put in last year should be re-classified as co-pay and NOT refund disallowed. This is my second request.
the money "put in" was from federal funds

Belinda Certification of CASI Business Procedures:
My impression is that she is not going to certify things; based on Frank's errors, the difficulty he is having recreating a balanced ew first year ledger, and the controversy concerning the classification of some marginal costs. Finally, Fink is making far too many dgment calls he should not, and making far too many outright errors in clear calls as to which vendor is paid how from what. Bob as a stack of checks in error to fix as well as invoices from Webworqs that need to be rushed through. We need Frank to appear to e supported by Bob; We also have to be careful that Belinda does not disallow Ken and Frank's invoices based on their being xcessive and that NIST is not going to pay for error correction time; blab blab.

More later. Just back from all day with my mom cleaning her house....

To: Dr. D.B. Karron; Bob Benedict
Subject: new procedures

I would like to clarify our discussion, on Friday, related to the implementation of procedures.

Observation:
I have observed, over time, many bookkeepers who have an excellent knowledge of QuickBooks and perform proper bank statement reconciliations to support the cash transactions do not have the same level of knowledge related to balance sheet accounts. In addition, the outsourcing of payroll usually results in a cost-effective solution, so many bookkeepers do not develop a payroll practice. The unique manner in which QuickBooks handles payroll transactions can be confusing. The user-friendly functionality of QuickBooks simplifies income statement accounting while it does not enable an on-the-job learning of balance sheet accounts. Even with its limitations, QuickBooks is an affordable general ledger package which is widely used by small businesses, and I think it is reasonable to conclude that the benefits exceed the costs.

CASI Ledgers:
In my opinion, the Jackson Group has done an excellent job in preparing the project year one ledger for audit and in responding to the audit requests. I recommended the establishment of separate ledgers from the beginning of project year two, and I understand the reasons for the decision to establish separate ledgers starting with project year one. However, in my discussions with you prior to the development of these ledgers, I pointed out the need for management to be prepared to assist/train Frank with the proper recording of balance sheet and payroll items, as they relate to CASI. In the new CASI accounting environment, the balance sheet is very simple, so this should not be an extensive task. For the most part, the balance sheet accounts that are now needed result from the use of NIST funds to pay disallowed expenses, including CASI expenses, and this situation is not expected to continue going forward. However, the handling of these transfers between ledgers, and the use of appropriate balance sheet accounts in these entries, is very important.

The reconciliation of new ledger balances, which is currently underway, has become an extensive undertaking due to the condition of the old ledger. An extremely complicated old ledger, with multiple transactions that were not posted in an appropriate (according to the generally accepted rules of accounting) manner and an enormous number of changes to transactions, has resulted in the situation now at hand. In my opinion, this supports the need for the new ledgers which are now being created and for the need to maintain these ledgers in an appropriate manner going forward. The cost of this endeavor is primarily the result of the condition of the old ledger.

Implementation of Procedures:
I recommend that the new procedures continue to be implemented in the following order of priority:

1. The new procedures should continue to be implemented as the top priority. Frank should be provided with the documents required to fulfill his responsibilities, as described in the procedures, in a timely manner. Frank should be provided with written approval to pay bills (such as initials on the bills or the accounts payable report) in a timely manner. Proper balance sheet accounts should be established on the new ledgers and their use should be explained to Frank by management during the reconciliation period. A method of communication, that is reasonable and efficient to the interested parties, should be established, so Frank can receive timely responses to his questions and concerns. Management should closely monitor all aspects of the process.
2. Once the procedures are "up and running", the process should be continue to be monitored by management until it is stabilized over a period of time.
3. At that point, if management deems it necessary, it may be appropriate to discuss additional training/educational that may enhance Frank's tasks. This may also be an appropriate time to discuss any changes in the billing structure (such as job billing vs. hourly billing). However, at this point, the benefits to be acquired from a proper accounting system should be evident in the billings due to the much reduced time the posting and reconciling of transactions will take.

In summary, the full implementation of the new procedures (# 1 above) is critical and should be completed as a top priority. Anything that could impede this project, including additional enhancements (# 3 above) which could impede the project if suggested at this time, should be considered after the new procedures have been fully implemented and the environment has been stabilized.

Please let me know if you have any comments or suggestions or would like to further discuss any of the items herein.

Thank you.

Chapter 1. General Guidance

Audit Requirements: The Advanced Technology Program (ATP) is a cost-sharing program designed to assist United States industry and businesses pursue high risk, enabling technologies with significant commercial and economic potential. The statutory authority for ATP, 15 USC Sec. 278n, requires that NIST establish procedures regarding financial reporting and auditing to ensure that cooperative agreements are used for their specified purposes. Pursuant to the Inspector General Act of 1978, as amended, 5 USC App., all audits of financial assistance are to be performed in accordance with Government Auditing Standards issued by the Comptroller General of the United States. These audit requirements can be met by conducting an audit of the ATP financial statement, "Schedule of Fund Sources and Project Costs" and an

FIP

05519

examination-level attestation engagement of management's assertions regarding compliance with laws and regulations.

The ATP financial statement will be audited using generally accepted auditing standards which have been incorporated into the Government Auditing Standards. The examination-level compliance attestation engagement will be conducted in accordance with Government Auditing Standards and the standards contained in the Statement on Standards for Attestation Engagement (SSAE) No. 3, *Compliance Attestation,* as amended by SSAE No. 9, *Statement of Standards for Attestation Engagement Nos. 1, 2, and 3*, issued by the American Institute of Certified Public Accountants (AICPA). A compliance attestation engagement, conducted in accordance with SSAE No. 3, as amended, is a type of financial-related audit under Government Auditing Standards.

These guidelines are to be used by independent auditors to perform the required program-specific audits of ATP recipients except when ATP recipients are required to comply with the Single Audit Act of 1996 and Office of Management and Budget (OMB) Circular A-133, *"Audits of States, Local Governments and Non-Profit Organizations."* For recipients required to have annual audits in compliance with OMB Circular A-133, these guidelines can be used to identify the allowability of specific cost elements and other programmatic compliance requirements which may be tested.

These guidelines are not intended to be a complete manual of procedures, nor are they intended to supplant the auditor's judgment of the work required to meet the audit's objectives. These guidelines may not cover all circumstances encountered while performing the program-specific audit, similarly not all procedures will apply to every situation. Auditors must use their professional judgment in determining the work necessary to render the required opinions.

Different guidelines will be used by single companies from those used by joint venture participants because of differing requirements for each of these types of award recipients. A single company is defined by NIST as a small, medium, or large for-profit company. A single company can receive up to $2 million of ATP funds over a period not to exceed three (3) years.

ATP funds may only be used to pay for direct costs for single company recipients. Single company recipients are responsible for funding all of their overhead or indirect costs.

Small and medium size single companies are not required to provide a cost-share of direct costs, however, they may pay a portion of the direct costs in addition to paying for all the indirect costs allocated to the award. Large companies must cost-share at least 60 percent of the yearly total project costs (direct and indirect costs). A large company is defined as any business, including any parent company plus related subsidiaries, having annual revenues in excess of $2.721 billion. (Note that the revenue requirement for defining a large company will likely change annually as reflected in the ATP Proposal Kit). As with small and medium sized companies, ATP funds can only be used to pay for direct costs. However, large companies may use their overhead/indirect costs allocated to the project to meet their cost-share requirement.

All federal programs are assigned a number in the Catalog of Federal Domestic Assistance (CFDA). The CFDA number for the Advanced Technology Program is 11.612.

Objectives: The opinions on the program financial statement and management's assertions regarding compliance will be used as a tool by program managers and grant officials in meeting their responsibilities for ensuring that federal funds are spent for their intended purposes and in accordance with laws and regulations.

Frequency: ATP recipients shall have a program-specific audit performed in accordance with the following schedule:

- For awards less than 24 months, a program-specific audit is required only at the end of the project.
- For 2- and 3-year awards, a program-specific audit is required after the first year and at the end of the project.

The program-specific audit is to cover the period elapsed since the last program-specific audit of the company or since the project began if the audit is the initial audit. The NIST Grants Officer may amend an award to extend the project period but provide no additional funding. This is known as a no-cost extension. In the case of a no-cost extension to the first year of an award, the audit should include project funds and project costs for the first year and the extension period.

Engagement Letter: A letter of engagement between the ATP recipient and the auditor conducting the program-specific audit shall specifically include a provision that the auditor is required to provide the Secretary of Commerce, the Office of

05520

Inspector General, and the U.S. General Accounting Office or their representatives access to working papers or related documents. Access to working papers includes making necessary photocopies.

Protection of Confidential Information: Certain information obtained in this engagement is exempt from disclosure under the Freedom of Information Act (FOIA). Exempt from FOIA disclosure is information on the ATP recipient's business operation and trade secrets.

Criteria: The auditor should review the cooperative agreement which stipulates all required award terms and conditions including the applicable administrative requirements and cost principles. In addition, the following documents should be available:

Department of Commerce Requirements

- Department of Commerce (DOC) Financial Assistance Standard Terms and Conditions.
- Financial Assistance Award (Form CD-450) and any amendment to the Financial Assistance Award (Form CD-451) which incorporates the approved budget, as described on Form NIST-1262, page 3. (recipient specific)
- General Terms and Conditions - Advanced Technology Program.
- Special Award Conditions - Advanced Technology Program.
- Advanced Technology Program Proposal Preparation Kit (the kit in effect at the time the proposal was submitted). The Kit includes the 1) Advanced Technology Program (ATP) Public Law 100-418 as amended by Public Law 102-245, and 2) Advanced Technology Program (ATP) Rule, Title 15, CFR Part 295.

Administrative Requirements (As Applicable)

- 15 CFR Part 14, *"Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals and Other Nonprofit Organizations and Commercial Organizations,"* (DOC's implementation of OMB Circular A-110).

Cost Principles (As Applicable)

- Federal Acquisition Regulations (FAR) System, Part 31, "*Contract Cost Principles and Procedures.*"
- Office of Management and Budget (OMB), Circular A-21, *"Cost Principles for Educational Institutions."*
- Office of Management and Budget (OMB), Circular A-122, *"Cost Principles for Nonprofit Organizations."*
- 45 CFR Part 74, Appendix E, "*Principles for Determining Costs Applicable to Research and Development Under Grants and Contracts with Hospitals.*"

Chapter 2. Reporting Requirements

Report Package: The report package should include the following:

- A Schedule of Fund Sources and Project Costs including disclosure notes prepared by the ATP recipient. The schedule should include the most recently approved project budget. The budget information is found on Form NIST-1262, page 3. Chapter 3 of these guidelines provides further details on the preparation of the schedule. Appendix A provides an illustrative example.
- An opinion on the Schedule of Fund Sources and Project Costs of the ATP award. Chapter 4 of these guidelines includes a discussion of the cost principles governing the project costs. The auditor's opinion should be issued in accordance with the AICPA's Codification of Statement of Auditing Standards, Section 623, Paragraph 22, *Special Purpose Financial Presentation to Comply with Contractual Agreement or Regulatory Provisions.* Appendix B provides an illustrative example.
- An opinion on management's assertions on the entity's compliance with specified requirements applicable to the ATP program. The practitioner's opinion should be issued in accordance with the AICPA's Statement on Standards for Attestation Engagements No. 3, *Compliance Attestation,* as amended by SSAE No. 9, *Amendments to Statement on Standards for Attestation Engagements Nos. 1, 2, and 3.* The management assertions are found in

05521

Chapter 5 of these guidelines. Appendix C provides an illustrative example which includes management's assertions as part of the first paragraph of the report. It is also acceptable to refer to a separate report which includes management's assertions. This separate management report MUST accompany the audit report package.

- A written communication of any reportable conditions or material weaknesses which were noted in the audit of the Schedule of Fund Sources and Project Costs or during the compliance attestation engagement that could adversely affect the entity's ability to report financial data or comply with the specified compliance requirements. AICPA Statement of Auditing Standards (SAS) No. 60, *Communication of Internal Control Structure Related Matters Noted in an Audit*, requires these internal control deficiencies be communicated to management. These guidelines require the communication be in writing. A report on the Internal Controls prepared in accordance with Government Auditing Standards is not required for financial-related audits.
- A Schedule of Findings and Questioned Costs when applicable. This schedule will include all material noncompliance with provisions of laws, regulations or the cooperative agreement. It will also include all known questioned costs which are greater than $10,000 identified through the audit of the Schedule of Fund Sources and Project Costs or in the examination of the management assertions. Whenever possible, identified findings should be quantified. The reported noncompliance and questioned costs should be developed with information necessary to facilitate the audit resolution process (i.e., the size of the universe and corresponding dollar amount, size and dollar amount of the sample, and number and corresponding dollar amount of the instances of noncompliance). Because independent auditors do not disallow costs, questioned costs are identified for possible disallowance by the Department of Commerce.
- A Corrective Action Plan when applicable. Management should describe the corrective action taken or planned in response to the findings and questioned costs identified by the auditor. The plan should also include the status of corrective actions taken on prior findings resulting from other independent audits including audits performed by the Office of Inspector General or Defense Contract Audit Agency.

Submission of Reports: The report package should be submitted within 90 days of the end of the reporting period. The ATP recipient should submit with the report package the company's most recent audited or reviewed financial statements. Two copies should be submitted to the Department of Commerce. One copy should be submitted to the NIST Grants Officer at the following address:

National Institute of Standards & Technology
Grants Office - Advanced Technology Program
Cooperative Agreement No. _____
100 Bureau Drive, Stop 3580
Building 411, Room 143
Gaithersburg, Maryland 20899-3580

The other copy should be forwarded to the Office of Inspector General at the following address:

U.S. Department of Commerce
Office of Inspector General
ATTN: ATP Program-Specific Audit Report Coordinator
401 West Peachtree Street, NW, Suite 2742
Atlanta, Georgia 30308

In the accompanying transmittal letter, please provide the name and phone number of the company's designated contact person in the event of questions about the submitted reports.

Chapter 3. The Schedule of Fund Sources and Project Costs

The Schedule of Fund Sources and Project Costs as presented in Appendix A will be prepared by the ATP recipient from the company's accounting records. The Schedule should report the latest approved budget, for the period being audited, as identified on Form NIST-1262, page 3, and the actual fund sources and project costs incurred for the reporting period. Project costs include costs allowable under the applicable cost principles subject to all limitations and exclusions set forth in the award including the award's special and general terms and conditions, and DOC's financial assistance standard terms and conditions. In addition, the recipient should review the guidance included in ATP's Proposal Preparation Kit for the allowability or valuation of a specific cost element. If the aforementioned documents are silent on the accounting for a specific item of cost, then generally accepted accounting principles should be used.

05522

The ATP recipient should prepare adequate disclosure notes to describe the basis of the schedule's presentation and any significant accounting policies used in preparing the schedule. In addition, the notes should include a general description of the company receiving the ATP award, a general project description, basic award terms such as the length of the award, the amount of federal funding, and the recipient's required cost-share. When appropriate, disclosure notes should also include related party transactions, subsequent events, and material questioned costs.

Chapter 4. The Auditor's Opinion on the Schedule of Fund Sources and Project Costs

Overview: The Schedule of Fund Sources and Project Costs is the ATP financial statement. This program financial statement should be audited under generally accepted auditing standards incorporated into Government Auditing Standards. The opinion on the Schedule of Fund Sources and Project Costs should be prepared in accordance with the AICPA's Codification of Statement of Auditing Standards, Section 623, Paragraph 22, *Special-Purpose Financial Presentations to Comply with Contractual Agreement or Regulatory Provisions.*

The Schedule of Fund Sources and Project Costs is prepared in conformance with the terms of the award and consistent with the cost principles which govern the expenditures of funds.

This presentation of project income and expenditures is referred to as an other comprehensive basis of accounting. If material questioned costs are found while the auditor is forming an opinion of the ATP financial statement or during the attestation engagement, the Schedule of Fund Sources and Project Costs should remain unchanged and include the total project costs incurred, including the material questioned costs. The costs questioned should be disclosed in the accompanying notes to the ATP financial statement. With adequate note disclosure, the auditor can issue an unqualified opinion with an explanatory paragraph following the opinion, as appropriate.

Cost Principles: There are federal cost principles for each type of recipient receiving federal assistance. The cost principles applicable to the recipient are stated in the award document. Allowability of costs is determined as follows:

For-profit organizations -	Federal Acquisition Regulations (FAR) Part 31, *"Contract Cost Principles and Procedures"*
Non-profit organizations -	OMB Circular A-122, *"Cost Principles for Nonprofit Organizations"*
Educational organizations -	OMB Circular A-21, *"Cost Principles for Educational Organizations"*
Hospitals -	45 CFR Part 74, Appendix E, *"Principles for Determining Costs Applicable to Research and Development Under Grants and Contracts with Hospitals"*

ATP was created as a cost reimbursement research and development vehicle. NIST built the cost reimbursement theory into the ATP regulation and cooperative agreements by requiring compliance with applicable federal administrative requirements and cost principles. Reimbursement claims to NIST using a basis other than cost (e.g. GSA schedule, commercial price, etc.) are not allowable under the terms of ATP cooperative agreements. Single company recipients may only use actual costs incurred during the award period as the basis for any claims.

Cost Limitations: The following costs are not allowable under the ATP program regardless of whether they are allowable under the FAR or OMB cost principles:

- Profit, management fees, interest on borrowed funds, and facilities capital cost of money.
- Bid and Proposal costs, tuition costs, marketing surveys, or commercialization studies and general business planning unless they are incorporated into a federally approved indirect cost rate. However, a university participating in an ATP award as a subcontractor/subrecipient may include tuition or other forms of compensation in lieu of wages

05523

paid to university students working on ATP projects as provided in OMB Circular A-21, Section J.41.

- Direct charges for the construction of new buildings or extensive renovations of existing buildings.
- Subcontract costs, if the subcontract is to another part of the same company or to another company with identical or nearly identical ownership.

Refer to the ATP Proposal Preparation Kit for further details regarding the unallowable costs cited above.

The award terms and conditions stipulate prior approval requirements. In addition to the prior approval requirements specified in 15 CFR Part 14, the following are allowable ONLY IF prior approval is obtained from the NIST Grants Officer:

- Budget transfers among direct cost categories exceeding 10 percent of the total annual budget.
- Revisions to ownership and/or dissolution when a company is acquired by a foreign company.
- Changes in use of human and animal subjects.
- Construction costs of experimental research and development facilities provided that the equipment or facilities are essential for carrying out the proposed scientific and technical project and are approved by the NIST Grants Officer.

Direct Costs vs. Indirect Costs: Single company ATP recipients are reimbursed for allowable direct costs only. Indirect costs for single companies are unallowable for reimbursement with Federal funds and must be absorbed by the single companies. If indirect costs are not part of the cost-share computation, the indirect costs are not required to be audited. Note, beginning with proposals submitted on or after December 1997, large company recipients are required to cost-share at least 60 percent of the yearly total project costs (direct and indirect costs). Indirect costs incurred by a large company and allocable to the ATP award may be used to meet the company's cost-sharing requirement. If a large company recipient includes indirect cost as part of their cost-share, the indirect costs are required to be audited.

Small and medium size single companies' cost-sharing of any direct costs, and large single company cost-sharing of direct and indirect costs are defined based on the company's proposal and approved budget. The cost-sharing amount is made part of the award and must 1) meet the criteria stipulated in the administrative requirements of 15 CFR Part 14, 2) be allowable under the applicable federal cost principles, and 3) be subject to audit.

Costs claimed as indirect costs are subject to all the same limitations and prior approval requirements as direct costs. In order to be reimbursed for indirect costs, a large company claiming indirect costs must have an indirect cost rate or proposal approved by its federal cognizant agency,. The indirect cost rate proposals provide a basis for allocating indirect costs to federal programs. They should be submitted by the company to its cognizant federal agency within 90 days of receiving an ATP award.

Indirect costs must be calculated in accordance with an approved indirect cost proposal or a negotiated indirect cost rate. Indirect cost rates are normally negotiated based on the entities' fiscal year. Regardless of any approved indirect cost rate applicable to the award, the maximum dollar amount of allocable indirect costs will not exceed the line item for indirect costs contained in the approved budget.

Audit Objectives: Determine whether the ATP award funds (federal and committed non-federal award funds) were expended only for allowable activities in conformance with provisions of the applicable cost principles, limitations or exclusions set forth in the cooperative agreement award, applicable terms and conditions incorporated in the award, (i.e., Special Award Conditions, ATP General Terms and Conditions and DOC Financial Assistance Standard Terms and Conditions).

Suggested Audit Procedures: These procedures are provided to assist the auditors in planning and performing tests of the ATP award. Auditor judgment is necessary to determine whether the suggested audit procedures are sufficient to achieve the stated audit objective. The following are the suggested audit procedures for determining the allowability of costs in accordance with the cost principles:

- Obtain the latest approved budget (Form NIST-1262, page 3) for the project period under audit.
- Test that the costs claimed are within the approved budget.
- Test that the costs are actual costs incurred for the ATP award in accordance with the applicable cost principles and not budgeted or projected amounts.

05524

- Test that the cost conforms to any limitations or exclusions set forth in the cooperative agreement award, applicable terms and conditions incorporated in the award, i.e., Special Award Conditions, ATP General Terms and Conditions and DOC Financial Assistance Standard Terms and Conditions.
- Test that the cost conforms with the allocability provisions of applicable cost principles.
- Ascertain that the cost has been given consistent accounting treatment within and between accounting periods. Consistency in accounting requires that costs incurred for the same purpose, in like circumstances, be treated as either direct costs only or indirect costs only with respect to final cost objectives.
- Test on a sample basis that the cost charged to ATP is a net cost, i.e., all applicable credits, volume or cash discounts, refunds, rental income, trade-ins, scrap sales, etc., have been subtracted.
- Examine on a sample basis the underlying documentation, (e.g., time and attendance payroll records, time and effort records for employees charged to more than one activity, approved purchase orders, vendor invoices, canceled checks, etc.) and determine that the cost is correctly charged as to project, account, amount and period.
- For wages, salaries and fringe benefits, test on a sample basis that the employee's total compensation is consistent with established company practices for that category of employee.
- Test, on a sample basis, that charges for fringe benefits including sick leave, vacation leave, life and health insurance, and pension plans are supported by a plan and the allocations are based on the benefits received by different classes of employees within the organization.

11. Test, on a sample basis, that depreciation is not being claimed on assets or a portion of the assets purchased with federal funds.

Steps 12 through 14 are for companies providing indirect cost as a required cost-share.

12. Test the indirect cost pools allocable to the ATP award to ascertain that the pools include only allowable costs in accordance with applicable cost principles.

13. When DOC is the cognizant agency, test that the methodology used in allocating costs to ascertain if it produces an equitable distribution of costs.

14. If the company has a negotiated indirect cost rate, select a sample of claims for reimbursement and verify that the rates used are in accordance with the rate agreement, that rates were applied to the appropriate bases, and that amounts claimed were the product of applying the rate to the applicable base.

Chapter 5. The Attestation Engagement

Overview: The practitioner is required to obtain written assertions from management as part of the compliance attestation engagement performed in accordance with the AICPA's Statement on Standards for Attestation Engagement (SSAE) No. 3, *Compliance Attestation*, as amended by SSAE No. 9, *Amendments to Statement on Standards for Attestation Engagements Nos. 1, 2,*

and 3. The written assertion may be provided to the practitioner in a representation letter or may be presented in a separate report that will accompany the practitioner's report. When a separate management report does not accompany the practitioner's report, the first paragraph of the report should also contain a list of management's assertions.

In addition to the five specific assertions that follow, management's written representations should include the general matters required by paragraph 67 of SSAE No. 3, as amended. Management's representations are an integral part of the engagement. Materiality relates to each specific management assertion.

Management Assertions, Compliance Requirements and Suggested Examination Procedures:

1. Matching or Cost-sharing

Management Assertion. The cost-share established in the budget of the ATP award has been met. The funds claimed as cost-share are not from a subcontractor or other federal sources and were not used as matching or cost-sharing funds on other federally supported activities. The funds claimed as cost-share meet the definition provided in 15 CFR Part 14

Section 23 and conform to the limitations in 15 CFR Part 295.2(l).

Compliance Requirement - The ATP statute and implementing regulations require that large companies receiving an award as a single company must cost-share at least 60 percent of the yearly total project costs (direct and indirect costs). Section 295.2(l) of the ATP implementing regulations has defined the term "matching funds or cost-sharing" to mean that portion of project costs not borne by the federal government. Sources of revenue to satisfy the required cost-share include cash and in-kind contributions. In-kind contributions shall be valued in accordance with 15 CFR Part 14 Section 23. ATP restricts the total value of in-kind contributions that can be used to satisfy the cost-share by requiring that such contributions not exceed 30 percent of the non-federal share of total project costs.

Subcontractors may not contribute towards the cost-share requirement. An ATP recipient cannot use funds received from other federal programs to meet the required cost-share of the ATP award. .

Suggested Examination Procedures

a. Ascertain the cost-share provided by the ATP recipient. Determine whether the recipient met the required cost-share specified by their approved budget.

b. Ascertain that the cost-share provided did not come from a subcontractor to the project or from other federal sources.

c. Inquire of management whether the costs charged to the ATP project have been used to meet cost-sharing or matching requirements of other federally supported activities.

d. If in-kind contributions are part of the cost-share, trace these contributions to the company's accounting and summary records to determine that the value of the in-kind contribution is in accordance with 15 CFR Part 14 Section 23 and does not exceed the limitations imposed by 15 CFR Part 295.2(l).

2. Property Management

Management Assertion. Equipment acquired with the ATP funds has been accounted

for in accordance with federal property management standards found in 15 CFR Part 14 Sections 30-37.

Compliance Requirement - Title to equipment acquired using federal financial

assistance vests with the recipient. The recipient agrees to use the equipment for the authorized purpose of the project as long as it is needed and will not encumber the asset. There are no requirements pertaining to equipment with a cost of less than $5,000. NIST has disposition authority as described in 15 CFR Part 14 Section 34.

Equipment records shall be maintained, a physical inventory of equipment taken at least once every two years and reconciled to the equipment records, an appropriate control system should be used to safeguard equipment, and equipment shall be adequately maintained. NOTE: 15 CFR Part 14 only requires insurance if mandated by the Grantee. Do such insurance was mandated. We recommended insurance coverage for business reasons While title to property and equipment vests with the recipient, the recipient has no cost basis in the assets purchased with government funds. The recipient's fixed asset system, therefore, must clearly identify that federal funds are the source of funding for the assets. The company is neither entitled to a depreciation deduction on their corporate tax return nor the R & D credit based on federal expenditures under this program.

Suggested Examination Procedures

a. Ascertain that the recipient has a fixed asset system to identify equipment purchased, including the source of funds for equipment, percentage of federal ownership, location, cost and other pertinent information.

b. Ascertain that a physical inventory is conducted at least once every two years.

05526

N/A c. Inquire as to the disposal of ATP funded equipment during the award period. Ascertain whether disposition instructions were requested from NIST and, if so, were they followed. If disposition instructions were not requested, did the disposition of property meet the requirements of 15 CFR Part 14, Section 34.

3. Procurement and Suspension and Debarment

IP

Management Assertion. Federal procurement standards described in 15 CFR Part 14 Sections 40-48 have been incorporated into the purchasing policies and adhered to for ATP award expenditures. Contracts and subawards have not been made to any organizations or its principals listed in the "List of Parties Excluded From Federal Procurement or Nonprocurement Programs," issued by General Service Administration.

Compliance Requirement - The purpose of federal procurement requirements is to provide to the maximum extent practical open and free competition. Recipients will use their own written procurement procedures provided these procedures conform to federal law and regulations identified in 15 CFR Part 14 Sections 40-48.

Recipients are prohibited from contracting with or making subawards under covered transactions to parties that are suspended or debarred or whose principals are suspended or debarred.

Covered transactions include procurement contracts for goods or services equal to or in excess of $100,000 and all nonprocurement transactions (e.g., subawards to subcontractors/ subrecipients). Requirements for suspension and debarment are contained in 15 CFR Part 26.

Suggested Examination Procedures

JIP ✓ a. Review the recipient's written procurement policies. Verify that the policies comply with applicable federal requirements. If the previous program-specific audit did not disclosed any problems with the recipient's procurement policies, then examine only changes to those policies since the previous audit.

b. Test a representative sample of procurement transactions. Evaluate whether the contract files maintain sufficient detail to document the significant history of the procurement, including the rationale for method of procurement, selection of contract type, contractor selection or rejection, and the basis of contract price.

c. Inquire about the rationale for any procurement with limited competition and ascertain if the limitation was justified. $100,000 limit was not reached for any purchases.

N/A d. Review correspondence to determine that documentation for procurement transactions exceeding $100,000 was submitted to the NIST Grants Officer for approval if any of the following conditions exist: 1) the award was made by noncompetitive negotiation, 2) only a single bid or offer was received, 3) the award was made to other than the apparent low bidder, or 4) a brand name product was specified.

e. Test a sample of procurement contracts and subawards and ascertain if they were awarded to suspended or debarred parties included on *GSA's List of Parties Excluded from Federal Procurement or Nonprocurement Programs.* → http://epls.arnet.gov

4. Federal Reporting

SIP *Management Assertion. The amounts in the quarterly financial status reports and the requests for advance or reimbursement agree with the underlying accounting records and summary records.*

Compliance Requirement - Quarterly financial status report (SF 269) and requests for advance or reimbursement (SF 270) are required. The financial status report and claims for advance reimbursement contain information that can be reconciled to the accounting records from which the Schedule of Fund Sources and Project Costs was prepared. A report of federal cash transactions (SF 272) is required if federal funds are provided under a cash advance.

Suggested Examination Procedures

05527

a. Test that required reports are filed on a timely basis.

w/p b. Obtain an understanding of the recipient's procedures for preparing and reviewing the financial status reports and the request for advance or reimbursement.

✓ c. Select a sample of financial status reports and requests for advance or reimbursement to determine that the reports are prepared according to DOC instructions. For the sample, trace significant data to supporting documentation (e.g., summary worksheets, ledgers, etc.) and determine all material differences between financial reports and the company's accounting records. tested all reports that were available

d. Review the company's system for monitoring payment requests from subcontractors/subrecipients. Test controls which limit payments to reimbursement of actual costs. .

e. Review significant adjustments made to the general ledger accounts or other accounting records affecting the ATP award and evaluate for propriety. Ascertain whether amended federal reports were submitted for these adjustments.

5. Subcontractors/Subrecipients

Management Assertion. The agreements entered into with subcontractors/subrecipients, as defined below, require that the subcontractors/subrecipients adhere to federal laws and regulations as specified by the ATP award and sanctions are specified for the subcontractor's/subrecipient's noncompliance.

Compliance Requirement - The ATP recipient is ultimately responsible to NIST for funds passed to a subcontractor/subrecipient. For the purpose of these guidelines, a subcontractor/ subrecipient is defined as an organization which receives a portion of the financial assistance from the ATP recipient and assists the recipient in meeting the project's goals. This definition does not include the procurement of goods and services.

The ATP recipient should include in each agreement with its subcontractors/subrecipient the requirement for adherence to the federal laws and regulations as required by NIST's Advanced Technology Program. Subcontractors/subrecipients are required to have an audit performed in accordance with the ATP Program-Specific Audit Guidelines if the subcontractor/subrecipient has received more than $300,000 under an ATP award.

Suggested Examination Procedures

a. Test the agreements to determine that the ATP recipient required adherence to federal laws, regulations and provisions of the cooperative agreement.

b . Ascertain whether the ATP recipient received the subcontractor's/subrecipient's audit reports and the ATP recipient required the subcontractor/subrecipient to take timely corrective actions on deficiencies identified in the audits.

c. When audit reports are not required from subcontractors/subrecipients, review the ATP recipient's monitoring procedures to ascertain if the subcontractor/ subrecipient used federal funds for authorized purposes and what action was taken in response to findings.

d. Test the agreements to determine that there are sanctions in place for noncompliance with laws and regulations as specified by the ATP award and if noncompliance was found that the sanctions were enforced.

Independent Auditor's Report on
The Schedule of Fund Sources and Project Costs
for NIST ATP Cooperative Agreement Number 70NANB#H####
For the Period of xx/xx/xx to xx/xx/xx

Independent Auditor's Report

[Addressee]

05529

We have audited the accompanying Schedule of Fund Sources and Project Costs of [single company] as of [date of this report]. This Schedule of Fund Sources and Project Costs is the responsibility of [single company's] management. Our responsibility is to express an opinion on the Schedule of Fund Sources and Project Costs based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule of Fund Sources and Project Costs are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the Schedule of Fund Sources and Project Costs. An audit also includes assessing the accounting principles used and

significant estimates made by management, as well as evaluating the overall presentation of the Schedule of Fund Sources and Project Costs. We believe that our audit provides a reasonable basis for our opinion.

The accompanying Schedule of Fund Sources and Project Costs was prepared for the purpose of complying with the award requirements of the ATP cooperative agreement number 70NANB#H#### entered into by [single company] and the U.S. Department of Commerce as described in Note X. This Schedule was prepared in conformance with the award requirements which is a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the Schedule of Fund Sources and Project Costs referred to above presents fairly, in all material respects,[2] the source of funds and project costs of [single company] for the period [year end (date)/period from (date) to (date)] in conformity with the basis of accounting described in Note X.

This report is intended solely for the information and use of the audit committee, management and the

U.S. Department of Commerce and should not be used for any other purpose.

Appendix C

Opinion on Management's Assertions on Compliance with Specified Requirements Applicable to the NIST Advanced Technology Program Cooperative Agreement Number 70NANB#H#### Independent Accountant's Report

[Addressee]

We have examined management's assertions, that [single company] complied with the following specified requirements, relative to the Company's Schedule of Fund Sources & Project Costs for the NIST ATP Cooperative Agreement No. 70NANB#H#### for the period from [date] to [date] (list compliance requirements as shown below or attach management assertions in accompanying management report).

- The cost-share established by the budget in the ATP award has been met. The funds claimed as cost-share are not from a subcontractor or other federal sources and were not used as matching or cost-sharing funds on other federally supported activities. The funds claimed as cost-share meet the definition provided in 15 CFR Part 14, Section 23 and conform to the limitations in 15 CFR Part 295.2(l).
- ✓ Equipment acquired with the ATP funds has been accounted for in accordance with federal property management standards found in 15 CFR Part 14 Sections 30-37.
- ✓ Federal procurement standards described in 15 CFR Part 14 Sections 40-48 have been incorporated into the purchasing policies and adhered to for ATP award expenditures. Contracts and subawards have not been made to any organizations or its principals listed in the "List of Parties Excluded From Federal Procurement or Nonprocurement Programs," issued by General Service Administration.
- The amounts in the quarterly financial status reports and the requests for advance or reimbursement agree with the underlying accounting records and summary records
- The agreements entered into with subcontractors/subrecipients, as defined below, require that the subcontractors/subrecipients adhere to federal laws and regulations as specified by the ATP award and sanctions are specified for the subcontractor's/subrecipient's noncompliance.

Management is responsible for [single company's] compliance with those requirements. Our responsibility is to express an opinion on management's assertions about [single company's] compliance based on our examination.

Our examination was conducted in accordance with Government Auditing Standards, issued by the Comptroller General of

05530

the United States; attestation standards established by the American Institute of Certified Public Accountants; and the NIST Program-Specific Audit Guidelines for Advanced Technology Program (ATP) Cooperative Agreements with Single Companies, issued by the U.S. Department of Commerce, Office of Inspector General, dated May 1999 and, accordingly, included examining, on a test basis, evidence about [single company's] compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on [single company's] compliance with specified requirements.

In our opinion, management's assertions that [single company] complied with the aforementioned requirements relative to the [single company's] ATP Award Cooperative Agreement No. 70NANB#H#### during the [year ended (date)/period from (date) to (date)] are fairly stated, in all material respects.[3]

This report is intended solely for the information of the audit committee, management, and the U.S. Department of Commerce and is not intended to be and should not be used by anyone other than these specified parties.

---

1. Include indirect costs if indirect costs are claimed as part of a required cost-share.

2. The auditor should modify the standard report and issue a qualified, adverse or disclaimer of opinion, as appropriate, in the following circumstances:

- The ATP recipient does not adjust the Schedule of Fund Sources and Project Cost or disclose the material questioned costs in the accompanying notes.
- In forming an opinion on the Schedule of Fund Sources and Project Costs the extent of other potentially unallowable costs in transactions not tested should be considered.

3. The practitioner should modify the standard report if any of the following conditions exist:

- There is a material noncompliance with specified requirements. (SSAE No.3, as amended, para. 58-65).
- There is a matter involving a material uncertainty (SSAE No. 3, as amended, paragraph 66).
- There is a restriction on the scope of the engagement (SSAE No. 2, as amended, paragraphs 55-58).
- The practitioner decides to refer to the report of another practitioner as the basis, in part, for the practitioner's report (SSAE No. 2, as amended, paragraphs 59 and 60).

JUL 25 2003

MEMORANDUM FOR: Shamim Shaikh, Acting Chief
Grants and Agreements Management Division
National Institute of Standards and Technology

Kathleen M. McKevitt

FROM: for William F. Bedwell, Jr.
Regional Inspector General
for Audits

SUBJECT: NIST Cooperative Agreement Number 70NANB1H3050
Computer Aided Surgery, Inc., NY
Final Report No. ATL-16095-3-0001

This report on our audit of the subject NIST Advanced Technology Program cooperative agreement with Computer Aided Surgery, Inc. is to inform NIST officials of significant findings that require their immediate attention. Based on Computer Aided Surgery's own accounting records, the company should reimburse NIST $205,126. The corporation has not contributed any of its required cost-share, which currently totals $54,068, and has drawn down $205,126 in excess of the federal share of ATP project costs identified in its accounting records. The Financial Status Reports filed with NIST are inaccurate because they show that the company contributed the required matching funds and the reports overstate ATP project expenses. We will issue a separate comprehensive audit report including questioned costs and other non-compliance issues covering the period October 1, 2001, through June 27, 2003.

We are providing a copy of this report to Computer Aided Surgery. However, we have not requested the company prepare a written response to NIST addressing the report findings or recommendations. We will include these findings in the subsequent comprehensive audit report to allow for due process. Requests from the public for copies of this report must be referred to the Office of Inspector General, Office of Compliance and Administration Publication Unit, Room 7009C, Herbert C. Hoover Building, for response under the Freedom of Information Act.

Any information or inquiry regarding this final report should be directed to me at (404) 730-2780, or Kathleen McKevitt of this office at the same number. We appreciate the cooperation and courtesies extended by NIST officials during our audit.

05534

Introduction

In September 2001, NIST awarded a $2,110,500 Advanced Technology Program cooperative agreement to Computer Aided Surgery, Inc., a for-profit company involved in innovative composite design and engineering. The agreement was for a 3-year period with $800,000 in federal funds for the first year, $600,000 for the second year, and $600,000 in the third year. The agreement required the company provide a matching share of $36,500 for the first year, $30,500 for the second year, and $43,500 for the third year.

The purpose of the agreement was to develop and demonstrate novel computer and engineering technology based on Digital Morse Theory to enhance the quality and usability of computerized anatomic models for precise and accurate cancer treatment therapies.

Purpose and Scope of Audit

We performed the audit of the NIST award at the company's office in New York City during June 2003. NIST requested that our office conduct the audit because the grants and program officials were concerned about Computer Aided Surgery's ability to account for federal funds being spent. The purpose of the audit was to determine the financial status of the award, the reasonableness and allowability of expenses charged against the award and review compliance with applicable laws and regulations. The audit covered the period from October 1, 2001, through June 27, 2003. We examined pertinent NIST and company records, and interviewed agency and company officials as deemed necessary.

We relied on computer-processed data supplied by the company as the basis for our audit findings and recommendations. Consequently, we tested the accuracy by tracing and comparing the data to original source documents and other supporting documents. Based on our tests, we concluded that the computerized data was sufficiently reliable for use in meeting our objectives.

We conducted the audit in accordance with generally accepted government auditing standards, and performed it under the authority of the Inspector General Act of 1978, as amended, and Department Organization Order 10-13, dated May 22, 1980, as amended.

Results of the Audit

During our audit, we found significant problems that we brought to the grants officers attention with a conference call on June 24, 2003 and are documenting with this report. Computer Aided Surgery has not contributed any of its required matching funds, which currently totals $54,068. In addition, the company drew down $205,126 in excess of the federal share of ATP project costs recorded in its accounting records. Finally, the Financial Status reports filed with NIST are inaccurate because they overstate expenses to justify the excess draw-downs and include a cost-share amount that was never contributed. NIST informed us that they suspended further award payments to Computer Aided Surgery as of June 27, 2003. We are working with the company to obtain additional documentation so that we can provide a comprehensive audit of the allowability and reasonableness of ATP project expenses for the period October 1, 2001 through June 27, 2003. 269A

05535

\$54,068 of Required
Matching Funds Not Contributed

Computer Aided Surgery has not contributed any matching funds to the project even though the NIST award agreement requires a cost share of 4.57 percent. The Chief Technical Officer of Computer Aided Surgery identified the State of New York as the source of the matching funds, but the funding was not received due to the state's budget problems after September 11, 2001. While the primary owner and Chief Technical Officer of Computer Aided Surgery intends to contribute his own funds to the ATP project, none of these required funds have been contributed to date.

The matching funds required for the project based on the ATP identified expenses in the company's accounting records are shown below:

Award Amendment	Period	Required Cost-Share	ATP Project Costs Per Books	Required Cost-Share
#2	10/01/2001 - 09/30/2002	4.36%	$ 779,905	$ 34,004
#3	10/01/2002 - 06/27/2003	4.84%	414,537	20,064
Total			$1,194,442	$ 54,068

779905
275310
4.595

\$205,126 in Excess Drawdowns

Our audit revealed that Computer Aided Surgery drew down \$205,126 of federal funds over the 21-month period in excess of the federal share of ATP expenses identified in its own accounting records. A review of the company's financial records revealed that these excess draw-downs were not spent on ATP project expenses. The amount of drawdowns in excess of the federal share of ATP project expenses for the period October 1, 2002 through June 27, 2003 is shown below:

	10/01/01 – 09/30/02	10/01/02 – 06/27/03	Cumulative
ATP Project Expenses Per Books	$ 779,905	$ 414,537	1,194,442
Federal Share of Project	95.64%	95.16%	
Federal Share of ATP Expenses	$745,901	$394,473	1,140,374
Federal Funds Drawn-down	800,000	545,500	1,345,500
Excess Draw-downs of Federal Funds	$ 54,099	$ 151,027	$ 205,126

As shown above, the company drew down \$1,345,500 in federal funds between October 1, 2001 and June 27, 2003. However, a review of the company's general ledger revealed only

05536

$1,194,442 in ATP project costs during this same 21-month period and based on the project's federal cost-share, Computer Aided Surgery was only entitled to $1,140,374. The $205,126 excess funds went to pay expenses not related to the ATP project. It appears that Computer Aided Surgery's only source of revenue during the period of the award has been the NIST funds.

The *Advanced Technology Program Special Award Conditions* Section 9. c. states:

> "Advances ... shall be limited to the minimum amounts necessary to meet immediate disbursement needs. Advanced funds not disbursed in a timely manner must be promptly returned .... Advances shall be for periods not to exceed 30 days."

Inaccurate Financial Status Reports

Computer Aided Surgery filed inaccurate Financial Status Reports (SF-269's) for each of the four quarters during the period October 1, 2001 through September 30, 2002. The erroneous reports show the amount of federal funds drawn down rather than actual federal expenditures in the box designated "federal outlays for the quarter," thereby, overstating expenditures. Additionally, Computer Aided Surgery claimed that it had contributed the required cost-share funds, when in fact; no matching funds have been contributed. The Financial Status Reports have not been completed for the periods ending December 31, 2002 or March 31, 2003.

The *Advanced Technology Program General Terms and Conditions* Section 7.c. (1) states:

> "By signing this award the Recipient agrees to ensure that only actual costs incurred will be charged to the award and that all costs will be reasonable, allocable, and allowable in accordance with the applicable Federal Cost Principles."

Additionally section 7.c. (3)(a) states:

> "The Recipient shall submit a "Financial Status Report" (SF-269) on a calendar quarter basis for the periods ending March 31, June 30, September 30, and December 31, or any portion thereof, unless otherwise specified in a special award condition. Reports are due no later than 30 days following the end of each reporting period."

Recommendations

We are recommending that NIST:

1. Continue to suspend award payments to Computer Aided Surgery, Inc., until it meets with the following requirements:

   - Reimburse NIST $205,126 for funds drawn down in excess of the federal share of ATP project expenses.

   - File the Financial Status Reports (SF-269) for the quarters ending December 31, 2002, and March 31, 2003.

2. Designate the company as a "high risk" organization and, at a minimum place it on a reimbursement basis for future drawdowns, if the suspension of award payments is removed.

Funds to Be Put to Better Use

By implementing this recommendation, $205,126 in federal funds will be put to better use by returning the funds to NIST and ensuring that the funds are used only for the NIST project.

(APPROVED BY AMA COUNCIL ON MEDICAL SERVICE 8/88) *PLEASE PRINT OR TYPE* FORM HCFA-1500 (12-92) FORM OWCP-1500 FORM RRB-1500

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentations or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND CHAMPUS PYMENTS: A patient's signature requests that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is *true, accurate and complete.* In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information, including employment status, and whether the person has employer group health insurance, liability, no-fault, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.24 (a). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency shown. In Medicare assigned or CHAMPUS participation cases, the physician agrees to accept the charge determination of the Medicare carrier or CHAMPUS fiscal intermediary as the full charge, and the patient is responsible only for the deductible, coinsurance and noncovered services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier or CHAMPUS fiscal intermediary if this is less than the charge submitted. CHAMPUS is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's sponsor should be provided in those items captioned in "Insured", i.e., items 1a, 4, 6, 7, 9 and 11.

BLACK LUNG AND FECA CLAIM

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, CHAMPUS, FECA AND BLACK LUNG)

I certify that the services shown on this form were medically indicated and necessary for the health of the patient and were personally furnished by me or were furnished incident to my professional service by my employee under my immediate personal supervision, except as otherwise expressly permitted by Medicare or CHAMPUS regulations.

For services to be considered as "incident" to a physician's professional service, 1) they must be rendered under the physician's immediate personal supervision for his/her employee, 2) they must be an integral, although incidental part of a covered physician's service, 3) they must be of kinds commonly furnished in physician's offices, and 4) the services of nonphysicians must be included on the physician's bills.

For CHAMPUS claims, I further certify that I (or any employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 5 USC 5536). For Black-Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment for Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, CHAMPUS, FECA, AND BLACK LUNG INFORMATION

(PRIVACY ACT STATEMENT)

We are authorized by HCFA, CHAMPUS and OWCP to ask you for information needed in the administration of the Medicare, CHAMPUS, FECA and Black Lung programs. Authority to collect information is in section 205 (a) 1862, 1872 and 1874 of the Social Security Act as amended, 42 CFR 411.24 (a) and 424.5 (a) (6), and 44 USC 3101;41 CFR 101 et seq and 10 USC 1079 and 1086; 5 USC 8101 et seq; and 30 USC 901 et seq; 38 USC 613; E.O. 9397.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal provisions that require other third parties payers to pay primary to Federal program, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 09-70-0501, titled 'Carrier Medicare Claims Record,' published in the Federal Register, Vol. 55 No. 177, page 37549, Wed. Sept. 12, 1990, or as updated and republished.

FOR OWCP CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40., Wed. Feb. 28, 1990. See ESA-5, ESA-6, ESA-12, ESA-13, ESA-30, or as updated and republished.

FOR CHAMPUS CLAIMS: PRINCIPAL PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

ROUTINE USE(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibility under CHAMPUS/CHAMPVA; to the Dept. of Justice for representation of the Secretary of Defense in civil actions; to the Internal Revenue service, private collection agencies, and consumer reporting agencies in connection with recoupment claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosures may be made to other federal, state, local, foreign government agencies, private business entities, and individual providers of care, on matters relating to entitlement, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of CHAMPUS.

DISCLOSURES: Voluntary; however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128 B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware the P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988", permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of the claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing date sources, gathering and maintaining data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to HCFA, Office of Financial Management, P. O. Box 26684, Baltimore, MD 21207; and to the Office of Management and Budget, Paperwork Reduction Project (OMB-0938-0008), Washington, D.C. 20503.

SIGNATURE OF PHYSICIAN OR SUPPLIER (WORKER'S COMPENSATION)

Any person who, knowingly and with intent to injure, defraud, or deceive any employer or employee, insurance company or self-insured program, files a statement of claim containing any false or misleading information, is guilty of a felony of the third degree.

Under penalty of perjury, I declare that I have read the foregoing, that the facts alleged are true to the best of my knowledge and belief, and that the treatment and services rendered were reasonable and necessary with respect to the bodily injury sustained.

NOTICE

According to the terms of your Group Enrollment Agreement with Oxford, premium payments are due on the first of the month. The purpose of this notice is to advise you that your group coverage may terminate on the last day of the coverage period indicated on page 1 of this bill (The "Coverage Period") if we do not receive the required premium payment by the last day of the Coverage Period.

If such termination occurs, your employees and their dependents will receive coverage for all claims incurred on or before the last day of the Coverage Period. No coverage will be provided for claims incurred thereafter. Any employee or dependent who has access to no other health insurance may be able to convert to an individual policy with Oxford. More information about this conversion option can be obtained by contacting your Oxford group representative directly.

FOR NEW YORK EMPLOYERS ONLY

Pursuant to section 217 of the New York Labor Law, you are required to inform your employees of the intended termination of their health coverage. This law requires that you do so by either hand-delivering or mailing to each of your employees, and by posting at conspicuous locations chosen as most likely to give notice to your employees, at least nine days prior to the intended termination date, a copy of this notice along with your own cover letter advising as to the intended termination of coverage. However, if your premium payment is sent to Oxford on or before the 20th day of the Coverage Period, or if you have arranged for similar replacement coverage for your employees provided by a different carrier (and filed affidavits to that effect with the Commission of Labor and Superintendent of Insurance), the law does not require that you provide your employees with notification as described above.

Thank you for choosing Oxford.

NOTICE

According to the terms of your Group Enrollment Agreement with Oxford, premium payments are due on the first of the month. The purpose of this notice is to advise you that your group coverage may terminate on the last day of the coverage period indicated on page 1 of this bill (The "Coverage Period") if we do not receive the required premium payment by the last day of the Coverage Period.

If such termination occurs, your employees and their dependents will receive coverage for all claims incurred on or before the last day of the Coverage Period. No coverage will be provided for claims incurred thereafter. Any employee or dependent who has access to no other health insurance may be able to convert to an individual policy with Oxford. More information about this conversion option can be obtained by contacting your Oxford group representative directly.

FOR NEW YORK EMPLOYERS ONLY

05601

Pursuant to section 217 of the New York Labor Law, you are required to inform your employees of the intended termination of their health coverage. This law requires that you do so by either hand-delivering or mailing to each of your employees, and by posting at conspicuous locations chosen as most likely to give notice to your employees, at least nine days prior to the intended termination date, a copy of this notice along with your own cover letter advising as to the intended termination of coverage. However, if your premium payment is sent to Oxford on or before the 20th day of the Coverage Period, or if you have arranged for similar replacement coverage for your employees provided by a different carrier (and filed affidavits to that effect with the Commission of Labor and Superintendent of Insurance), the law does not require that you provide your employees with notification as described above.

Thank you for choosing Oxford.

NOTICE

According to the terms of your Group Enrollment Agreement with Oxford, premium payments are due on the first of the month. The purpose of this notice is to advise you that your group coverage may terminate on the last day of the coverage period indicated on page 1 of this bill (The "Coverage Period") if we do not receive the required premium payment by the last day of the Coverage Period.

If such termination occurs, your employees and their dependents will receive coverage for all claims incurred on or before the last day of the Coverage Period. No coverage will be provided for claims incurred thereafter. Any employee or dependent who has access to no other health insurance may be able to convert to an individual policy with Oxford. More information about this conversion option can be obtained by contacting your Oxford group representative directly.

FOR NEW YORK EMPLOYERS ONLY

05605

Pursuant to section 217 of the New York Labor Law, you are required to inform your employees of the intended termination of their health coverage. This law requires that you do so by either hand-delivering or mailing to each of your employees, and by posting at conspicuous locations chosen as most likely to give notice to your employees, at least nine days prior to the intended termination date, a copy of this notice along with your own cover letter advising as to the intended termination of coverage. However, if your premium payment is sent to Oxford on or before the 20th day of the Coverage Period, or if you have arranged for similar replacement coverage for your employees provided by a different carrier (and filed affidavits to that effect with the Commission of Labor and Superintendent of Insurance), the law does not require that you provide your employees with notification as described above.

Thank you for choosing Oxford.

NOTICE

According to the terms of your Group Enrollment Agreement with Oxford, premium payments are due on the first of the month. The purpose of this notice is to advise you that your group coverage may terminate on the last day of the coverage period indicated on page 1 of this bill (The "Coverage Period") if we do not receive the required premium payment by the last day of the Coverage Period.

If such termination occurs, your employees and their dependents will receive coverage for all claims incurred on or before the last day of the Coverage Period. No coverage will be provided for claims incurred thereafter. Any employee or dependent who has access to no other health insurance may be able to convert to an individual policy with Oxford. More information about this conversion option can be obtained by contacting your Oxford group representative directly.

FOR NEW YORK EMPLOYERS ONLY

Pursuant to section 217 of the New York Labor Law, you are required to inform your employees of the intended termination of their health coverage. This law requires that you do so by either hand-delivering or mailing to each of your employees, and by posting at conspicuous locations chosen as most likely to give notice to your employees, at least nine days prior to the intended termination date, a copy of this notice along with your own cover letter advising as to the intended termination of coverage. However, if your premium payment is sent to Oxford on or before the 20th day of the Coverage Period, or if you have arranged for similar replacement coverage for your employees provided by a different carrier (and filed affidavits to that effect with the Commission of Labor and Superintendent of Insurance), the law does not require that you provide your employees with notification as described above.

05622

Thank you for choosing Oxford.

12. PROPOSAL TITLE

Anatomic Computer Modeling for Precise and Accurate Therapies

13. NON-PROPRIETARY PROPOSAL ABSTRACT

Computer Aided Surgery, Inc. will develop a new computer application server that will take calibrated, encrypted raw images from a clients' medical imaging instrumentation (MRI, CT, Ultrasound, etc.), over the Internet.
Our system will rapidly generate encrypted, precise, accurate, and variable resolution three dimensional tiled models applicable for diverse applications as radiation therapy, surgical planning, intraoperative guidance, rapid manufacturing of prosthesis, verification of surgical results, robotic surgery trajectory planning, patient communication, education and other customer specific applications
The novel idea, that enables the technological leap forward is Digital Morse Theory.
The essential insight of Digital Morse Theory is that it describes the behaviour of three dimensional SpiderWeb surfaces surfaces in terms of Morse Critical features.
These surfaces are the computational building tiles of the biologically and medically important objects we wish to parse from an opaque brick of bytes that compromise a volume data set.
We can build an index of all of the objects in a volume to utilize these elements in terms of their generator critical points. Our novel geometric construction algorithms will be embodied in a network based application service provider model. The server will upload from the radiological diagnostic image producer, and download to the therapeutic consumer model. We will function as a unique, super specialty medical imaging Internet Service Provider.

14. CERTIFICATION: BY SIGNING THIS PROPOSAL COVER SHEET, I CERTIFY, TO THE BEST OF MY KNOWLEDGE AND BELIEF, THAT ALL INFORMATION IN THIS PROPOSAL IS TRUE AND CORRECT AND THAT:

A. THIS PROPOSAL IS NOT REQUESTING FUNDING FOR EXISTING OR PLANNED RESEARCH PROGRAMS THAT WOULD BE CONDUCTED IN THE SAME TIME PERIOD IN THE ABSENCE OF FINANCIAL ASSISTANCE UNDER THE ATP.

B. ALL INDIRECT COSTS PROPOSED IN THIS PROPOSAL ARE INCLUDED UNDER THE PROPOSER'S COST SHARE AND NO INDIRECT COSTS ARE INCLUDED IN THE ATP SHARE OF COSTS REQUESTED.

C. IF A LARGE BUSINESS, COST SHARING PROPOSED BY THE LARGE BUSINESS IS AT LEAST 60 PERCENT OF EACH YEAR'S TOTAL COSTS.

D. THE TOTAL VALUE OF ANY IN-KIND CONTRIBUTIONS DOES NOT EXCEED 30 PERCENT OF THE COMPANY'S TOTAL COST SHARE.

E. THE FOLLOWING QUESTIONS HAVE BEEN TRUTHFULLY ANSWERED:

	YES	NO
i. IS THE COMPANY DELINQUENT ON ANY FEDERAL DEBT? (IF YES, EXPLAIN IN ITEM 15, REMARKS.)	☐	☒
ii. WAS PROPOSAL OR VERY SIMILAR PROPOSAL SUBMITTED TO ANOTHER FEDERAL AGENCY? (IF YES, EXPLAIN IN ITEM 15, REMARKS.)	☐	☒
iii. DOES THE COMPANY HAVE A PARENT COMPANY OUTSIDE THE UNITED STATES? (IF YES, IDENTIFY THE PARENT COMPANY AND ITS PLACE OF INCORPORATION IN ITEM 15, REMARKS.)	☐	☒
iv. IS THE COMPANY MAJORITY OWNED BY INDIVIDUALS WHO ARE NOT CITIZENS OF THE UNITED STATES? (IF YES, EXPLAIN IN ITEM 15, REMARKS.)	☐	☒
v. IS THE COMPANY SUBJECT TO CONTROL BY INDIVIDUALS WHO ARE NOT CITIZENS OF THE UNITED STATES? (IF YES, EXPLAIN IN ITEM 15, REMARKS.)	☐	☒
vi. DOES THE PROPOSED R&D INVOLVE THE USE OF HUMAN SUBJECTS AND/OR HUMAN TISSUE, AND/OR HUMAN CELL LINES? (IF YES, EXPLAIN IN ITEM 15, REMARKS, AND INDICATE WHETHER OR NOT THE RESEARCH PLAN HAS BEEN REVIEWED AND APPROVED BY AN INSTITUTIONAL REVIEW BOARD (IRB).)	☐	☒
vii. DOES THE PROPOSED R&D INVOLVE THE USE OF VERTEBRATE ANIMALS? (IF YES, EXPLAIN IN ITEM 15, REMARKS, AND INDICATE WHETHER OR NOT THE RESEARCH PLAN HAS BEEN REVIEWED AND APPROVED BY AN ANIMAL CARE AND USE COMMITTEE.)	☐	☒

15. REMARKS (CONTINUE ON A SEPARATE SHEET IF NECESSARY)

16. DESCRIBE WHAT EFFORTS WERE MADE, PRIOR TO APPLYING FOR ATP FUNDING, TO SECURE PRIVATE CAPITAL TO SUPPORT THIS PROJECT WHOLLY.

CASI's reputation as a basic research company has made our efforts to raise private capital for this high risk project difficult Traditional paths to commercalization financing would require many years of academic research, which private equity will not fund.

Our goal is to use ATP funding to go directly from preliminary results with a novel proven theory to market dominance intellectual property available to all medical and scientific customers over the internet.

2 Executive Summary

2.1 Scientific and Technological Merit

CASI (Computer Aided Surgery, Inc.) will develop an application to upload calibrated, encrypted raw images from medical imaging instrumentation (MRI, CT, Ultrasound, etc.), over the Internet. The system will generate precise and accurate, encrypted 3D tiled models with variable Level of Detail (LOD, variable resolution) for applications including: Radiation Therapy (RT), robotic minimally invasive surgery, patient communication, education and other customer applications via the Internet.

Current technology is deficient because it is time consuming, labor intensive, not automatic, and difficult to use. Expert operators produce results for each study that vary, even with the same data reprocessed by the same operator. It is not dimensionally stable or suitably precise for critical radiation or surgical therapy. Extensive hand retouching of the images and smoothing is needed to finish the models. Current segmentation and modeling technology is currently only practiced in research medical centers, and for expensive medical illustration for advertisements.

Competing methods reformat and reorient image planes using *ad hoc* inaccurate methods. CASI's improvement will use 3D surface modeling to rapidly obtain stable measurements delivered via web browser.

2.1.1.1 Technological Innovation

The novel idea that enables this technological leap forward is Digital Morse Theory (DMT). It describes the behavior of SpiderWeb surfaces by Morse critical features. These surfaces are the computational building tiles of bio-medically important objects. The algorithm indexes all the objects in a volume and segmentation is accomplished by object selection from the index (DMT graph). These novel geometric algorithms will be embodied as a network based application service provider. CASI will function as an Application Service Provider (ASP). This enterprise will function as a computer based geometric foundry for the casting of anatomical structures for biological, surgical, and educational purposes.

CASI will deliver the product models via Virtual Reality Modeling Language (VRML). Customers will manipulate models by mouse, and other virtual reality methods. The click stream behavior of the client will be learned by neural net content personalization technology.

DMT insight enables users to select entire assemblages of components to build desired features without introducing artifacts (segmentation 'tool marks'). With novel mathematical theory, computer graphics programming experience, and clinical research experience, CASI is 4 years to market dominance in high tech medical modeling. We will offer a rapidly delivered, internet based solution for practical patient-specific, tailored requirements, resulting in better diagnosis and better therapeutic quality assurance at mass production costs.

2.1.1.2 High Technical Risk and Feasibility

The technical risk is that the medical user may have difficulty finding desired objects. For most situations, the object is selected from the DMT graph. In difficult or weak images, additional processing may be required for adjusting contrast and surfaces to suit the user requirements and retain dimensional fidelity. DMT is an innovative algorithm with an unproven ability to solve real modeling problems in a production setting. Common wisdom in the field teaches that volume imaging is the technology of choice for many applications because tiling algorithms make too many tiles, behave poorly with noisy data, and connect extraneous objects therefore confusing the resulting model. Iso-contours and surfaces are used in topographic mapping, meteorology, and other fields, so that there are spillover benefits.

The feasibility of the project is based on preliminary research sponsored by DARPA and results through subcontract with the NIH Visible Human Project (VHP).

2.2 Potential for Broad-Based Economic Benefits

CASI will leverage the large national investment in medical imaging industry by improving image understanding and the quality of decisions based on 3D image stacks. CASI will create new

markets for computer biomedical modeling, and propel diffusion of this information to physicians and their patients.

There is an established industry of medical illustration by commercial medical illustrators for medical communication, education, and advertising. The market for patient specific, cheap and rapid anatomic models for critical application will be clearly much larger than diagnostic imaging and medical illustration. CASI modeling technology, both physical and computer, real and virtual, will benefit the nation by better patient diagnosis, treatment, communication, and teaching. The technology will improve the realization of treatment plans, reduce hospital stays, and enable surgical robot motion planning for minimally invasive surgery, better radiation therapy planning, etc. Patient workups will have the artistic equivalent of an oil portrait by a master painter in the hyperrealism school drawn with the dimensional fidelity of an architectural template. The technology will draw with the accuracy of a micrometer caliper, the precision of an industrial robot, with a reasonable cost, with a market value to the patient/customer in thousands of dollars, with the speed of a Polaroid – Land instant snapshot

2.2.1 National Economic Benefits

The nation will benefit by improved health care that will prolong the quality of life. Reduced employee sick leave will decrease disability related payouts and reduce costs to insurers. The efficient use of medical information will produce better yield on capital in imaging technology. Better patient and physician communication, treatment results, and patient satisfaction will result in less litigation and insurance costs. CASI will create new markets for model-based information as the core competency is established that will go beyond our initial Radiation Treatment project. As the medical imaging industry matures into the medical modeling industry, CASI will seek new markets for services, only dreamed of at present.

2.2.2 Need for ATP Funding

ATP Funding is required because CASI's goal is to make a technical forward leap with the DMT based modeling and develop a business to bring it to market. CASI needs the funding to focus on the production of anatomic models for radiation treatment planning, neurosurgery and medical computer graphics and animations. Building on the NIH Visible Human Project (VHP) preliminary results, CASI will creates new markets that will be profitable within 5-years time. The CASI vision time frame, along with no near term profit projections, is too long for conventional commercial funding.

2.2.3 Pathway to Economic Benefits

This Internet solution will grow explosively, as it is accepted in the state of the art. Internet payment systems provide the infrastructure for direct revenue recovery and interaction with customers. Insurance carriers reimburse costs of 3D reconstruction studies at the two to three hundred dollar levels. The high cost of preparing 3D renderings, and difficulty making critical decisions based on them, had made this unprofitable until CASI.

CASI's intends to become the clinical modeling resource firm. CASI will go beyond medical illustration, becoming a reference standard for dimensionally precise and accurate anatomic models. These will be used for critical treatment applications. The goal is to reduce the cost of generating these models from tens of thousands of dollars and hundreds of man-hours to pennies and the labor time to seconds - literally.

Compared to the established market for high-resolution graphical representations in the medical illustration and advertising industry, there is a much larger market for cheap patient specific diagnostic 3D models.

CASI's first market entry is Radiation Therapy. CASI will leverage many other market sectors by licensing and technical support including direct competitors, forensic image processing companies, histopathology image processing companies, surgical robotics companies, medical imaging equipment manufacturing companies, and picture archiving companies. The state of the art will benefit, in area as diverse as semiconductor process engineering to weather prediction. Any field that uses isosurfaces to understand an underlying physical process will benefit.

05641

3 Project Narrative

3.1 Scientific and Technical Merit

CASI will build a clinical geometry "foundry" casting clinical models in simplicial complexes of triangular tiles that define intricate, real surfaces in three dimensions. Instead of plaster, palladium, or plastic we use surface modeling technology. These models will be used for solving problems as calculating trajectories for radiation beams.

CASI will do this by using a new mathematical theory Digital Morse Theory (DMT) that describes the behavior of isosurfaces. Digital Morse Criticalities are special patterns in the data values where isosurface objects appear, merge, separate, or disappear as the threshold value is varied. These criticalities are, in general, local maxima (Peaks), local minima (Pits), and various kinds of saddles (Passes) in the dataset. By building a list of the locations and values of the Criticalities, CASI software can index (tree graph) all of the objects in a volume data relative to each, in terms of objects that surround other objects (parents), peers (connected by saddles), or are enclosed by other objects (progeny). This index graph is used to enable extremely rapid segmentation and interactively build biologically salient composite surface models from the component isosurface objects.

Further, we will accomplish important image processing and model fusion operations based on matching (registration) images containing common features between models from different imaging modalities of the same anatomic region. We can track and quantify model changes during growth, pathology, and therapy. We can measure several difficult to precisely measure metrics such as surface area, volume, and various moments (center of area, center of mass, standard variability, kurtosis and so on). We can also construct various minimal space curves of trajectories for optimal surgical approaches in terms of Critical Lines (minima and maxima paths between objects), and other applications of computational geometry properties from DMT derived models.

When: We expect to have working alpha prototype systems operating on the web within two years, and beta site clients functioning in four years

We do this because many applications in medicine and the biosciences require a geometric understanding to solve problems at a fundamental level, from which to make critical therapeutic and tactical decisions. These decisions are based on critical dimensions, clearances, access trajectories, and to minimize trauma to no-go regions that must be zealously protected during invasive surgical procedures. The biomedical industry needs patient specific maps, inexpensively produced, with high fidelity for a wide range of therapies. These include radiation therapy, image guided therapy, keyhole brain surgery, minimally invasive robotic surgery, functional modeling of the brain, protein and enzyme kinetics, to cite a few. Engineering solutions to these, apparently simple binary decisions are based on biological morphology from DMT based models are an important problems. The PI's experience in the computational geometry, morphometrics, computer graphics skills, and the insight that DMT provides, propel the PI to make the fruits of DMT widely Internet accessible to physicians and patients.

This project will integrate a range of computer and engineering technologies to connect medical image generators to medical model consumers via web browser based technology. The key to the success is not in the existing technology. Success will be due to the implementation of Digital Morse Theory into a new technology, supported by these ancillary data collection and delivery technologies.

Innovation in computer anatomic modeling technology is by innovation in applied mathematical theory.

Our project is feasible because of preliminary promising results with in the NIH Visible Human Project (VHP) female "Eve" data set[1]. The PI has powerful theoretical results[2] that are just being published in the field. Our business prospects are feasible because of the CASI patent position[3]. CASI

[2] Cox and Karron 2001
[3] Karron, Cox, and Mishra US Patent #5,898,793

05642

has been in business since 1995 as an advanced research and technology research firm, and benefits from the PI's long background in the surgical/medical computer graphics field with publications in the field from 1985

A promising opportunity: The explosion of interest in digital anatomy, virtual humans, visible humans, visible embryos, and even the visible frog project has popularized the concept of computer representations of internal biological and medical anatomy. Two recent Hollywood movies were based on anatomic computer graphics special effects. Multimillion-dollar contracts are being negotiated with computer animation and medical illustration firms for major media outlets (National Geographic and the Discovery Channel). However, the state of the art has not kept up with the demand for much more than pretty pictures and stunning animations. These firms hire a large numbers of technicians to hand segment and retouch manually segmented contour rings from a very large number of slices. Various power assist algorithms are used to reduce the labor intensity of this work, but the size of the raw data sets outpaces the ability of animation staffs to segment, retouch, and render imagery. Computer graphics researchers are developing animation techniques based on this primitive and painstakingly produced geometry. Anatomists spend years developing hand tiled geometric models and animating them. US contractors are failing to meet their milestones and contract deadlines with the VHP data. Firms are leaving the field of medical based animation derived from real data because of the very high costs and long lead times for segmenting desired objects out of pixel anatomic data. Clinical researchers and biological scientists are calling for more data sets of a representative samples of the American population while others are calling for increased resolution imaging of each digitized human. With the potential for a large population of male, female, pediatric, pubescent, adult, and geriatric representatives of each ethnic group, we can expect a very large national sample terabyte scale digital humans. That is one terabyte per sample person so digitized. Clearly, new Level of Detail Management (LOD) technology is required and is a benefit of DMT technology.

This project will advance the state of the art in computer-aided design for biomedical applications, 3D computer graphics, applied computational geometry, rapid prototyping and manufacturing, and robotic surgery. When the PI started this research, the motivation was to produce "correct" isosurfaces for neuromagnetic modeling. Nagging problems with isosurfaces produced by the popular Marching Cubes algorithm of Lorensen and Cline prompted our formalization of a Digital Morse Theory from classical Morse Theory to establish a correct connectivity while moving through all values of iso-threshold. The marching cubes approach is based on a fixed look up table to build triangular tiles in a voxel (defined as boxes with data values at the box vertices). Various fixes to the apparently minor problems in the algorithm are in the computer graphics literature. The flaws were rare, and the frequently invisible in an object with hundreds of thousands of triangular tiles. The fixes solved the problems with small holes in the data in noise by tiling ambiguous cases with a consistent fixed tile orientation. However, for critical measurements and establishing topological, connectivity between objects, in noisy data, isosurface shell models are generally not considered the approach of choice.

The PI's basic research finding was that there are interstitial critical saddle points. The transition in connectivity occurs precisely at that point and threshold value. This saddle depends only on the boxel (2D box element, and voxel face) vertex corners, even for voxels (3D volume element, a 3D cube with volume with data values at the corners). A corollary of this finding is that any fixed lookup table approach to isosurface tiling in the immediate vicinity of a saddle critical point (The so-called "ambiguous" or "4 threshold crossing " tiling cases) results in connectivity errors in general with a probability of ½. Saddle critical points are recognized by their characteristic pattern of high/low/high/low vertex values as we circulate around the boxel perimeter. DMT resolves these saddles by subdividing the boxel on the saddle point, effectively changing it into a vertex saddle point. This is different from tetrahedral (or other simplicial decomposition) composition of an ambiguous voxel, because there are still multiple apparently equivalent tetrahedral decompositions. Tetrahedral

decomposition moves the ambiguity from the tiling to the tetrahedralization. There is no ambiguity in the DMT subdivided voxel/boxel, as it can never have hits (threshold crossings) on the added subdivision edges. Thus, the orientation of the connections changes relative to the critical value. In this way, as we sweep the iso-value through the saddle critical value, there is only one connection change, precisely at the critical value, and no other value [4]Any other change in connectivity is spurious and causes multiple connectivity jumps as we smoothly sweep through the volume element. Further, the wonderful hierarchical nesting property that Jordan Manifold surfaces exhibit is those we expect in continuous Morse Theory. This important property is destroyed under any other rule set.

The PI believe that other graph based analysis of images in terms of isosurfaces or edge extraction algorithm was not successful because of the faulty nature of the surfaces. Graph based image analysis produced complex graphs that were difficult to understand. DMT graphs are by their very nature hierarchical and rooted in the image/volume.

Spillover Benefits are that isosurfaces are widely used in a number of disparate data analysis situations, *i.e.*, petrology, meteorology, forensic image analysis, hyperspectral imaging, image compression, and understanding. Scientists in other application areas will use our server to build market and problem specific application services. SpiderWeb model scan represent turbulent fluid flow shear surfaces, separation surfaces, cavitation phenomena, and other highly intricate surfaces. SpiderWeb models are noise proof, in that they properly model noise instead of breaking apart or connecting incorrectly. We can represent the relationship between intricate fluid flow structures by the DMT graph representation where computer graphics does not reveal internal structures. We expect that research into many important biophysical phenomena, such as cell membrane porosity, receptor mechanics, and enzyme mechanics will benefit from our tool and analysis. From the preceding list of spillover benefits one can see the contribution to the United States scientific and technical knowledge base, as any application that makes use of surface analysis will benefit by using our technology and ASP.

Project team qualifications; The PI formed the prime contractor company, CASI in 1995. The PI has combined expertise in plastic surgery and neuromagnetic functional imaging dating back to the 1980s (Cutting et al 1986) and advanced mathematical theory in the 1990's (Karron 1992). Our original motivation for geometric modeling was derived from research on neuromagnetic brain anatomy structural and functional modeling. The research evolved into work with cinematic cardiac modeling. The company was founded with a Phase I SBIR Grant from DARPA Advanced Biomedical Technology Grant and went on to do a Phase II grant, and a Phase III add on grant. We also obtained DARPA funding for Digital Morse Theory in the Advanced Computational and Applied Math program at the DARPA Defense Sciences Office. Dr. Karron has run the company web site and ISP since 1995. CASI was founded to be a superspeciality medical surgical ISP. Our web site has been on the air for 6 years, and is well indexed by all of the leading indexing services. This is the basis for our inspiration to run a 'computer anatomic foundry' as an ASP. Dr. J. Cox has been working on the mathematical underpinnings of DMT with Dr. Karron since its inception. Dr. Cox has extensive theoretical and practical experience in new algorithm mathematical description, proof, efficiency evaluation, optimization, and coding in C++ and derived languages. Dr. G Wolberg has many years experience in digital image warping, registration, and is an expert imaging scientist.

3.1.1 Technical Rationale

3.1.1.1 Technical rationale introduction and perspective

The goal is to build surfaces that can be used for object modeling and trajectory analysis. Users will make vital decisions based on the distances between objects, surfaces, and points. Lives will depend on these measurements. Many algorithms and technologies from computer graphics are not of high enough quality for these critical applications. Good enough for graphics display, is not good enough; too time consuming, not repeatable, or too expensive for many important medical

[4] Karron and Cox 1995

applications. CASI requires topological surface tiling make correct connections. Geometric calibrations from the source images must be preserved, and segmentation artifacts (i.e., tool marks) must be eliminated or minimized. Where the image is manipulated, the 'cut' surfaces must be clearly marked so that the user knows what is artifact surface. Hand retouching of objects is expensive, time consuming and introduces additional warpage issues, which reduces confidence on these objects for critical measurements. By preserving calibration at the imaging equipment level, we can precisely and accurately manage warpage and coordinate system disparities between multiple data sources.

Technical challenges that display significant recognized uncertainty of success by experts in the field: Computer graphics and computer modeling are distinct fields. Good enough for computer graphics will not be good enough for our surgical and treatment applications. Measurements of biological shapes are made difficult by the lack of best practices and standards in the field. This project will help establish best practices for this emerging field. The field biomorphometrics is contentious. Biological shapes require new technology to understand, measure, and manipulate. There are no straight reference edges, circular arcs, or fixed points on which to base a Cartesian coordinate system. Living things are constantly in motion, over time scales of seconds to years. There are a large number of parameters required to describe geometric regions, and no generally accepted theory for a complete description of an organisms shape, much less for diagnostic and therapeutic manipulations of this shape. Industrial metrology is ill suited for such complexities. We intend to extend the limits of the field

Isosurface methods are be used to provide object geometry. However, isosurface methods are not generally considered a preferred segmentation method. This is because previously we have not been able to calculate or visualize clearly exactly, where a particular isosurface object connects to other objects that we do not wish to include in our intended object (the Segmentation Problem). Indeed, the very surface from an object we wish to extract generally obscures the attachment saddle points where our desired object connects to undesired objects. This has been the major difficulty in three-dimensional isosurface based rendering. Other methods, such as volume rendering, are aesthetically pleasing but do not provide geometric rigor and insight required for future analysis and use. Refinements in volume geometry based on volume imaging do not consider topological issues. An algorithm that fit a surface around a cloud of points, or shrink-wraps a minimal area surface around a volume object, forces the topology to that of a single object. It is possible to iteratively build volume image objects into multiple objects, but it is tedious, expensive, and fraught with geometric problems. Unguided isosurface marching geometry runs amuck, covering adjacent objects and obscuring the scene. For critical applications, such as surgical anatomic modeling, we need properly connected surface geometry. Hand segmented objects contain segmentation artifacts, and do not nest properly inside superior and surround inferior objects. New thinking is required to overcome these difficulties without resorting to brute force segmentation by hand drawing slice wise rings, no matter how quickly a professional segmentor can draw rings. There are always going to be too many slices. Artifacts introduced by the illustrator's hand are unacceptable for precise analysis.

There are serious limitations of the state of the art in segmentation technology and theory. Currently, selecting objects in one slice only is a time consuming and frustrating exercise. The partial solution is that the segmentor can see a portion of the object in the image plane. With rapid 2D contouring, the user can quickly find a suitable contour ring from a seed point. This line represents the intersection of a larger surface through the seed slice pixel image plane. We then use this to seed a three dimensional surface. However, the segmentor may find that the surface may have attachments to other objects we do not wish to include in our desired object. The segmentor will need to hunt down the attachment points and do 'something' damming. This is the current state of the art in segmentation.

DMT calculates the connections (DMT Criticalities). DMT segmentation minimally perturbs the contrast at attachment points to achieve the separation we desire. In RGB space, the segmentor may find that there are attachments in one portion of color space, and a suitable segmentation surface

exists in another portion of color space. The goal of the segmentor menu is to navigate a segmentation surface through color and other (CT, MRI) spaces; a task 3D interactive computer graphics does not make simple or help visualize.

Isosurface algorithms generally over-tile a surface. Each triangular tile is constructed independently of its neighbor. The size scale of the triangles is less than the voxel size, and in a large data set, the number of triangular tiles can become burdensome to manipulate and display, particularly in real time. The current state of the art is to build a marching tiled surface, then use triangle decimation to collapse almost co-planar triangular tiles into one another. This approach generates large intermediate memory consumption (bloom) of having to build a fully resolved surface then decimate it. This approach, while functional for graphic display purposes, is not deterministic. This means the resultant tiling is very different for every seed tile used to decimate a surface. Decimation changes the geometry of the decimated object in an uncontrolled and possibly unsuitable way.

Digital Morse Theory can provide a solution to these limitations in the state of the art. It can be used as a novel basis for segmentation, data fusion, and LOD management. The technical risks are than that the algorithm has not been fully implemented, tested, power tested, and accepted in the image and modeling processing community. The algorithm may have computational bottlenecks as we scale up service to production levels on very large images. We ameliorate this risk by using a heavy-duty computer server that can manage large intermediate calculations and memory requirements.

Related topics are hot research on level set theory, isosurface methods, differential equations, and Morse theory. An exhaustive bibliography is beyond the scope and page limits of this proposal, but we refer to the work of J.A. Sethian, Jack Snoeyink, Chandrajit Bajaj, Robin Forman, Stan Osher, John Hart, Carroll K. Johnson, and others. Some of the key theoretical ideas we seeking to develop in medical modeling (Segmentation manipulation by DMT Graph) were explored by C.K. Wall in "Surgeries on Compact Manifolds" (1964, republished 1970, and 1999) by the American Mathematical Society. Marsdon Morse published "The Calculus of Variations in the Large" in 1932. Our principal contribution to the field is the realization of Morse Theory in discrete representations of the underlying continuous world. We make Morse Theory computable. Very recent applications of Braid Theory in Morse Theory have been discussed in applications as diverse as fluid flow and air traffic control avoidance trajectory planning. The intellectual atmosphere is embracing Morse Theory. CASI's computational approach in Digital Morse Theory will have wide applications that we are most keenly aware. Indeed, medical surgery can be considered changing the topology of the patient; Mathematical and computer surgery on DMT object models is the next step logical step in computer modeling of surgical procedures.

3.1.1.2 What is Digital Morse Theory?

Digital Morse Theory describes the behavior of SpiderWeb iso-valued surfaces (US Patent #5,898,793). These surfaces are composed of a simplicial complex of triangular tiles. The surface has the property of being Jordan (no holes). The surface is manifold (no Klein bottles, with consistent normal vectors, a well defined inside and outside). The surfaces within any particular family are "Morseian," (family member surfaces nest entirely inside or outside each other. As we raise or lower the threshold isovalue, the surfaces arise or disappear at well-defined Morse Criticalities. These are kinds of local maxima, local minima, and various kinds of saddles. The surfaces arise from maxima (sources), disappear at minima (sinks), and merge at saddles. Therefore, by scanning through a dataset, we can identify all these component objects by cataloging only the criticalities by their characteristic bit patterns. This is computationally very efficient.

These SpiderWeb surfaces capture essential inflections (transitions from concavity to convexity) in object geometry. Fine scale features (noise) in the geometry create excessive numbers of triangular tiles. DMT provides a method that can reduce the density of tiling by removing smaller through larger scale geometry features in the surface. This is the basis for Level of Detail (LOD) management. For example, if we are using facial features to define a patent based coordinate system, a

natural fiducial point such as Nasion (the saddle point on the bridge of nose), can, shift unpredictably in triangle decimation technology. In DMT theory, the larger-scale saddle point remains stable while the smaller, noisy surface features are relaxed smaller to larger, in a hierarchical fashion.

A family of isosurfaces is the collection of surfaces that shares a "one to one" mapping for any point on any member surface to any other such member surface. At Morse criticalities, and only at criticalities, does the mapping property change. This is due to the creation of a new object, the destruction of an object, or the connection to another, object. By showing the Morseian relationship between criticalities (nesting), we establish the relationship between families of surfaces. Because the server can quickly find the Digital Morse Criticalities as bit patterns in the data, we have a new, powerful, and fast way to make topologically coherent, geometrically sound, realizable objects from an image data stack.

A Digital Morse Theory Graph (DMT Graph) is a hierarchical linked list (graph) of all of the separable objects in an image. Each object is identified by its source criticality. We cannot see all of these objects simultaneously because most of the objects are inside other objects, and therefore obscured. Computer graphics does not elucidate the relationship between objects. The hierarchical nature of the DMT Graph is derived from the isosurface families being Jordan Manifold.

There are a number of important practical uses for this insight. We can supply instructions to a rapid prototyping system for making any object or collection of objects in our images. We can rapidly manufacture fixtures to hold patients precisely and accurately for RT beam steering. Further, we can define optimal paths between these objects, such as minimal distance paths, minimal height paths, or minimal paths subject to some other type of constraint. Constrains surfaces would include maximal avoidance from no-go regions (blood vessels, eloquent brain cortex, or some such vital structure that must not be affected by our surgical robot manipulator). Very recent applications of braid theory to these Morseian paths may be a very efficient method to calculate robotic trajectories and radiation treatment beam plans.

3.1.1.3 The Fish Tank thought experiment: Counting Islands as the water level changes

The essential insight of continuous Morse Theory can be intuited by a thought experiment. Consider a rectangular fish tank. Into this tank, we pour small quantity of sand such that we have two smoothly sloping small hills, one taller than the other. Now, we fill this tank to the brim with water. We now start a count of the number of island objects as we very slowly drain the tank. Our first observation is that there are no island features in our tank scene. As the water level drops, we observe the water level just coincident with the peak of the tallest sand hill. We notice behavior of the water at the critical peak of the hill. We get a degenerate point island contour, with zero area, zero perimeter, and infinite curvature. A vanishing small change in the water level and this point contour expand into a tiny island. We increment our island object count by +1. We continue to drain water from the tank and observe the birth of the second island at the peak of the second little hill. We again increment out island object count by +1 to two objects. As we continue to observe the drop in water level in our tank, we observe the two island contours expand and grow toward each other. As the water level reaches the level of the critical saddle point between the two hills the island contours touch at precisely the saddle point. We observe that our object count decrements by –1 to give a total island count of one. The essential feature of this rubric is that we only need to count the peaks and passes to inventory all of the object islands in our scene. This approach works even as we increase the complexity of the scene. We can use the same idea of enumerating peak, pits and pass criticalities in a very complex archipelago of island features, at any size scale, or any range of size scales, including noise at any size scale.

3.1.1.4 Why a Digital version of Morse Theory?

Morse theory works precisely because it solves the problem of singularities in data models. CASI will use its digital version of Morse Theory that works on computers with pixilated data, which will yield the same results as continuum Morse theory on analytic Morseian functions. Digital Morse Theory extends Morse Theory to discrete data, such as a digital image. Digital Morse Theory

describes the behavior of SpiderWeb surfaces and objects. There has been significant research effort to build quickly computable surfaces. There is little work on technology that effectively describes all of the isosurface objects in a volume data set. No research provides a practical method of indexing all of these objects in a useful and comprehensive fashion. In order to make Morse Theory work in this digital setting, DMT adapted the notion Peaks, Pits, and Passes in subtle but important ways. We extended the idea of a Peak to include not just a point peak or pit, but plateau peaks, and pits. Criticalities can also be ridges, extremum of curvature, and umbilicus of curvature (a curvature saddle). Saddles had to be extended to include not just vertex saddles (where the saddle point is collocated on a vertex) but also the most common interstitial saddle point. This solved the so-called problem of "ambiguous" voxels. This means that the surface is completely determined, unambiguously tiled, and stable surface representation in any texture or noise.

3.1.1.5 Digital Morse Theory for rapid effective semiautomatic segmentation

The eye sees interesting objects in a 2D image and the mind would like to reach into the image and isolate (segment) that object from the surrounding pixels. If the 2D image is a slice through a stack of slices imaging a 3D volume, we can attempt to segment the entire object from the surrounding voxels, including the unseen portions above and below our planar sub-sample. If we are lucky, we can use 2D isocontours lines to estimate 3D objects. The current state of the art in segmentation is to select a seed location and use that seed to start propagating contours lines in the reference image plane and contour surfaces in the volume image stack. The problems arise where we have a likely looking contour ring object, and use that to seed a volume object surface. What may look appropriate in one slice will frequently run amuck and connect inappropriately to other extraneous objects in other slices. The segmentor needs some guidance as to where the object that we wish to segment in any one image slice will connect to other objects anywhere in the volume image stack; including the currently visible slice, and/or in slices above or below. To make matters worse, the very surface we are seeking to grow obscures the critical features where it connects to other objects.

The current state of the art is to build pixel fences of higher valued pixels to constrain a growing surface. This is a modified kind of image retouching. We are attempting to retouch not the object, but just a vanishing distance beyond the objects' borders. It is retouching almost blindly, in hope that we are corralling our emergent surface appropriately. A lot of fencing may be used in a complicated object. While not all fence objects are required, they will change the shape of the object in the immediate vicinity. In order to guarantee that our surface won't leap over the pixel fence, we have to use a very high value, typically fully saturated white values at the upper end of the image histogram. By raising a high fence around the object, we are changing the strength of the surface. The strength of the surface is the intensity of the gradient normal to the surface. A surface can be weak if the delta intensity crossing from inside to outside is very small, or an identical surface can have a very large intensity change across the threshold value. The only way the surfaces can be independent of the strength of the surface is for the strength of the surfaces be identical at all points. Therefore, any uneven changes in the strength of the surface (which would result from hand carving or hand fencing by changing pixel values) would introduce geometric changes in the surface that we have dubbed 'tool marks'. Typically, these artifactual features are removed by post processing operations to smooth out rough spots. This makes using this technology for modeling expensive, time consuming, and requires an expert operator.

Edisonian invention vs. Advanced Math Insight: The state of the art in image segmentation is trial and error, cut and fit, iterate, and refine; reminiscent of Edison's attempts at managing the voltage drops in the early DC power distribution grids. Edison built scale models of the grid with copper wire, and measured the voltages the subscribers on the grid would see. A young scientist came to Edison looking for a job, boasting that he could calculate the voltage drops without trial and error estimation. Edison needed a hard worker, but resented the hubris of the man. Eventually Edison eventually threw Telsa out. DMT afford a way to directly map/graph the objects in a data volume at every threshold, without browsing or exploring the volume with 3D interactive computer graphics. CASI will move

the state of the art out of Edisonian segmentation and into the deep insight that DMT provides; an application of advanced math to solve a multi-industry problem.

3.1.1.6 Decomposition of pixel image into DMT graph representation

The DMT graph is the first step in the analysis of an image in terms of its surface defined objects. All objects are composed of various implicit isosurface objects. This graph representation is a hierarchical index of all of the component objects in the data volume. Additional information can be encoded into the graph with the geometric shape information of each implicit object. Essentially this operation recodes the image intensity information into a system of peaks, pits and passes organized into parents, peers, and progeny (the PPP to ppp relationship). Further, each component of the object shape can be further graphed as a system of concavities, convexities, and their umbilici (the region between where the surface passes through flat. Since each object is a closed, manifold, this enforces the surprising and useful parent to progeny hierarchical organization. DMT analysis effectively turns a pixel image into a vector drawing in terms of contour line and simplicial triangular tiles.

3.1.1.7 Application of Union and Intersection operations to establish homology between images

Because each related images is a rooted tree graph, we can start matching trees by various graph-matching algorithms we will be designing with our computational geometry colleagues at the CUNY. Our algorithm design approach is based on the idea that the root of an image graph contains all of the area of the image. Each node under the root contains a normalized fraction of the image area relative to the whole of the image. In this way, the DMT graph is a completely dimensionless representation of an image in terms of area/volume fraction and Morse criticality a union image graph is all of the common image features between two related images, such as an MRI and a CT image. It is calculated by recursive descent searching into each node, then sub node. The intersection image is all of the independent features not common between two images. The novel applications of such a graph will be among the most exciting and useful new finding expected to come from this research. We believe that the brain uses this approach for steriopsis and the synthesis of range information from two related points of view. Previous efforts at image graph decomposition were confusing and generally considered not fruitful. Because the SpiderWeb surfaces are Jordan Manifold, they decompose naturally into a tree graph (because the surfaces don't interpenetrate and join only at critical nodes), and the results are natural to understand.

3.1.1.8 Medical Illustration and Medical Modeling

Medical illustration is the communication of a medical concept from the mind of the artist to the mind of the viewer. It is intended as an educational process, not necessary as data display and analysis. Medical Modeling, as we wish to compare and contrast against, is the technology for the building of geometric models of anatomic features. Without suitable tools for the segmentation and modeling of geometry from medical images, medical modeling can become medical illustration using three dimensional computer graphics because of excessive hand retouching and smoothing. While computer graphics is an important part displaying our computer anatomy, computer graphics is not the product and imaging it not out intention. We consider this a biomedical engineering project. However, we recognize that there is a significant need and highly profitable market in medical illustration and animation industry that we can serve and derive a significant revenue stream. This is because our technology can reduce the extreme costs of preparation of high-resolution anatomic images and animations significantly.

3.1.1.9 Computer graphics and the curse of dimensionality

As technology provides us with more raw data channels, at faster rates, at greater resolution, our ability to comprehend it is limited by our ability to visualize it in three dimensions, in three primary colors, interactively. High-speed interactive computer graphics, and advanced rendering algorithms, require slow, careful, and expensive examination of the spatial nature of the data by a dedicated expert. Each channel of information may be dependent on each other. Additional resolution may not increase our understanding of the relationship between objects. We need new ways to understand higher dimensional data where computer graphics overwhelms the visual system of the

observer, or requires extensive interactive exploration, observation, and analysis of an expert operator. As technology give us more channels of data, computer graphics can compound the "curse" of too many dimensions of data.

A DMT graph based topological understanding of complex higher dimensional (Color, CT, MRI, PET information dimensions) spatial relationship is our proposed "cure" for the "curse" of higher dimensional data channels. This is because a topological relationship can be represented independently of the dimensionality of the data; A ball in 3-dimensions is one node on the graph, as is a ball in 20 hyperspectral colors.

3.1.1.10 Description of technical challenges and barriers we will tackle

3.1.1.10.1 DMT for image segmentation

Segmentation for precise and accurate application requires the segmentor make no, or minimal changes in the image. For many images, we only need to find a path (segmentation plane) around an object. Where none exists, we need to 'carve' one. We require well-defined minimal 'surgical' changes in the image such that we minimize warpage in the resultant objects' geometry. We define a 'DMT Segmentation Operator' to manipulate connecting saddle values to enable wholesale connection or disconnection of objects; effectively carving (separating) and gluing (joining) objects with single mouse clicks.

In noisy data, or when segmenting in uneven difficult geometry (blood vesicles, nerves, thin bone), in order to separate an object multiply connected to its proximate objects, we have to introduce additional contrast to separate the desired object. We can restate the problem; what pixel locations with what value changes need to be applied to achieve the separation we specify. We employ a contrast mask image layer, to preserve the original pixel data values. Using the DMT graph, the user select the most proximate saddle nodes and applies the 'segment' operation to elevate or depress saddles as required to parse an object from its neighbors. We then mark this 'cut' surface so that we are aware that this is an artificial surface. As we make only the minimum changes in gradient, we minimize the introduction of 'tool marks', and maximally generate a smooth cut surface. Preliminary testing of this procedure has been most promising.

3.1.1.10.2 DMT for image registration

Image registration is any of a number of methods that translate, scale, and rotate an image such that common features in both images are made to be co-incident. The determination of the common features, or homologous points, lines, and regions, is typically specified by a technician's eye. The popular animation effect of morphing one (somewhat) related image into another image requires a lot of human interpretation to specify which points and image regions are to be warped into another. An important application in medical imaging is the combination of multiple imaging modalities into one image representing the fusion of features between both images. Manual determination of common features, particularly in cinematic medical image series, can be time consuming and expensive. Automatic or semiautomatic methods are needed. Digital Morse Theory provides a new means of image understanding to identify common features between one or many images.

3.1.1.10.3 Registration of images by DMT union operators and digital image warping

The goal of registration is to recognize homologous features in disparate view of the same scene. Decomposition of disparate images into DMT graphs is the approach for this project. An example would be calculating range information from two closely spaced Point of View (POV) images, or varying the MRI pulse sequence progressively from one sequence to another. At very small POV disparity (in distance, or pulse sequence), we increase the disparity between the two images. We will conduct experiments where we continuously calculate the DMT scene graph from two views with increasing disparity between the views. Our aim is to validate algorithms for calculating the DMT Union and Intersection graph. With a validated algorithm for calculating the Union between two scenes, we can do fully automatic registration between scenes and solve an important problem in image fusion, automatic steriopsis, and the CASI modeling service.

We can register disparate but similar images by calculating the common features of the images (union) without the disparate features (the intersection of the images). From the union graph, we can calculate the digital affine transform required to match each homologous node to occupy the same space (An affine matrix at each Morse criticality node). We can then apply the intersection image at each parent node to generate a topologically correct but warped to fit the union fusion image that is geometrically calibrated by one of the images' calibrations.

3.1.1.10.4 Bandwidth management

DMT based representations can be used to transmit an image from large features to progressively smaller images. This will be an important spillover benefit, in that we will be able to send images efficiently through limited bandwidth by organizing the image for transmission from largest to smallest component. We will be able to transmit a pixel image without drawing any pixels. We will transmit the image as large component contours first. Successively smaller and smaller contour objects will build on the client web browser, but the essential geometry of an image will build in the first data packets of the image. We will draw the vector geometry of pixel images at significant bandwidth savings. That way the image will more quickly recognizable very early in the image build process. Optimized picture transmission over the web important for sending images echoing clients data back down to clients browser.

3.1.1.10.5 Trajectory planning for surgery: Braided Digital Morse Theory

The state of the art in Surgical Robotics is remote actuators with video and/or haptic feed back. A true robot has some algorithm and model about the environment it is attempting to navigate. Improved algorithms for navigating inside the body are required which need models from which we can calculate internal trajectories. This is a technical challenge we believe we can tackle in this project because we can calculate optimal paths between criticalities. Between two peak criticalities, there must be a saddle criticality. New Variational Calculus and Morse Theory methods can provide a "least distance" or "minimum height" path between the two. We will research new concepts in Braid theory applied to DMT (Braided Digital Morse Theory) with Braid expert Professor. M. Anshel.

3.1.1.10.6 Trajectory planning for Radiation Therapy Beams

A particularly difficult tumor location to treat with radiation or electron beams is the breast. The goal is to destroy the cancerous tissue, which may or may not be a well-defined mass inside the breast, overlaying the thorax and in dangerous proximity to the heart and lungs. Patient fixation and re-fixation during the course of radiation therapy is difficult. In the current state of the art, it is expected that collateral damage be inflicted to the heart and lungs during high-energy breast RT. CASI and its clinical collaborators at NYUMC believe that with better modeling of the breast, the tumor, and the thorax, we can design better therapies. RT requires serial models the tumor during the course of therapy. CASI will be able to build models of critical organ geometry, design fixation jigs for the patient, and beam trajectories.

3.1.2 Assessment of success of the project approaches and alternatives

Our assessment of the success of this project is based these positive and negative features of our proposal:

3.1.2.1 PLUS

We have a comprehensive new theory that solves important problems in the state of the art in a number of fields. The theory is proven, and based on classical Morse Theory, and is a hot research topic (Braided Morse Theory, Level Set Theory, Contour Trees). The principals and faculty are world-class graphics programmers, applied mathematicians, expert in algorithm design, optimization, and complexity analysis, expert in ISP and web site management, and the DICOM Imaging Instrument interchange standard. The PI's preliminary results with 2D RGB (color) Visible Human project data are encouraging.

3.1.2.2 MINUS

The utility of our new algorithms are not established in surgical or radiological practice. The software is written as academic demonstrations and proof of concepts only. Significant work is

required to make the applied math solve our customers problems. We need to educate technologists and professionals in the field, as DMT graph segmentation is based on a new paradigm. Technical superiority of a new algorithm alone will not necessarily lead to widespread acceptance. The delivery of a solution and the ease of its use can be more important to market adoption.

We must understand the biology as well as the anatomy of what we are modeling. Using only anatomic imaging to attempt to pin down issues of precision, accuracy, in a living, highly variable, perverse human population is going to fail. Intraoperative visualization is the way to get geometric feedback for accurate geometric placement, but it will not necessarily improve patient treatment results. Functional imaging may show that the source of pathology is not at the center of the anatomy. Functional imaging (functional MRI, volume impedance tomography or neuromagnetic source imaging) will ultimately be the solution. CASI DMT can manage issues of precision and accuracy in data fusion between widely disparate resolution scales typically found in functional images fusion. The biology of the pathology will most certainly complicate the geometry in novel and exciting ways.

3.1.3 Implementation details rational

The main interface to the CASI system will be by connecting to the CASI web site at http://www.casi.net/ and logging in via a secured socket level connection, with all image and model transactions encrypted to the appropriate privacy standards for patient information (HIPPA). There are two fundamental operations on the server. The first is uploading raw image data and then generating the topological decomposition and recoding into a DMT graph. The DMT graph indexes each object in a volume, and each feature in the object geometry. The graph of a volume contains the same information as the pixel data; but in a hierarchical segment able object format. The second fundamental operation is tiling from a node on the DMT graph. The model is created at a bandwidth appropriate tile density and downloaded to the user. This is possible at interactive speeds because the DMT graph is an index into the volume, enabling rapid segmentation and model generation.

The model server is the heart and soul of our effort, the "forge" through which pixels become anatomy. Raw image stacks are uploaded. A DMT graph is presented back to the user. As the user moves the mouse, tiled models are forwarded to the client for real time interactive approval or further pick, drag and drop assembly.

The radiological client user will log into their account at CASI, on a client machine on their local network, which will also connect to the imaging equipment via the radiologist facility TCP/IP net to a DICOM (Digital Image Communication) protocol for interchange of medical images that runs on all medium to high end medical imaging equipment. Each radiological facility will provide access to its imaging equipment image files. We will write code that will enable the client to push the code up to the server, or the server will be able to automatically pull client images as they are produced. The images and associated patient identifying information will be encoded and encrypted to HIPPA (Health Insurance Portability and Accountability Act of 1996.) Software features are a universal file and directory recognition system, that can learn the format of any medical imaging instrument file format, and any popular digital image format so that installation in a client radiological site is quick and trouble free. We will also build a universal calibration service into the radiological client. Most imaging equipment has maintenance contracts and quality assurance requires that the equipment be calibrated by imaging an imaging phantom with known geometry and dimensions. We propose to provide a uniform calibration service to insure uniform model fidelity for all of our client images. In that way we can provide a cross instrument, cross instrument manufacturer, calibration standard so that our geometric models are of well defined quality, independent of the standards of instrument care the client maintenance standards call for, and meet CASI defined standards.

The design goal for the referring physician client software is to have immediate access to the imaging study and minimize the work required to do a three-dimensional work up. The referring physician, the attending surgeon and any of the consulting caregivers authorized by the referring physician, can access the images, the patient models, and any study tools, annotations, and other material. This may include medical illustrations, reference materials, annotated treatment plan models,

pre, post treatment photographs, intraoperative photographs, and so on. The materials may be to educate the patient as to the upcoming procedure, document the procedure plan, report the procedure results, or even sell a prospective case to an uncertain patient. Because we are going to be doing interactive three-dimensional computer graphics on the downloaded anatomic models, we will enforce a minimum level of graphics resolution and triangle rendering speed by the client. These standards are approximately the same as available in any high-end computer video board with OpenGL support. These boards cost approximately 100 to 1,000 dollars with a polygon draw rate of at least 30 million illuminated, z buffered triangles per second. This a standard value for a PC workstation class graphics accelerator board, or a high end computer game OpenGL board

The patient client software can display study models permitted to the patient by the referring physicians' client. This is a limited functionality physician interface. In this, the physician can educate, inform, or sell the case to the patient.

We will use VHP RGB data and register the base anatomy to the CT and MRI patient specific images. We will build detailed models that contain the diagnostic information particular to the patient. Our goal is to generate a fused composite model of the patient, containing standardized anatomic data scaled and registered into the patient coordinate system, to provide color and other inferred structure detail that MRI and CT do not measure. As we validate our code, and the radiology facilities client code approaches completion, we will move to using patient specific MRI and CT source data.

Level of Detail (LOD) management is key to the commercial success of this project. The models, as built on the server will be over tiled (have more triangles than required to solve most modeling and trajectory problems). Delivery of the product models and images to the client computer must be appropriate to the available client bandwidth, display resolution, and the client computer storage capacity. Interactivity requires rapid LOD management so server downloads only enough detail to permit the client computer to display the model on its OpenGL graphics accelerator subsystem. Failure to achieve the desired bandwidth and latency by the project termination data will be offset by the expected growth in next generation Internet bandwidth and yet even faster graphics chip sets. Should hardware technology obviate the need for an extensive LOD management subsystem, we will scale back our effort in this area appropriately.

We will close the loop with our users by installing a click stream subsystem to monitor how our users interact with the selection/segmentation menu. From are able to optimize the interface to minimize the selection, and segmentation clicks required of our users. Selecting objects can require a lot of picking and selecting on a deep the DMT graph menu. We expect that most users will make canonical selections, and by monitoring patterns in the selection behaviour, we believe we can intuit users intention, taste, and desired objects after they make similar choices in different patient datasets. As our system gains experience with alpha testers ad users, we will test to see if this facility makes using our system intuitive and decreases each users number of selection clicks to find the models they wish. In this way the user interface and the speed and quality of the users' modeling effort is improved.

We will build a Radiation and Oncology Physician Client Interface that implements special features requested by our Radiation Therapy (RT) collaborators at NYUMC. We will use our core technology to segment and build models, but also track successive tumor model changes during treatment, develop beam trajectories (via Braided DMT) through the target (the breast tumor) and no-go regions (the lungs and heart). We will develop ablation isodose isosurfaces (surfaces of dosage intensity great enough to ablate tissue), and low dose isodose surface (the surfaces of dosage intensity safe for healthy tissue), for no go region. We will build union and intersections of these organ and isodose objects using our DMT graph technology to highlight dangerous problems before the patient is hurt, and to validate treatment plans prior to treatment.

We will begin by doing breast cancer cases using the generalized physician client with the radiation oncology department at NYUMC. We will be building patient models from CT slices, and modeling tumors during the course of treatment. We will also develop isodose surface maps of total radiation absorbed as well calculating beam trajectories. Our goal is to minimize the radiation dosage

in the thorax and maximize dosage in the targeted tumor. The research challenge is to do difficult beam trajectories that the department software cannot manage because of the geometric complexity or lack of critical organ models.

We will build a Neurosurgical client interface, to provide steriotactic brain surgery planning for keyhole surgery. We will incorporate features requested by our Neurosurgical colleagues at St. Louis University (SLU). We use our modeling technology to build no go regions such as articulate un-diseased brain and major blood vessels, and the target region we wish to biopsy, ablate, or deliver therapeutic agents. We can model the union of the no go regions and the access path to validate surgical plans prior to surgery. Any volume in that object class will immediately flags a problem.

3.1.4 State of the art before project:

The current state of the art for anatomic modeling is hand pixel picking or semi-automatic power hand assists (snakes, dilation / erosion operators, flooding regions, etc.), drawing contour rings, sewing a surface between rings. Marching cubes and friends tiles all objects at a threshold value, regardless of their connectivity. Various advanced techniques require hand drawing pixel "dams" to contain surfaces from spilling into inappropriate regions, or "roughing in objects" prior to contouring. These techniques distort the object geometry, are imprecise, create tool marks, and other dimensional instabilities. They require an expert operator, are not repeatable, even with the same operator on the same data. Critical radiation therapy simulation modeling for beam trajectory planning is done by the seat of the pants, line of sight, with insufficient computational geometry support on physical simulators. Robotic surgery is not; there is no theoretical, robotics technology to makes calculation of intraoperative trajectories possible without good anatomic modeling. Currently, neurosurgical trajectories are typically simple straight lines avoiding large internal obstacles (blood vesicles or eloquent cortex). Anatomic computer animation for medical or commercial illustration requires many technicians working on multiple packages doing hundreds of hours of hand editing to make seconds of finished rendered animation frames.

3.1.5 State of the art after project

Within three to four years from the start of this project, segmentation will be accomplished in seconds; simply by moving a mouse over a DMT graph (specifying a threshold value and parent criticality) browser widget, and immediately seeing the 3D object selected. If the object is not simply selectable (the desired object is has multiple connection nodes to other objects), the user can click on the graph node to have the proximate connecting nodes disconnected by changing the minimum number of pixels the minimum contrast. Surgical robots will use real time updated anatomic model information to navigate deep inside the body. Difficult to reach breast tumors will be treated with no burnt lungs. The segmented models will be precise, accurate, and suitable for Hollywood computer animation, deep brain surgery, and high school student science fair projects. The technical leverage of understanding surfaces, objects, and being able to manipulate them adroitly are manifold. Any engineering or scientific application that typically uses isosurfaces for analysis will benefit from DMT graph analysis.

3.1.6 Technical leverage into a broad spectrum of spillover benefits

The technical leverage of understanding images, surfaces, objects, and being able to manipulate them adroitly are manifold. We will be able to effectively transmit large pixel images as nested large to small contour objects. Any engineering or scientific application that typically uses isosurfaces for analysis will benefit from DMT graph analysis.

3.1.7 Technical Rational and Advancement of the State of the Art (TABLE)

Figure of Merit	Projected Technical Targets	Current State of the Art	Technical Barriers	Innovative Approach
Resolution (Distance)	No Resolution Limits	1/3 mm pixel size	Scanner device pixel size, typically, imaging devices produce too many pixels to use all of information effectively	Vector from pixels
Effort (Time)	1,2 seconds, possibly interactive speeds (1/30th second)	Hours, days, weeks	Patience of operator, excessive resolution of image data. Objects to be extracted require specifying every pixel, or every perimeter pixel.	DMT Graph specified objects are hierarchal, so groups of objects can be manipulated instead of individual pixels. Single mouse clicks segment complex objects
Cost of Professional Effort	200.00 to 500.00 / man hour	10.00 / man hour	Low productivity of current algorithms and software	
Accuracy (Standard Deviation Distance)	< 1 pixel	> 4 pixels	Segmentor technician hand work; Movement of patient during surgery, time interval from imaging to treatment cause measurements drift	Rapid modeling minimizes changes due to time delay from imaging to treatment. Real time intraoperative modeling possible
Patient Results (Percent Improvement)	95 %	45%	Precise determination of pathology location	Accurate and precise modeling preserving imaging calibration

3.2 Research and Development Plan

3.2.1 R&D Plan overview

The development strategy is a simultaneous attack on the math and implementation problem; algorithm design, and software engineering problem. The principle division of tasks is between the user interfaces (client side Java development) and the DMT image recoding, graph generation, union and intersection matching, Level of Detail (LOD) management, bandwidth management, and warping tasks (server side math and remote graphics). The PI will program the DMT decomposition and graphing code. A core algorithm research and programming team will be assembled from the faculty and PhD student pool. Dr. Wolberg will program manual and automatic image registration. CUNY faculty will do algorithm development and analysis. NYUMC RT and SLU Neurosurgery faculty will be our alpha clients. PhD students with Java and C++ experience will program the client side browser plug-ins. The math research milestones are the development of the server image graphing, matching, registration, and LOD management. CASI will launch its alpha test network based client-server image-processing services directly to the public, to imaging facilities and physicians (and their patients) even before all of the server services are functional or complete. By having the client technology base working, even at mock-up prototype functionality, CASI will transition research milestones rapidly, effectively, and explosively diffusing the technology into clients' lap (tops).

3.2.2 Technical Barriers Overcome by CASI that will yield Economic Benefits (TABLE)

Technical Barrier	New Technology	Economic Benefit
Extensive, expensive human segmentation by pixels, hand drawn contours, hand drawn pixel dams, segmentation snakes, and other current ineffective technology: Imprecise and Inaccurate	DMT critical point manipulation precisely segments objects.	Creation of new market low cost computer modeling Cheap patient specific graphics and animations,
Smoothing operations on hand segmented objects: Warps object geometry	Maximal smooth 'cut' segmentation surfaces	Reduced dependence on student and technician for retouching and smoothing
Dimensional Fidelity of segmented, smoothed objects: Inability to preserve of instrument calibrations from image to model		Increased market in patient specific imaging and modeling,
Robotic Surgical Planning: no technology to calculate in patient specific model anatomy; no way to model constraint space (no-go regions); no way to calculate optimal trajectories	Braided Digital Morse Theory for paths between features	Better surgical results, Less insurance costs, Lower hospitalization costs, Less hospital time, Less disability payout, Increased worker productivity

Radiation Treatment Planning; inability to get precise and accurate simulator models; no technology to calculate optimal beam trajectories subject to constrain spaces (no-go regions):		NO surgery required, Better treatment results, Less insurance costs, Reduced hospitalization costs, Less disability payout
Treatment Results Evaluation: repeated hand modeling of tumor or target organ during therapy too expensive, imprecise, and labor intensive	Reliable tracking of tissue morphological changes from radiation or surgery over time	Quantitative measure of treatment effect (Tumor volume shrinkage, qualitative morphology improvement, etc)

3.3 Statement of project tasks and anticipated accomplishments

3.3.1 First year project milestones

For the first project year, we will focus on algorithm development and implementation to efficiently produce and manipulate the images and models by their DMT graph node. Concurrently, the client side interface team will design, mock up, and write browser-based interfaces for our intended medical imaging shops and clients. This will demonstrate of DMT principle of producing map of objects that do not require contrast enhancement to be parsed out of their proximate objects. We will boot up our network services server on the Internet.

3.3.1.1 MILESTONE 1: Server live on Internet

We will launch our project with the purchase and configuration of the CASI project web site server.

TASK: install the project management software, and establish protocols for collaborative programming with the team members.

3.3.1.2 MILESTONE 2: Public client mock-up facility life on Internet

Publish concept mock up our system into which we will insert the real functionality as that milestone is achieved.

TASK: Design various user interfaces for radiological, RT, Neurosurgical, patient and public use classes.

3.3.1.3 MILESTONE 3: Surface tiled models from DMT graphs

Generate a tiled surface model in RGB Color image data from a user selected threshold value and a DMT graph node.

TASK: Program SpiderWeb algorithm and DMT graph decomposition

3.3.1.4 MILESTONE 4: Generate DMT graph from image stacks

Generate DMT Gray scale graph from MRI and CT from the VHP. Generate DMT graph of the color (RGB) VHP pixel data. We will use the female 'Eve' data set, and do the thorax and abdomen.

TASK:

3.3.2 Second year project milestones

The second year of the project will focus on the DMT segmentation operator and registration, then delivering them into network clients.

3.3.2.1 MILESTONE 5: Gray scale and RGB Image graph matching (registration precursor)

We will build the union graph of the RGB and one or more of the CT and MRI image stacks for manageable subset of the VHP data.

TASK:

3.3.2.2 MILESTONE 6: Segmentation functionality demonstration

Using the public VHP data, we will demonstration on the website DMT graph selection of component objects. Users will select DMT objects from the RGB, CT, or MRI data sets. DMT segmentation operator demonstration, by clicking on the DMT graph node, the user will move saddle connections up or down to connect or disconnect objects.

TASK: Write saddle criticality navigator (finds segmentation plane if possible), else edit saddle values to edit DMT graph edges.

3.3.2.3 MILESTONE 7: The Patient, RT Physician and Steriotactic Neurosurgery Client demonstration goes live

TASK

3.3.3 Third year project milestones

CASI focuses on the problem of object registration and delivery of reduced density images and models.

3.3.3.1 MILESTONE 8: Registration of models by DMT graph demonstration

We will demonstrate the union and warping of DMT graphs from selected subsets of each data set resulting in a fused model.

TASK:

3.3.3.2 MILESTONE 9: Level of Detail management 10-x reduction in tile density

We will demonstrate a minimum of 10-x reduction in tile density, with a maximum reduction of tile density of an object into a tetrahedron (4 triangular tiles).

TASK:

3.3.3.3 MILESTONE 10: Segmentation click stream learning captures segmentor insight

We will demonstrate a 10x reduction in the number of clicks to segment major components by learning patterns that will enable us to intuit objects to segment.

TASK:

3.3.4 MILESTONE PROGRESS (TABLE)

N	Major Project Tasks	Project Time			Cost in $K	Major Milestone
		Y1	Y2	Y3		
1	Server hardware installation and software configuration task				412.5	Server live on Internet
2	Public client mock up facility design task				111	Public client mock-up facility life on Internet
3	Program SpiderWeb surface tile generator task				111	Surface tiled models from DMT graphs
4	Recognize, sort Crits, connect; graph display code task				202	Generate DMT graph from image stacks
5	Write node figure of merit, sorting, matching code for Union and Intersection operator				210	Gray scale and RGB Image graph matching (registration precursor)
6	Write saddle Crit navigator and editor				210	Segmentation functionality demonstration
7	Write DICOM, upload, download compression, encryption, radiological, referring physician client				210.5	Web based upload and download of raw images and tiled models
8	Node warping code				211	Registration of CT and MRI to VHP Base Anatomy
9	Level of Detail Management				211	Level of Detail management 10-x reduction in tile density
10	Install clicks stream technology on clients; collect data from alpha users				221.5	Intuiting segmentation from users

3.4 How will our project handle technical and managerial problems we will encounter

3.4.1 Computational load problems in larger scale image stacks

There may be complexity issues as the images scale, the number of image dimensions increases (independent or dependant image channels). Scaling up to a production system may overload the server, or increases in image resolution in future CT and MRI systems may similarly overload the server. Interactivity may suffer. The NP completeness of these algorithms has not yet been analyzed. Software optimization as well as new capital to buy a larger server may required as we process more and larger alpha client datasets.

3.4.2 Computational intermediate solution memory "bloom"

Registration of large images with disjoint area may cause problems. If the two images have the same borders, then the root of the graphs will be the same and graph matching can start at the same depth levels on each graph. If the two images are disjoint, i.e., there is only a small common area between the two images, and then the graph-matching algorithm will exhaustively search for matches in the regions where no such match is possible. This unproductive searching may cause problems with excessive temporary memory requirements. Images that have no common features may produce

spurious matches, perhaps matching textures and small features only, while assigning most features to the intersection list

3.4.3 Automatic registration problems: managing matching incomplete graphs

An incomplete graph is a graph of a portion of the object that we wish to register. It is important we start with a complete view of the structure we wish to register, but the algorithm should be able to find the best matching node tree segment by exhaustive searching.

The worst-case situation is that automatic graph matching cannot be made to work fully automatically to our satisfaction. In that situation, and until we can design a fully automatic graph matching algorithm, we will ask users provide a starting point on graph pairs to the matching process.

3.4.4 Segmentation of difficult images

A difficult image is an image that contains features that distort isosurfaces on a large scale, and or fine grain noise that causes a very large number of small noise objects. We can eliminate small-scale features by truncating our graph below an object size, typically on the scale of two or four pixel lengths. Large-scale distortions include bright MRI antenna fields, a 'tilted' image background, where the image is distinctly lighter on one side, and darker on another side. Other problems we have encountered are bright 'hot' spots produced by MRI pickup antennas placed directly on the patient to improve image resolution in the immediate vicinity. This causes an intense detailed and bright hot region whose brightness decays away from the antenna. For those images, we have to model and brightness compensate the antenna field.

We are prepared to do additional traditional image processing, even hand editing, as part of our technical assistance to the user, until we can design and implement automatic methods to minimize this kluge step. This experience is a necessary and unpredictable part of dealing with real images that we expect from our clients.

3.4.5 Management issues

Access to necessary research facilities by proximity; We will have access to offices of the City University of New York (CUNY) Graduate Center (GC) on 34th street and 5th Ave, a short distance from CASI on 33rd street and 2nd Avenue. Team programmers will have the option to work directly on the machine for very fast image rendering, and manipulation, or work from PC clients on site or remotely. Clinical collaborators are all well Internet connected, and mainly at New York University Medical Center (NYUMC) on 34th Street and at St. Louis University (SLU). As we move from computer modeling to clinical modeling, we expect to be working extensively on site at the Radiation Oncology facilities directly across the street from CASI. The PI has many years standing as former faculty at NYUMC and collaborations there are easy to negotiate as required.

3.4.6 Fostering a team approach and team member communications

3.4.6.1 Project Management Policies

We will establish a simple task delegation and completion policy, as well as regular weekly face-to-face meetings at CASI and at the CUNY Grad Center. A good interpersonal working environment is vital to any network based collaboration with deadlines, milestones, validation tests, release dates, and other organizational stresses. We will also sponsor bi-monthly retreat activities to relieve stress and to foster a unity of purpose. We will hold quarterly progress reviews, and in the second year, start a monthly business development meeting to focus on marketing our emerging technology and recruiting alpha test customers.

3.4.6.2 Project Management Software

Our company will use an open source development model. Open Source developers use SourceForge for network access to source code version management systems (code check-in, check out), mailing lists, bug tracking, message boards / forums, and task assignment, ownership, completion, and management. We will install the SourceForge project management software as private instance of the popular open source collaboration SourceForge.net web site. The principles behind SourceForge are use to hosts more than 12,000 open source projects.

We will support a DMT project at the CUNY Graduate Center on 34th St. and 5th, directly

cross-town on is NYUMC. The CUNY Institute for Software Design and Development (CISDD) is a University Consortium that will act as the conduit for this project. The computer team is a short walk from the clinical facilities, which is crucial for fostering communication with our ultimate clients and customers.

3.4.6.3 Team members (TABLE)

Name Core Members	Affiliation	Role, Expertise and Task Areas
Professor D. B. Karron, PhD	CASI PI, CCNY	PI, DMT Inventor, C++, Computational Geometry, Computer Graphics, Algorithm Development, Will write DMT recoding core on server, market technology to prospective alpha customers and industries
Professor G Wolberg, PhD	CASI, CCNY	Lead Programmer. C++ programmer, algorithm development, digital image warping expert
Professor J L. Cox, PhD	CCNY	DMT developer, Theoretical computer scientist, analysis of algorithms.
Consulting Members		
Professor M. Anshel, PhD	CCNY	Encryption, Braid Theory, computational geometry, development of Braided DMT for Trajectory Planning and Analysis
Professor G. Herman, PhD	CCNY	Theory of surfaces, image segmentation, digital topology
Professor F. Bookstein, PhD	University of Michigan	Morphometrics, medical imaging and applied math
Mr. E. Gurfein, MBA	Meridian Resource and Development, Ltd.	VC fundraising for biotech, medical device, and chemistry startups; engineering venture capital, financial management and technical marketing
Clinical Participants	NYUMC Radiation Oncology	Breast cancer warrior using radiation therapy beams.
Chair S. Formenti, MD PhD		
Professor J. K. Dewyngaert, PhD	NYUMC Radiation Oncology	Radiation physicist; Specialist in prostate \cancer research using radiation and brachiotherapy
Professor and Col (Ret) R. A. Satava, MD	Yale University Medical Center Department of Surgery	Endoscopic and Virtual Reality in Medicine pioneer
Professor L. Liebis, PhD	NYU MC	Instrumentation specialist. Statistical epidemiology,
Chair R. Bucholz MD,	St. Louis University Medical Center, Department of Neurosurgery	Endoscopic surgeon and medical technology entrepreneur Neurosurgeon and steriotactic neurosurgery system inventor
S. V. Grasso, MD,	Stevens Institute of Technology and TIMA	Technology for Medical Integration (TIMA), robotic surgery expert and promoter
Post Doc/ Visiting Scientist	Graduating from Mayo Clinic Medical Imaging PhD Program	C++ image programming registration and warping, 3D modeling,
J. Patrichare, PhD (expected 2002)		
PhD graduate students	CUNY Graduate Center	Java programmer, System administrator, Web site designer and user interface tester
To be named; 3 total		

3.5 Potential for Broad-Based Economic Benefits

The nation will benefit by improved health care that will prolong the quality of life. Reduced employee sick leave will decrease disability related payouts and reduce costs to insurers. The efficient use of medical information will produce better yield on capital in imaging technology. Better patient and physician communication, treatment results, and patient satisfaction will result in less litigation and insurance costs. CASI will create new markets for model-based information as the core competency is established that will go beyond our initial Radiation Treatment project. As the medical imaging industry matures into the medical modeling industry, CASI will seek new markets for services, only dreamed of at present.

High technology medicine is widely viewed as beneficial the public, mainly because of the probability that any one of us may unexpectedly become the beneficiary of a new life saving therapies; However the costs of such technology to insurers, taxpayers, and the underinsured can be staggering. Expensive new hardware and drug offerings bombard the medical market. In a life-threatening situation, these high costs are relegated to a lower priority. When the bills have to be paid, and policymakers review galloping high technology medicine costs, they must consider the value to our society of "big iron" capital-intensive purchases such as multimillion-dollar diagnostic imaging facilities and therapeutic equipment. The value added to our nations' economy is that CASI will be a filter and conduit to increase the worth of this investment, by increasing the ability of medical

diagnostic imaging to accomplish its promise: Save lives and keep us healthy.

3.5.1 National Economic Benefits

America is underutilizing the product of its diagnostic imaging capital base. The medical imaging industry is not making the best use of the mega pixels of patient data these systems generate. From an information theoretic perspective, we estimate that 99% of that information is not contributing to the making of therapeutic decisions. We are not disseminating this information to all concerned parties rapidly and effectively. This is partly because we do not understand, use, or effectively model the important features in these images. This is because of limitations in the state of the art for understanding modeling key features, and applying this information in rapid and effective ways for broad base of radiologists, physicians, surgeons, and therapists. Further, we need to make it understandable to the ultimate customer, the patient, and / or the patients' family. New picture archiving and network distribution systems are helping to manage the raw data, the Next Generation Internet can make more of the raw data move faster, but the nation needs better technology to understand these images, make consistent precise patient specific determinations, and maximize the effective use for this data as essential insight. CASI will decrease the entropy and increase the pragmatic value of medical pixels by winnowing them down to geometric models, trajectory vectors, and critical points.

Customers include any radiologist, radiology practice, imaging facility, medical center, and associated diagnostic or therapeutic practitioner. The patient needs to be kept in the loop as the ultimate paying customer, and consumer of the therapeutic decisions based on this information. The customers that will benefit the most are any interpretative method of CT, MRI, PET, SPECT, etc. that currently is hand contouring stacks of images prefatory to designing a patient treatment, are evaluating the ongoing results of treatment. Similarly, anyone attempting to spot critical surgical targets, such as in steriotactic brain surgery, by sighting by the center of blobby objects in hundreds of slices will be a customer. Radiation Therapy (RT) practitioners were most eager to find better methods to eliminate this time consuming drudgery in their practice.

Competitors are scattered across various application area, using mainly volume rendering technology instead of shell surface technology. Most imaging companies are focused on one technology, almost to the exclusion of other application areas. Typically, these firms arise from image consulting firms working with one large customer with a specific application in petrology, histology, computer graphics, and so on. There are general-purpose visualization systems sponsored by government research labs (NCAR), and commercialization of large university programs (ANALYZE from Rich Robb's group at the Mayo Clinic), 3DVIEWNIX (From Jay Udupa's group at U. Penn). Commercial packages include Voxel View, AVS (Advanced Visualization System), Resolution3D, Khoros, IBM Data Explorer (DX), Iris Explorer, VTK tool kit (From Kitware) are but a few of the more popular general packages. Some have exceptional interactivity based on their optimization to special graphics accelerator hardware, now common with the explosion of the computer game industry). Many have intricate and comprehensive facilities for hand segmentation, contouring, snake segmentation, thresholding, flood filling, edge detection, marching cubes, and so on. None have anything that approaches the power and insight that Digital Morse Theory based segmentation can do to simplify many segmentation tasks. We will never manage to penetrate such a broad spread of markets, but we expect that we will license our technology and that will become an important source of revenue and diffusion of our technology and theory into the industry and broader national economy in ways we can barely foresee

End users are generally serviced by consultant using any of the above visualization packages. We will focus initially on the niche markets of Radiation Therapy and Neurosurgery as vehicles to develop our core technology. However, most of direct users will be software developers integrating our technology in their software packages for use by their individual specialty markets.

It is our plan to license our technology to other industries that can apply our technology are industrial non-destructive testing (industrial CT), meteorology, metrology, histopathology imaging,

entertainment industry animation, medical illustration, commercial computer graphics for advertising, virtual reality, air traffic control, multimedia, medical education and training, simulation, topography, mapping, surveying, (not topology) fluid mechanics and dynamics modeling and visualization, hyperspectral scanner imaging, Earth Imaging Systems (for interpreting satellite imagery)

The benefits to the public are longer life, better quality of life, through improved medical care, at reduced cost through more effective delivery and utilization if medical imagery.

3.5.1.1 Business opportunities addressed and economic importance to proposer and the nation

Our business opportunity is the expense and time required to produce imprecise and inaccurate segmentations from which 3D models are generated for many disparate applications. There is no underlying paradigm for understanding how segmentation works. Most of the thinking current segmentation theory is *ad-hoc*, problem, and image specific, not repeatable, and requires an expert user. Discussions with robotic surgery designers and manufactures point out the problem designing robotic trajectories are bottlenecked with the patient specific modeling. Our core technology is being hailed as a breakthrough, if we can develop working systems from our concept demonstration. Alpha site customers and business interest is building as word of our possible technology circulates in our target markets. NYUMC Radiation and Oncology and St. Louis University have agreed to participate in our development effort as alpha test sites.

The economic important to CASI of this technology is based getting meaningful assistance in surgery from computer imaging. This requires 3D modeling on a rapid patient specific basis with precision, accuracy, and dimensional fidelity. This technology gap prompted the PI's research in this area and prompted our request for funding to develop this technology.

The economic importance to the nation is improving the utility and distribution of medical imaging information, and will improve the value of this expensive technology with our inexpensive, but Internet pervasive technology. Further, this is not a comparatively expensive technology in its application because we will use centralized computer servers, connected eventually, but not necessarily by Next Generation Internet or Internet II. Our value added is our intellectual property that will lead to improve health and longer life of American citizens.

3.5.1.2 Discussion of potential users of this technology

Patient specific anatomic modeling from medical imaging and true three-dimensional modeling is required by many medical specialties. The specialization of the physician based research groups and the lack of a common language and communication leads fractionation of effort. The results of style of research effort tends to degenerate the state of the art into a large collection of tricks, techniques, conflicting algorithms, and overloaded toolboxes. Most of these techniques lack an underlying mathematical rubric, uniform precision, and validation. Computer graphics has not provided the 'sound' solutions that it appears to illustrate. This is due to the lack of computational geometry and advanced math sophistication in the graphics industry. We see a wide range of medical, engineering, technical, and scientific users for our uniform approach and new technology.

CASI's DMT based technology has a number of potential users and applications. Our initial target markets are breast Radiation Therapy and neurosurgical steriotactic surgery. Once our technology has been show to be advantageous, it is expected that other specialties will utilize it. We will cultivate bellwether client collaborations in each surgical specialty, and market through their training programs with their residents and fellows, post doctoral students and visiting scientists. Expected application areas include: Cosmetic plastic surgery (modeling skin profile changes to sell cases to patients), Craniofacial surgery (model bone cuts, skin reconstruction due to trauma, birth defects, and cancer), Obstetrics (pelvis measurements are key parts of the decision to perform a caesarian), Oral surgery (tooth implants), Orthodontics (bone growth and effect of braces, selling cases to parents), Histopathology (cancer detection, cell type recognition, and cell counting), Biological shape analysis for surgical application.

3.5.1.2.1 Market estimates 05661

At the end of this proposal, this technology will be successful for RT and Neurosurgery. At that

time, for a cost of one hundred dollars the attending physician will a model of a patient's tumor, and be able to plan and demonstrate that plan for surgery or radiation.

In the RT focus area of our project, we measure the total market from cancer epidemiology. Unfortunately, we can expect an increased cancer rate in the future caused by environmental pollution. The survival rate due to better treatment technology will also increase. This increases the CASI market by an estimated 20%. CASI technology will be a part of that survival improvement.

Breast Cancer, the target of our RT collaboration at NYUMC saw ~176,300 new cases and 43,700 deaths in 1999. Prostate cancer had ~136 new cases per 100, 000 men. Surgical treatment brachiotherapy (treatment by implanting highly radioactive seed in the cancer) and RT are all require modeling and targeting technology that is CASI's core technology.

Expected growth of markets opportunity by increased cases and increased survival of 20 % is assumed as CASI technology is embraced by medicine. Assuming a 20% market capture share, that means that in breast RT we can expect by the time of product roll out in 4 years to 42,000 cases / year. We can estimate a similar participation in prostate cancer therapy at 50,000 cases / year.

3.5.1.2.2 Markets change and new markets from new technology.

Our initial focus area is breast RT and Brain surgery. As we penetrate in these markets CASI will license its technology into other market areas; because we will need to focus the R & D effort on the generalized problem, and a few limited specific problem areas at a time. CASI will effectively franchise its technology into market application areas for maximal rapid diffusion. We estimate that we will be doing well over 10x our base RT revenue by franchising. CASI will promote bellwether researchers to adopt our technology for their specific application area by doing custom web interfaces to their spec, as CASI are developing our generalized application area.

3.5.2 Need for ATP funding

ATP funding is required to enable CASI to complete our ongoing research and make the technological leap to market of low cost, network based anatomic computer 'foundry' modeling. We will build on the progress we started making as a subcontractor on the NIH Visible Human Project (VHP) female 'Eve' dataset. The primary mission of the VHP program is to supply anatomic content for medical school education. CASI's broader therapeutic vision requires ATP development funding because the NIH mission in this area at this time is limited.

Segmentation and Registration issues impede progress in many disparate medical and scientific fields. No one industry or medical superspeciality has the patience to fund this development effort in the general case. Few programs share the vision of this technology for its broad applicability to medicine, technology, and science.

The visualization and modeling technology is not being effectively developed in the United States. The medical imaging industry is dominated by foreign owned and controlled companies such as Sony, Picker, Hitachi, Siemens, and General Electric. We believe that the market for pixel intensive hardware-accelerated graphics is wedged in the Internet last mile bottleneck. Wide diffusion for image-based information will require new thinking, not just more bandwidth. CASI will move from a "pixel based high entropy high bandwidth" representation to a "DMT based object geometry "representation with low entropy and high information theoretic pragmatic value.

3.5.2.1 Summary of efforts to get external and private funding

The CASI vision is to provide patient specific precise and accurate Level of Detail (LOD) models for diagnostic and therapeutic applications. CASI's raw input is medical images uploaded over the Internet. The time for development of this technology is too long for Venture Capitalist window of opportunity. We do not intend to become a medical computer graphics-imaging house, medical informatics consulting firm, or a surgical robotics firm. Our goal is to focus on solving the problems that are hindering the start of the art in radiation therapy, surgical robotics, 3D modeling, animation, and many other application areas. CASI's solution will become our core competency. The PI intends to aggressively grow the company into this wide-open opportunity field. CASI's broad therapeutic vision frightens private venture capitalists, and their funding. CASI is currently funded by angel

investors and the PI. CASI will leap into the modeling business with ATP funding, and be able to focus on the long-term benefits of this technology.

CASI believes that it become profitable within 5 years, which is longer than the private equity market will tolerate. As we demonstrate our core technology by the third year, we expect that we will be able to rise significant private funding, but not before.

3.5.2.2 Description of how the technology will be broadly diffused

Broad diffusion of our technology will occur because of the strong need in a broad variety of medical and general scientific modeling applications. This strong gradient will pull our technology out of our lab and into commercial franchise or licensure-based adoption. Because the application runs as an ASP, anyone who can upload an image file will be able to run their image for a demonstration of the modeling facility, and see how the CASI system will solve their problems. The short time constant of internet based technology diffuses out into the global community, and the strong needs gradient, means we can expect explosive growth in demand as we start public demonstrations and reporting our results in the literature and major scientific and medical meetings. CASI is preparing for this onslaught and will carefully not oversell its solutions and permit it to grow in managed and healthy manor for maximal benefit to the nation and for the company.

3.5.2.3 Business experience of PI and Staff

CASI was founded in 1995, while the PI was research professor of surgery at NYUMC. The PI has managed approximately one million dollars in DARPA funding, as well as such administrative tasks as running a payroll, subcontracting, DoD audits, Federal and State audits, bank audits, invoicing, collections, financing, and accounts payables with and without an administrative staff. CASI has kept meticulous records and attained a high professional standard under difficult business conditions. The PI has demonstrated fiscal responsibility managing significant federal funds responsibly. The PI has extensive technical management experience. Mr. E. Gurfein will be joining our team as our business manager, bringing his experience in scientific startup funding, finance, management, and marketing.

Independent Auditor's Report
Schedule of Budgeted and Actual Fund Sources and Project Costs

To the Members of
CASI LLC

We have audited the accompanying Schedule of Budgeted and Actual Fund Sources and Project Costs (the "Schedule") of CASI LLC ("CASI") for the year ended September 30, 2002. This Schedule is the responsibility of the management of CASI. Our responsibility is to express an opinion on the Schedule based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the Schedule. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Schedule. We believe that our audit provides a reasonable basis for our opinion.

The accompanying Schedule was prepared for the purpose of complying with the award requirements of the Advanced Technology Program ("ATP") Cooperative Agreement Number 70NANB1H3050 entered into by Computer Aided Surgery, Inc. (the predecessor company to CASI LLC) and the U. S. Department of Commerce as described in Note 2. The Schedule was prepared in conformance with the award requirements which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

The Schedule includes certain project costs which we questioned as allowed costs based on the standards and cost principles to which adherence is required under the terms and conditions of the ATP Cooperative Agreement. In our opinion, if these questioned costs, as described in our Schedule of Audit Findings and Questioned Costs, which also accompanies this report, are determined to be disallowed, the total direct project costs would be reduced by $178,776.

In our opinion, except for the effects to the matter discussed in the preceding paragraph, the Schedule of Budgeted and Actual Fund Sources and Project Costs referred to above presents fairly, in all material respects, the sources of funds and project costs of CASI for the year ended September 30, 2002 in conformity with the basis of accounting described in Note 4.

This report is intended solely for the information and use of the members and management of CASI and the U. S. Department of Commerce and is not intended to be and should not be used by any other parties.

CASI LLC
Notes to Schedule of Budgeted and Actual Fund Sources and Project Costs
For NIST ATP Cooperative Agreement 70NANB1H3050
For the Year Ended September 30, 2002

1. **Business Activities**

CASI LLC ("CASI") performs basic research to bring computer aided design and manufacture to surgical specialties and radiation-oncology. CASI's approach is to move beyond the state of the art in telerobotics and augmented reality and focus on hard mathematical issues not currently addressed by the state of the art. CASI is advancing the state of the art in applied math by forging new theorems and software technology where needed to manage biological shape segmentation and by changing the connectivity of these using a novel concept of editing the Digital Morse Theory tree. CASI's objective is to use these and other means under development to provide precise and accurate anatomic models for a variety of medical and other applications.

Computer Aided Surgery, Inc. was incorporated December 12, 1995. Effective August 30, 2002, CASI LLC, a partnership, was established in New York State, and Computer Aided Surgery, Inc. merged into CASI LLC.

2. **Cooperative Agreement**

Computer Aided Surgery, Inc. (the predecessor company to CASI LLC) was the recipient of Advanced Technology Program ("ATP") Cooperative Agreement Award Number 70NANB1H3050 (the "Agreement") for Anatomic Computer Modeling for Precise and Accurate Therapies (the "Project") granted by the National Institute of Standards and Technology (NIST) of the U. S. Department of Commerce (DOC). The scope of work and budget included in this award cover a three-year period from October 1, 2001 to September 30, 2004 for a total amount of $2,000,000 in federal funds. The funding is limited to $800,000 during the first project year, and funding for the second and third years is subject to availability and written approval by the Grants Officer.

The terms of the Agreement require CASI to provide a share of the project costs. For the year ended September 30, 2002, the cost sharing ratio is 4.36% for CASI, and the federal contribution is 95.64%.

3. **Administration Requirements**

The terms of the Agreement require adherence to 15 CFR Part 14 which defines the uniform administration requirements for agreements awarded by the DOC.

4. **Summary of Significant Accounting Policies**

Basis of Accounting Presentation
The financial statements of CASI are prepared in accordance with the requirements of the Agreement which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Revenue is recognized upon receipt of the funds, and project costs are recognized when paid.

Project Cost Requirements
In accordance with the requirements of the Agreement, project costs must be incurred during the reporting period, be directly related to the Project, and be allowed under the:

- Federal Acquisition Regulations (FAR) System, Part 31, "Contract Cost Principles and Procedures";
- DOC Financial Assistance Standard Terms and Conditions;
- DOC Financial Assistance Award (Form CD-450) and any amendments thereto (Form CD-451); and
- ATP general terms and conditions and special award conditions of the Agreement.

Only direct costs, in accordance with applicable cost principles and award guidelines, are eligible for federal funding. Indirect costs are the responsibility of CASI and cannot be recorded as project costs.

Approved Budget
The terms of the Agreement require adherence to a budget and any budget amendments approved by NIST. The costs in any approved budget line-item that exceed 10% of the total approved budget for the year are not eligible for federal funding.

The most recent approved budget, for the year ended September 30, 2002, was dated December 27, 2001 under Amendment Number 2 to the DOC Financial Assistance Award.

Equipment
In accordance with the requirements of the Agreement, equipment is charged as a project cost when cash is disbursed for its acquisition, which is a basis other than accounting principles generally accepted in the United States of America.

Fiscal Year
The first project year was the fiscal year ended September 30, 2002.

5. Recipient's Contribution

In accordance with the requirements of the Agreement, as described in Note 2, CASI is required to provide 4.36% of the project costs for the first project year. CASI did not contribute its 4.36% share of the project costs expensed during the year ended September 30, 2002. Funding from other sources, which CASI anticipated at the inception of the Agreement, has not been awarded.

6. Direct Project Costs

Only those costs in accordance with the terms of the Agreement, as described in Note 4, are allowable as project costs and eligible for inclusion in the Schedule of Budgeted and Actual Fund Sources and Project Costs.

05834

CASI LLC
Notes to Schedule of Budgeted and Actual Fund Sources and Project Costs
For NIST ATP Cooperative Agreement 70NANB1H3050
For the Year Ended September 30, 2002

7. Funds Carried Forward to the Second Project Year

As of September 30, 2002, federal funds provided for the Project exceeded the direct project costs. The excess funding was carried forward to the second project year.

8. Concentration of Risk

Since the Agreement is providing the single source of revenue for CASI, as described in Note 5, the completion of the Project is dependent upon the continuation of federal funding.

9. Related Parties

The Principal Investigator for the Project was the majority shareholder of Computer Aided Surgery, Inc. and is now the majority member of CASI LLC.

CASI LLC
Schedule of Audit Findings and Questioned Costs
For NIST ATP Cooperative Agreement 70NANB1H3050
For the Year Ended September 30, 2002

Item	Audit Findings	Questioned Costs
Project Salaries and Related Fringe Benefits	During our examination of payroll records, we noted that all of the salaries and related payroll taxes, which were paid by the award recipient during the year ended September 30, 2002, were recorded as project costs. We also noted that timesheets did not indicate the performance of services for non-project activities. Based on our employee interviews, review of individual responsibilities, and examination of contracts, we determined that three employees were compensated for services that were partly related to the ATP project and partly for non-project activities. The resulting questioned costs, which include a percentage of salaries and the related payroll taxes and other fringe benefits, are quantified below under the reporting line-items from the Schedule of Budgeted and Actual Fund Sources and Project Costs. The percentages used to determine the questioned costs were provided by the DOC Office of Inspector General auditor, as a result of her testing, and, based on our testing, appeared reasonable.	(see below)
Project Salaries - Technical	15% of the salary paid to the Principal Investigator was determined to be compensation for administrative, management, and other responsibilities not directly related to the ATP project.	$ 26,250
Project Salaries - Administrative	25% of the salary paid to the Business Manager was determined to be compensation for fundraising and other responsibilities not directly related to the ATP project. During our examination of the contract between the Business Manager and award recipient, we noted the expressed responsibilities of the Business Manager which included project related and non-project related activities.	25,000
	25% of the salary paid to the Administrative Assistant was determined to be compensation for bookkeeping, scanning, and other administrative responsibilities which were performed for the award recipient and not directly related to the ATP project.	2,337
Fringe Benefits - Technical	During our examination of expenditures for fringe benefits, we noted doctor, dental, and pharmacy bills, which were paid for medical services and drugs that were in excess of the health insurance coverage provided by the award recipient. These payments were made as reimbursements to the Principal Investigator or directly to the medical and pharmacy providers. In our opinion, such payments are not allowed by FAR 31 cost principles, as they do not appear reasonable for an organization in the financial condition of the award recipient, and they are not ordinary and necessary for such an organization. We also noted that a significant portion of the medical services billed were rendered prior to the start of the ATP project. Even if these costs were considered reasonable and, consequently,	38,661

CASI LLC
Schedule of Audit Findings and Questioned Costs
For NIST ATP Cooperative Agreement 70NANB1H3050
For the Year Ended September 30, 2002

Item	Audit Findings	Questioned Costs
	allowed by FAR 31, the terms of the ATP cooperative agreement require written approval from the NIST Grants Officer before costs incurred prior to the start of the project are allowed as project costs. No such documentation was provided for our review.	
	Employer payroll taxes, attributable to the salary costs for the technical employee questioned above, were determined to be not related to the ATP project, as described in the first audit finding.	1,326
	Other fringe benefits, including health insurance coverage and fitness benefits attributable to the questioned percentage of salary costs for the technical employee, as described in the first audit finding, were also determined to be not related to the ATP project.	1,047
Fringe Benefits - Administrative	During our examination of expenditures for fringe benefits, we noted that health insurance premiums were expensed for an individual who was not an employee of the award recipient. These costs were not directly attributable to the ATP project.	3,340
	Other fringe benefits, including health insurance coverage and child-care benefits attributable to the questioned percentage of salary costs for the administrative employees, as described in the first audit finding, were determined to be not related to the ATP project.	2,281
	Employer payroll taxes, attributable to the salary costs for administrative personnel questioned above, were also determined to be not related to the ATP project, as described in the first audit finding.	2,257
	During our examination of expenditures for fringe benefits, we also noted doctor and dental payments, for administrative personnel, for medical services that were in excess of the health insurance coverage provided by the award recipient. In our opinion, as expressed above for comparable benefits paid on behalf of a technical employee, such payments are not allowed by FAR 31 cost principles, as they do not appear reasonable for an organization in the financial condition of the award recipient, and they are not ordinary and necessary for such an organization.	707
	During our examination of expenditures for fringe benefits, we noted that transit checks were purchased for the use of employees, but documentation was not provided for our review to evidence the distribution of the transit checks to individual employees and to document the adherence of such distributions within the limits defined by Regulation 1.132-9 of the Internal Revenue Code. The	639

CASI LLC
Schedule of Audit Findings and Questioned Costs
For NIST ATP Cooperative Agreement 70NANB1H3050
For the Year Ended September 30, 2002

Item	Audit Findings	Questioned Costs
	terms of the ATP cooperative agreement require adherence to federal laws before a cost can be allowed.	
	During our examination of expenditures for fringe benefits, we noted that worker compensation insurance premiums were paid for a period beyond an employee's termination. In our opinion, such premiums should be refunded by the insurance carrier and not be allowed as project costs.	130
	During our examination of expenditures for fringe benefits, we noted a penalty paid to the State of New Jersey for late filing of an employment tax return. FAR 31 cost principles do not allow payments of fines and penalties as project costs.	29
Travel and Meals	During our examination of travel expenditures, we also noted various local and long distance travel expenses which were not directly related to the ATP project.	553
	During our examination of travel expenditures, we noted the payment of a parking ticket to the New York City Department of Revenue that was recorded as project travel. As previously stated, FAR 31 cost principles do not allow the payment of fines and penalties as project costs.	55
Materials and Supplies	During our examination of expenditures for materials and supplies, we noted that bank charges, which were not directly related to the ATP project, were recorded as project costs.	133
Subcontracts - Technical	During our examination of payments to subcontractors, we noted that payments were made to Advanced Technology Group for billings which were dated prior to the start of the project. The written approval from the NIST Grants Officer, which is required for these costs to be allowed, was not provided for our review.	9,000
Subcontracts - Administrative	During our examination of payments to subcontractors, we also noted that payments which were made to an individual for services rendered to clean both the residential and business areas of the Principal Investigator's apartment were recorded as project costs. The costs related to maintenance of the business area, as may be related to the ATP project, could not be identified from the documentation provided. The terms of the ATP cooperative agreement do not allow single companies, such as the award recipient, to record indirect costs as project costs.	4,819

CASI LLC
Schedule of Audit Findings and Questioned Costs
For NIST ATP Cooperative Agreement 70NANB1H3050
For the Year Ended September 30, 2002

Item	Audit Findings	Questioned Costs
Other - Direct Utilities	During our examination of expenditures for direct utilities, we noted that invoices for telephone and pager bills did not provide the information to identify those costs that may be directly related to the ATP project. As stated above, the ATP cooperative agreement does not allow indirect costs.	1,375
	During our examination of expenditures for direct utilities, we also noted that a payment to Thorn for network services, which was recorded as a project cost during the first project year, was for services that were provided prior to the start of the project. The written approval from the NIST Grants Officer, which is required for these costs to be allowed, was not provided for our review.	285
Other - Professional Services	During our examination of expenditures for professional services, we noted that fees were paid and recorded as project costs for legal services that were not directly related to the ATP project.	842
	Total questioned costs for expenditures listed above	121,066
Equipment Budget	During our testing of project costs and budgeted amounts, we noted that equipment costs exceeded the budgeted amount by more than 10% of the total budget. The terms of the ATP cooperative agreement do not allow costs which exceed the budgeted amount by more than 10% of the total budget. These costs would otherwise be allowable under FAR 31 cost principles:	
	• Total equipment purchased and recorded as project costs	223,503
	• Approved equipment budget	(110,000)
	• 10% allowed excess	(83,650)
	Total questioned costs for ineligible equipment	29,853
Cost-Match	During our examination of the Schedule of Budgeted and Actual Fund Sources and Project Costs, we noted that the ATP award recipient did not contribute its matching share of project costs as specified in the ATP cooperative agreement.	
	• Cost share as specified in the ATP cooperative agreement at 4.36% of project costs reported in the Schedule of Budgeted and Actual Fund Sources and Project Costs (4.36% of $789,841)	34,437
	• Impact of all questioned costs listed above on cost-share (4.36% of $150,919)	(6,580)
	Total questioned cost-match	27,857

05839

CASI LLC
Schedule of Audit Findings and Questioned Costs
For NIST ATP Cooperative Agreement 70NANB1H3050
For the Year Ended September 30, 2002

Item	Audit Findings	Questioned Costs
Other Uses of Federal Funds	During our examination of cancelled checks, we noted that certain expenditures of the award recipient, which were not directly related to the ATP project, were paid with federal funds provided for the ATP project. These payments were made to the Principal Investigator for rental expense, at the monthly rate of $2,000, for the use of his apartment as office space for 11 months during the first project year and for 19 months prior to the start of the project. Our examination of the Schedule of Budgeted and Actual Fund Sources and Project Costs revealed that these expenditures were not recorded as ATP project costs. However, the payment of these expenditures from federal funds has resulted in a shortfall in the ATP project bank account and, consequently, is payable to the ATP project.	60,000
	During our examination of the check register, we noted that federal funds provided for the project had been disbursed as salary advances to the Principal Investigator and loans to the award recipient with subsequent repayments from salaries, the reimbursement of business expenses, and cash deposits. The use of these funds for non-project expenditures was in excess of repayments. The terms of the ATP cooperative agreement do not allow such advances and loans, and, consequently, the balance due is payable to the ATP project.	9,651
	Total questioned costs for other uses of federal funds	69,651
	Total questioned costs	$248,427
Funds Carried Forward	The use of federal funds for non-project expenditures and loans, described above under Other Uses of Federal Funds, impacts the cash balance maintained by CASI in the ATP project's bank account as of September 30, 2002 and, consequently, the Funds Carried Forward to Second Project Year in the Schedule of Budgeted and Actual Fund Sources and Project Costs for the year ended September 30, 2002, as follows: • Cash balance/(deficit) $(59,492) • Due from CASI for other uses of federal funds 69,651 • Funds Carried Forward to Second Project Year $ 10,159	(see above)
Procedures	During our review of operating procedures, we noted the following weaknesses: • Written procedures for the ATP project were not available for our review until such procedures were drafted by the newly appointed Business Manager subsequent to the year ended September 30, 2002. These procedures were being implemented and further developed as of the date of our report. • In our opinion, the written procedures, which were in the	n/a

05840

Item	Audit Findings	Questioned Costs
	development phase, did not include adequate controls over timesheets, bank reconciliations, the payment of invoices which include both project and non-project items, and the engagement of subcontractors. The Business Manager agreed to enhance the procedures, as we recommended.	
	Based on our review of procedures, examination of personnel files, and interviews with management, we noted that procedures were not in place to ensure that adequate documentation is obtained and maintained in employee files. In our opinion, written procedures for human resource responsibilities should also be developed and updated, as may be necessary, on a regular basis to educate personnel who are responsible for these functions and to enable compliance. In particular, the following documents should be included, with other requirements, in personnel files: • Federal form I-9 which is required to be completed by all employees and signed by the employer. • Health insurance forms to accept or decline coverage. • Documentation to support the acceptance or refusal of other fringe benefits. • Mandated COBRA letters for terminated employees.	n/a
Budget	We observed that the effective date of the most recent approved budget was approximately nine months before the end of the first project year. Variances between approved budget amounts and actual project costs, evident in the Schedule of Budgeted and Actual Fund Sources and Project Costs, indicate significant changes since the budget was approved, and we were not provided with an updated budget that, in our opinion, realistically forecasted the remainder of the project.	n/a
Project Reporting	During our examination of reports submitted to NIST by the award recipient, we noted that reports were not properly prepared. The total ATP award funds received were used, instead of the actual project costs from the accounting records, to report cash outlays. These reports also included recipient contributions, but cost-matches had not been made from non-federal funds. The Business Manager agreed to amend reports as applicable.	n/a
Subcontractor Agreements	During our examination of subcontractor agreements, we noted that written agreements were not available for certain subcontractors and the contracts which were available did not include specific language to document the requirement that subcontractors adhere to federal laws and regulations as specified by the ATP award and the sanctions for noncompliance.	n/a

Independent Auditor's Report
Statement of Management's Assertions on Compliance with Specified Requirements

To the Members of
CASI LLC

We have examined Management's Assertions on Compliance with Specified Requirements that CASI LLC ("CASI") complied with certain specified requirements relative to its Schedule of Budgeted and Actual Fund Sources and Project Costs for the National Institute of Standards and Technology ("NIST") Advanced Technology Program ("ATP") Cooperative Agreement Number 70NANB1H3050 for the year ended September 30, 2002. The five specific compliance requirements are listed in our accompanying Statement of Management's Assertions on Compliance with Specified Requirements.

Management is responsible for the compliance of CASI with those requirements. Our responsibility is to express an opinion on management's assertions about its compliance based on our examination.

Our examination was conducted in accordance with Government Auditing Standards, issued by the Comptroller General of the United States, attestation standards established by the American Institute of Certified Public Accountants, and the NIST program-specific audit guidelines for ATP cooperative agreements with single companies which was issued by the U. S. Department of Commerce Office of Inspector General, dated May 1999. Accordingly, we examined, on a test basis, evidence about the compliance of CASI with those requirements and performed such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the compliance of CASI with specified requirements.

In our opinion, management's assertions that CASI complied with the aforementioned requirements relative to its NIST ATP Cooperative Agreement Number 70NANB1H3050, during the year ended September 30, 2002, are fairly stated for one of the assertions but not fairly stated for the remaining four assertions. The accompanying Statement of Management's Assertions on Compliance with Specified Requirements provides our findings and opinion regarding each of the assertions.

This report is intended solely for the information and use of the members and management of CASI and the U. S. Department of Commerce and is not intended to be and should not be used by any other parties.

Joan M. Hayes, CPA, LLC

June 27, 2003

05843

CASI LLC
Statement of Management's Assertions on Compliance with Specified Requirements For NIST ATP Cooperative Agreement 70NANB1H3050 For the Year Ended September 30, 2002

1. Cost-Share

Management's Assertion
The cost-share established by the budget in the Advanced Technology Program ("ATP") award has been met. The funds claimed as cost-share are not from a subcontractor or other federal sources and were not used as matching or cost-sharing funds on other federally supported activities. The funds claimed as cost-share meet the definition provided in 15 CFR Part 14, Section 23 and conform to the limitations in 15 CFR Part 295.2(1).

Examination Findings
CASI LLC ("CASI") did not contribute its cost-share, as stated in this assertion, to the project being funded by the ATP award during the year ended September 30, 2002.

Independent Auditor's Opinion
This assertion of management has not been fairly stated for the year ended September 30, 2002.

2. Equipment

Management's Assertion
Equipment acquired with the ATP funds has been accounted for in accordance with federal property management standards found in 15 CFR Part 14 Sections 30-37.

Examination Findings
Equipment acquired with ATP funds included computer and network hardware assembled from individually purchased components and configured as required for the ATP project. An inventory report was developed by CASI, and a physical inventory was taken during our audit of their Schedule of Budgeted and Actual Fund Sources and Project Costs for the year ended September 30, 2002. The inventory report included total purchase price and a description of the equipment with identifying codes which allowed the equipment to be traced to the purchase records. Purchase records provided the source of the equipment, acquisition dates, and other detailed information required by 15 CFR Part 14 Section 34.

Independent Auditor's Opinion
This assertion of management has been fairly stated for the year ended September 30, 2002.

3. Procurement Policies

Management's Assertion
Federal procurement standards described in 15 CFR Part 14 Sections 40-48 have been incorporated into the purchasing policies and adhered to for ATP award expenditures. Contracts and subwards have not been made to any organizations or its principals listed in the "List of Parties Excluded from Federal Procurement or Nonprocurement Programs," issued by General Service Administration (the "List").

05844

Examination Findings
Written procurement procedures, as required by 15 CFR Part 14 Section 44, were not available during the year ended September 30, 2002. During the subsequent year, management appointed a new Business Manager who developed an operating procedures guide. The updated procedures, as of June 2003, require bids, in accordance with federal standards, and written pre-approval for the procurement of equipment.

Contracts and payments to subcontractors were not made to organizations or individuals included in the List during the year ended September 30, 2002. However, the requirement to verify the omission of proposed contractors from the List was not included in the updated procedures referred to above.

Independent Auditor's Opinion
Except for contracts and payments to subcontractors not included in the List, this assertion of management has not been fairly stated for the year ended September 30, 2002. However, management has taken action to cure this finding going forward.

4. Reporting Requirements

Management's Assertion
The amounts in the quarterly financial status reports and the requests for advance or reimbursement agree with the underlying accounting records and summary records.

Examination Findings
Form 269 Financial Status Report or Form 269A Financial Status Report (short form) was provided and examined for each of the quarterly reporting periods during the year ended September 30, 2002. Each of the reports examined included a cost-match which the award recipient did not provide with non-federal funds. Each of the reports examined reported cash outlays of federal funds which agreed to the total federal funds received during the reporting period, but did not agree to the accounting records of actual cash transactions that were used to generate the Schedule of Budgeted and Actual Fund Sources and Project Costs for the year ended September 30, 2002.

Form 270 Request for Advance or Reimbursement was provided and examined for ten of the monthly reporting periods during the year ended September 30, 2002. Reports were not provided for months ended December 31, 2001 and January 31, 2002. Each of the reports examined included a cost-match which the award recipient did not provide with non-federal funds. Each of the reports examined reported cash outlays of federal funds which agreed to the total federal funds received during the reporting period, but did not agree to the accounting records of actual cash transactions that were used to generate the Schedule of Budgeted and Actual Fund Sources and Project Costs for the year ended September 30, 2002.

Form 272 Federal Cash Transactions Report was provided and examined for nine of the monthly reporting periods during the year ended September 30, 2002. Reports were not provided for months ended October 31, 2001, January 31, 2002, and August 31, 2002. Each of the reports examined included a cost-match which the award recipient did not provide with non-federal funds. Each of the reports examined reported cash outlays of federal funds which agreed to the total federal funds received during the reporting period, but did not agree to the accounting records of actual cash

transactions that were used to generate the Schedule of Budgeted and Actual Fund Sources and Project Costs for the year ended September 30, 2002. In addition, the cash on hand at the end of each monthly reporting period was reported as zero instead of the actual cash balance from the accounting records of cash transactions.

Independent Auditor's Opinion
This assertion of management has not been fairly stated for the year ended September 30, 2002.

5. Subcontractor Agreements

Management's Assertion
The agreements entered into with subcontractors/subrecipients, as defined below, require that the subcontractors/subrecipients adhere to federal laws and regulations as specified by the ATP award, and sanctions are specified for the subcontractor's/subrecipient's noncompliance.

Subcontractors included: Advanced Technology Group, J. Cox (who subsequently became an employee), A. Karron (who provided a one-time service), G. Wolberg, S. Albin (who subsequently became an employee), and The Jackson Group.

Examination Findings
Written agreements with J. Cox and with G. Wolberg were provided for examination. Agreements with the other subcontractors listed above were not provided for examination. The agreements examined did not contain the specific requirement for adherence to federal laws and sanctions for noncompliance that is referenced in this assertion.

Independent Auditor's Opinion
This assertion of management has not been fairly stated for year ended September 30, 2002.

05846

DISCLOSURE REQUIREMENT CHECKLIST

05847

APPENDIX 7B

Disclosure Requirements for Financial Statements of Nonpublic Businesses (Long-form Disclosure Checklist)

Company: CASI Balance Sheet F.S. Date: 9/30/02

Prepared by: [signature] Date: _____

Explanatory Comments

The following is a list of the primary disclosure requirements for financial statements of a *nonpublic business* (*organized for profit*) as required by generally accepted accounting principles. Note, this is a disclosure checklist, not a GAAP application checklist; accordingly, GAAP application and measurement questions are not included. Consideration has been given to Statements of Financial Accounting Standards (SFAS), Financial Accounting Standards Board Interpretations (FASBI), Opinions of the Accounting Principles Board (APB), Accounting Research Bulletins (ARB), FASB Technical Bulletins (FTB), AICPA Statements of Position of the Accounting Standards Division (SOP), AICPA Industry Audit and Accounting Guides, consensus positions of the FASB Emerging Issues Task Force (EITF), Practice Bulletins of the AICPA Accounting Standards Executive Committee (AcSEC PB), AICPA Accounting Interpretations (AI), and FASB "Qs and As" (QA).

An occasional reference is made to Statements on Auditing Standards (AU sections) published by the AICPA. Disclosure guidelines for certain financial statement items, e.g., subsequent events, are in auditing pronouncements. Inclusion of those disclosures without regard to whether the financial statements are audited or unaudited is generally accepted practice.

Some checklist questions do not cite a specific authoritative reference but indicate that the disclosure is "generally accepted." Most firms disclose that information even though a specific requirement in authoritative literature cannot be identified.

This checklist is divided into two parts: Part I—Most Frequent Disclosures, and Part II—Other Disclosures. See separate instructions for Part I and Part II.

Additional disclosures may be required for entities in certain industries as discussed in the Specialized Accounting and Reporting Principles section in Part 1 of this checklist. In addition, PPC publishes a supplemental industry disclosure checklist for construction contractors and homebuilders. See PPC's *Guide to Construction Contractors* or *Guide to Preparing Financial Statements*. (The supplemental checklist is not a substitute for this checklist. It presents only the disclosures unique to the particular industry. It should only be used in conjunction with this checklist.)

This checklist is current through the following pronouncements:

- SFAS No. 147 (October 2002)
- FASB TB 01-1 (July 2001)
- Consensuses reached by the EITF through its September 2002 meeting.
- FASBI No. 44 (March 2000)
- AICPA SOP 02-1 (August 2002)
- AcSEC PB No. 15 (January 1997)

For a list of disclosures required by subsequent pronouncements, visit PPC's home page on the World Wide Web at **www.ppcnet.com**. An online version of this checklist, updated quarterly, also is available for a nominal annual fee. For order information, call (800) 323-8724 or visit PPC's home page.

PART I—MOST FREQUENT DISCLOSURES

Instructions

Part I should be completed in its entirety. A block ☐ has been provided for each major disclosure caption. If the major caption is not applicable to your client, simply place a (✓) in the block. It will then not be necessary to check N/A for each question under the major caption. Otherwise, respond to each question with a (✓) in the appropriate column: (a) Yes— disclosure made; (b) No—item present but no disclosure made (any item checked "No" should be explained in the checklist or in a separate memorandum); or (c) N/A—either the item is not present or it is immaterial to the financial statements.

Specialized Accounting and Reporting Principles
Part II Disclosures
Subsequent Pronouncements Issued

	Disclosure Made?		
	Yes	No	N/A
BALANCE SHEET			
CURRENT ASSETS			☑
1. If a classified balance sheet is used, is a total of current assets presented? (Generally accepted)	____	____	____
CASH			☐
1. Are restrictions on cash properly disclosed (SFAS No. 5, paras. 18 and 19) and are restricted amounts appropriately segregated from other cash items, showing restricted cash as a noncurrent asset if appropriate? (ARB No. 43, ch. 3A, para. 6)	____	____	____
2. Are material bank overdrafts presented as a separate caption among current liabilities? Similarly, are material dollar amounts of held checks (checks on the bank reconciliation but not released until after the balance sheet date) reclassified as accounts payable? (Generally accepted)	____	____	____
3. Are significant concentrations of credit risk arising from cash deposits in excess of federally insured limits disclosed? (See FINANCIAL INSTRUMENTS, Question No. 1.)	____	____	____
NOTES AND ACCOUNTS RECEIVABLE			☐
1. Are all significant categories of loans and receivables presented separately in the balance sheet or disclosed, e.g., trade receivables, trade receivables held for sale, tax refunds, contract termination claims, advance payments on purchases, amounts due from officers, employees, directors, stockholders, affiliates? (ARB No. 43, ch. 1A, para. 5 and SOP 01-6, para. 13)	____	____	____
2. Are amounts due from affiliates or subsidiaries classified as current only if it is the entity's practice to liquidate them periodically and the current financial position of the affiliate or subsidiary warrants that treatment? (ARB No. 43, ch. 3A, para. 4)	____	____	____
3. Is the allowance for doubtful accounts disclosed? (APB No. 12, para. 3)	____	____	____
4. Are accounting policies for loans and trade receivables, credit losses and doubtful accounts, and nonaccrual and past due loans and trade receivables disclosed? (See ACCOUNTING POLICIES, Question No. 1.)	____	____	____
5. Is the aggregate amount of gains or losses on sales of loans or trade receivables (including recorded unrealized gains and losses) presented separately in the			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
(including recorded unrealized gains and losses) presented separately in the financial statements or disclosed in the notes to the financial statements? (SOP 01-6, para. 13)			✓
6. Are foreclosed and repossessed assets not subsequently to be used in operations presented separately in the financial statements or disclosed in the notes to the financial statements? (SOP 01-6, para. 13)			
7. Is the following disclosed about nonaccrual and past due loans and trade receivables as of each balance sheet date presented: (SOP 01-6, para. 13)			
a. Recorded investment in such receivables on nonaccrual status?			
b. Recorded investment in such receivables past due ninety days or more and still accruing?			
8. Is the carrying amount of loans and trade receivables that serve as collateral for borrowings disclosed? (SFAS No. 5, paras. 18–19 and SOP 01-6, para. 13)			
9. Are unearned income, unamortized discounts and premiums, net unamortized deferred fees and costs, and imputed interest appropriately disclosed? (APB No. 6, para. 14; APB No. 21, para. 16; and SOP 01-6, para. 13)			
10. For transfers of receivables with recourse reported as sales, do the transferor's financial statements disclose the proceeds to the transferor during each period for which an income statement is presented? (Generally accepted)			
11. Are contingent liabilities associated with sold or discounted receivables disclosed (guarantees to repurchase receivables or related property)? (SFAS No. 5, para. 12)			
12. Are significant concentrations of credit risk arising from receivables disclosed? (See FINANCIAL INSTRUMENTS, Question No. 1.)			
13. If impairment of loans has been recognized, have the disclosures required by SFAS No. 114, as amended by SFAS No. 118, been made? (See TROUBLED DEBT RESTRUCTURINGS—CREDITORS, Question No. 2.)			
14. Have the necessary fair value disclosures been made? (See FINANCIAL INSTRUMENTS, Question Nos. 2–6.)			
MARKETABLE DEBT AND EQUITY SECURITIES			☐
1. Are separate disclosures of the following made for all major security types classified as available for sale as of each date for which a balance sheet is presented: (SFAS No. 133, para. 534)			
a. Aggregate fair value?			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
b. Total gains for securities with net gains in accumulated other comprehensive income?			✓
c. Total losses for securities with net losses in accumulated other comprehensive income?			

[Financial institutions should disclose the preceding information for the following types of securities: (a) equity securities, (b) debt securities issued by the U.S. Treasury and other U.S. government corporations and agencies, (c) debt securities issued by U.S. states and political subdivisions of the states, (d) debt securities issued by foreign governments, (e) corporate debt securities, (f) mortgage-backed securities, and (g) other debt securities.] (SFAS No. 115, para. 19)

2. Are separate disclosures of the following made for all major security types classified as held to maturity as of each date for which a balance sheet is presented: (SFAS No. 133, para. 534)

a. Aggregate fair value?			
b. Gross unrecognized holding gains?			
c. Gross unrecognized holding losses?			
d. Net carrying amount?			
e. Gross gains and losses in accumulated other comprehensive income for any derivatives that hedged the forecasted acquisition of the held-to-maturity securities?			

3. If individual amounts for the three categories of investments are not presented on the statement of financial position, are they disclosed in the notes and reconciled to the reporting classifications used in the statement of financial position? (SFAS No. 115, para. 117)

4. Are separate disclosures of the following made for all investments in debt securities classified as available for sale or as held to maturity: (SFAS No. 115, para. 20)

a. Information about the contractual maturities as of the most recent balance sheet presented (disclosure can be by appropriate groups)?			
b. Method used to allocate securities into maturity groups, if necessary?			

[Financial institutions should disclose the fair value and net carrying amount (if different from fair value) of the investments based on at least four maturity groupings— within one year, after one year through five years, after five years through 10 years, and after 10 years.] (SFAS No. 133, para. 534)

5. For each period for which an income statement is presented, have the following been disclosed: (SFAS No. 115, para. 21, and SFAS No. 133, para. 534)

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
a. Proceeds from sales of securities available for sale?			✓
b. Gross realized gains and losses that have been included in earnings as a result of sales of securities available for sale?			
c. Method used to determine the cost of a security sold or the amount reclassified out of accumulated other comprehensive income into earnings (average cost or other method)?			
d. Gross gains and gross losses included in earnings from transfers of securities from the available for sale category into the trading category?			
e. Amount of the net unrealized holding gain or loss on securities available for sale that has been included in accumulated other comprehensive income for the period?			
f. Amount of gains and losses reclassified out of accumulated other comprehensive income into earnings for the period?			
g. Portion of trading gains and losses for the period that relates to trading securities still held at the balance sheet date?			
6. For each period for which an income statement is presented have the following for sales of or transfers from securities classified as held to maturity been disclosed: (SFAS No. 115, para. 22, and SFAS No. 133, para. 534)			
a. Net carrying amount of the sold or transferred security?			
b. Net gain or loss in accumulated other comprehensive income for any derivative that hedged the forecasted acquisition of the held-to-maturity security?			
c. Related realized or unrealized gain or loss?			
d. Circumstances leading to the decision to sell or transfer the security?			
7. Has the policy for accounting for the premium paid to acquire an option classified as held to maturity or available for sale been disclosed? (EITF 96-11)			
8. If the entity enters into repurchase agreements or securities lending transactions, has its policy for requiring collateral or other security been disclosed? (SFAS No. 140, para. 17)			
9. Have the necessary fair value disclosures been made? (See FINANCIAL INSTRUMENTS, Question Nos. 2–6.)			
INVENTORIES			☐
1. Is the basis for stating inventories disclosed, including the method of determining cost? (ARB No. 43, ch. 3A, para. 9, and ch. 4, paras. 4–16; and APB No. 22, para. 13)			
2. Are unusual losses from write-down to market disclosed separately from cost of goods sold in the income statement? (ARB No. 43, ch. 4, paras. 14 and 17)			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
goods sold in the income statement? (ARB No. 43, ch. 4, paras. 14 and 17)			
3. If practicable, are the major classes of inventories such as finished goods, work-in-process, materials, and supplies disclosed? (Generally accepted)			
4. For conformity with IRS Regulations for entities using LIFO, are disclosures of annual income, profit, or loss on any inventory basis other than LIFO *excluded* from presentation on the face of the financial statements? (Such disclosures may be made only in the notes to the financial statements or in a supplementary schedule.) [CAUTION: Read IRS Reg. 1.472-2(e) to become familiar with LIFO conformity disclosure and reporting subtleties.]			
PROPERTY AND EQUIPMENT			
1. Are the following disclosed relating to depreciable assets:			
a. Balances of major classes of depreciable assets, by nature or function, at the balance sheet date? (APB No. 12, para. 5b)			
b. Accumulated depreciation, by class or in total, at the balance sheet date? (APB No. 12, para. 5c)			
c. A general description of the method or methods used in computing depreciation with respect to major classes of depreciable assets? (APB No. 12, para. 5d, and APB No. 22, para. 13)			
d. Depreciation expense for the period? (APB No. 12, para. 5a)			
2. Is the carrying amount of property not a part of long-term operating assets, e.g., idle or held for investment, segregated? (Generally accepted)			
3. If property and equipment is impaired or is being held for disposal, have the disclosures required by SFAS No. 121 been made? (See IMPAIRED LONG-LIVED ASSETS AND LONG-LIVED ASSETS TO BE DISPOSED OF.)			
CURRENT LIABILITIES (EXCEPT INCOME TAXES)			
1. If a classified balance sheet is used, is a total of current liabilities presented? (SFAS No. 6, para. 15)			
2. Are significant categories segregated, e.g., accounts payable, accrued expenses, customer deposits, dividends payable, interest payable, amounts due to officers or employees? (Generally accepted)			
3. If the entity has not accrued compensated absences because the amount cannot be reasonably estimated, has that fact been disclosed? (SFAS No. 43, paras. 6 and 7)			
4. If real and personal property tax accruals are subject to a substantial measure of			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
4. If real and personal property tax accruals are subject to a substantial measure of uncertainty, has the liability been disclosed as an estimate? (ARB No. 43, ch. 10A, para. 16)			✓

NOTES PAYABLE, LONG-TERM DEBT, AND OTHER OBLIGATIONS

1. Are significant categories of debt identified in the balance sheet or related notes, e.g., notes to banks, mortgage notes, or related party notes? (Generally accepted)			
2. Are interest rates, maturity dates, subordinate features (Generally accepted), pledged assets, and restrictive covenants (SFAS No. 5, paras. 18–19) disclosed?			
3. Have the necessary fair value disclosures been made? (See FINANCIAL INSTRUMENTS, Question Nos. 2–6.)			
4. If a note is noninterest bearing or has an unreasonable stated interest rate: (APB No. 21, para. 16)			
a. Is the discount or premium presented as a deduction from or addition to the face amount of the note?			
b. Does the disclosure include the effective interest rate and face amount of the note?			
c. Is amortization of the discount or premium reported as interest in the income statement?			
5. If a classified balance sheet is presented: (ARB No. 43, ch. 3A, paras. 7–8; SFAS No. 78, para. 5; and EITF 86-30)			
a. Are current portions of debt obligations presented as current liabilities?			
b. Does the current liability classification include obligations that, by their terms, are due on demand or will be due on demand within one year (or operating cycle, if longer) from the balance sheet date, even though liquidation may not be expected within that period?			
c. Does the current liability classification include long-term obligations that are or will be callable by the creditor either because the debtor's violation of a provision of a debt agreement at the balance sheet date makes the obligation callable or because the violation, if not cured within a specified grace period, will make the obligation callable unless (1) the creditor has waived or subsequently lost the right to demand payment for more than one year from the balance sheet date or (2) it is probable the debtor will cure the violation within the grace period?			
d. If obligations callable by the creditor because the debtor was in violation of the debt agreement at the balance sheet date are classified as long-term obligations because it is probable the debtor will cure the violation within the specified grace period, are the circumstances disclosed?			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
6. Are the combined aggregate amounts of maturities and sinking fund requirements for all long-term borrowings disclosed for each of the five years following the date of the latest balance sheet presented? (SFAS No. 47, para. 10)			✓
7. If a short-term obligation expected to be refinanced is to be excluded from current liabilities, do disclosures include: (SFAS No. 6, para. 15; FASBI No. 8, para. 3; and FTB 79-3)			
a. General description of the financing agreement?			
b. Terms of any new obligation incurred or expected to be incurred, or equity securities issued or expected to be issued as a result of the refinancing?			
8. If assets are set aside after December 30, 1996, solely for satisfying scheduled payments of a specific debt, has the nature of restrictions placed on those assets been disclosed? (SFAS No. 125, para.17 and SFAS No. 140, para. 17)			
9. Are conversion features for convertible debt appropriately accounted for and disclosed? (Generally accepted)			
INCOME TAXES			
1. If the entity is an S corporation, partnership, or proprietorship, do disclosures explain why income tax expense is not recorded? (Generally accepted)			
2. Are the following amounts appropriately classified in the balance sheet:			
a. Taxes currently payable or refundable? (ARB No. 43, ch. 3A; and APB No. 2, para. 14)			
b. Current and noncurrent deferred tax assets and liabilities, including a valuation allowance, if any, related to deferred tax assets? (SFAS No. 109, para. 41)			
3. Within each tax jurisdiction (e.g., federal, state, and local), have current deferred tax assets and liabilities been offset and presented as a single amount and noncurrent deferred tax assets and liabilities been offset and presented as a single amount? (SFAS No. 109, para. 42)			
4. If the entity includes more than one taxpaying component, have the net current deferred tax asset or liability and the net noncurrent deferred tax asset or liability within each tax jurisdiction been shown separately for each taxpaying component? (SFAS No. 109, para. 42)			
5. Have the following components of the net deferred tax asset or liability recognized in the balance sheet been disclosed: (SFAS No. 109, para. 43)			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made?		
	Yes	No	N/A
a. Total deferred tax liability for all taxable temporary differences?			✓
b. Total deferred tax asset for all deductible temporary differences, operating loss carryforwards, and tax credit carryforwards?			
c. Total valuation allowance recognized for deferred tax assets?			
6. Has the amount of income tax expense or benefit allocated to the following items been disclosed for each year for which they are presented: (SFAS No. 109, para. 46; APB No. 9, para. 26; and APB No. 20, para. 20)			
a. Continuing operations?			
b. Discontinued operations?			
c. Extraordinary items?			
d. Other comprehensive income?			
e. Items charged or credited directly to stockholders' equity?			
f. Prior-period adjustments?			
7. Have the following significant components of income tax expense attributable to continuing operations been disclosed for each year presented either in the financial statements or notes: (SFAS No. 109, para. 45)			
a. Current tax expense or benefit?			
b. Deferred tax expense or benefit, exclusive of the effects of other components listed in (c) through (h)?			
c. Investment tax credits?			
d. Government grants to the extent recognized as a reduction of income tax expense?			
e. Benefits of operating loss carryforwards?			
f. Tax expense that results from allocating certain tax benefits either directly to contributed capital or to reduce goodwill or other noncurrent intangible assets of an acquired entity?			
g. Adjustments of a deferred tax asset or liability for enacted changes in tax laws or rates or a change in the entity's tax status?			
h. Adjustments of the beginning-of-the-year balance of a valuation allowance because of a change in circumstances that causes a change in judgment about the realizability of the related deferred tax asset in future years?			
8. Has the net change during the year in the total valuation allowance been disclosed? (SFAS No. 109, para. 43)			
9. Have the types of temporary differences and carryforwards that result in significant portions of deferred tax assets (before allocation of a valuation allowance) or liabilities been disclosed? (SFAS No. 109, para. 43)			
10. Do disclosures regarding income taxes include: (SFAS No. 109, paras. 47 and 48)			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
a. Amounts and expiration dates of operating loss and tax credit carryforwards for tax purposes?			✓
b. Any portion of the valuation allowance for deferred tax assets for which subsequently recognized tax benefits will be allocated (1) to reduce goodwill or other noncurrent intangible assets of an acquired entity or (2) directly to contributed capital?			
c. Significant reconciling items between income tax expense attributable to continuing operations for the year and the amount of income tax expense that would result from applying domestic federal statutory rates to pretax income from continuing operations?			
11. Do disclosures regarding investment tax credits include: (SFAS No. 109, para. 48; APB No. 4, para. 11; and AI-APB 4, No. 2)			
a. The accounting method used and the amounts involved?			
b. Amounts of any unused investment credits and expiration dates?			
12. If the entity is part of a group that files a consolidated tax return, have the following amounts been disclosed in its separately issued financial statements: (SFAS No. 109, para. 49)			
a. The aggregate amount of current and deferred tax expense for each income statement presented?			
b. The amount of any tax-related balances due to or from affiliates as of the date of each balance sheet presented?			
c. The principal provisions of the method by which the consolidated amount of current and deferred tax expense is allocated to members of the group?			
d. The nature and effect of any changes in the method of allocating current and deferred tax expense to members of the group and in determining the related balances due to or from affiliates during each year for which the disclosures in (a) and (b) above are presented?			
13. Have the nature and effect of any other significant matters affecting comparability of information for all periods presented been disclosed if not otherwise apparent from the disclosures in items 5–10? (SFAS No. 109, para. 47)			
14. If a material income tax benefit realized from the exercise of employee stock options is credited to equity but not presented as a separate line item in the statement of cash flows or in the statement of changes in stockholders' equity, has the amount of that benefit been disclosed? (EITF 00-15)			
STOCKHOLDERS' (MEMBERS') EQUITY			☐
1. Are classes of capital stock presented in order of priority in liquidation? (Generally accepted)			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made?		
	Yes	No	N/A
2. Are the legal title of securities; par or stated values; and number of shares authorized, issued, and outstanding disclosed? (Generally accepted)			✓
3. Are changes in separate accounts comprising stockholders' equity and changes in the number of shares of equity securities during at least the most recent annual fiscal period and any subsequent interim period presented disclosed? (SFAS No. 129, para. 5; APB No. 12, para. 10; and AcSEC PB No. 14, paras. 8 and 12)			
4. Are changes in the equity accounts of S corporations, partnerships, and proprietorships, including limited liability companies and limited liability partnerships, disclosed? (NOTE: GAAP does not require S corporations or limited liability companies and partnerships to disclose changes in the components of retained earnings or equity.) (Generally accepted)			
5. Have the pertinent rights and privileges of the various securities outstanding been disclosed (for example, a description of dividend and liquidation preferences, participation rights, call prices and dates, conversion or exercise prices or rates and pertinent dates, sinking fund requirements, unusual voting rights, and significant terms of contracts to issue additional shares)? (SFAS No. 129, para. 4 and EITF 98-5)			
6. Has the amount of redemption requirements been disclosed, separately by issue or combined, for all issues of capital stock that are redeemable at fixed or determinable prices on fixed or determinable dates in each of the five years following the latest balance sheet presented? (SFAS No. 129, para. 8)			
7. Are the following disclosures made for preferred stock:			
a. The liquidation preference of preferred stock (or other senior stock) that has a preference in involuntary liquidation considerably in excess of its par or stated value? (The disclosure should be made in the equity section of the balance sheet rather than the notes.) (SFAS No. 129, para. 6)			
b. Aggregate or per-share amounts at which preferred stock may be called or redeemed? (SFAS No. 129, para. 7)			
c. Aggregate and per-share amounts of arrearages in cumulative preferred dividends? (SFAS No. 129, para. 7)			
8. Are the following disclosures made for treasury stock:			
a. The number of shares and the basis of carrying the stock? (Generally accepted)			
b. Restrictions of state laws, if any? (APB No. 6, para. 13)			
c. If treasury stock is purchased for purposes other than retirement or if the ultimate disposition has not been decided:			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
(1) Has the cost been shown separately as a deduction from stockholders' equity, or			✓
(2) Has the par value of the shares been charged to the specific stock issue and the difference charged or credited to additional paid-in capital? An excess of purchase price over the par value and any amount charged to additional paid-in capital should be charged to retained earnings. (Alternatively, the excess may be charged entirely to retained earnings.) (APB No. 6, para. 12b)			
d. If the purchase of treasury stock also involves the receipt or payment of consideration in exchange for stated or unstated rights or privileges, have the allocation of amounts paid and the accounting treatment for such amounts been disclosed? (FTB 85-6, para. 3)			
9. Is each classification of accumulated other comprehensive income presented either (a) on the face of the balance sheet as a separate component of equity, (b) on the statement of changes in equity, or (c) in the notes to the financial statements? (SFAS No. 130, para. 26)			
10. Have the following been separately disclosed as part of the disclosures of accumulated other comprehensive income: (SFAS No. 133, para. 47)			
a. The beginning and ending accumulated derivative gain or loss?			
b. The related net change associated with current period hedging transactions?			
c. The net amount of any reclassification into earnings?			

STATEMENT OF INCOME (Some income statement disclosures have already been addressed in the section on balance sheet related disclosures.) Program Specific ☐

1. Are the major categories of revenue and expense items, such as sales, cost of goods sold, and selling and administrative expenses, shown separately on the face of the income statement? (Generally accepted)	✓		
2. Are sales or operating revenues shown net of discounts, allowances, etc.? (Generally accepted)			✓
3. Are sales revenues and cost of goods sold shown net of estimated returns? (SFAS No. 48, para. 7)			
4. Are cost of goods sold and expenses shown net of purchase discounts? (Generally accepted)			
5. For each accounting period presented, have the following been disclosed: (SFAS No. 34, para. 21, and SFAS No. 49, para. 9)			
a. The total amount of interest costs incurred, with separate identification of			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made?		
	Yes	No	N/A
interest costs associated with product financing arrangements?			✓
b. The total amount of interest charged to expense?			
c. The total amount of interest capitalized?			
6. Are all accrued net losses on firm purchase commitments for inventory separately disclosed in the income statement? (ARB No. 43, ch. 4, para. 17)			
7. Are material events or transactions that are either unusual in nature or of infrequent occurrence, but not both (and thus not meeting the criteria for extraordinary items): (APB No. 30, para. 26; and FTB 82-1, para. 6)			
a. Reported as a separate component of income from continuing operations?			
b. Accompanied by disclosure of the nature and financial effects of each event?			
8. Have the nature of the event or transaction and the principal items entering into the determination of an extraordinary gain or loss been disclosed? (APB No. 30, para.11)			
9. Are all extraordinary items segregated from results of ordinary operations? (APB No. 30, paras. 10–12)			
10. Are descriptive captions and amounts (including applicable income taxes) presented for individual extraordinary events or transactions, preferably on the face of the income statement if practicable? (APB No. 30, para. 11)			
11. Is the adjustment in the current period of a previously presented extraordinary item presented properly? (APB No. 30, para. 25)			
12. Is the following information about comprehensive income disclosed:			
a. Components of comprehensive income and total comprehensive income for the period, presented either in a separate statement of comprehensive income that begins with net income, on the income statement below the total for net income, or in the statement of changes in equity? (SFAS No. 130, paras. 14 and 22)			
b. Reclassification adjustments, displayed on the face of the statement that presents comprehensive income or disclosed in the notes to the financial statements? (SFAS No. 130, para. 20)			
c. Income tax expense or benefit allocated to each component of other comprehensive income, including reclassification adjustments? (SFAS No. 130, para. 25)			
13. Has the net gain or loss on derivative instruments designated as cash flow hedging instruments that are reported in comprehensive income (including qualifying foreign currency cash flow hedges) been reported as a separate classification within other comprehensive income? (SFAS No. 133, para. 18)			

05861

	Disclosure Made? Yes	No	N/A
classification within other comprehensive income? (SFAS No. 133, para. 46)			

STATEMENT OF CASH FLOWS ☑

1. Are noncash investing and financing transactions disclosed either in narrative form or summarized in a schedule? (SFAS No. 95, para. 32)			
2. Is the accounting policy for determining which items are treated as cash and cash equivalents disclosed? (SFAS No. 95, para. 10)			
3. If the indirect method of reporting cash flows from operating activities is used, are amounts of interest paid (net of amounts capitalized) and income taxes paid during the period disclosed? (SFAS No. 95, para. 29)			
4. If cash flows from derivative instruments that are accounted for as fair value hedges or cash flow hedges are classified in the same category as cash flows from the item being hedged, is that accounting policy disclosed? (SFAS No. 104, para. 7 or SFAS No. 133, para. 530)			

GENERAL FINANCIAL STATEMENT DISCLOSURES (These are additional note disclosures that have not been addressed in previous checklist questions.)

NATURE OF OPERATIONS ☑

1. Have the following disclosures about the entity's products or services been made: (SOP 94-6, para. 10)			
a. A description of the major products or services the entity sells or provides and its principal markets, including the location of those markets?	✓		✓
b. If the entity operates in more than one business, the relative importance of its operations in each business and the basis for that determination (e.g., based on assets, revenues, or earnings)?			✓

USE OF ESTIMATES ☐

1. Has the fact that preparation of financial statements in conformity with GAAP requires the use of management's estimates been disclosed? (SOP 94-6, para. 11)			✓

ACCOUNTING POLICIES ☐

1. Have the following accounting policies, if significant, been presented in the first note or in a separate schedule:			
a. Basis for stating inventories and the method of determining cost? (ARB No. 43, ch. 3A, para. 9, and ch. 4, paras. 4–16; and APB No. 22, para. 13)			

05862

	Disclosure Made?		
	Yes	No	N/A
b. General description of the methods used to compute depreciation for major classes of depreciable assets? (APB No. 12, para. 5)			✓
c. If SFAS No. 142 has not been adopted, the method and period used to amortize intangible assets? (APB No. 17, para. 30) (SFAS No. 142, *Goodwill and Other Intangible Assets*, generally is effective for fiscal years beginning after December 15, 2001. See INTANGIBLES.)			
d. Policy used to determine whether a short-term investment is treated as a cash equivalent in the statement of cash flows? (SFAS No. 95, para. 10)			
e. Method used to recognize interest income on impaired loans? (SFAS No. 118, para. 6)			
f. Method used to account for the sale or purchase of tax benefits through tax leases? (FASB TB 82-1, para. 4)			
g. Policy for investments in the stock of the entity's parent or joint venture partner? (EITF No. 98-2)			
h. Policy for classifying shipping and handling costs? (If shipping and handling costs are significant and are not included in cost of sales, the amount of such costs and the line item on the income statement that includes such costs also should be disclosed.) (EITF No. 00-10)			
i. Basis for accounting for loans, trade receivables, and lease financings, including those classified as held for sale? (SOP 01-6, para. 13)			
j. Method used to determine the lower of cost or fair value of nonmortgage loans held for sale? (SOP 01-6, para. 13)			
k. Classification and method of accounting for interest-only strips, loans, other receivables, or retained interests in securitizations that can be contractually prepaid or otherwise settled in a way that the entity would not recover substantially all of its recorded investment? (SOP 01-6, para. 13)			
l. Method used to recognize interest income on loan and trade receivables, including the entity's policy for treatment of related fees and costs (including its method of amortizing net deferred fees or costs)? (SOP 01-6, para. 13)			
m. Method used to estimate allowances for loan losses and doubtful accounts, liabilities for off-balance-sheet credit losses, and related charges, including a description of the factors influencing management's judgment? (SOP 01-6, para. 13)			
n. Policies for placing loans and trade receivables on nonaccrual status, recording payments on nonaccrual receivables, and resuming accrual of interest? (SOP 01-6, para. 13)			
o. Policy for charging off uncollectible loans and trade receivables? (SOP 01-6, para. 13)			
p. Policy for determining when receivables are past due or delinquent (that is, based on contractual terms or how recently payments have been received)? (SOP 01-6, para. 13)			
q. Other significant accounting policies, including those for which there is a selection from existing acceptable alternatives, principles, and methods peculiar to the industry in which the entity operates, and unusual or innovative applications of GAAP or methods of application? (APB No. 22, paras. 8–15)	✓

	Disclosure Made? Yes	No	N/A
2. Is there disclosure of any material changes in classifications made to previously issued financial statements? (AU Section 420.16)			✓
RELATED-PARTY TRANSACTIONS AND COMMON CONTROL			☐
1. Do disclosures of material related-party transactions include: (SFAS No. 57, para. 2)			
a. The nature of the relationship(s)? (If necessary to an understanding of the effects of the transactions, the related party should be identified by name.)	✓		
b. A description of the transactions, including transactions to which no amounts or nominal amounts were ascribed, for each of the periods for which an income statement is presented and such other information deemed necessary to an understanding of the effects of the transactions on the financial statements?			✓
c. The dollar amounts of transactions for each of the periods for which income statements are presented and the effects of any change in the method of establishing the terms from that used in the preceding period?			✓
d. Amounts due from or to related parties as of the date of each balance sheet presented and, if not otherwise apparent, the terms and manner of settlement?	✓		
e. The disclosures required by SFAS No. 109? (See INCOME TAXES, Question No. 12)			✓
2. If representations are made that the related-party transactions were consummated on terms equivalent to those that prevail in arm's length transactions, can such representations be substantiated? (SFAS No. 57, para. 3)			
3. If the entity and one or more other entities are under common control and the existence of that control could result in operating results or financial position of the entity significantly different from those that would have been obtained if the entities were autonomous, has disclosure been made of the nature of the control relationship, even though there have been no transactions between the entities? (SFAS No. 57, para. 4)			
PENSION AND POSTRETIREMENT BENEFIT PLANS—DEFINED CONTRIBUTION (Profit-sharing Plans) (See Part II for defined benefit pension plan disclosures.)			☐
1. Is the following information about the entity's defined contribution pension or other postretirement benefit plans disclosed separately from the entity's defined benefit plans: (SFAS No. 132, para. 9)			
a. The amount of cost recognized during the period?			
b. A description of the nature and effect of any significant changes during the

	Disclosure Made?		
	Yes	No	N/A
period affecting comparability (such as a change in the rate of employer contributions, a business combination, or a divestiture)?			✓

LEASES IN STATEMENTS OF LESSEES

1. General disclosures:

   a. Have the nature and extent of leasing transactions with related parties been disclosed? (SFAS No. 13, para. 29)

   b. Has a general description of the entity's leasing arrangements been disclosed, including, but not limited to, the basis on which contingent rental payments are determined; the existence and terms of renewal or purchase options and escalation clauses; and restrictions imposed by lease agreements such as those concerning dividends, additional debt, and further leasing? (SFAS No. 13, para. 16d)

2. Operating leases:

   a. Has disclosure of the following been made for operating leases having initial or remaining noncancelable lease terms in excess of one year: (SFAS No. 13, para. 16b)

      (1) Future minimum rental payments required as of the date of the latest balance sheet presented, in the aggregate and for each of the five succeeding fiscal years?

      (2) The total amount of minimum rentals to be received in the future under noncancelable subleases as of the date of the latest balance sheet presented?

   b. Has disclosure been made of rental expense for each period for which an income statement is presented, with separate amounts for minimum rentals, contingent rentals, and sublease rental income? (NOTE: Rental payments under leases with terms of one month or less that were not renewed need not be included.) (SFAS No. 13, para. 16c)

3. Capital leases:

   a. Have the following been separately identified in each balance sheet presented or disclosed in the notes: (SFAS No. 13, paras. 13 and 16)

      (1) The gross amount of assets in the balance sheet recorded under capital leases and the accumulated amortization by major classes according to nature or function?

      (2) The lease obligations classified as current and long-term?

   b. Has disclosure been made of future minimum lease payments as of the latest

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
b. Has disclosure been made of future minimum lease payments as of the latest balance sheet presented, in the aggregate and for each of the five succeeding fiscal years, with appropriate separate deductions therefrom for executory costs and imputed interest to reduce net minimum lease payments to present value? (SFAS No. 13, paras. 10 and 16a)			✓
c. Has disclosure been made of minimum sublease rentals to be received in the future under noncancelable subleases? (SFAS No. 13, para. 16a)			
d. Have the following been disclosed for each income statement presented: (SFAS No. 13, paras. 13 and 16a, and SFAS No. 29, para. 12)			
(1) Amortization expense, unless it is included in depreciation expense and that fact has been disclosed?			
(2) Total contingent rentals actually incurred?			
4. Sales-leaseback transactions:			
a. Has the seller-lessee disclosed the terms of the transaction, including any future commitments, obligations, provisions, or circumstances that require or result in the seller-lessee's continuing involvement? (SFAS No. 98, para. 17)			
b. For transactions accounted for under the deposit method or as a financing, has the seller-lessee disclosed the following, in the aggregate and for each of the five years succeeding the latest balance sheet date: (SFAS No. 98, para. 18)			
(1) Obligation for future minimum lease payments as of the date of the latest balance sheet presented?			
(2) Total minimum sublease rentals to be received in the future under noncancelable subleases?			
FINANCIAL INSTRUMENTS			☐
1. Have significant concentrations of credit risk from all financial instruments been disclosed, including the following about each significant concentration: (SFAS No. 133, para. 531)			
a. Information about the activity, region, or economic characteristic that identifies the concentration?			
b. The maximum amount of loss due to credit risk that, based on the gross fair value of the financial instrument, the entity would incur if parties to the financial instruments that make up the concentration failed to perform according to the terms of the contracts and the collateral, if any, proved to be of no value?			
c. The entity's policy of requiring collateral to support financial instruments subject to credit risk?			
d. Information about the entity's access to collateral?			
e. A description of the collateral?			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
e. A description of the collateral?			
f. The entity's policy of entering into master netting arrangements to mitigate the credit risk of financial instruments?			✓
g. Information about the master netting arrangements for which the entity is a party?			
h. A brief description of the terms of master netting arrangements, including the extent to which they would reduce the entity's maximum amount of loss due to credit risk?			

NOTE: The disclosure requirements in Question Nos. 2 and 3 are optional for nonpublic companies that (a) have total assets on the financial statement date of less than $100 million and (b) have no instrument that, in whole or in part, is accounted for as a derivative instrument under SFAS No. 133 during the reporting period. (SFAS No. 126, para. 2, and SFAS No. 133, para. 537)

2. Have the following disclosures about the fair value of financial instruments been made: (SFAS No. 107, paras. 10 and 14)

a. Fair value of financial instruments for which it is practicable to estimate fair value? (NOTE: For trade receivables and payables, no disclosure is required when the carrying amount approximates fair value.)			
b. The methods and significant assumptions used to estimate the fair value of financial instruments?			
c. If it is not practicable to estimate the fair value of a financial instrument or a class of financial instruments, the reasons it is not practicable and information pertinent to estimating the fair value of the financial instrument or class of financial instruments, such as the carrying amount, effective interest rate, and maturity?			

3. Do the disclosures in Question No. 2a: (SFAS No. 133, para. 532)

a. Include the related carrying amounts in a format that makes it clear (1) whether the fair value and carrying amount represent assets or liabilities and (2) how the carrying amounts relate to what is reported in the balance sheet?			
b. Appear in a single note or, if disclosed in more than a single note, does one note include a summary table containing the fair value and related carrying amounts and refer to the other disclosures required by SFAS No. 107?			

4. For entities that hold or issue derivative instruments or other hedging instruments, have the disclosures required by SFAS No. 133 been made? (See DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES.)

5. If the entity transfers financial instruments during the period and it is not practicable to estimate the fair values of the assets obtained or liabilities incurred in the transfer, have the assets and liabilities been described and the reasons why it is not practicable to estimate their fair value been disclosed? (SFAS No. 140, para. 17)

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
para. 17)			
6. Unless FASB Interpretation No. 39, "Offsetting of Amounts Related to Certain Contracts," or FASB Interpretation No. 41, "Offsetting of Amounts Related to Certain Repurchase and Reverse Repurchase Agreements," permits the carrying amounts to be offset in the statement of financial position, does the entity disclose the fair value of financial instruments without netting the fair value with the fair value of other financial instruments? (SFAS No. 133, para. 531)			✓
7. If the entity has entered into repurchase agreements or securities lending transactions, has its policy for requiring collateral been disclosed? (SFAS No. 140, para. 17)			
8. Have the carrying amount and classification of financial assets pledged as collateral but not separately reported in the statement of financial position (for example, as securities pledged to creditors) been disclosed? (SFAS No. 140, para. 17)			
9. Has the following been disclosed about financial assets the entity has accepted as collateral and is permitted to sell or repledge: (SFAS No. 140, para. 17)			
a. The collateral's fair value as of the date of each statement of financial position presented?			
b. The portion of the collateral that has been sold or repledged?			
c. Information about the sources and uses of the collateral?			
OTHER COMMITMENTS			☐
1. Are the following types of commitments disclosed:			
a. Obligations to reduce debts, maintain working capital, or restrict dividends? (SFAS No. 5, paras. 18–19)			
b. Unused letters of credit? (SFAS No. 5, paras. 18–19; also see FINANCIAL INSTRUMENTS)			
c. Net losses on inventory purchase commitments? (ARB No. 43, ch. 4, para. 17)			
d. Existence, nature, and amount of any guarantees, even if the possibility of loss is remote? (SFAS No. 5, para. 12; and FASBI No. 34; also see FINANCIAL INSTRUMENTS)			
CONTINGENCIES, RISKS, AND UNCERTAINTIES			☐
SFAS No. 5 Contingencies			☐
1. Are the nature and amount of an accrued loss contingency disclosed in the financial statements if exposure to loss in excess of the amount accrued exists, or disclosure is necessary to keep the financial statements from being misleading? (SFAS No. 5, paras. 9–10)			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made?		
	Yes	No	N/A
(SFAS No. 5, paras. 8–10)			
2. For loss contingencies not accrued, but when at least a reasonable possibility exists that a loss (or additional loss in excess of amounts accrued) may have occurred, do disclosures indicate: (SFAS No. 5, para. 10)			
a. Nature of contingency?			
b. Estimate of possible loss or range of loss, or a statement that such estimate cannot be made?			
3. Have contingencies that might result in gains been adequately disclosed but not reflected in the accounts so as not to recognize revenue prior to its realization? (SFAS No. 5, para. 17)			
4. If it is at least reasonably possible that the effect on the financial statements of significant estimates involving SFAS No. 5 contingencies (as referred to in Question Nos. 1–3) will change within one year of the date of the financial statements due to one or more future confirming events and the effect of that change would be material to the financial statements, do the disclosures include an indication that it is at least reasonably possible that a change in estimate will occur in the near term? (SOP 94-6, paras. 13–15) (NOTE: If the entity uses risk reduction techniques to mitigate losses or the uncertainty that may result from future events and, as a result, the preceding criteria are not met, the disclosures are encouraged but not required.)			
5. Has disclosure been made of loss contingencies relating to guarantees made for outside parties including the nature and amounts thereof? [Also, consider disclosing, if estimable, the value of any recovery that could be expected to result. Examples include (a) guarantees of indebtedness of others, and (b) indirect guarantees of the indebtedness of others. (SFAS No. 5, para. 12; also see FINANCIAL INSTRUMENTS)]			
Significant Estimates Other Than SFAS No. 5 Contingencies			
6. Have the following disclosures been made for significant estimates if it is at least reasonably possible that the estimates will change within one year of the date of the financial statements due to one or more confirming events and the effect of that change would be material: (SOP 94-6, paras. 13–15) (NOTE: If the entity uses risk reduction techniques to mitigate losses or the uncertainty that may result from future events and, as a result, the preceding criteria are not met, the disclosures are encouraged but not required.)			
a. The nature of the estimate?			
b. An indication that it is at least reasonably possible that a change in the estimate will occur in the near term?			
Concentrations			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
7. Have the following concentrations and the general nature of the risk associated with each been disclosed if (a) the concentration exists at the financial statement date, (b) the concentration makes the entity vulnerable to the risk of a near-term severe impact, and (c) it is at least reasonably possible that the events that could cause the severe impact will occur in the near term: (SOP 94-6, paras. 21, 22, and 24)			✓
a. Concentrations in the volume of business transacted with a particular customer, supplier, lender, grantor, or contributor? (NOTE: It is always considered at least reasonably possible that any customer, grantor, or contributor will be lost in the near term.)			
b. Concentrations in revenue from particular products, services, or fund-raising events?			
c. Concentrations in the available sources of supply of materials, labor, or services, or of licenses or other rights used in the entity's operations?			
d. Concentrations in the market or geographic area?			
e. Concentrations of labor subject to collective bargaining agreements, including the percentage of the labor force covered by those agreements and the percentage covered by agreements that will expire within one year?			
f. Concentrations of operations outside the entity's home country, including the carrying amounts of net assets and the geographic areas in which they are located? (NOTE: It is always considered at least reasonably possible that operations located outside an entity's home country will be disrupted in the near term.)			

Going Concern

8. If substantial doubt exists about the entity's ability to continue as a going concern for a period not to exceed one year beyond the balance sheet date, do the financial statements adequately disclose the following matters: (AU Section 341.10)			
a. Pertinent conditions and events giving rise to the assessment of substantial doubt about the entity's ability to continue as a going concern for a period not to exceed one year from the balance sheet date?			
b. The possible effects of such conditions and events?			
c. Management's evaluation of the significance of those conditions and events and any mitigating factors?			
d. Possible discontinuance of operations?			
e. Management's plans (including relevant prospective financial information)?			
f. Information about the recoverability or classification of recorded asset amounts or the amounts or classification of liabilities?			

Rents received under "Recipients contributions"

9. If substantial doubt about the entity's ability to continue as a going concern for a

period not to exceed one year from the balance sheet date is alleviated, do the financial statements adequately disclose the following matters: (AU Section 341.11)			✓
a. The conditions and events that initially caused the substantial doubt?	____	____	____
b. The possible effects of such conditions and events?	____	____	____
c. Any mitigating factors, including management's plans?	____	____	____

ILLEGAL ACTS

1. If material revenue or earnings are derived from transactions involving illegal acts, or if illegal acts create significant unusual risks associated with material revenue or earnings, such as loss of a significant business relationship, has that information been disclosed? (AU Section 317.15)	____	____	____

CHANGES IN PRESENTATION OF COMPARATIVE STATEMENTS

1. If, because of reclassifications or other reasons, changes have occurred in the manner of or the basis for presenting corresponding items in comparative statements, are the changes explained? (ARB No. 43, ch. 2A, para. 3)	____	____	____

SUBSEQUENT EVENTS

1. Are subsequent events that provide evidence about conditions that *did not exist* at the date of the balance sheet, but arose subsequent to the date, adequately disclosed to keep the financial statements from being misleading? (SFAS No. 5, para. 11; and AU Sections 560.05–.07 and .09)	____	____	____
2. If a change in the entity's tax status becomes effective after year end but before the financial statements are issued, are proper disclosures made? (QA-SFAS No. 109, No. 11)	____	____	____
3. If a material business combination is completed after the balance sheet date but before the financial statements are issued, has the information required by SFAS No. 141 been disclosed, if practicable? (See BUSINESS COMBINATIONS, Question Nos. 1–3)	____	____	____

PART II—OTHER DISCLOSURES

Instructions

Part I contains a checklist of Part II disclosures common to nonpublic entities. If any of those Part II disclosures are present, attach to Part I the appropriate disclosure page(s) in Part II, then complete the added pages. Occasionally the appropriate pages selected from Part II will include disclosure topics not applicable to the entity. If that occurs, check the N/A sections for the nonapplicable topics.

	Disclosure Made?		
	Yes	No	N/A
ACCOUNTING CHANGES AND CORRECTION OF AN ERROR			☑
1. Change in accounting principle:			
a. Have the nature of and justification for a change in accounting principle (clearly explaining why the change is preferable) and its effect on income before extraordinary items and net income of the period of the change been disclosed? (APB No. 20, para. 17)			
b. Have changes that have no material effect on current financial statements but are reasonably certain to have a substantial effect in later years been disclosed? (APB No. 20, para. 38)			
c. If an entity changes its method of amortization for newly acquired, identifiable, long-lived assets and uses that method for all additional new assets of the same class, but continues to use the previous method for existing assets of that class, have the nature of the change, effect on income before extraordinary items, and effect on net income been disclosed? (APB No. 20, para. 24)			
2. For a change in accounting principle accounted for by restating prior statements, has the effect on income before extraordinary items and net income for all prior periods presented been disclosed? (APB No. 20, para. 28)			
3. Change in accounting principle accounted for as a cumulative effect adjustment:			
a. Has the cumulative effect of a change in accounting principle been shown as a separate item in the income statement between the captions "extraordinary items" and "net income," and has the related tax effect also been shown? (APB No. 20, para. 20)			
b. Have pro forma amounts of income before extraordinary items and net income been shown on the face of the income statement for all periods presented as if the newly adopted accounting principle had been applied during all periods affected? (If an income statement is presented for the current period only, the actual and pro forma amounts for the immediately preceding period should be disclosed.) (APB No. 20, paras. 19 and 21)			
c. If the pro forma amounts cannot be computed or reasonably estimated for individual prior periods although the cumulative effect on retained earnings at the beginning of the period of change can be determined, has the reason for

	Disclosure Made? Yes	No	N/A
the beginning of the period of change can be determined, has the reason for not showing the pro forma amounts been disclosed? (APB No. 20, para. 25)	____	____	✓
d. If it is considered impossible to compute the effect on retained earnings at the beginning of the period of change (principally changes from FIFO to LIFO), do the financial statements disclose: (APB No. 20, para. 26)			
(1) The effects of the change on the results of operations of the period of change?	____	____	____
(2) The reason for omitting accounting for the cumulative effect and disclosure of pro forma amounts for prior years?	____	____	____
4. Change in accounting estimate:			
a. For a change in an estimate that affects several future periods, has the effect on income before extraordinary items and net income of the current period been disclosed? (APB No. 20, para. 33)	____	____	____
b. Has disclosure been made of the effect, if material, on income before extraordinary items and net income for changes in estimates made each period in the ordinary course of accounting for items such as uncollectible accounts or inventory obsolescence? (APB No. 20, para. 33)	____	____	____
5. For a change in reporting entity, do financial statements for the period in which a change has occurred describe the nature of the change, the reason for it, and the effect of the change on income before extraordinary items and net income? (APB No. 20, para. 35)	____	____	____
6. For a correction of an error, have the following been disclosed:			
a. The nature of the error? (APB No. 20, para. 37)	____	____	____
b. Effect of the correction on income before extraordinary items and net income in the period of correction? (APB No. 20, para. 37)	____	____	____
c. For comparative financial statements, adjusted net income and its components, retained earnings balances, and other affected balances for all periods presented to reflect retroactive application of the prior-period adjustment? (APB No. 9, para. 18)	____	____	____
d. For single period financial statements, the effect of restatement (gross and net of tax) on beginning retained earnings and on net income of the preceding year? (APB No. 9, para. 26)	____	____	____
e. The amount of income tax applicable to each prior-period adjustment? (APB No. 9, para. 26)	____	____	____
f. If a restated historical financial summary (commonly 5 or 10 years) is presented, disclosure of the restatements in the first summary after the restatements? (APB No. 9, para. 27)	____	____	____

ADVERTISING COSTS

1. Have the following disclosures about direct-response advertising been made: (SOP 93-7, para. 49)			
a. A description of the direct-response advertising that is capitalized?			

05877

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
a. A description of the direct-response advertising that is capitalized?			
b. The accounting policy for it?			✓
c. The amortization period?			
2. For nondirect-response advertising costs, has the policy about whether those costs are expensed as incurred or expensed the first time the advertising takes place been disclosed? (SOP 93-7, para. 49)			
3. Have the total advertising costs charged to expense for each income statement presented been disclosed? (SOP 93-7, para. 49)			
4. Have any write-downs of capitalized advertising to net realizable value been disclosed? (SOP 93-7, para. 49)			
5. Has the total amount of capitalized advertising included in each balance sheet presented been disclosed? (SOP 93-7, para. 49)			
6. Has the amount of revenue and expense recognized from advertising barter transactions been disclosed for each income statement period presented? (If the fair value of such transactions is not determinable, has information regarding the volume and type of advertising surrendered and received been disclosed for each income statement presented?) (EITF 99-17)			

BUSINESS COMBINATIONS ☐

1. Have the following required disclosures been made in the period in which a material business combination is completed: (SFAS No. 141, para. 51)			
a. Name and description of acquired entity?	✓		
b. Percentage of voting equity interests acquired?			✓
c. Primary reasons for the acquisition, including a description of the factors that contributed to a purchase price that results in recognition of goodwill?			
d. Period for which results of operations of the acquired entity are included in the combined entity's income statement?			
e. Cost of the acquired entity and, if applicable, the number of shares of equity interest issued or issuable, the value assigned to those interests, and the basis for determining that value?			
f. Condensed balance sheet disclosing the amount assigned to each major asset and liability caption of the acquired entity at the acquisition date?			
g. Contingent payments, options, or commitments specified in the acquisition agreement and the accounting treatment that will be followed should any contingency occur?			
h. Amount of purchased research and development assets acquired and written off in the period and the income statement line item in which the amounts written off are aggregated?			
i. If the purchase price allocation has not been finalized, that fact and the reasons therefor?			
2. If adjustments to prior period allocations of the purchase price of an acquired entity have been made in the current period, have the nature and amount of the

	Disclosure Made?		
	Yes	No	N/A
entity have been made in the current period, have the nature and amount of the adjustments been disclosed? (SFAS No. 141, para. 51)			✓
3. If goodwill or other intangible assets acquired are significant to the total cost of the acquired entity, have the following been disclosed: (SFAS No. 141, para. 52)			
a. For intangible assets subject to amortization, the amount, residual value, and weighted-average amortization period, in total and by major intangible asset class?			
b. Amount assigned to intangible assets not subject to amortization, in total and by major intangible asset class?			
c. Total amount of goodwill and the amount expected to be deductible for tax purposes?			
4. If a series of individually immaterial business combinations were completed during the period are material in the aggregate, have the following been disclosed: (SFAS No. 141, para. 53)			
a. Number and descriptions of the entities acquired?			
b. Aggregate cost of the acquired entities, number of equity interests issued or issuable, and the value assigned to those interests?			
c. Aggregate amount of contingent payments, options, or commitments and the accounting treatment that will be followed should any such contingency occur (if potentially significant to the aggregate cost of the acquired entities)?			
d. If the aggregate amount assigned to goodwill or other intangible assets acquired is significant to the aggregate cost of the acquired entities, the information in Question No. 3?			
5. If the combined entity plans to incur costs from exiting an activity of an acquired entity, involuntarily terminating employees of an acquired entity, or relocating employees of an acquired entity and the activities of the acquired entity that will not be continued are significant to the combined entity's revenues or operating results or the cost recognized from those activities as of the consummation date are material to the combined entity:			
a. Have the following disclosures been made for the period in which a purchase business combination occurs: (EITF No. 95-3)			
(1) When the plans to exit an activity or involuntarily terminate (relocate) employees of the acquired entity are not final as of the balance sheet date, a description of any unresolved issues, the types of additional liabilities that may result in an adjustment to the purchase price allocation, and how any adjustment will be reported?			
(2) A description of the type and amount of liabilities assumed in the purchase price allocation for costs to exit an activity or involuntarily terminate (relocate) employees?			
(3) A description of the major actions comprising the plan to exit an activity or involuntarily terminate (relocate) employees of an acquired entity?			
(4) A description of activities of the acquired entity that will not be continued, including the method of disposition, and the anticipated date			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
continued, including the method of disposition, and the anticipated date of completion and description of employee group(s) to be terminated (relocated)?			✓
b. Have the following disclosures been made for all periods presented subsequent to the acquisition date in which a purchase business combination occurred, until a plan to exit an activity or involuntarily terminate or relocate employees of an acquired entity is fully executed: (EITF No. 95-3)			
(1) A description of the type and amount of exit costs, involuntary employee termination costs, and relocation costs paid and charged against the liability?			
(2) The amount of any adjustment(s) to the liability account and whether the corresponding entry was an adjustment of the costs of the acquired entity or included in the determination of net income for the period?			
COMPUTER SOFTWARE REVENUES AND COSTS			☐
1. Have the policies for recognizing revenue from selling, leasing, or otherwise marketing computer software been disclosed? (Generally accepted)			
2. Have the following been disclosed for computer software costs to be sold, leased, or otherwise marketed, whether internally developed, produced, or purchased (except costs incurred for computer software created for others under a contractual arrangement): (SFAS No. 86, para. 11)			
a. Unamortized computer software costs included in each balance sheet presented?			
b. The total amount charged to expense in each income statement presented for amortization of capitalized computer software costs and for amounts written down to net realizable value?			
3. Are research and development costs incurred for a computer software product to be sold, leased, or otherwise marketed disclosed (either separately or as part of total research and development costs) for each period presented? (SFAS No. 86, para.12)			
CONSOLIDATIONS			☐
1. If consolidated statements are presented:			
a. Is the consolidation policy disclosed? (ARB No. 51, para. 5; and APB No. 22, para. 13)			
b. Are interentity balances and transactions eliminated? (ARB No. 51, para. 6)			
c. If the financial reporting periods of subsidiaries differ from that of the parent, is recognition given by disclosure or otherwise to the effect of intervening events that materially affect financial position or the results of operations? (ARB No. 51, para. 4; SFAS No. 12, paras. 18–20; and FASBI No. 13)			
DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES			☐

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
1. If the entity holds or issues derivative instruments (or nonderivative instruments that are designated and qualify as hedging instruments), have the following disclosures been made: [The disclosures should distinguish between (a) derivative instruments (and nonderivative instruments) designated as fair value hedging instruments, (b) derivative instruments designated as cash flow hedging instruments, (c) derivative instruments (and nonderivative instruments) designated as hedging instruments for hedges of the foreign currency exposure of a net investment in a foreign operation, and (d) all other derivatives.] (SFAS No. 133, para. 44)			✓
a. The entity's objectives for holding or issuing each type of hedging instrument, including the context needed to understand the objectives and the entity's strategies for achieving the objectives?			
b. The entity's risk management policy for each type of hedge, including a description of the items or transactions for which risks are hedged?			
c. The purpose of the derivative activity for derivative instruments not designated as hedging instruments?			
2. Have the following disclosures been made for each reporting period for which a complete set of financial statements is presented: (SFAS No. 133, para. 45)			
a. For derivative instruments designated and qualifying as fair value hedging instruments (as well as nonderivative instruments that may give rise to foreign currency transaction gains or losses under SFAS No. 52) and for the related hedged items:			
(1) The net gain or loss recognized in earnings during the reporting period representing (a) the amount of the hedges' ineffectiveness and (b) the component of the derivative instruments' gain or loss, if any, excluded from the assessment of hedge effectiveness?			
(2) A description of where the net gain or loss is reported in the income statement or other statement of financial performance?			
(3) The amount of net gain or loss recognized in earnings when a hedged firm commitment no longer qualifies as a fair value hedge?			
b. For derivative instruments designated and qualifying as cash flow hedging instruments and for the related hedged transactions:			
(1) The net gain or loss recognized in earnings during the reporting period representing (a) the amount of the hedges' ineffectiveness and (b) the component of the derivative instruments' gain or loss, if any, excluded from the assessment of hedge effectiveness?			
(2) A description of where the net gain or loss is reported in the income statement or other statement of financial performance?			
(3) A description of the transactions or other events that will result in the reclassification into earnings of gains and losses that are reported in accumulated other comprehensive income?			
(4) The estimated net amount of the existing gains or losses at the reporting date that is expected to be reclassified into earnings within the next 12			

05881

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made?		
	Yes	No	N/A
date that is expected to be reclassified into earnings within the next 12 months?			✓
(5) The maximum length of time over which the entity is hedging its exposure to the variability in future cash flows for forecasted transactions excluding those forecasted transactions related to the payment of variable interest on existing financial instruments?			
(6) The amount of gains and losses reclassified into earnings as a result of the discontinuance of cash flow hedges because it is probable that the original forecasted transactions will not occur by the end of the originally specified time period or within the additional period of time discussed in paragraph 33 of SFAS No. 133?			
c. The net amount of gains or losses included in the cumulative translation adjustment during the reporting period for derivative instruments designated and qualifying as hedging instruments for hedges of the foreign currency exposure of a net investment in a foreign operation (as well as for nonderivative instruments that may give rise to foreign currency transaction gains or losses under SFAS No. 52)? (SFAS No. 133, para. 45)			
3. Has the net gain or loss on derivative instruments designated and qualifying as cash flow hedging instruments that are reported in comprehensive income been displayed as a separate classification within other comprehensive income? (SFAS No. 133, para. 46)			
4. Have the following disclosures been made separately as part of the disclosures of accumulated other comprehensive income: (SFAS No. 133, para. 47)			
a. The beginning and ending accumulated derivative gain or loss?			
b. The related net change associated with current period hedging transactions?			
c. The net amount of any reclassification into earnings?			
DEVELOPMENT STAGE COMPANIES			
1. Do the financial statements of development stage companies disclose: (SFAS No. 7, paras. 11–13)			
a. Balance Sheet—any cumulative net losses reported with a descriptive caption such as "deficit accumulated during the development stage" in the stockholders' equity section?			
b. Income Statement—amounts of revenues and expenses for each individual period presented as well as cumulative amounts from the entity's inception?			
c. Statement of Cash Flows—cash inflows and outflows for each period for which an income statement is presented and, in addition, cumulative amounts from the entity's inception?			
d. Statement of Stockholders' Equity—showing from the entity's inception:			
(1) For each issuance, the date and number of shares of stock, warrants, rights, or other equity securities issued for cash and for other consideration?			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made?		
	Yes	No	N/A
(2) For each issuance, the dollar amounts (per share or other equity unit and in total) assigned to the consideration received for shares of stock, warrants, rights, and other equity securities? (Dollar amounts should be assigned to any noncash consideration received.)			
(3) For each issuance involving noncash consideration, the nature of the noncash consideration and the basis for assigning amounts?			
e. That the financial statements are those of a development stage company and a description of the nature of the development stage activities in which the entity is engaged?			
f. In the financial statements for the first fiscal year in which the entity is no longer considered to be in the development stage that in prior years it had been in the development stage? [If financial statements for prior years are presented for comparative purposes, the cumulative amounts and other additional disclosures required by (a) through (e) need not be shown.]			

DISCONTINUED OPERATIONS

The disclosures in items 1–2 apply if SFAS No. 144 has not been adopted. SFAS No. 144 is effective for financial statements of fiscal years beginning after December 15, 2001, and interim periods within those fiscal years.

1. For discontinued operations of a segment of a business, has disclosure been made for: [For periods subsequent to the measurement date and including the period of disposal, notes should disclose the information in items (e) through (l).] (APB No. 30, paras. 8 and 18)			
a. Income or loss of the discontinued segment (net of applicable income taxes) reported separately from income from continuing operations (before extraordinary items and cumulative effects of accounting changes)?			
b. Gain or loss from disposal of the discontinued segment (net of applicable income taxes) reported separately from income from continuing operations (before extraordinary items and cumulative effects of accounting changes)? (If the gain or loss cannot be reasonably estimated, that fact should be disclosed.)			
c. Amounts of income taxes applicable to income from discontinued operations and the gain or loss on disposal?			
d. Revenues applicable to the discontinued operations?			
e. The identity of the segment of business that has been or will be discontinued?			
f. The expected disposal date, if known?			
g. The expected manner of disposal?			
h. A description of the remaining assets and liabilities of the segment at the balance sheet date (may instead be disclosed by segregating the net assets and liabilities in the balance sheet)?			
i. Income or loss from discontinued operations and any proceeds from disposal of the segment during the period from the measurement date to the balance sheet date, and for periods subsequent to the measurement date including the period of disposal, those amounts compared to previously disclosed			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made?		
	Yes	No	N/A
estimates?			✓
2. For each adjustment in the current period of a loss on disposal of a business segment that was reported in a prior period, has the following been disclosed separately in the current period as a gain or loss on disposal of a segment: (APB No. 30, para. 25, and SFAS 16, para. 16)			
a. Year of origin and nature?			
b. Amount of adjustment?			
The following disclosures are required by SFAS No. 144, which is effective for financial statements of fiscal years beginning after December 15, 2001, and interim periods within those fiscal years (or for financial statements of entities who have adopted SFAS No. 144 early).			
3. Have the following disclosures been made for each period in which a component of an entity has been disposed of or classified as held for sale:			
a. Results of operations for the component, including any gain or loss on disposal and less applicable income taxes, reported as a separate component of income before extraordinary items and the cumulative effect of accounting changes, if applicable? (SFAS 144, para. 43)			
b. Nature and amount of any adjustments to amounts previously reported in discontinued operations that are directly related to the disposal of a component of the entity in a prior period? (Such adjustments should be classified separately in the current period in discontinued operations.) (SFAS No. 144, para. 44)			
c. Assets and liabilities of the disposal group presented separately in the asset and liability sections of the statement of financial position, with the major classes of such assets and liabilities separately disclosed either on the face of the statement of financial position or in the notes? (SFAS No. 144, para. 46)			
d. Description of the facts and circumstances leading to the expected disposal, the expected manner and timing of the disposal, and, if not separately presented on the face of the statement of financial position, the carrying amounts of the major classes of assets and liabilities included in the disposal group? (SFAS No. 144, para. 47)			
e. Loss recognized for any initial or subsequent write-down to fair value less cost to sell (or gain recognized for subsequent increases in fair value to the extent of such losses) and, if not separately presented on the face of the income statement, the caption in the income statement that includes the gain or loss? (SFAS No. 144, para. 47)			
f. Amounts of revenue and pretax profit or loss reported in discontinued operations? (SFAS No. 144, para. 47)			
g. The segment in which the long-lived asset is reported, if applicable? (SFAS No. 144, para. 47)			
4. If a decision was made during the period not to sell a disposal group previously classified as held for sale, do disclosures include a description of the circumstances leading to the decision and the effect of the decision on results of			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made?		
	Yes	No	N/A
circumstances leading to the decision and the effect of the decision on results of operations for all periods presented? (SFAS No. 144, para. 48)	____	____	____

EMPLOYEE STOCK OWNERSHIP PLANS (ESOPs)

The disclosures listed in items (1) through (6) are required by SOP 93-6, and apply to shares acquired by an ESOP after December 31, 1992 (new shares). Shares acquired on or before December 31, 1992 (old shares), may be accounted for following SOP 93-6, or SOP 76-3. If SOP 76-3 is followed, the applicable disclosures in items (1) through (4) and (6) through (7) should be made.

SOP 93-6

1. Do the financial statements disclose the following general information regarding the plan: (SOP 93-6, para. 53a)
   a. A description of the plan? ____ ____ ____
   b. The basis for determining contributions to the plan? ____ ____ ____
   c. The employee groups covered by the plan? ____ ____ ____
   d. The nature and effect of significant matters affecting comparability of information for the periods presented? ____ ____ ____
   e. The basis for releasing shares and how dividends on allocated and unallocated shares are used (applies to leveraged ESOPs and pension reversion ESOPs)? ____ ____ ____
2. Have the following accounting policy disclosures been made: (The disclosures are required for both *old shares* and *new shares* if the employer does not adopt SOP 93-6 guidance for old shares.) (SOP 93-6, para. 53b)
   a. The method of measuring compensation? ____ ____ ____
   b. The classification of dividends on ESOP shares? ____ ____ ____
   c. How ESOP shares are treated in the employer's earnings per share calculations? ____ ____ ____
3. Do the financial statements disclose the amount of plan compensation cost recognized during the period? (SOP 93-6, para. 53c) ____ ____ ____
4. Do the financial statements disclose the number of allocated shares, committed-to-be-released shares, and suspense shares held by the plan at the balance sheet date? (Separate disclosure is required for both old shares and new shares if the employer does not adopt SOP 93-6 guidance for the old shares.) (SOP 93-6, para. 53d) ____ ____ ____
5. Is the fair value of unearned ESOP shares at the balance sheet date disclosed? (This disclosure need not be made for old ESOP shares if the employer does not adopt SOP 93-6 guidance for the old shares.) (SOP 93-6, para. 53e) ____ ____ ____
6. Do the financial statements disclose the existence and nature of any repurchase obligations, including the fair value of any shares subject to a repurchase obligation and allocated as of the balance sheet date? (SOP 93-6, para. 53f) ____ ____ ____

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
SOP 76-3			
7. If an employer has, in substance, guaranteed the debt of an ESOP, do the employer's financial statements disclose: (SOP 76-3, para. 10)			
a. The compensation element and the interest element of annual contributions to the ESOP?	____	____	____
b. The interest rate and debt terms?	____	____	____
ENVIRONMENTAL REMEDIATION OBLIGATIONS AND CONTINGENCIES			☐
1. Has the following information been disclosed about recorded accruals for environmental remediation loss contingencies and related assets for third-party recoveries: (SOP 96-1, paras. 7.11 and 7.20)			
a. Whether the accrual for environmental remediation liabilities is measured on a discounted basis?	____	____	____
b. The nature and amount of the accrual (if necessary for the financial statements not to be misleading)?	____	____	____
c. If any portion of the accrued obligation is discounted, the undiscounted amount of the obligation and the discount rate used?	____	____	____
d. If it is at least reasonably possible that the accrued obligation or any recognized asset for third-party recoveries will change within one year of the date of the financial statements and the effect is material, an indication that it is at least reasonably possible that a change in the estimate will occur in the near term?	____	____	____
2. Have the following disclosures been made about unaccrued environmental remediation contingencies (including exposures in excess of amounts accrued): (SOP 96-1, para. 7.21)			
a. A description of the reasonably possible loss contingency and an estimate of the possible loss (or the fact that such an estimate cannot be made)?	____	____	____
b. If it is at least reasonably possible that the estimated loss (or gain) contingency will change within one year of the date of the financial statements and the effect is material, an indication that it is at least reasonably possible that a change in the estimate will occur in the near term?	____	____	____
3. If an environmental liability for a specific clean-up site is discounted because it meets the criteria for discounting in SOP 96-1 and the effect of discounting is material, do the financial statements disclose the undiscounted amounts of the liability and any related recovery and the discount rate used? (SOP 96-1, para. 7.20)	____	____	____
EXIT OR DISPOSAL ACTIVITIES			☐
The disclosures in item 1 apply if SFAS No. 146 has been adopted. SFAS No. 146 is effective for exit or disposal activities initiated after December 31, 2002. (Early application is encouraged.)			

05886

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
1. Has the following been disclosed if an exit or disposal activity was initiated or in process during the period: (SFAS No. 146, para. 20)			✓
a. A description of the exit or disposal activity, including the facts and circumstances leading to the activity and the expected completion date?	____	____	____
b. For each major type of cost associated with the activity:	____	____	____
(1) The total amount expected to be incurred in connection with the activity, the amount incurred during the period, and the cumulative amount incurred to date?	____	____	____
(2) A reconciliation of the beginning and ending liability balances showing separately the changes during the period attributable to costs incurred and charged to expense, costs paid or otherwise settled, and any adjustments to the liability? (The reasons for any adjustments should be explained.)	____	____	____
c. The line items in the income statement in which the exit or disposal costs are included?	____	____	____
d. If a liability for a cost associated with the activity is not recognized because fair value cannot be reasonably estimated, that fact and the reasons therefor?	____	____	____
The disclosures in items 2–3 apply if SFAS No. 146 has not been adopted. SFAS No. 146 is effective for exit or disposal activities initiated after December 31, 2002. (Early application is encouraged.)	____	____	____
2. Have the following disclosures about accrued employee termination benefits been made: (EITF 94-3)			
a. The amount of the termination benefits accrued and charged to expense and the classification of those costs in the income statement?	____	____	____
b. The number of employees to be terminated?	____	____	____
c. A description of the employee group(s) to be terminated?	____	____	____
d. The amount of actual termination benefits paid and charged against the liability accrued for employee termination benefits?	____	____	____
e. The number of employees actually terminated as a result of the termination plan?	____	____	____
f. The amount of any adjustment(s) to the liability accrued for employee termination benefits?	____	____	____
3. Have the following disclosures about the entity's plan to exit an activity been made in the financial statements of all periods until the exit plan is fully executed if the activities that will not be continued are significant to the entity's revenue or operating results or the exit costs recognized at the commitment date are material: (EITF 94-3)			
a. A description of the major actions included in the exit plan and the particular activities that will not be continued, including method of disposition?	____	____	____
b. When the major actions of the exit plan are expected to be completed?			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
b. When the major actions of the exit plan are expected to be completed?			✓
c. A description of the type and amount of exit costs recognized as liabilities?			
d. The classification of the exit costs in the income statement?			
e. A description of the type and amount of exit costs paid and charged against the liability?			
f. The amount of any adjustments to the liability?			
g. For all periods presented, the revenues and net operating income or losses from activities that will not be continued if those activities have separately identifiable operations?			
EXTINGUISHMENT OF DEBT			☐
1. If debt is considered to be extinguished prior to December 31, 1996, under the provisions of SFAS No. 76, para. 3(c) relating to cash or other assets placed in trust, is a general description of the transaction and the amount of debt that is considered extinguished at the end of the period disclosed so long as the debt remains outstanding? (SFAS No. 140, para. 17)			
2. If assets are set aside after December 30, 1996, solely for satisfying scheduled payments of a specific debt, has the nature of restrictions placed on those assets been disclosed? (SFAS No. 140, para. 17)			
SFAS No. 145 rescinds SFAS No. 4 for fiscal years beginning after May 15, 2002. (Early application is encouraged.) If SFAS No. 145 has not been applied, the disclosures in items 3–4 are required, if applicable.			
3. When a gain or loss from the extinguishment of debt is classified as an extraordinary item, has the transaction been described either on the statement or in a separate note (including the source of any funds used to extinguish the debt, if identifiable), and has the income tax effect in the period of extinguishment been disclosed? (SFAS No. 4, para. 9)			
4. Has the aggregate gain or loss from the extinguishment of debt not classified as an extraordinary item, e.g., sinking fund transactions, been identified in the income statement as a separate item, if material? (SFAS No. 4, para. 8)			
FOREIGN OPERATIONS			☐
1. Are significant foreign operations disclosed, including foreign earnings reported in excess of amounts received in the U.S. (or available for unrestricted transmittal to the U.S.)? (ARB 43, Ch. 12, paras. 5–6)			
2. Has the following information about foreign currency translations been disclosed: (SFAS No. 52, paras. 30–32)			
a. Aggregate foreign currency transaction gain or loss included in net income?			
b. Analysis of the changes during the period in accumulated other comprehensive income for cumulative translation adjustments, including at a minimum—			
(1) Beginning and ending amount of cumulative translation adjustments?			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made?		
	Yes	No	N/A
(1) Beginning and ending amount of cumulative translation adjustments?			✓
(2) Aggregate adjustment for the period resulting from translation adjustments and gains and losses from hedges of a net investment in a foreign entity and long-term intercompany foreign currency transactions?			
(3) Amount of taxes for the period allocated to translation adjustments?			
(4) Amounts transferred from cumulative translation adjustments and included in net income as a result of the sale or liquidation of an investment in a foreign entity?			
(5) Information about investments designated as hedges of the foreign currency exposure of a net investment in a foreign operation? (See DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES, Question Nos. 1 and 2, page 30.)			
c. Exchange rate changes occurring after the balance sheet date (if their effects are material), including their effects on unsettled foreign currency transactions? (If it is not practicable to determine the effect of the rate changes, that fact should be stated.)			

FRANCHISE FEE REVENUES ☐

1. Has the nature of all significant commitments and obligations resulting from franchise agreements, including a description of the services that have not yet been substantially performed, been disclosed? (SFAS No. 45, para. 20)			
2. If the installment or cost recovery method is used to account for franchise fee revenue, has the following been disclosed: (SFAS No. 45, para. 21)			
a. Method used to account for franchise fee revenue?			
b. Sales price?			
c. Revenue and related costs deferred on both a current and cumulative basis?			
d. Periods in which the fees become payable by the franchisee?			
e. Amounts originally deferred but later recognized because uncertainties about the collectibility of franchise fees are resolved?			
3. Has the amount of initial franchise fees, if significant, been disclosed separately from other franchise fee revenue? (SFAS No. 45, para. 22)			
4. When practicable, have revenue and costs related to franchisor-owned outlets been disclosed separately from revenue and costs related to franchised outlets? (SFAS No. 45, para. 23)			
5. If it is probable that initial franchise fee revenue will decline in the future because sales will reach a saturation point, has that fact been disclosed? (SFAS No. 45, para. 22)			
6. Has the relative contribution to net income of initial franchise fee revenue been disclosed if not otherwise apparent? (SFAS No. 45, para. 22)			
7. Have the following been disclosed if significant changes in the ownership of

	Disclosure Made? Yes	No	N/A
franchises occur during the period: (SFAS No. 45, para. 23)			✓
a. Number of franchises sold during the period?	____	____	____
b. Number of franchises purchased during the period?	____	____	____
c. Number of franchised outlets in operation during the period?	____	____	____
d. Number of franchisor-owned outlets in operation during the period?	____	____	____

IMPAIRED LONG-LIVED ASSETS AND LONG-LIVED ASSETS TO BE DISPOSED OF

1. Have the following disclosures been made about impaired assets that will continue to be used (SFAS No. 121, para. 14 and SFAS No. 144, para. 26):			
a. A description of the impaired assets and the facts and circumstances leading to the impairment?	____	____	____
b. The amount of the impairment loss and how fair value was determined?	____	____	____
c. The caption in the income statement in which the impairment loss is aggregated if that loss has not been presented as a separate caption or reported parenthetically on the face of the statement?	____	____	____
d. The business segment(s) affected, if applicable?	____	____	____
2. Have the following disclosures been made for all assets to be disposed of in each period the assets are held (SFAS No. 121, para. 19 and SFAS No. 144, para. 47):			
a. A description of assets to be disposed of, the facts and circumstances leading to the expected disposal, the expected manner and timing of the disposal, and the carrying amount of those assets?	____	____	____
b. The business segment(s) in which assets to be disposed of are held, if applicable?	____	____	____
c. The loss, if any, resulting from writing down the assets to fair value less cost to sell?	____	____	____
d. The gain or loss, if any, resulting from subsequent changes in the carrying amounts of assets to be disposed of?	____	____	____
e. The caption in the income statement in which the gains or losses (from c. and d.) are aggregated if those gains or losses have not been presented as a separate caption or reported parenthetically on the face of the statement?	____	____	____
f. If SFAS No. 144 has not been adopted, the results of operations for assets to be disposed of to the extent that those results are included in the entity's results of operations for the period and can be identified?	____	____	____
3. For financial statements of fiscal years beginning after December 15, 2001, and interim periods within those fiscal years (or for financial statements of entities who have adopted SFAS No. 144 early), if a decision was made during the period not to sell a long-lived asset previously classified as held for sale, do disclosures include a description of the circumstances leading to the decision and the effect of the decision on results of operations for all periods presented? (SFAS No. 144, para. 48)	____	____	____

INCOME TAXES—SPECIAL AREAS

Disclosure Made?

	Yes	No	N/A
INCOME TAXES—SPECIAL AREAS			
1. Have the following disclosures been made whenever a deferred tax liability is not recognized for any of the areas addressed by APB No. 23 (undistributed earnings of subsidiaries or corporate joint ventures, bad debt reserves of savings and loan associations, or policy holders' surplus of life insurance companies), for deposits in statutory reserve funds by U.S. steamship companies, or for inside basis differences of foreign subsidiaries in the consolidated financial statements of the parent and its foreign subsidiaries: (SFAS No. 109, para. 44; and EITF 93-16)			
a. A description of the types of temporary differences for which a deferred tax liability has not been recognized and the types of events that would cause those temporary differences to become taxable?			
b. The cumulative amount of each type of temporary difference?			
c. The amount of the unrecognized deferred tax liability for temporary differences related to investments in foreign subsidiaries and foreign corporate joint ventures that are essentially permanent in duration if determination of that liability is practicable or a statement that determination is not practicable?			
d. The amount of the unrecognized deferred tax liability for temporary differences related to undistributed domestic earnings, the bad debt reserve for tax purposes of a U.S. savings and loan association or other qualified thrift lender, the policy holders' surplus of a life insurance company, and the statutory reserve funds of a U.S. steamship company?			
2. If the tax benefits of deductible temporary differences and carryforwards arising prior to a quasi-reorganization are recognized in net income rather than contributed capital, have the following been disclosed: (SFAS No. 109, para. 39)			
a. The date of the quasi-reorganization?			
b. The manner of reporting the tax benefits and that it differs from present accounting requirements for other entities?			
c. The effect of the tax benefits on income from continuing operations, income before extraordinary items, and on net income?			
INSURANCE CONTRACTS AND PROCEEDS			☐
1. Have the following been disclosed for insurance and reinsurance contracts accounted for as deposits: (SOP 98-7, para. 18)			
a. A description of the contracts accounted for as deposits?			
b. Total deposit assets reported in the balance sheet?			
c. Total deposit liabilities reported in the balance sheet?			
2. If business interruption insurance proceeds were received during the period, have the following been disclosed: (EITF 01-13)			
a. Nature of the event resulting in business interruption losses?			
b. Aggregate amount of proceeds recognized during the period and the income statement line item in which they are presented?

INTANGIBLES			☑
The disclosures in Questions 1–2 apply if SFAS No. 142, *Goodwill and Other Intangible Assets*, has not been adopted. SFAS No. 142's disclosure requirements are effective for fiscal years beginning after December 15, 2001. (Early application is permitted for entities with fiscal years beginning after March 15, 2001, if the first interim statements have not been presented previously.)			
1. Are the method and period of amortization of intangible assets disclosed? (APB No. 16, para. 95, and APB No. 17, para. 30)	____	____	____
2. Are the reasons for significant reductions relating to intangible assets disclosed? (APB No. 17, para. 31)	____	____	____
The disclosures in Questions 3–11 are required by SFAS No. 142, *Goodwill and Other Intangible Assets*, and are effective for fiscal years beginning after December 15, 2001. (Early application is permitted for entities with fiscal years beginning after March 15, 2001, if the first interim statements have not been presented previously.)			
3. Are individual intangible assets or classes of intangible assets presented as separate line items in the statement of financial position or, at a minimum, aggregated and presented as a separate line item? (SFAS No. 142, para. 42)	____	____	____
4. Is the aggregate amount of goodwill presented as a separate line item in the statement of financial position? (SFAS No. 142, para. 43)	____	____	____
5. Is the aggregate amount of any goodwill impairment loss presented as a separate line item in the income statement and included in income from continuing operations (unless it relates to discontinued operations, in which case is it included in discontinued operations, net of tax)? (SFAS No. 142, para. 43)	____	____	____
6. Has the following been disclosed in the period intangible assets are acquired: (SFAS No. 142, para. 44)			
a. For intangible assets subject to amortization, the amount, residual value, and weighted-average amortization period, in total and by major intangible asset class?	____	____	____
b. Amount assigned to intangible assets not subject to amortization, in total and by major intangible asset class?	____	____	____
c. Amount of research and development assets acquired and written off in the period and the income statement line item in which the amounts written off are aggregated?	____	____	____
7. Has the following been disclosed for each period for which an income statement is presented: (SFAS No. 142, para. 45)			
a. For intangible assets subject to amortization, the gross carrying amount and accumulated amortization, in total and by major intangible asset class, the aggregate amortization expense for the period, and the estimated aggregate amortization expense for each of the five succeeding fiscal years?			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
b. Carrying amount of intangible assets not subject to amortization, in total and by major intangible asset class?	___	___	✓
c. Changes in the carrying amount of goodwill during the period, including the aggregate amount of goodwill acquired, impairment losses recognized, and goodwill included in the gain or loss on disposal of all or a portion of a reporting unit?	___	___	___
8. Has the following been disclosed for each intangible asset impairment loss recognized during the period: (SFAS No. 142, para. 46)			
a. Description of the impaired intangible asset and the facts and circumstances leading to the impairment?	___	___	___
b. Amount of impairment loss and method of determining fair value?	___	___	___
c. Income statement caption in which the impairment loss is aggregated?	___	___	___
9. Has the following been disclosed for each goodwill impairment loss recognized during the period: (SFAS No. 142, para. 47)			
a. Description of the facts and circumstances leading to the impairment?	___	___	___
b. Amount of impairment loss and the method of determining the fair value of the associated reporting unit?	___	___	___
c. If the impairment loss is an estimate, that fact and the reasons therefor?	___	___	___
10. If significant adjustments to a prior-period estimated goodwill impairment loss have been made in the current period, have the nature and amount of the adjustments been disclosed? (SFAS No. 142, para. 47)	___	___	___
11. If SFAS No. 142 has been applied but goodwill and other intangible assets have not been accounted for following SFAS No. 142 in all periods presented, has the following been disclosed: (SFAS No. 142, para. 61)			
a. Income before extraordinary items and net income adjusted to exclude amortization expense (including any related tax effects) related to goodwill, intangible assets no longer being amortized, any deferred credit related to an excess over cost, equity method goodwill, and changes in amortization periods for intangible assets that will continue to be amortized (including any related tax effects)?	___	___	___
b. A reconciliation of reported net income to the adjusted net income?	___	___	___
INTERIM FINANCIAL STATEMENTS			☐
1. Do the notes disclose the method used to determine inventory and cost of sales amounts if physical inventories as of the interim date have not been used to determine those amounts? (APB No. 28, para. 14)	___	___	___
2. If seasonal variations affect revenues, has that fact been disclosed and consideration been given to supplemental reporting of interim information for the 12-month period ended as of the interim date for the current and preceding years? (APB No. 28, para. 18)	___	___	___

	Disclosure Made?		
	Yes	No	N/A
3. If there are significant variations in the customary relationship between income tax expenses and pretax accounting income, and the reasons the variations exist are not apparent, has appropriate disclosure been made? (APB No. 28, para. 19, fn. 2)			✓
4. Do the notes disclose contingencies and other uncertainties that are necessary to make the interim financial statements not misleading? (APB No. 28, para. 22)			
5. If there is a retroactive application of a change in accounting principle, is the effect on all periods presented disclosed? (APB No. 28, para. 25)			
6. Have appropriate disclosures been made for changes in accounting principles when neither the cumulative effect of the change nor pro forma amounts can be computed (principally changes to the LIFO method of inventory pricing)? (SFAS No. 3, para. 12)			
7. Are extraordinary items and unusual or infrequently occurring transactions and events that are material to the operating results of the interim period reported separately in the period they occurred? (APB No. 28, para. 21)			
8. Has disclosure been made of any change in accounting principles or practices from those applied in the prior annual report, the preceding interim period of the current year, or the comparable interim period of the prior year? (APB No. 28, para. 23)			
9. Has the effect of a change in accounting estimate been disclosed if it is material to any interim period presented? (APB No. 28, para. 26)			
10. Have the nature and amount of costs and expenses incurred in an interim period that cannot be readily identified with the activities or benefits of other interim periods been disclosed? (APB No. 28, para. 15)			
11. If the cumulative effect of an accounting change or correction of an error was not reported because the amounts were not material to the annual financial statements, have such amounts been disclosed if they are material to the interim financial statements? (APB No. 28, para. 29)			
12. Have the following disclosures been made for the interim period in which an adjustment related to prior interim periods of the current fiscal year occurs: (SFAS No. 16, para. 15)			
a. The effect on income from continuing operations and net income for each prior interim period of the current fiscal year?			
b. The income from continuing operations and net income for each prior interim period restated in accordance with SFAS No. 16, para. 14?			
13. Have appropriate disclosures been made for the cumulative effect-type accounting changes other than changes to LIFO in the interim financial statements? (SFAS No. 3, para. 11)			
14. Has disclosure of prior-period adjustments been made in interim financial statements during the year subsequent to the date of recording the adjustments? (APB No. 9, para. 26, fn. 3)

INVESTMENTS ACCOUNTED FOR BY THE EQUITY METHOD			☑
1. Have the following been disclosed if the investor owns 20% or more of the common stock and uses the equity method: (APB No. 18, para. 20)			
a. The name of each investee and percentage of ownership of common stock, if significant?			
b. Accounting policies of the investor relative to investments in common stock?			
c. Difference, if any, between the amount at which the investment is carried and the amount of underlying equity in net assets for the latest balance sheet presented and the accounting treatment of the difference?			
d. The aggregate market value of each identified investment for which a market value is available? (Not required for investments in common stock of subsidiaries.)			
e. When investments in common stock, corporate joint ventures, or other investments accounted for under the equity method are, in the aggregate, material, has summarized information as to assets, liabilities, and results of operations been presented either individually or in groups as appropriate?			
f. Material effects of possible conversions, exercises, or contingent issuances of the investee?			
2. If the investor does not use the equity method, is disclosure made of the names of any significant investee corporations in which the investor owns 20% or more of the voting stock, together with the reasons the equity method is not considered appropriate? (APB No. 18, para. 20, fn. 13)			
3. Is disclosure made of the names of any significant investee corporations in which the investor owns less than 20% of the voting stock and the common stock is accounted for on the equity method, together with the reasons the equity method is considered appropriate? (APB No. 18, para. 20, fn. 13)			
4. Are investments in common stock shown in the balance sheet of an investor as a single amount, and the investor's share of earnings or losses of investees shown in the income statement as a single amount, except for extraordinary items, prior-period adjustments, etc.? (APB No. 18, para. 19)			
5. Has the policy for determining the amount of equity method losses when previous losses have reduced the common stock investment account to zero been disclosed? (EITF 99-10)			
INVESTMENTS IN NONCORPORATE REAL ESTATE JOINT VENTURES			☐
NOTE: The following disclosures relate to investments in noncorporate real estate joint ventures. For investments in corporate joint ventures, refer to the disclosure requirements for INVESTMENTS ACCOUNTED FOR BY THE EQUITY METHOD.			
1. For investments that are accounted for by the equity method, are the following items disclosed: (SOP 78-9, para. 12)			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
a. Investee's name and percentage of ownership?			
b. Legal form of venture?			
c. For limited partnership interests of less than 20%, an explanation of why the equity method is used?			
d. Material differences at the balance sheet date between the book value of the investment and the underlying equity in net assets, and the manner of accounting for those differences?			
e. Summary financial information about the assets, liabilities, and results of operations of material investments?			
f. Effects of contingent issuances or provisions of the venture agreement that, if exercised, would materially affect the investor's share of venture profits and losses?			
g. Market value of the investment, if a quoted market price is available?			
2. For limited partnership interests of 20% or more that are accounted for by the cost method, are the following items disclosed: (Generally accepted)			
a. Investee's name and percentage of ownership?			
b. Explanation of why the cost method is used?			
3. For investments that are accounted for by proportionate consolidation, are the following items disclosed: (Generally accepted)			
a. Investee's name and percentage of ownership?			
b. Legal form of venture?			
c. An explanation of why proportionate consolidation is used?			
4. For investments that are consolidated:			
a. Is the consolidation policy disclosed? (ARB No. 51, para. 5 and APB No. 22, para. 13)			
b. Are intercompany balances and transactions eliminated? (ARB No. 51, paras. 5–6)			
c. If the financial reporting periods of subsidiaries differ from that of the parent, is recognition given by disclosure or otherwise to the effect of intervening events that materially affect financial position or the results of operations? (ARB No. 51, para. 4)			
LEASES IN FINANCIAL STATEMENTS OF LESSORS			
1. Have the following disclosures been made when leasing, other than leveraged leasing, is a significant part of the lessor's business activities in terms of revenue, net income, or assets: (SFAS No. 13, para. 23, and SFAS No. 91, para. 25)			
a. General description of the lessor's leasing arrangements?			
b. Sales-type and direct financing leases:			
(1) For each balance sheet presented, the components of the net investments in sales-type and direct financing leases including:

	Disclosure Made? Yes	No	N/A
(a) Aggregate minimum future lease payments to be received?			✓
(b) Amount of aggregate minimum future lease payments representing:			
• Executory costs, including any profit thereon?			
• Accumulated allowance for uncollectible minimum lease payments receivable?			
(c) Unguaranteed residual values accruing to the lessor's benefit?			
(d) Unearned income?			
(e) For direct financing leases only, initial direct costs?			
(2) Future minimum lease payments to be received for each of the five succeeding fiscal years as of the date of the latest balance sheet presented?			
c. Operating leases (for the latest balance sheet presented):			
(1) Cost and carrying amount, if different, of property of the lessor held for leasing by major classes of property according to nature or function, and the total amount of accumulated depreciation thereon?			
(2) Future minimum rentals on noncancelable leases in the aggregate and for each of the next five fiscal years?			
d. Contingent rental income:			
(1) Contingent rentals included in income for each income statement presented? (SFAS No. 13, para. 23)			
(2) The accounting policy for contingent rental income? (EITF 98-9)			
(3) If the lessor accrues contingent rental income prior to the lessee's achievement of the specified target (provided achievement of the target is probable), the impact on rental income as if the lessor's accounting policy was to defer contingent rental income until the specified target is met? (EITF 98-9)			
e. Have appropriate disclosures been made for leveraged leases? (SFAS No. 13, para. 47)			
f. Have the nature and extent of leasing transactions with related parties been disclosed? (SFAS No. 13, para. 29)			
LENDING ACTIVITIES AND LOAN PURCHASES			☐
1. If the entity anticipates prepayments of loan principal, has that policy and the significant assumptions underlying prepayment estimates been disclosed? (SFAS No. 91, para. 19)			
LIMITED LIABILITY COMPANIES OR PARTNERSHIPS (LLCs or LLPs)			☐
1. If [illegible] has that fact been disclosed? (AcSEC PB 14, para.			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
1. If members' liability is limited, has that fact been disclosed? (AcSEC PB 14, para. 15)			
2. Have the different classes of members' interests and the respective rights, preferences, and privileges of each class been disclosed? (AcSEC PB 14, para. 15)			
3. Has the amount of each class of members' equity been disclosed, either on the face of the balance sheet or in the notes? (AcSEC PB 14, para. 15)			
4. If the LLC or LLP has a finite life, has the date it will cease to exist been disclosed? (AcSEC PB 14, para. 15)			
5. If the LLC or LLP was formed by combining entities under common control or by conversion from another type of entity, has the fact that the assets and liabilities were previously held by a predecessor entity or entities been disclosed in the year of formation? (AcSEC PB 14, para. 16)	✓		

LONG-LIVED ASSET RETIREMENT OBLIGATIONS

The following disclosures are required by SFAS No. 143, *Asset Retirement Obligations*, which is effective for financial statements of fiscal years beginning after June 15, 2002.

1. Do disclosures include a general description of asset retirement obligations and the related long-lived assets? (SFAS No. 143, para. 22)			
2. Has the fair value of assets legally restricted for purposes of settling asset retirement obligations been disclosed? (SFAS No. 143, para. 22)			
3. If the fair value of the asset retirement obligation cannot be reasonably estimated, has that fact and the reasons therefor been disclosed? (SFAS No. 143, para. 22)			
4. Do disclosures include a reconciliation of the beginning and ending aggregate carrying amount of asset retirement obligations that shows separately significant changes attributable to (a) liabilities incurred during the period, (b) liabilities settled during the period, (c) accretion expense, and (d) revisions in estimated cash flows? (SFAS No. 143, para. 22)			
5. If SFAS No. 143 has not been applied in all periods presented, do disclosures include pro forma amounts of asset retirement obligations as of the beginning of the earliest year presented and the end of all years presented assuming the Statement had been applied in all periods affected? (SFAS No. 143, para. 27)			

LONG-TERM CONTRACTS (This section need not be completed when preparing the financial statements of a construction contractor or homebuilder. Instead, refer to the Supplemental Disclosure Checklist for Construction Contractors and Homebuilders in PPC's *Guide to Construction Contractors* or *Guide to Preparing Financial Statements*.)

1. Have the unbilled costs and fees under cost-type contracts been shown separately from billed accounts receivable? (ARB No. 43, ch. 11A, para. 21)			
2. Have the advances offset against cost-type contract receivables been disclosed? (ARB No. 43, ch. 11A, para. 22)			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
3. Has the method used to account for long-term construction contracts been disclosed? (ARB No. 45, para. 15)			✓

NONMONETARY TRANSACTIONS

1. Are nonmonetary transactions disclosed adequately, including the nature of the transactions, the basis of accounting, and any related gains or losses? (APB No. 29, para. 28)			

PENSION AND POSTRETIREMENT BENEFIT PLANS—DEFINED BENEFIT (See Part I for defined contribution plans.)

NOTE: The following are reduced disclosure requirements for nonpublic entities. Subsidiaries of public companies are considered public entities under SFAS No. 132 and must make the public company disclosures required by paragraph 5 of that Statement.

The following disclosures may be combined for all of the entity's defined benefit pension plans and for all of the entity's defined benefit postretirement plans, or information about plans may be presented in groups, whichever is more useful. Disclosures for plans outside the U.S. may be combined with those for U.S. plans unless the benefit obligations of the plans outside the U.S. are significant relative to the total benefit obligation and those plans use significantly different assumptions. Disclosures about plans with assets in excess of the accumulated benefit obligation generally may be combined with disclosures about plans with accumulated benefit obligations in excess of assets.

1. Has the following information about the plan been disclosed: (SFAS No. 132, paras. 6–8)			
a. The benefit obligation?			
b. Fair value of plan assets?			
c. Funded status of the plan?			
d. Employer contributions?			
e. Participant contributions?			
f. Benefits paid?			
g. The amounts recognized in the balance sheet, including:			
(1) The net pension and other postretirement benefit prepaid assets or accrued liabilities?			
(2) Any intangible asset?			
(3) The amount of accumulated other comprehensive income recognized pursuant to SFAS No. 87, para. 37, as amended?			
h. The amount of net periodic benefit cost recognized and the amount included within other comprehensive income arising from a change in the minimum pension liability recognized pursuant to SFAS No. 87, para. 37, as amended?			
i. On a weighted-average basis, the following assumptions used in the

accounting for the plans:			✓
(1) Assumed discount rate?	____	____	____
(2) Rate of compensation increase (for pay-related plans)?	____	____	____
(3) Expected long-term rate of return on plan assets?	____	____	____
j. The assumed health care cost trend rate(s) for the next year used to measure the expected cost of benefits covered by the plan (gross eligible charges) and a general description of the direction and pattern of change in the assumed trend rates thereafter, together with the ultimate trend rate(s) and when that rate is expected to be achieved?	____	____	____
k. If applicable, the amounts and types of securities of the employer and related parties included in plan assets, the approximate amount of future annual benefits of plan participants covered by insurance contracts issued by the employer or related parties, and any significant transactions between the employer or related parties and the plan during the period?	____	____	____
l. The nature and effect of significant nonroutine events, such as amendments, combinations, divestitures, curtailments, and settlements?	____	____	____
2. If disclosures about plans with assets in excess of the accumulated benefit obligation have been combined with disclosures about plans with accumulated benefit obligations in excess of assets, has the following been disclosed separately: (SFAS No. 132, para. 6)			
a. The combined benefit obligation and combined fair value of plan assets for plans with benefit obligations in excess of plan assets?	____	____	____
b. The combined accumulated benefit obligation and combined fair value of plan assets for plans with accumulated benefit obligations in excess of plan assets?	____	____	____
c. Amounts recognized in the balance sheet for prepaid benefit costs?	____	____	____
d. Amounts recognized in the balance sheet for accrued benefit liabilities?	____	____	____
3. For multiemployer plans, has the following been disclosed: (SFAS No. 132, para. 10)			
a. Amount of contributions to such plans during the period? (Total contributions to multiemployer plans may be disclosed without separating the amounts attributable to pensions and other postretirement benefits.)	____	____	____
b. A description of the nature and effect of any changes affecting comparability (such as a change in the rate of employer contributions, a business combination, or a divestiture)?	____	____	____
4. If a gain or loss from settlement or curtailment has not been recognized in the current fiscal year and the employer's financial position or results of operations would have been materially different had it been recognized, have appropriate disclosures been made? (QA-SFAS No. 88, No. 28)	____	____	____

POSTEMPLOYMENT BENEFITS

1. If the entity has not accrued postemployment benefits solely because the amount

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made?		
	Yes	No	N/A
1. If the entity has not accrued postemployment benefits solely because the amount cannot be reasonably estimated (such as salary continuation, supplemental unemployment benefits, severance benefits, disability-related benefits, job training and counseling, and continuation of health insurance coverage), has that been disclosed? (SFAS No. 112, para. 7)			✓

QUASI-REORGANIZATION

1. Following a corporate readjustment (quasi-reorganization), has a retained earnings account been established and dated to show that it runs from the time of the readjustment? (This dating generally should not continue for more than 10 years following the readjustment.) (ARB No. 43, ch. 7A, para. 10, and ARB No. 46, para. 2)			
2. If conservative estimates are used for assets, has that fact been disclosed and the assets properly accounted for on realization? (ARB No. 43, ch. 7A, para. 4)			

REAL ESTATE ACTIVITIES

1. Have accounting policies for the following items relating to real estate development and construction activities been disclosed: (APB No. 22, para. 12)			
a. Capitalization of project costs (such as preacquisition, acquisition, development, and construction costs)? (SFAS No. 67, paras. 4–10)			
b. Capitalization of interest costs? (SFAS No. 34, paras. 12–20)			
c. Capitalization of amenities costs? (SFAS No. 67, paras. 8–9)			
d. Allocation of project costs? (SFAS No. 67, para. 11)			
2. Have accounting policies relating to sales of real estate been disclosed? (APB No. 22, para. 12)			
3. Have accounting policies relating to investments in real estate ventures been disclosed? (SOP 78-9, para. 12 and APB 18, para. 20)			
4. Has real estate held for production and real estate held for sale been disclosed separately on the balance sheet or in the notes? (Generally accepted)			

Real Estate Sales (Other than Retail Land Sales)

5. For sales accounted for by the installment method:			
a. Is deferred gain on sale offset against the related receivable in the balance sheet? (Generally accepted)			
b. Is the following disclosed in the income statement or notes: (SFAS No. 66, para. 59)			
(1) Sales value, cost of sales, and gain deferred for sales occurring during the period?			
(2) Previously deferred gain recognized during the period (or revenue and cost of sales relating to such gain)?			
6. For sales accounted for by the cost recovery method:			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
a. Is deferred gain on sale offset against the related receivable in the balance sheet? (SFAS No. 66, para. 63)			✓
b. Is the following disclosed in the income statement or notes: (SFAS No. 66, para. 63)			
(1) Sales value, cost of sales, and gain deferred for sales occurring during the period?			
(2) Previously deferred gain recognized during the period?			
7. If the deposit method is used, have the related real estate and existing debt been identified as subject to a sales contract? (SFAS No. 66, para. 65)			
Retail Land Sales			
8. Are the following items relating to receivables disclosed: (SFAS No. 66, para. 50)			
a. Maturities of receivables for each of the five years following the balance sheet date?			
b. Delinquent receivables and the method(s) for determining delinquency?			
c. The weighted average and range of stated interest rates of receivables?			
9. Has disclosure been made of estimated total costs and estimated dates of expenditures for improvements for major areas from which sales are being made for each of the five years after the balance sheet date? (SFAS No. 66, para. 50)			
10. Are recorded obligations for improvements disclosed? (SFAS No. 66, para. 50)			
Participating Mortgage Loan Borrowers			
11. For participating mortgage loan borrowers, are the following items disclosed: (SOP 97-1, para. 17)			
a. Description of the terms of the participation by the lender in the operations or appreciation of the real estate project?			
b. The following amounts at the balance sheet date:			
(1) Total participating mortgage obligations?			
(2) Total participation liabilities?			
(3) Total debt discounts on the participating mortgages?			
RESEARCH AND DEVELOPMENT			☐
1. If the entity accounts for its obligations under a research and development arrangement as a contract to perform research and development for others, have the following been disclosed: (SFAS No. 68, para. 14)			
a. Terms of significant agreements under the research and development arrangements as of each balance sheet date presented?			
b. Amount of compensation earned and cost incurred for each period for which an income statement is presented?			
2. Is disclosure made of total research and development costs charged to expense in			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made?		
	Yes	No	N/A
each period presented including research and development costs incurred for computer software costs to be sold, leased, or otherwise marketed? (SFAS No. 2, para. 13; SFAS No. 86, para. 12; and FASBI Nos. 4 and 6)			✓
RETAINED EARNINGS RESTRICTIONS			
1. Are the following restrictions on retained earnings disclosed:			
a. Restrictions as to dividend payments? (SFAS No. 5, paras. 18–19)			
b. If state laws relating to acquisition of stock restrict the availability of retained earnings for payment of dividends or have other effects of a significant nature, have those facts been disclosed? (APB No. 6, para. 13)			
c. If a portion of retained earnings is "appropriated" for loss contingencies, is the appropriation clearly shown as an appropriation of retained earnings within the stockholders' equity section of the balance sheet? (SFAS No. 5, para. 15)			
STOCK-BASED COMPENSATION (INCLUDING COMPENSATION FOR NONEMPLOYEE SERVICES)			
1. Have the following been disclosed about the entity's stock-based compensation plans (separately for each type of award granted to the extent separate disclosure would be useful): (SFAS No. 123, paras. 46–48)			
a. A description of the plan, including the general terms of awards (such as, vesting requirements, maximum term of options granted, and number of shares authorized for grants of options or other equity instruments)?			
b. Number and weighted-average exercise prices of options that were—			
(1) Outstanding at the beginning of the year?			
(2) Outstanding at the end of the year?			
(3) Exercisable at the end of the year?			
(4) Granted, exercised, forfeited, or expired during the year?			
c. Weighted-average grant-date fair value of options granted during the year? (Amounts related to options whose exercise price differ from the market price of the stock on the grant date should be disclosed separately.)			
d. Number and weighted-average grant-date fair value of equity instruments other than options granted during the year?			
e. Description of the method and significant assumptions used during the year to estimate the fair values of options, including the risk-free interest rate, expected life, expected volatility, and expected dividends?			
f. Total compensation cost recognized in income for stock-based employee compensation awards?			
g. Terms of significant modifications of outstanding awards?			
h. For options outstanding at the date of the latest balance sheet presented, the range of exercise prices, the weighted-average exercise price, and the weighted-average remaining contractual life, and for each range (1) the number, weighted-average exercise price, and weighted-average remaining			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made? Yes	No	N/A
number, weighted average exercise price, and weighted average remaining contractual life of options outstanding; and (2) the number and weighted-average exercise price of options currently exercisable?			✓
2. SFAS No. 123's disclosure requirements apply to all entities, but its accounting requirements for measuring compensation cost need not be followed unless the entity elects to do so. If the entity continues to apply the old rules when accounting for stock-based compensation, has pro forma net income (and pro forma earnings per share if earnings per share is presented) as if the fair-value-based method prescribed by SFAS No. 123 had been applied been disclosed for all awards granted in fiscal years beginning after December 15, 1994? (SFAS No. 123, para. 45)			

TAX LEASES

1. Have the entities involved in the sale or purchase of tax benefits through tax leases disclosed the method(s) of: (FTB No. 82-1, para. 4)			
a. Recognizing revenue?			
b. Allocating the income tax benefits and asset costs to current and future periods?			
2. If unusual *or* infrequent, have the nature and financial effects of sales or purchases of tax benefits through tax leases been disclosed on the face of the income statement or in a note to the financial statements? (FTB No. 82-1, para. 6)			
3. Have significant contingencies existing with respect to sales or purchases of tax benefits through tax leases been disclosed? (FTB No. 82-1, para. 7)			
4. If comparative financial statements are presented, has any change in the method of accounting for sales or purchases of tax benefits through tax leases that significantly affects comparability been disclosed? (FTB No. 82-1, para. 7)			

TERMINATION CLAIMS RECEIVABLE

1. If the total of the undeterminable parts of a termination claim is believed to be material, have the essential facts been disclosed? (ARB No. 43, ch. 11C, para. 19)			
2. Have material termination claims been separately disclosed in the balance sheet? (ARB No. 43, ch. 11C, para. 21)			
3. Has disclosure been made of the relationship between advances or other loans received on terminated contracts and the potential termination claim receivable? (ARB No. 43, ch. 11C, para. 22)			
4. If the amount of termination sales is material, has it been separately disclosed in the income statement? (ARB No. 43, ch. 11C, para. 23)			

TROUBLED DEBT RESTRUCTURINGS—CREDITORS

1. Has the amount of any commitments to lend additional funds to debtors owing receivables whose terms have been modified in troubled debt restructurings been			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made?		
	Yes	No	N/A
disclosed? (SFAS No. 15, para. 40b)			✓
2. Has the following information about impaired loans been disclosed: (Restructured loans are not required to be included in disclosures 2a. and 2b. in years after the restructuring, if the restructured loan's interest rate was comparable to a rate that the creditor would have accepted on other loans with similar risks and the restructured loan is not considered impaired based on the new terms.) (SFAS No. 118, para. 6i)			
a. As of the date of each balance sheet presented:			
(1) The total recorded investment in impaired loans as defined by SFAS No. 114?			
(2) The recorded investment in impaired loans that have a related allowance for credit losses determined in accordance with SFAS No. 114 and the recorded investment in impaired loans that do not have an allowance for credit losses determined in accordance with SFAS No. 114?			
(3) The total allowance for credit losses on impaired loans?			
b. For each period for which an income statement is presented:			
(1) The average recorded investment in the impaired loans?			
(2) The related amount of interest income recognized for the time that the loans were impaired during the period?			
(3) The amount of interest income recognized using a cash-basis method for the time that the loans were impaired during the period, unless that is not practical to determine?			
c. The creditor's policy for recognizing interest income on impaired loans, including how cash receipts are recorded?			
3. For each period for which an income statement is presented, has the following activity in the total allowance for credit loss account (i.e., determined in accordance with SFAS Nos. 5 and 114) been disclosed: (SFAS No. 118, para. 6i)			
a. Balance at the beginning and end of the year?			
b. Additions charged to income?			
c. Write-downs charged against the allowance?			
d. Recoveries of amounts previously charged off?			

Copyright © 2002 Practitioners Publishing Company. All Rights Reserved.

	Disclosure Made?		
	Yes	No	N/A
d. Recoveries of amounts previously charged off?			
TROUBLED DEBT RESTRUCTURINGS—DEBTORS			☑
1. When troubled debt restructurings have occurred during a period for which financial statements are presented, have the following disclosures been made: (SFAS No. 15, para. 25)			
a. A description of the principal changes in terms, the major features of settlement, or both, for each restructuring? (Separate restructurings within a fiscal period for the same categories of payable may be grouped.)			
b. The aggregate gain on restructuring of payables?			
c. The aggregate gain or loss on transfers of assets recognized during the period?			
2. Have the following been disclosed for periods after a troubled debt restructuring has occurred: (SFAS No. 15, para. 26)			
a. The extent to which amounts contingently payable are included in the carrying amount of restructured payables?			
b. Total amounts that are contingently payable on restructured payables and the conditions under which those amounts would become payable or would be forgiven when there is at least a reasonable possibility that a liability for contingent payments will be incurred?			
UNCONDITIONAL PURCHASE OBLIGATIONS			☐
1. For unconditional purchase obligations that are not recorded on the purchaser's balance sheet, is the following information disclosed: (SFAS No. 47, para. 7)			
a. Nature and term of the obligation(s)?			
b. Amount of the fixed and determinable portion of the obligation(s) as of the latest balance sheet presented and, if determinable, for each of the five succeeding fiscal years?			
c. Nature of any variable components of the obligation(s)?			
d. Amounts purchased under the obligation(s) for each period for which an income statement is presented?			
2. For unconditional purchase obligations that are recorded on the purchaser's balance sheet, have the following disclosures been made for each of the five years following the date of the latest balance sheet presented: (SFAS No. 47, para. 10)			
a. The aggregate amount of payments for unconditional purchase obligations?			
b. The combined aggregate amount of maturities and sinking fund requirements for all long-term borrowings?

Re: Retainer Agreement

Dear Dan:

Enclosed is my revised retainer agreement, as we discussed. Please sign and return the duplicate to me.

If you have any additions to the contract, please call me. Do not make any changes to the agreement.

If you are able to send me an advance on my bill, I would appreciate that. I look forward to working with you. Once again, congratulations on the award!

Sincerely,

Frederica L. Miller

Re: Retainer Agreement

Dear Dr. Karron:

This letter will confirm our understanding that you have formally retained FREDERICA L. MILLER, ESQ. to represent Computer Aided Surgery, Inc, (hereinafter CASI) in the performance of general legal work, including obtaining a contract with Elisha Gurfein, The City College of New York and other entities and individuals, at your request. My fee will be $200.00 per hour. Please note that this fee does not include outside services or costs that may arise from time-to-time in connection with legal representation. I agree to obtain your permission before incurring significant costs on behalf of CASI. Please note that failure to pay my fee on a timely basis will be grounds for me to withdraw as CASI's attorney.

It is understood that payment of my fee is not contingent upon CASI receiving federal or state funding. This retainer agreement supercedes an agreement between us dated October 16, 2001.

It is impossible to determine in advance the amount of time that will be required to perform these tasks. I will use my best judgment to determine the amount of time to spend on these matters. I will keep you fully informed of important events that take place. I will send you periodic bills that explain the legal work performed.

You acknowledge that you have read this Retainer and understand its terms. Please sign below and return a copy to me. A duplicate is being provided to you. If you have any questions, please do not hesitate to telephone me.

Very truly yours,

Frederica L. Miller

Frederica L. Miller

SPECIAL AWARD CONDITIONS
ADVANCED TECHNOLOGY PROGRAM – SINGLE RECIPIENT
COMPUTER AIDED SURGERY, INC.
COOPERATIVE AGREEMENT NO. 70NANB1H3050
AMENDMENT NO. 04

THE FOLLOWING SPECIAL AWARD CONDITIONS ARE AMENDED:

11. AUTOMATED STANDARD APPLICATION FOR PAYMENT SYSTEM (ASAP)

a. This SAC amends the Department of Commerce Financial Assistance Standard Terms and Conditions, dated **October 1998**, Section A.02, Award Payments, and the Advanced Technology Program (ATP) General Terms and Conditions, dated **August 2001**.

b. The advance method of payment shall be authorized unless otherwise specified in a special award condition.

c. Payments will be made through electronic funds transfers, using the Department of Treasury's Automated Standard Application for Payment (ASAP) system, and in accordance with the requirements of the Debt Collection Improvement Act of 1996. The following information is required when making withdrawals for this award: (1) ASAP account identification (id) = award number found on the cover sheet of this award; (2) Agency Location Code (ALC) = 13060001; and (3) Region Code = 01. Recipients **DO NOT** need to submit a *"Request for Advance or Reimbursement" (SF-270)* or a *"Federal Cash Transactions Report" (SF-272)* for payments relating to this award. If you are not enrolled as an ASAP Recipient Organization you must complete the enrollment process with your Federal Reserve Bank, Regional Finance Center. Enrollment applications and information can be found at the following web site:

http://www.fms.treas.gov/asap/handbook.html

If you need a paper copy of the enrollment documentation please contact the Grant Specialist responsible for this award.

Advances taken through the ASAP shall be limited to the minimum amounts necessary to meet immediate disbursement needs. Advanced funds not disbursed in a timely manner must be promptly returned, via an ASAP credit, to the account from which the advanced funding was withdrawn. Advances shall be for periods not to exceed 30 days.

d. Funds that have been withdrawn through ASAP may be returned to ASAP via the Automated Clearing House (ACH) or via FEDWIRE. The ACH or FEDWIRE transaction can only be done by the Recipient's financial institution. Full or partial amounts of payments received by a Payment Requestor/Recipient Organization may be returned to ASAP. All funds returned to the ASAP system will be credited to the ASAP Suspense Account. The Suspense Account allows the Regional Financial Center to monitor returned items and ensure that funds are properly credited to the correct ASAP account. Returned funds that cannot be identified and classified to an ASAP account will be dishonored and returned to the originating depositary financial institution (ODFI).

It is essential that the Payment Requestor/Recipient Organization provide its financial institution with ASAP account information (ALC, Recipient ID and Account ID) to which the return is to be credited. Additional detailed information can be found at

http://www.fms/treas.gov/asap/pay-return2.pdf.

e. This award has the following control or withdraw limits set in ASAP:

__X__ None
____ Agency Review required for all withdrawals (see explanation below)
____ Agency Review required for all withdrawal requests over $_____ (see explanation below)
____ Maximum Draw Amount controls (see explanation below):
$_____ each month
$_____ each quarter
$_____ each year

f. Term # 7.c(3)(b) TO THE ATP General Terms and Conditions, dated **August 2001**, is deleted in its entirety to remove the requirement for a "Federal Cash Transactions Report" (SF-272).

g. Term # 14. TO THE ATP General Terms and Conditions, dated **August 2001**, is deleted in its entirety and replaced with the following:

REFUNDS

This special award condition remains in effect under this award and applies to all payments that the Recipient received outside of the ASAP system. The Recipient shall promptly submit all refund checks (including interest earned on advances) to the following address identified below and notify the Grants Office upon submission. Each check must identify on its face the NIST award number, and no more than a two-word description to identify the reason for the refund. Submit to:

National Institute of Standards and Technology

SPECIAL AWARD CONDITIONS
ADVANCED TECHNOLOGY PROGRAM – SINGLE RECIPIENT
COMPUTER AIDED SURGERY, INC.
COOPERATIVE AGREEMENT NO. 70NANB1H3050
AMENDMENT #02

HE FOLLOWING SPECIAL AWARD CONDITIONS ARE MENDED:

. RECIPIENT ADMINISTRATOR CONTACT

he Recipient Administrator Contact's name, title, address, and elephone number are:

(Administrative) Elisha Gurfein
Computer Aided Surgery, Inc.
300 East 33rd Street, Suite N
New York, NY 10016
Phone: (201) 569-4482
Fax: (212) 448-0261

5. PROJECT DESCRIPTION

All research shall be conducted in accordance with the Recipient's proposal dated 07/06/01, and all revisions/late documentation dated 09/20/01, including revised budget dated 12/27/01.

6. FUNDING LIMITATIONS

The scope of work and budget incorporated into this award cover a three-year period (referred to as the "project period") for a total amount of $2,000,000.00 in Federal funds. However, Federal funding available at this time is limited to $800,000.00 for the first year period from 10/01/01 through 09/30/01 (referred to as the "budget period"). The Grants Officer may require additional clarification to support the budget. If that results in changes to the budget or budget narrative, the Recipient shall submit, in writing, a revised budget and/or budget narrative to the Grants Officer for approval. Receipt of any funding beyond the first year up to the level projected under this award is contingent upon the availability of funds from Congress, satisfactory performance, and will be at the sole discretion of the National Institute of Standards and Technology (NIST). The Recipient may not obligate, incur any expenditure, nor engage in any activity that involves a commitment of Federal funds under this Agreement in excess of the Federal amount presently available. No legal liability exists or will result on the part of the Federal Government for payment of any portion of the remaining funds, which have not been made available under the award. If additional funds are not made available, any expenses incurred related to closeout activities must be funded from the amount already made available under this award. The notice of availability or non-availability of additional funding for the second and third year(s) will be made in writing by the Grants Officer. Only the Grants Officer is authorized to obligate funds. No other verbal or written notice should be relied upon by the Recipient. In the absence of a written notice of additional funding, no assumption should be made by the Recipient that the funds will be forthcoming.

Projected budget amounts and periods:

Year 2: $600,000 (From 10/01/02 to 09/30/03)
Year 3: $600,000 (From 10/01/03 to 09/30/04)

7. COST SHARE

For the first year period, the cost sharing ratio (direct costs only) applicable to this award is the Recipient's contribution of 4.36% ($36,500) and NIST's contribution of 95.64% ($800,000).

9. REQUIREMENT OF ACCOUNTING SYSTEM CERTIFICATION

✓ The above Special Award Condition placed in the original award document is removed, as the requirement has been satisfied.

ALL PRIOR TERMS AND CONDITIONS REMAIN THE SAME.

6. FUNDING LIMITATIONS

The scope of work and budget incorporated into this award cover a three-year period (referred to as the "project period") for a total amount of $2,000,000.00 in Federal funds. However, Federal funding available at this time is limited to $800,000.00 for the first year period from October 1, 2001 through September 30, 2002 (referred to as the "budget period"). The Grants Officer may require additional clarification to support the budget. If that results in changes to the budget or budget narrative, the Recipient shall submit, in writing, a revised budget and/or budget narrative to the Grants Officer for approval. Receipt of any funding beyond the first year up to the level projected under this award is contingent upon the availability of funds from Congress, satisfactory performance, and will be at the sole discretion of the National Institute of Standards and Technology (NIST). The Recipient may not obligate, incur any expenditure, nor engage in any activity that involves a commitment of Federal funds under this Agreement in excess of the Federal amount presently available. No legal liability exists or will result on the part of the Federal Government for payment of any portion of the remaining funds, which have not been made available under the award. If additional funds are not made available, any expenses incurred related to closeout activities must be funded from the amount already made available under this award. The notice of availability or non-availability of additional funding for the second and third year(s) will be made in writing by the Grants Officer. Only the Grants Officer is authorized to obligate funds. No other verbal or written notice should be relied upon by the Recipient. In the absence of a written notice of additional funding, no assumption should be made by the Recipient that the funds will be forthcoming.

rojected budget amounts and periods:

'ear 2: $600,000.00 (From 10/01/02 to 09/30/03)
'ear 3: $600,000.00 (From 10/01/03 to 09/30/04)

'. COST SHARE

'or the first year period, the cost sharing ratio (direct costs nly) applicable to this award is the Recipient's contribution of 1.61% ($30,000.00) and NIST's contribution of 98.39% $800,000.00).

I. PERSONNEL AND CONSULTANT REQUIREMENT

'he Recipient must provide to the ATP Project Manager in writing vithin 60 days of project start date, identification of the ersonnel on the project and the percentage of time including onsultants.

I. REQUIREMENT OF ACCOUNTING SYSTEM CERTIFICATION

'he Recipient, whether receiving Federal Funds or only providing natching funds, must have a functioning financial management ystem that meets the provisions of 15 CFR 14.21 to ensure roper accountability of funds. Therefore, Computer Aided urgery, Inc., must submit an accounting system certification ssued by an independent Certified Public Accountant (CPA) to he NIST Grants Officer within 90 days from the date of this ward.

0. DEFERRAL OF REVIEW OF USE OF HUMAN SUBJECTS

lased upon a review of the proposal dated July 6, 2001, IIST has determined that the involvement of human subjects in esearch identified herein meets the criteria to qualify for a leferred review. This award is made in accordance with 15 :FR 27.118, which permits research that does not involve uman subjects to proceed even though human subjects may e involved at a later stage during the project period. In ccordance with the 8/01 ATP General Terms and Conditions '19, the Recipient must submit the following documentation rior to Year 2 of the project and prior to any research that ay involve human subjects, to the ATP Project Manager for eview and approval by appropriate NIST officials:

a) Documentation establishing approval of the project by an Institutional Review Board qualified under 15 CFR 27.103, OR

b) Documentation to support an exemption for the project pursuant to 15 CFR 27.101(b).

'he documentation requirements are available on the ATP vebsite at http://www.atp.nist.gov, outlined in the ATP ooklet titled "Guidelines and Documentation Requirements for lesearch Involving Human and Animal Subjects." No nvolvement of human subjects in research may be undertaken r conducted, or costs involving human subjects research ncurred or charged to the project, until the NIST Grants fficer's approval of the above documentation is obtained in vriting.

Re: Lee Gurfein

Dear Ms. Hope Snowden:

This letter authorizes Mr. Lee Gurfein as administrative contact on Cooperative Agreement No 70NANB1H3050 with Computer Aided Surgery, Inc.

This authorization is valid for the period of one year from the start of the Agreement on October 1, 2001 through Sept 30. This authorization can be revoked in writing to you and him by myself at any time this authorization is in effect. Until specifically authorized to do so, Mr. Gurfein is not an officer of the corporation, and is not authorized to sign for the corporation. The authorization for Mr. Gurfein to commit the corporation will be made by separate letter authorization if the need arises.

Sincerely,

05930

5. PROJECT DESCRIPTION

All research shall be conducted in accordance with the Recipient's proposal dated 07/06/01 (Gate 1), and 08/06/01 (Gate 2), and all revisions/late documentation dated 08/21/01 08/27/01, 09/06/01, 09/12/01, 09/14/01, and 09/--/01, including revised budget dated 09/--/01.

6. FUNDING LIMITATIONS

The scope of work and budget incorporated into this award cove a three-year period (referred to as the "project period") for a tot amount of $2,000,000.00 in Federal funds. However, Federa funding available at this time is limited to $800,000.00 for th first year period from October 1, 2001 through September 30 2002 (referred to as the "budget period"). The Grants Office may require additional clarification to support the budget. If tha results in changes to the budget or budget narrative, th Recipient shall submit, in writing, a revised budget and/or budge narrative to the Grants Officer for approval. Receipt of an funding beyond the first year up to the level projected under thi award is contingent upon the availability of funds from Congress satisfactory performance, and will be at the sole discretion of the National Institute of Standards and Technology (NIST). The Recipient may not obligate, incur any expenditure, nor engage ir any activity that involves a commitment of Federal funds unde this Agreement in excess of the Federal amount presently available. No legal liability exists or will result on the part of the Federal Government for payment of any portion of the remaining funds, which have not been made available under the award. If additional funds are not made available, any expenses incurred related to closeout activities must be funded from the amount already made available under this award. The notice of availability or non-availability of additional funding for the second and third year(s) will be made in writing by the Grants Officer. Only the Grants Officer is authorized to obligate funds. No other verbal or written notice should be relied upon by the Recipient. In the absence of a written notice of additional funding, no assumption should be made by the Recipient that the funds will be forthcoming.

Projected budget amounts and periods:

Year 2: $600,000.00 (From 10/01/02 to 09/30/03)
Year 3: $600,000.00 (From 10/01/03 to 09/30/04)

7. COST SHARE

For the first year period, the cost sharing ratio (direct costs only) applicable to this award is the Recipient's contribution of 3.61% ($30,000.00) and NIST's contribution of 96.39% ($800,000.00).

8. PERSONNEL AND CONSULTANT REQUIREMENT

The Recipient must provide to the ATP Project Manager in writing within 60 days of project start date, identification of the personnel on the project and the percentage of time including consultants.

9. REQUIREMENT OF ACCOUNTING SYSTEM CERTIFICATION

The Recipient, whether receiving Federal Funds or only providing matching funds, must have a functioning financial management system that meets the provisions of 15 CFR 14.21 to ensure proper accountability of funds. Therefore, Computer Aided Surgery, Inc., must submit an accounting system certification issued by an Independent Certified Public Accountant (CPA) to the NIST Grants Officer within 90 days from the date of this award.

10. DEFERRAL OF REVIEW OF USE OF HUMAN SUBJECTS

Based upon a review of the proposal dated July 6, 2001, NIST has determined that the involvement of human subjects in research identified herein meets the criteria to qualify for a deferred review. This award is made in accordance with 15 CFR 27.118, which permits research that does not involve human subjects to proceed even though human subjects may be involved at a later stage during the project period. In accordance with the 8/01 ATP General Terms and Conditions #19, the Recipient must submit the following documentation prior to Year 3 of the project and prior to any research that may involve human subjects, to the ATP Project Manager for review and approval by appropriate NIST officials:

a) Documentation establishing approval of the project by an Institutional Review Board qualified under 15 CFR 27.103, OR

b) Documentation to support an exemption for the project pursuant to 15 CFR 27.101(b).

The documentation requirements are available on the ATP website at http://www.atp.nist.gov, outlined in the ATP booklet titled "Guidelines and Documentation Requirements for Research Involving Human and Animal Subjects." No involvement of human subjects in research may be undertaken or conducted, or costs involving human subjects research incurred or charged to the project, until the NIST Grants Officer's approval of the above documentation is obtained in writing.

Dear Friend:

As the Member of Congress representing our district, I am writing to congratulate you on your recent grant award of $2,000,000 from the National Institute of Standards and Technology. I am proud of the work that you and Anatomic Computer Modeling have done to enhance anatomic computer models for cancer treatment therapies, and I want to take this opportunity to thank you on behalf of our community.

I wish you much success in your endeavors. Your research will undoubtedly prove to be helpful to many people. If I can be of any assistance to you in the future, please do not hesitate to contact my office. I stand ready to help in any way that I can. Please keep in touch.

Sincerely,

Carolyn B. Maloney

Budget Data

[Paperwork Reduction Act: Under the Paperwork Reduction Act no person is required to respond to a collection of information unless it displays a valid OMB control number. Public reporting burden for this collection of information is estimated to average 45 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimates or any other aspect of this collection of information, including suggestions for reducing this burden, to Director, Advanced Technology Program, Administration Building, Room A333, MS 4700, Gaithersburg, MD 20899-4700.]

Purpose: The Budget Data worksheets should be used for the preparation of your budget information and should be submitted in **Gate 2**. The electronic version can be found at the ATP website http://www.atp.nist.gov.

The budget is excluded from the page limitation and is used by both technical and business reviewers and by a Grants Official to determine reasonableness and allowability of costs. The overall estimated multi-year budget numbers are to be provided on page 3 of Form NIST-1262 or NIST-1263. Your budget information is a breakdown of the figures reported on the NIST-1262 or NIST-1263. Breakdowns should be as accurate and specific as possible. Include a breakdown for each year of the project and if a joint venture (JV) proposal, include the budget data for each JV participant for each year including each JV participant's annual cost sharing. Make sure any figures presented exactly match the figures on Form NIST-1262 or NIST-1263, and make sure the arithmetic is correct. **Please round to the nearest dollar.**

Proposed costs must be reasonable, allocable, and allowable in accordance with the applicable Federal cost principles (see 15 CFR 14.27). All salaries/wages, fringe benefits, travel, materials and supplies, equipment, subcontracts, other costs, and indirect costs proposed are to be consistent with costs incurred for like or similar items on all other Federal and non-Federal projects or cost centers.

We recognize that unexpected events occur frequently in R&D projects, and that budgets may need to be changed as a project proceeds. Don't fear that by providing a multi-year budget beyond the first year, you will be locked into those details. ATP allows a certain amount of flexibility in moving funds from one line item to another as circumstances change. By stating an amount for a given task, you will not be required to spend precisely that amount on that task. For example, if, in the second or third year of your project, you find that you need to spend more on one task and less on another than anticipated, that can be accommodated. A task that proves unnecessary can be deleted and a new task can be defined if there is adequate justification that such changes will enhance the chances of accomplishing the objectives of the project.

Recognizing that change is inevitable, we may ask our recipients for a revised budget at the beginning of each year of a multi-year project. However, the total amount provided by ATP for the project cannot be increased. You will NOT be reimbursed for project overruns. Try to avoid overestimating or underestimating your project costs. The dollar amount of your request must be commensurate with the tasks you define.

At a minimum, details on the following object class categories must be provided:

05942

UNITED STATES DEPARTMENT OF COMMERCE
National Institute of Standards and Technology
Gaithersburg, Maryland 20899-

July 24, 2001 Date of Overnight Delivery: July 25, 2001

Dr. D.B. Karron

Suite 4N
New York, NY 10016

Reference: Advanced Technology Program Proposal Number: 00-00-4607

Title: Anatomic Computer Modeling for Precise and Accurate Therapies

Dear Dr. Karron:

We are pleased to inform you that after appropriate peer review and evaluation, we have concluded that your initial proposal submitted to Gate 1 of the FY2001 Advanced Technology Program (ATP) competition has high merit as judged against the ATP selection criteria. In order to receive further consideration for ATP funding, please submit the required Gate 2 additional information to address the potential for broad-based economic benefits selection criterion and the detailed budget data to the following address:

National Institute of Standards and Technology
Advanced Technology Program
100 Bureau Drive, Stop 4701
Administration Building 101, Room A413
Gaithersburg, MD 20899-4701

Please include the above referenced proposal number on your Gate 2 additional information. Required Gate 2 additional information is outlined in the November 2000 ATP Proposal Preparation Kit in Appendix B and Exhibits 2 and 14, as well as on our web site (www.atp.nist.gov). The required Gate 2 additional information must be postmarked or hand delivered by close of business within fourteen (14) calendar days from the date of overnight delivery of this letter. Failure to submit the required documentation within the time frame specified will require you to resubmit. Please note that you will receive an acknowledgement from ATP for receipt of your Gate 2 additional information.

NIST

05943

If it is determined that the Gate 2 additional information, along with the initial proposal previously submitted to Gate 1, have high merit with respect to the ATP selection criteria, the proposal will advance to Gate 3 as a semi-finalist and you will be notified to submit the required Gate 3 documentation, as necessary. Additionally, your organization may be invited to NIST for an oral review. If your proposal is not selected as a semi-finalist, you will be provided a debriefing on the material submitted both in Gates 1 and 2.

If you need clarification of any points covered in this letter, please call me at (301) 975-2218. Thank you for submitting a proposal to the ATP 2001 competition.

Sincerely,

Bettijoyce B. Lide

Title: Anatomic Computer Modeling for Precise and Accurate Therapies

Dear Dr. Karron:

We are pleased to inform you that after appropriate peer review and evaluation, we have concluded that your proposal to the FY2001 Advanced Technology Program (ATP) competition has high merit as judged against the ATP selection criteria and has been selected as a semi-finalist. Your proposal now proceeds to Gate 3. In order to receive further consideration for ATP funding, you are requested to attend an oral review at NIST and to submit the required Gate 3 forms.

Oral Review:

Your oral review is scheduled for August 21, 2001 beginning at 8:30am Eastern Time at NIST, 100 Bureau Drive, Gaithersburg, MD 20899. The purpose of the oral review is to: 1) Give you an opportunity to inform us of any important developments that have taken place since your proposal was written, and 2) Give us an opportunity to ask questions regarding both the technical and business aspects of your proposal. On the day of your oral review, please arrive at the NIST Administration Building lobby 15 minutes before your scheduled beginning time. An ATP representative will meet you in the lobby to escort you to the meeting room. If you arrive early, please wait in the NIST Administration Building lobby or the Administration Building's Cafeteria. Attached are directions to NIST and a list of area hotels.

An ATP oral review generally lasts approximately 1½ - 2½ hours. You will be given no more than 10 minutes at the beginning to tell us about developments since the proposal was submitted that affect its current status. Please do not use this time to review the details of your proposal since we have already reviewed it. A question/discussion period will follow. You will have no more than five minutes at the end to summarize any key points. Please limit your attendees to no more than four (4) for single proposers and no more than seven (7) for joint ventures (JV). If your proposal is a JV, it is your responsibility to inform your JV members of this notification. In selecting your attendees, remember that both detailed business and technical issues will be discussed. You may be asked questions regarding the science and technology underlying your proposal as well as detailed questions about the financial and business aspects.

05946
NIST

Pre-Oral and Administrative Questions:

Attached to this letter is a set of ATP Pre-Oral Questions that relate to the ATP criteria and that will have a bearing on the decision of the Source Evaluation Board (SEB). There are two types of questions, as noted on the form - 1) those that require a written response and 2) those that alert you of certain subjects that are likely to be brought up by the SEB. Written responses to the questions are limited to one page per question. Sixteen (16) copies of your responses to the ATP Pre-Oral Questions should be brought to the oral review for distribution. Please include the above referenced proposal number on your submission. The ATP reserves the right to ask additional questions at the oral review. Additionally, under separate cover, Administrative Questions concerning budgetary and human and vertebrate animal subjects' issues may be sent to you at a later date.

Additional Gate 3 Items:

As noted in the ATP Proposal Preparation Kit, additional information is required at Gate 3. For your convenience, attached is a checklist of additional items which must be provided in triplicate (original and two copies) at time of the oral review:

We will invite more proposers than we expect to fund. Thus, while being designated a semifinalist is an indication that your proposal was judged to have considerable merit, receiving an invitation for an oral review is no guarantee that it will be funded.

Please confirm the receipt of this fax to Amy Tasker by phone 301-975-4044 or fax 301-926-9524. Also, at least three days prior to the oral review, please fax to the above number, the names and phone numbers of those who will attend the oral review and the name of the hotel where you plan to stay in case we need to contact you.

Again, thank you for submitting a proposal to the ATP 2001 competition.

Sincerely,

Bettijoyce Lide

Bettijoyce Lide

5/01

Proposal Number: 00-00-4607 SA X JV ____
Name of Proposer: Computer Aided Surgery, Inc.

ITEMS CHECKED MUST BE SUBMITTED IN TRIPLICATE BY THE ATP SEMI-FINALIST TO NIST AT THE SCHEDULED ORAL REVIEW

1. X SF-424B, Assurances - Non-Construction Programs, with original signature from proposer and if a JV from each JV participant (http://www.whitehouse.gov/WH/EOP/OMB/Grants/sf424b.pdf)

2. X CD-511, Certifications Regarding Debarment, Suspension and Other Responsibility Matters; Drug-Free Workplace Requirements and Lobbying, with original signature from proposer and if a JV from each JV participant (http://www.rdc.noaa.gov/~grants/pdf/cd511.pdf)

3. X SF-LLL, Disclosure of Lobbying Activities **(if applicable)** with original signature from proposer and if a JV from each JV participant http://www.whitehouse.gov/WH/EOP/OMB/Grants/sflllin.pdf)

4. X CD-346, Applicant for Funding Assistance, with original signature from proposer's key individuals and if a JV from each JV participant's key individuals (see Exhibit 13 in ATP Proposal Preparation Kit)

5. ___ For JV only, draft JV Agreement (see sample at http://www.atp.nist.gov/atp/jvsample.htm). JV Agreement will not be approved unless it contains required information in the sample. Specifically, the JV Agreement must include: 1) Designation of entity as JV Administrator; 2) Power of attorney clause stating that JV participants give the JV Administrator the power of attorney for the purpose of signing the NIST cooperative agreement on their behalf; 3) Intellectual property plan; 4) Statement that pursuant to ATP statutory restriction, title to intellectual property cannot vest with non-profit, if JV includes a non-profit; 5) Statement of Federal government use license; and 6) Precedence clause stating that if there is a conflict between JV Agreement and NIST cooperative agreement, the NIST cooperative agreement shall prevail). **(NOTE: If proposal is selected as a finalist, a final executed JV Agreement must be submitted prior to award issuance.)**

6. ___ Questionnaire on foreign-owned company (see attached)

7. ___ If research involves the use of human and/or animal research, please refer to the ATP Booklet entitled *Guidelines and Documentation Requirements for Research Involving Human and Animal Subjects* for required information (http://www.atp.nist.gov/atp/kit-00/hasbook2.htm)

ATP PRE-ORAL QUESTIONS

Proposal Number: 00-00-4607 SA:___X___ JV:_____
Name of Proposer: Computer Aided Surgery, Inc.

Please note that the questions below are not all inclusive and that ATP reserves the right to and will ask additional questions at the oral review.

TYPE A: WRITTEN RESPONSES REQUIRED

Written responses to the following pre-oral questions are limited to one page per question. Please bring sixteen (16) of your responses to your scheduled oral review. Applicable page numbers in the ATP Proposal Preparation Kit are identified to assist you in preparing your response. The ATP Proposal Preparation Kit can be viewed on the web at http://www.atp.nist.gov/atp/kit-00/kit-1100.htm.

A. SCIENTIFIC & TECHNOLOGICAL MERIT (pp. 16-19)

1. Please clarify the discussion of the key technical risk. What is the technical risk that could cause this project to fail?
2. Please provide metrics for measuring the progress of the technology development during the project.
3. Please provide a statement of annual accomplishments (as described on p. 19 of the 2000 proposal preparation kit). What technical results will be achieved at the end of each year of the project.
4. Please provide descriptions of the technical tasks outlined on pages 20 and 21 of the Gate 1 proposal.
5. Please map the technical barriers and new technology listed on page 19-20 of the proposal to the tasks that will develop the new technical capability.
6. How will the results of the project be evaluated?

B. POTENTIAL FOR BROAD-BASED ECONOMIC BENEFITS (pp. 19-20; Appendix B)

1. Please clarify CASI's / Dr. Karron's relationship with CUNY and CCNY.
2. Please identify any applications or products where Digital Morse Theory has been implemented.
3. Please elaborate on CASI's decision not to further pursue TAD commercialization and implications, if any, on potential commercialization of the proposed technology.

TYPE B: WRITTEN RESPONSES NOT REQUIRED

The following questions or subjects are likely to be brought up by the SEB. No written responses are required.

A. SCIENTIFIC & TECHNOLOGICAL MERIT (pp. 16-19)

1. What has been implemented to date? How has DMT so far been tested on medical images?
2. How would the images be used for robotic surgical planning? What else would have to be developed to make this application possible?

3. Expand on the discussion of how the models will be calibrated.
4. How will the accuracy of the models be evaluated?
5. What will the role of the technical advisors be on the project or will they be advising the company more generally?
6. How good (clear) does the data from an MRI or other data source have to be in order to construct a unique segmentation (3D connection, or 2D spider)?
7. What is the metric to determine whether the representation is sufficiently accurate for diagnostics, or more critically, for surgery?

B. POTENTIAL FOR BROAD-BASED ECONOMIC BENEFITS (pp. 19-20; Appendix B)

1. Does CASI have existing alliances or collaborations with potential customers or end-users of the technology?
2. Please elaborate on CASI's plans to introduce the product to potential customers and end-users
3. Have you initiated talks with insurance companies and payers to discuss reimbursement scenarios for the proposed service?
4. Please discuss likely scenarios for ordering, administration, billing and payment associated with RT Planning and other studies that will utilize the proposed technology.
5. Does CASI have agreements or alliances with hospitals or clinics (other than NYUMC) where testing may take place?
6. Please discuss resource requirements associated with implementing a commercialization plan. For example, what type of staffing requirements would be required to provide the modeling service? How will you build this staff?
7. Please discuss the company's plan to build a business team that can help to formulate the direction and strategic plan for CASI. Include a timeline.

DIRECTIONS TO NIST

NIST is located in Gaithersburg, Maryland, just off Interstate Route 270, about 40 kilometers (25 miles) from the center of Washington, D.C. From Washington (northbound on Rt. 270), visitors to NIST should enter the Collector/Distributor lanes at Exit 9 and take Exit 10, Rt. 117 West (Clopper Rd.). Turn left at the first traffic light which is Bureau Drive and proceed through the main gate (Gate A). If coming southbound on Rt. 270, take Exit 11B, Rt. 124 West (Quince Orchard Rd.). Visitors should go to the receptionist in the main lobby of the Administration Building for directions to the appropriate room or for shuttle service to other buildings on the site. During normal working hours, a shuttle van runs between the Shady Grove Metro Station and NIST and back. The shuttle leaves NIST on the hour and half-hour starting at 8:00 a.m., with the final trip at 5:30 p.m. Visitors using Metro can meet the NIST shuttle at the east side "Kiss & Ride" bus kiosk at the Shady Grove Station.

Re: Proposal Number: 00-00-4607

Question 1: Provide elaboration on your rational for requesting ATP funding to perform the project as described. Specifically describe what efforts were made, prior to applying for ATP funding to support the project entirely with internal or external private capital) funding. Include any efforts to secure funding from other government agencies, and/or why ATP is the most appropriate program to fund the proposed work. Please be specific and provide evidence to the extent possible. Indicate whether, to what degree, and within what timing the project would be undertaken if no ATP support were forthcoming.

Answer to Question 1:
Efforts made, before applying to ATP in July 2001, to support the project consisted of participating in national and local Venture Capital meetings and discussions with individual Venture Capitalists, Angel Investors, and government funding agencies including DoD, and the new NIH Bioengineering Institute.

As these meetings were unfruitful, the main source of support for this project has consisted of the PI's personal cash (and personal credit) and in-kind contributions. Cash support consisted of approximately $85,000 in cash to CASI solely in support of this project over the past two years. The PI's in-kind support consists of deferred salary, deferred office rent (the office is owned by the PI, who rents space to CASI) amounting to approximately $350,000. Contributions made by collaborators and consultants consisted of unpaid efforts. Angel investors consisting of family, friends, and colleagues, loaned money to the PI, who forwarded the money to CASI to pay bills and permit minimal scientific progress.

This enabled CASI to function and continue to do minimal scientific research. External contributions were in the nature of consulting from NYUMC and E. Gurfein, which, if paid, would total approximately $25,000.

ATP Funding is needed because CASI's goal is to make a technical forward leap with the DMT based modeling and develop a business model to rapidly bring it to market. CASI needs the funding to focus on its core technology, and then the production of anatomic modeling for RT planning. Building on preliminary results with the NIH Visible Human Project (VHP), CASI will create new markets that will be profitable within five years. Equity markets, in general, have a cloud of uncertainty over them at this time, which translates into investors staying on the sidelines. While we observe this somewhat in publicly traded equities, it is even truer of the illiquid private equity marketplace. Generally, the current requirements, among others, for private equity investors is that:

1. Profitability can be expected within two years.
2. The technology is reduced to practice.

CASI had made a significant effort to obtain private equity funding for this activity.

ATP is the most appropriate funding agency because of its broad scope, relatively deep and long funding cycle, and its policy on technical risk. ATP recognition of technical merit attracts additional business funding after it is awarded. For example, New York State and New York City sponsor a foundation to help obtain funding from Angel Investors and New York State, the Industrial and Technological Assistance Corporation (ITAC). Their mission is to obtain commercial capital (as opposed to technical research funding) to keep high tech and design businesses in New York City. They do not have the capability to evaluate the technical aspects of this project, but can provide state co-funding for the business and commercialization of this proposed technology. The COO has initiated in depth discussion with ITAC, and should ATP make an award, we can reasonably expect follow on state funding in the range of $250,000 to $2,000,000 within 4 to 6 months from application.

This project has many broad implications beyond clinical medicine, and many national benefits beyond cancer treatment. As this project matures, over the next one to two years, CASI will launch new clinically focused projects with its clinical partners with NIH funding. However, the focus at this early stage is not cancer treatment, but on building the core technology, which, when achieved, will permit a range of clinical projects that are in the direct purview of NIH National Cancer Institute and National Institute of Bioimaging and Bioengineering. There are many issues of precision, accuracy, geometric fidelity that need to be address, as well as the development of national standards for the emerging areas of surgical robotics, biomedical image segmentation, and biological morphology characterization that fit the NIST mission.

We can reasonably expect private venture capital funding in 2 to 3 years, as CASI technology is demonstrated at national meetings, and as its alpha collaborators and early adopters demonstrate its utility and economic value.

The PI has approached the following early stage capital investors:

Toucan Capital Corp; ATP National Meeting, Baltimore MD Ms. Linda Powers
Not interested until 1-2 years into ATP funding

Global Business Network, ATP National Meeting, Baltimore MD Mr. Peter Schwartz
Not interested until 1-2 years into ATP funding

Dr. Ved Brat, Braton Biotech, ATP National Meeting Baltimore MD June 2001
Seeking Angel funding at present

The COO has approached the following investors without success for the reasons cited above:

CMMC Ventures, Inc,
Sumitomo Corporation of America,
Madison Partners,
Bristol Meyers Squibb,
Paramount Capital and the
Herrick Fund.

ATP funding is vital at this time. State and private co-funding depend on the technical recognition of this technology. NIH funding requires preliminary clinical and engineering data that this project will produce in order to obtain RO1 level of funding. ATP funding will attract the technical attention in other scientific fields (such as metrology, general image processing, applied math, to name only a few) and provide the broad technical diffusion required for the large national benefit of this technology. Without this funding and recognition, this project ill limp along as a side line to whatever else CASI happens to win contracts to do. The project will probably take an additional 5 to 8 years, as opposed to the 3-year timeline detailed in the project proposal.

C. A. S. I.

Computer Aided Surgery, Inc.

To date, the following private funding has been applied to this project by CASI (via the PI) and its collaborators:

Private Internal Funds (PI's personal contribution)	
1. Direct Cash Contribution: (as of Aug 2001)	$85,000
2. Overhead Contribution (Office Rent)	$45,000
3. Contribution to NIH VHP Project (In-Kind)	$50,000
4. Unpaid PI's Salary (2 Years)	$320,000
Approximate PI's Contribution	$500,000
Private E. Gurfein In-Kind Contribution	
Uncompensated Consulting and Travel	
Approximate Business Manager/Coo Contribution	$15,000
NYUMC Contribution	
Uncompensated Consulting	
5 days @ 2000 / day	$10,000
Total Contribution to this project	**$525,000**

Question 2: Please summarize other previously funded (during the past two years) or pending Federal grants, cooperative agreements, or contracts involving the technical group submitting this proposal. Include name and phone number of the responsible Federal agency point of contract for each award, and dollar level, and very brief description of the work.

Answer to Question 2:

Previous funding for this project in the past two years was for different DMT applications and covers different technical areas.

The very early DARPA funding was focused on demonstrating DMT principles in 2D CT images for image registration applications, not image segmentation, as is the main thrust of the current proposal.

The more recent NIH Visible Human Project research was on Color Image segmentation, which is not the focus of the current effort to develop segmentation technology from CT imagery for Breast and Prostate Cancer Radiation Treatment Planning.

The only pending research contract application is to the NAVY, under an SBIR solicitation to develop Catadioptic/Omnidirectional video surveillance of Aircraft Carrier flight deck operations. DMT technology is involved to do steriopsis from multiple camera views, which is not a technical topic under the current ATP technical project. This SBIR has just been submitted, and is not awarded. The earliest award date is October 2001.

DARPA Contract DAAH01 - 98 - C - R195 (add on contract) $ 100,000 1998-1999
Dennis Healy PM +1 (703) 696-0143 dhealy@math.umd.edu
Initial exploratory study on Digital Morse Theory for Data Fusion

Accomplishments: 2D DMT maps/graphs on CT images, published in 1999 IEEE EMBS meeting in Atlanta, Publication of 1archival papers, 1 patent obtained

NIH Visible Human Project (Consulting) $50,000 2000-2001
Don Jenkins PM +1 (301) 435-3273 jenkins@nlm.nih.gov
Brian Athey PI +1 (734) 763-6150 bleu@umich.edu
Application of Digital Morse Theory for Color Object segmentation of Visible Human Data for Medical School Content Development

Accomplishments: 3D Color DMT maps/graphs of Visible Human Color Data, publication of an archival paper, 1 invited lecture at 2001 SPIE Image Science meeting in Boston.

NIST BUDGET DOCUMENTS

ESTIMATED MULTI-YEAR BUDGET - SINGLE COMPANY				
	YEAR ONE	YEAR TWO	YEAR THREE	TOTAL
1. OBJECT CLASS CATEGORY				
A. Personnel Salaries/Wages	$ 325,000	$ 375,000	$ 375,000	$ 1,075,000
B. Personnel Fringe Benefits	110,500	127,500	127,500	365,500

FORM CD-451 (REV 10/98) U.S. DEPARTMENT OF COMMERCE AMENDMENT TO FINANCIAL ASSISTANCE AWARD	☐ GRANT X COOPERATIVE AGREEMENT
	ACCOUNTING CODE cc: 1/4721348 Obj. Class: 4110 Req. No. 1/472-2136 $-0-
	AWARD NUMBER 70NANB1H3050
RECIPIENT NAME Computer Aided Surgery, Inc.	AMENDMENT NUMBER #02
STREET ADDRESS 300 East 33rd Street, Suite 4N	EFFECTIVE DATE
CITY, STATE, ZIP CODE New York, NY 10016	EXTEND WORK COMPLETION TO n/a

CFDA NO. AND PROJECT TITLE: 11.612, Advanced Technology Program (ATP), Proposal No. 00-00-4607
Project Title: Anatomic Computer Modeling for Precise and Accurate Therapies

COSTS ARE REVISED AS FOLLOWS:	PREVIOUS ESTIMATED COST	ADD	DEDUCT	TOTAL ESTIMATED COST
FEDERAL SHARE OF COST	$800,000.00	$0	$0	$800,000.00
RECIPIENT SHARE OF COST	$ 36,500.00	$0	$0	$36,500.00
TOTAL ESTIMATED COST	$836,500.00	$0	$0	$836,500.00

REASON(S) FOR AMENDMENT
This cooperative agreement is being amended to (1) revise administrative contact's name; (2) correct total estimated cost for budgeted year; (3) approve and incorporated revised budget dated 12/27/01; (4) remove Special Award Condition #9; and (5) and indicate on the attached those terms and conditions that affected by these actions.

This Amendment approved by the Grants Officer is issued in triplicate and constitutes an obligation of Federal funding. By signing the three documents, the Recipient agrees to comply with the Amendment provisions checked below and attached, as well as previous provisions incorporated into the Award. Upon acceptance by the Recipient, two signed Amendment documents shall be returned to the Grants Officer and the third document shall be retained by the Recipient. If not signed and returned without modification by the Recipient within 30 days of receipt, the Grants Officer may unilaterally terminate this Amendment.

SPECIAL AWARD CONDITIONS
ADVANCED TECHNOLOGY PROGRAM – SINGLE RECIPIENT
COMPUTER AIDED SURGERY, INC.
COOPERATIVE AGREEMENT NO. 70NANB1H3050
AMENDMENT #02

THE FOLLOWING SPECIAL AWARD CONDITIONS ARE AMENDED:

1. RECIPIENT ADMINISTRATOR CONTACT

The Recipient Administrator Contact's name, title, address, and telephone number are:

(Administrative) Elisha Gurfein
Computer Aided Surgery, Inc.
300 East 33rd Street, Suite N
New York, NY 10016
Phone: (201) 569-4482
Fax: (212) 448-0261

5. PROJECT DESCRIPTION

research shall be conducted in accordance with the Recipient's proposal dated 07/06/01, and all revisions/late documentation dated 09/20/01, including revised budget dated 12/27/01.

6. FUNDING LIMITATIONS

The scope of work and budget incorporated into this award cover a three-year period (referred to as the "project period") for a total amount of $2,000,000.00 in Federal funds. However, Federal funding available at this time is limited to $800,000.00 for the first year period from 10/01/01 through 09/30/01 (referred to as the "budget period"). The Grants Officer may require additional clarification to support the budget. If that results in changes to the budget or budget narrative, the Recipient shall submit, in writing, a revised budget and/or budget narrative to the Grants Officer for approval. Receipt of any funding beyond the first year up to the level projected under this award is contingent upon the availability of funds from Congress, satisfactory performance, and will be at the sole discretion of the National Institute of Standards and Technology (NIST). The Recipient may not obligate, incur any expenditure, nor engage in any activity that involves a commitment of Federal funds under this Agreement in excess of the Federal amount presently available. No legal liability exists or will result on the part of the Federal Government for payment of any portion of the remaining funds, which have not been made available under the award. If additional funds are not made available, any expenses incurred related to closeout activities must be funded from the amount already made available under this award. The notice of availability or non-availability of additional funding for the second and third year(s) will be made in writing by the Grants Officer. Only the Grants Officer is authorized to obligate funds. No other verbal or written notice should be relied upon by the Recipient. In the absence of a written notice of additional funding, no assumption should be made by the Recipient that the funds will be forthcoming.

Projected budget amounts and periods:

Year 2: $600,000 (From 10/01/02 to 09/30/03)
Year 3: $600,000 (From 10/01/03 to 09/30/04)

7. COST SHARE

For the first year period, the cost sharing ratio (direct costs only) applicable to this award is the Recipient's contribution of 4.36% ($36,500) and NIST's contribution of 95.64% ($800,000).

9. REQUIREMENT OF ACCOUNTING SYSTEM CERTIFICATION

The above Special Award Condition placed in the original award document is removed, as the requirement has been satisfied.

ALL PRIOR TERMS AND CONDITIONS REMAIN THE SAME.

Subject: Request for Approval of Proposed Budget Changes
Date: Thu, 22 Nov 2001 01:13:00 -0800
From: egurfein <egurfein@earthlink.net>
To: hope snowden <hope.snowden@nist.gov>
CC: Bettijoyce Lide <bjlide@nist.gov>, jayne orthwein <jayne.orthwein@nist.gov>, "Dr. D. Karron." <karron@casi.net>

Upon review and reconsideration of the approved budget, we are submitting the following changes for your approval:

A. Personnel Salaries/Wages from $375,000 to 325,000
-$50,000

B. Personnel Fringe Benefits from $127,500 to $110,500
-$17,000

C. Travel from $4,000 to
$20,000 +$16,000

D. Equipment from $120,000 to $110,000
-$10,000

E. Material from $0 to
$11,000 +$11,000

F. Subcontractors from $200,000 to $250,000
+$50,000

Net
Change
0

Reasons for requested budgetary changes:

A. In an effort to get more for each dollar, we intend to engage Prof. George Wolberg as a consultant for well defined assignments instead of as an employee (-$100,000). However, we are adding two employees: one Financial Control Specialist (+$25,000) and one Systems Administrator (+$25,000). Net change: (-$50,000).

B. Fringe benefits are reduced by 34% of $50,000, because of reduction of $50,000 in Personnel Salaries. Net Change:-$17,000.

C. The travel amount budgeted was much too low. Based on expected travel for giving papers, attending relevant symposia and meetings, we request an increase to $20,000. Net change: +$16,000.

D. Based on some discounts that we are negotiating, we propose to reduce the equipment costs to $110,000. Net change:-$10,000.

E. Material: Various items for equipment and data services are estimated at $11,000. Net change: +$11,000.

F. Changing George Wolberg from employee to subcontractor adds +$100,000. NYU Medical Center and CUNY are expected to be subcontracted for $50,000. With an additional total of $50,000 in subcontracts to several consultants, the revised number for subcontracts is $250,000. Net change: +$50,000.

The net change for all the above changes is zero.

Please consider these requested changes and advise at your earliest.
Sincerely,
EGurfein

Budget Data

Proposal Number 70NANB1H3050

Name of Company Computer Aided Surgery, Inc **Year** 1 (2001-2002)

A. Personnel - List each position by name of employee and title, if available. Show the annual salary rate and the percentage of time devoted to the project. Compensation paid for employees must be consistent with that paid for similar work within the proposer's organization and similar positions in the industry. Employees who are considered indirect labor should not be included in the breakdown of direct salaries or in section 1A of the Form NIST-1262 or NIST-1263. Escalation rates for the out-years should be reasonable. We recognize that a company may not be able to identify all of the personnel to be assigned to the project several years down the road. Where this cannot be done, use generic position titles such as "senior chemical engineer" and for name, "to be determined." Consultants should NOT be included in this category, but more appropriately under the "subcontracts" category and described on Form NIST-1262 or NIST-1263, pages 4 and 5, respectively.

Name/Position Title	Annual Salary	Percentage of Time on Project	Cost
Dr. D B Karron/PI (12 months)	$175,000	100%	~~$175,000~~
Elisha Gurfein/Project Manager (12 months)	$133,333	75%	~~$100,000~~
Prof. James L Cox / Lead Pgmr (1 month)	$127,346	49%	$5,200
Scott Albin / Systems (3 months)	$47,142	42%	~~$4,950~~
Charles DaSalla / Systems (11 months)	$21,905	100%	~~$19,800~~
Nicholee Wynter / Fiscal Control (4 months)	$29,000	100%	~~$9,348~~
Regner Peralla (1 month)	$31,488	50%	~~$1,312~~
RG Wine (1 month)	$42,240	100%	~~$3,520~~
Matthew Rothman (5 wks)	$33,000	100%	~~$3,405~~
		TOTAL	+ 2 $322,537

immaterial may diff

A

B. Fringe Benefits - Identify percentage rate; if greater than 35 %, provide a breakdown of what makes up the fringe benefits (i.e., vacation, sick, military leave, health and life insurance, retirement, social security, etc.). If fringe benefits are normally included in your organization's indirect cost rate, they should be budgeted as such, and check the appropriate line below.

Percentage Rate: 34.9% **Check here if included in indirect:** _____

If percentage rate exceeds 35%, provide breakdown.

TOTAL $112,565

B

C. **Travel** - Provide best estimate of travel required for the project, and provide the basis of computation (i.e., item x number of people x number of trips). Note that ATP recipients are expected to adhere to government policies regarding travel, such as, coach rather than first class accommodations, etc. Travel costs should represent a coherent part of the project's "communications strategy" for smooth coordination among participants. While foreign travel is not precluded, it is discouraged and will require a strong justification on how it is directly related to the R&D activities of the ATP project. Likewise, the travel cost for attending conferences must be strongly justified as essential and relevant to the research and development aspects of the project.

Purpose of Travel	Destination	Item (mode transportation, lodging, and subsistence)	Computation	Cost
MMVR (Presentation)	Newport Beach, CA	2x RT Air, Hotel, Rental Car, Meeting Fees, Per Diem for PI and R. Bucholz, MD		6000
NIST Kickoff	Gatherburg, MD	2x Trainfare, Car Rental, Taxi, Per Diem for PI, Gurfein, and R. Satava MD		2000
SPIE Medical Imaging (Presentation)	Boston, MA	2x Amtrak, meeting fees, Taxi, Per Diem, PI and Cox		2621
SGI Developer Conference	San Jose, CA	Airfare, meeting fees, car rental, Hotel, Per Diem for PI		2700
IEEE Signal Proc Soc and NIH NJBIB Joint Conf	Washington, DC	Car Rental, Hotel Meeting Fees, Per Diem:PI and Zevi		2000
side visit to Nist	Galtherburg, MD			10
Gurfein Travel to CASI	Ft. Lee, NJ	Fuel, Parking, Tolls for visits to CASI for NIST Program Management		1589
DBK Travel to NIST	Galtherburg, MD	Fuel, Tolls, Per Diem		1000
NYC Parking for Staff and Visitors	New York, NY	Muni Meter and Parking Garage for Program Work by Visitors and Staff, Honoraria Parking		2000

Travel justification for foreign travel and conferences:

TOTAL 19,920

05968

D. Equipment - Identify each item of equipment, methodology used to arrive at the proposed costs, (i.e., historical costs, competitive bid, published price lists, or cost/price analysis), basis of computation (i.e., cost per item x number of items), and cost. Budget estimates for equipment items exceeding $100,000 each must be described and justified separately. Also identify by placing an asterisk on any in-kind owned equipment and its current depreciated value using the participant's preestablished depreciation accounting methods. The value of equipment will be further prorated according to the share of total use dedicated to carrying out the proposed ATP work. ATP funds may not be used for construction of new buildings or extensive renovations of existing laboratory buildings. ATP funds may, however, be used for construction of experimental research and development facilities to be located within a new or existing building provided that the equipment or facilities are essential for carrying out the project. If such costs are proposed, include below and provide justification.

Item	Methodology	Computation	Cost
	see attached exhibit		

Justification for any item over $100,000, or construction costs:

TOTAL 231719 D

E. Materials/Supplies - Provide a complete breakdown of each item/type of expendable materials and supplies, methodology used to arrive at the proposed costs (i.e., historical costs, competitive bid, published price lists, or cost/price analysis), basis of computation (i.e., item x number of items), and cost.

Item	Methodology	Computation	Cost

F. Subcontractors - For each subcontractor identified on the NIST-1262 Page 4 or NIST-1263 Page 5, enter the name, if known, service to be provided, hourly or daily fee (8-hour day), and estimated time on the project. Subcontractor fees in excess of $450 per day require additional justification. Proposers are encouraged to promote free and open competition in awarding subcontracts.

Name of Subcontractor	Service Provided	Computation	Cost
George Wolberg, PhD	Graphics Programming	525 hours @ 80/hour	37,674
Jim Cox, PhD	Contract work done prior to hire.	~~660~~ hours @ ~~$60/hr~~ 165	33,930
Scot Albin, ~~MD~~	systems and medical research	100 hours @ 20/hour	2,000

hrs 522 # 65

+ 1 immaterial mod diff. F

Subtotal 73,605

Subcontractor Expenses: List all expenses to be paid from the award to the individual subcontractors in addition to their fees (i.e., travel, meals, lodging, etc.).

Item	Location	Computation	Cost

Subtotal

TOTAL 73,605

05973

G. Other - Identify and provide a detailed description of any other direct costs which do not fall into the object cost categories above, basis of computation (i.e., cost per item x number of items), and cost. The cost of the project audit should also be included in this category unless it is part of the indirect costs. If it is part of the indirect costs indicate it as such. Each JV partner should budget for an audit. For awards less than 24 months, an audit is required at the end of the project; for 2, 3, or 4 year awards, an audit is required after the first year and at the end of the project; for 5 year awards, an audit is required after the first year, third year, and at the end of the project.

Description	Computation	Cost
Audit		
Jill Feldman, ATP pre-certification		5,000
Power delivery	100% of increase due to NIST grant	9,724
Data Communication		8,205
PDA		349
ATG Consulting Specialized Network and Systems programming and System Administration	100 hours@ 120/hour	12,000
Professional fees for payroll tax preparation, accounting, and legal services		16,691
Dues and professional memberships		736
Misc		500
Program related postage and delivery		500
TOTAL	✓	53,705

G

H. Indirect Costs -Specify the current indirect cost rate(s), computation used, and cost. If an indirect cost rate was negotiated with a cognizant Federal agency, include a copy of the approved negotiated agreement. If an indirect cost rate has not been established by a cognizant Federal agency please state this below.

Percentage Rate	Computation	Cost
TOTAL		

Budget Data

Proposal Number 70NANB1H3050

Name of Company Computer Aided Surgery, Inc. **Year** 2 (2002 - 2003)

A. Personnel - List each position by name of employee and title, if available. Show the annual salary rate and the percentage of time devoted to the project. Compensation paid for employees must be consistent with that paid for similar work within the proposer's organization and similar positions in the industry. Employees who are considered indirect labor should not be included in the breakdown of direct salaries or in section 1A of the Form NIST-1262 or NIST-1263. Escalation rates for the out-years should be reasonable. We recognize that a company may not be able to identify all of the personnel to be assigned to the project several years down the road. Where this cannot be done, use generic position titles such as "senior chemical engineer" and for name, "to be determined." Consultants should NOT be included in this category, but more appropriately under the "subcontracts" category and described on Form NIST-1262 or NIST-1263, pages 4 and 5, respectively.

Name/Position Title	Annual Salary	Percentage of Time on Project	Cost
D B Karron, Ph.D./ PI	175,000	100%	175,000
J L Cox, Ph.D. / Lead Pgmr	100,000	45%	45,000
M B Rothman / Graphics Pgmr	66,000	50%	33,000
Peter M. Ross, Ph.D. / Business Manager	127,300	30%	38,000
Tony Pahati, / fiscal control specialist	50,000	30%	15,000
Charles DaSalla / programmer	43,000	60%	25,800

TOTAL 331,000

B. Fringe Benefits - Identify percentage rate; if greater than 35 %, provide a breakdown of what makes up the fringe benefits (i.e., vacation, sick, military leave, health and life insurance, retirement, social security, etc.). If fringe benefits are normally included in your organization's indirect cost rate, they should be budgeted as such, and check the appropriate line below.

Percentage Rate: 34 **Check here if included in indirect:** _____

If percentage rate exceeds 35%, provide breakdown.

TOTAL $112,000

C. Travel - Provide best estimate of travel required for the project, and provide the basis of computation (i.e., item x number of people x number of trips). Note that ATP recipients are expected to adhere to government policies regarding travel, such as, coach rather than first class accommodations, etc. Travel costs should represent a coherent part of the project's "communications strategy" for smooth coordination among participants. While foreign travel is not precluded, it is discouraged and will require a strong justification on how it is directly related to the R&D activities of the ATP project. Likewise, the travel cost for attending conferences must be strongly justified as essential and relevant to the research and development aspects of the project.

Purpose of Travel	Destination	Item (mode transportation, lodging, and subsistence)	Computation	Cost
7500 is requested mainly for trips to Washington or to nearby conferences.				

Travel justification for foreign travel and conferences:

TOTAL 7500

05976

D. Equipment - Identify each item of equipment, methodology used to arrive at the proposed costs, (i.e., historical costs, competitive bid, published price lists, or cost/price analysis), basis of computation (i.e., cost per item x number of items), and cost. Budget estimates for equipment items exceeding $100,000 each must be described and justified separately. Also identify by placing an asterisk on any in-kind owned equipment and its current depreciated value using the participant's preestablished depreciation accounting methods. The value of equipment will be further prorated according to the share of total use dedicated to carrying out the proposed ATP work. ATP funds may not be used for construction of new buildings or extensive renovations of existing laboratory buildings. ATP funds may, however, be used for construction of experimental research and development facilities to be located within a new or existing building provided that the equipment or facilities are essential for carrying out the project. If such costs are proposed, include below and provide justification.

Item	Methodology	Computation	Cost
computer equipment purchased year 2			15,900
An allowance is requested for computer equipment purchased in year 1 billed in year 2			
second RAID			10,000
SGI octane plus			30,000
SGI octane plus			40,000

Justification for any item over $100,000, or construction costs:

TOTAL 95900

E. Materials/Supplies - Provide a complete breakdown of each item/type of expendable materials and supplies, methodology used to arrive at the proposed costs (i.e., historical costs, competitive bid, published price lists, or cost/price analysis), basis of computation (i.e., item x number of items), and cost.

Item	Methodology	Computation	Cost
	A 25% increase in materials use is anticipated due to the increase in on-site work.		

TOTAL 31000

F. Subcontractors - For each subcontractor identified on the NIST-1262 Page 4 or NIST-1263 Page 5, enter the name, if known, service to be provided, hourly or daily fee (8-hour day), and estimated time on the project. Subcontractor fees in excess of $450 per day require additional justification. Proposers are encouraged to promote free and open competition in awarding subcontracts.

Name of Subcontractor	Service Provided	Computation	Cost
Ed Weinberger, Ph.D.	Construct 3-D pointer arrows for graphic user interface.	166 h @ $60/h	$7,000
George Wohlberg Ph.D.	Prepare validation suite for DMT tree calculation	75h @ $80/h	$6,000
Isaac Dimitrovsky, Ph.D.	Assist with validation paradigm stochastic properties	100h @ $60/h	$6,000
Axiom/Benedict	Grant Management consultants	22h @ 250/h	5,400
J. Case	Programming	83h @ $30/h	1000
E Bostwick	Programming	33.5h @ $30/h	1000
ATC Consulting	Network/system programming and system administration	30h @ 120/h	3600
		Subtotal	$30,000

Subcontractor Expenses: List all expenses to be paid from the award to the individual subcontractors in addition to their fees (i.e., travel, meals, lodging, etc.).

Item	Location	Computation	Cost
Meals and travel	10 meals @ $20 each		200
	10 trips @ $240 each		2400
honoraria	bringing scientists to CASI	5 @ $200 each	1000
		Subtotal	3600
		TOTAL	$33,600

05978

G. Other - Identify and provide a detailed description of any other direct costs which do not fall into the object cost categories above, basis of computation (i.e., cost per item x number of items), and cost. The cost of the project audit should also be included in this category unless it is part of the indirect costs. If it is part of the indirect costs indicate it as such. Each JV partner should budget for an audit. For awards less than 24 months, an audit is required at the end of the project; for 2, 3, or 4 year awards, an audit is required after the first year and at the end of the project; for 5 year awards, an audit is required after the first year, third year, and at the end of the project.

Description	Computation	Cost
Audit		
Joan Hayes, ATP Audit	133h @ 150/h	20,000

TOTAL 20,000

H. Indirect Costs -Specify the current indirect cost rate(s), computation used, and cost. Percentage Rate	Computation	Cost

TOTAL

1. NAME AND ADDRESS OF SUBCONTRACTOR

George Wolberg, Ph.D.
NAC 8/202G
Department of Computer Science
City College of New York
138th St. at Convent Ave., Rm. R8/206
New York, NY 10031

NAME OF CONTACT:
TELEPHONE NUMBER: (212) 650-6160
FAX NUMBER: +1 (212) 650-6184
E-MAIL ADDRESS: wolberg@cs-mail.engr.ccny.cuny.edu

2. TYPE OF ORGANIZATION (CHECK ALL THAT APPLY)

- [x] PROFIT - SMALL BUSINESS
- [ ] PROFIT - LARGE BUSINESS
- [ ] PROFIT - MEDIUM BUSINESS
- [ ] FOREIGN-OWNED U.S. SUBSIDIARY
- [ ] NON-PROFIT INDEPENDENT RESEARCH ORGANIZATION
- [ ] UNIVERSITY
- [ ] GOVERNMENTAL LABORATORY

3. ESTIMATED AMOUNT OF SUBCONTRACT

$6,000

4. DESCRIBE SCOPE OF WORK

Programming of validation suite for assessment of accuracy of DMT tree construction and mapping.

5. IS THIS A SOLE SOURCE CONTRACT?

- [x] YES (IF YES, EXPLAIN)
- [ ] NO

Dr. Wohlberg wrote early versions of the computer algorithms for DMT based segmentation in this CASI-NIST grant. He is uniquely qualified to develop effective validation software.

1. NAME AND ADDRESS OF SUBCONTRACTOR

Peter M. Ross, Ph.D.
MedReply, Inc.
415 Central Park West, #9D
New York, NY 10025-4

NAME OF CONTACT:
TELEPHONE NUMBER: 212-665-5126
FAX NUMBER: 877 823-1066
E-MAIL ADDRESS: pross@bww.com

2. TYPE OF ORGANIZATION (CHECK ALL THAT APPLY)

- [x] PROFIT - SMALL BUSINESS
- [ ] PROFIT - LARGE BUSINESS
- [ ] PROFIT - MEDIUM BUSINESS
- [ ] FOREIGN-OWNED U.S. SUBSIDIARY
- [ ] NON-PROFIT INDEPENDENT RESEARCH ORGANIZATION

OMB Approval No: 0693-0009
Approval Expires: November 30, 2003

EXHIBIT 14

Budget Data

[Paperwork Reduction Act: Under the Paperwork Reduction Act no person is required to respond to a collection of information unless it displays a valid OMB control number. Public reporting burden for this collection of information is estimated to average 45 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimates or any other aspect of this collection of information, including suggestions for reducing this burden, to Director, Advanced Technology Program, Administration Building, Room A333, MS 4700, Gaithersburg, MD 20899-4700.]

Purpose: The Budget Data worksheets should be used for the preparation of your budget information and should be submitted in **Gate 2**. The electronic version can be found at the ATP website http://www.atp.nist.gov.

The budget is excluded from the page limitation and is used by both technical and business reviewers and by a Grants Official to determine reasonableness and allowability of costs. The overall estimated multi-year budget numbers are to be provided on page 3 of Form NIST-1262 or NIST-1263. Your budget information is a breakdown of the figures reported on the NIST-1262 or NIST-1263. Breakdowns should be as accurate and specific as possible. Include a breakdown for each year of the project and if a joint venture (JV) proposal, include the budget data for each JV participant for each year including each JV participant's annual cost sharing. Make sure any figures presented exactly match the figures on Form NIST-1262 or NIST-1263, and make sure the arithmetic is correct. **Please round to the nearest dollar.**

Proposed costs must be reasonable, allocable, and allowable in accordance with the applicable Federal cost principles (see 15 CFR 14.27). All salaries/wages, fringe benefits, travel, materials and supplies, equipment, subcontracts, other costs, and indirect costs proposed are to be consistent with costs incurred for like or similar items on all other Federal and non-Federal projects or cost centers.

We recognize that unexpected events occur frequently in R&D projects, and that budgets may need to be changed as a project proceeds. Don't fear that by providing a multi-year budget beyond the first year, you will be locked into those details. ATP allows a certain amount of flexibility in moving funds from one line item to another as circumstances change. By stating an amount for a given task, you will not be required to spend precisely that amount on that task. For example, if, in the second or third year of your project, you find that you need to spend more on one task and less on another than anticipated, that can be accommodated. A task that proves unnecessary can be deleted and a new task can be defined if there is adequate justification that such changes will enhance the chances of accomplishing the objectives of the project.

Recognizing that change is inevitable, we may ask our recipients for a revised budget at the beginning of each year of a multi-year project. However, the total amount provided by ATP for the project cannot be increased. You will NOT be reimbursed for project overruns. Try to avoid overestimating or underestimating your project costs. The dollar amount of your request must be commensurate with the tasks you define.

At a minimum, details on the following object class categories must be provided:

MEMORANDUM

To: Dr. D.B. Karron
Fr: Frederica L. Miller
Re: CASI LLC and Computer Aided Surgery Incorporated a/k/a CASI
Dt: April 22, 2003

An issue has arisen concerning whether it is legal and proper to continue to utilize the name "Computer Aided Surgery, Incorporated" also known as "CASI" when both entities became legally inactive as the non-surviving partner in a merger on August 30, 2002, by virtue of the creation of CASI LLC, a limited liability company, on the same date, pursuant to §1003 of the New York Limited Liability Company Law.

It is well settled law in New York State that, as a result of a merger, the surviving corporation, in this case CASI LLC, possesses all of the powers, rights, privileges, immunities, and purposes of each constituent, and that the surviving corporation assumes all of the liabilities and obligations of the constituent corporation. A non-surviving member of a merger can wind down, for a period of time, in order to conclude current business, including servicing its existing contracts. 15A N.Y. Jur. 2d Business Relationships §1296. It cannot solicit new business. The fact that a non-surviving entity continues for sometime after a merger for the passive purposes of collecting and disbursing funds is not fraudulent or illegal. The non-surviving entity is not receiving checks for its own account, but is acting as an agent of the LLC. The income would be reported to the surviving entity, the LLC.

according to F Miller new bank A/c is advised to retain old EIN RW telephone call 6/23/03

Computer Aided Surgery, Incorporated current status with the New York Department of State is that of an inactive entity, not a dissolved corporation. (See attachment). Therefore, CASI can continue to conclude any business that pre-dated August 30, 2002, the date of the merger. This would include accepting payments from its pre-existing ATP contract.

Please be aware that I have filed this week on behalf of CASI LLC for a d/b/a under the names "CASI" and "Computer Aided Surgery Informatics." I have discussed this issue with Joel Bernstein, Esq. and he concurs with the opinions expressed in this memorandum.

Virtual Reality, Tele-operation, Simulation, and Innovative Advanced Surgical Super-specialty Research

D Karron, Ph.D.
President and Chief Technical Officer
300 East 33rd Street, Suite 4N
New York, New York, 10016

Telephone and Voice Mail: (212) 686 8748, Fax: (212) 685 0736.
Electronic Mail: karron@casi.net Internet/World Wide Web: http://www.casi.net
(effective Nov 1)

Thursday, October 10, 1996, at 22:43:00 Hours

Daily Message Procedure (For ALL Personnel, including YOU!)

First Person In:

Check phone for messages
(Funny intermittent dial tone means that there are messages pending):
Write down messages on kitchen bulletin board, or
if you take a message elsewhere, pin it on the kitchen bulletin board.
Don't stick notes in funny places that only you will look for
(The kitchen bulletin board is the place to look for messages and notices.
I will get more if needed)
and relay them to the person they are destined for if they call or come in..

Lunch Procedure:

You are welcome to use the kitchen, and remember, I live here too !
(If you go out for lunch or coffee):
Check for messages when you return.

Last Person Out:

Call for Messages,
Leave a message in the voice mail box with any undelivered messages.

Phone Coverage Procedure: Rachel will normally cover phones, but if she comes in late, we would appreciate if she would call in and leave a message or word with whoever is in. If Rachel wants to leave early, she should leave word on the voice mail, or tell whoever is left in the office.

: Eventually we will get pagers for all staffers. In the mean time, if you are going out, and you need to stay in touch, take quarters, or a spare pager, what will remain on the hook in the hallway. Please return this.

Petty Cash: 25 Dollars will remain in a petty cash till in the kitchen. All cash taken should replaced with a receipt, i.e., the cash plus the receipt will always equal 25 dollars. Rachel will write a petty cash check to replenish the till weekly. This is for taxi fares, company means, soda for the office, milk and stuff that we eat and consume for business stuff. Dr. K will keep his own money separate ☺

Surface Mail:

Rachel will pick up mail downstairs.
Chris will pick up mail at NYU every other day.
Dr. K. will pick it up the other days.
We will get a post office box.
Rachel will pick up the Post Office Box Mail daily,
she will buy and keep stamps on hand, and drop mail off at the post office.
If you don't pick up the mail for some reason, leave word that there may be mail pending, so someone will know it may be worthwhile to check for mail.

To Pick Up Voice Mail:

(From Main Extension)
Dial 683 0085.
Enter "#", then
password: 054 42 5466.
Keep messages handy in central place (on message board in kitchen).

Computer Backup Procedures:

PC's : will all get backed up by Rachel once a week, on her way out, generally Friday PM.
I will get a supply of blank tapes.
It is better too many backups then none.
The MAC should be backed up too. Rachel knows more about this than I do.
The PC fax program should be left on and ready to receive incoming faxes at night and on the week-end unless the good doctor is present. This assures that the fax number is useable at all times.

Loose Media Policy:

If it is unlabeled, it is scratch, and anyone can overwrite it
If it is something you want to save, put a label on it, put your name on it, or put some identifying mark on it.
I have special Avery labels for 3 ¼ floppy disks.
4mm DAT tapes MUST be labeled, else they will get recycled as backup tapes.

Taking Days Off

If you don't want to come in one day, please call in and at least leave a voice mail message.
You are expected to work a 40 hour week for full time status.

Logging Hours:

You must log hours,
None of us are doing it properly.
I will have to do something about this soon. We need a good way for everyone to log hours.
Chris gets paid a fixed salary, and so does Dr. K, but the hours must be logged.
Rachel will become salary too, but till then she must log hours, and does not get paid for hours not actually present.

Working from Home:

If you want, you can take work home.
You can take the Think Pad home if you want, but YOU CAN NOT KEEP IT.
You MUST put a note up of you take it and don't tell anyone. You should even if you do tell someone, as that someone will probably forget.

Borrowing Tools:

Don't. If you must, put an index card up on the bulletin board. When you bring it back, throw out the card. See Borrowing Books

Borrowing Books:

Don't. If you must, consider scanning the article and printing it out.
The main problems is that Dr. K and Chris work late hours and if we start scratching for a reference material, you will get called in the middle of the night and be required to bring it back.

Paychecks/Payroll:
We run a weekly payroll and a 40 hour week.
We have to set a sick day policy, Personal Days policy, and a holiday schedule.
I am open to suggestions.
I was thinking that we each pick the days we want on/off or on travel.
You are paid from Monday through Friday, and the paychecks are generally ready Friday PM.
Rachel will track the hours, write the checks, and Dr. K will sign them. We will try to get the checks ready before the bank closes. If you want, Dr. K will deposit your checks in Chase Bank if you leave some deposit tickets already made out.

Taxes:
Too much, but then were do we get the money from in the first place ?
We need to get up to speed with Quick Books and know when to pay payroll taxes.

Travel Policy
The main reason for an administrator / secretary is to provide stability, and an anchor point.
It is especially important that if no one is in the office, that the administrator leave word as to when she is coming in and when she is leaving if it is not regular time. As Dr. K and Chris will be on the road a lot, it is vitally important that we each know how to contact each other at any time, have appropriate phone numbers, or know how to leave messages for each other.

Temps:
I am open to getting temps to help out if the work is bogging down.
I can get proofreaders and clerical workers on hours notice.

Library Work:
Can be done by volunteers and students, once we work out a procedure.
Shelving/Arranging/Cataloging Journals
Arranging Books (in some reasonable order) and scanning the cover pages to make a CASI bibliography (some day)
Reprints: should be scanned, cataloged, and the paper thrown out so we can reclaim the file drawer space.

Corporate Paper Style
I want you to become familiar with using the printer and MS Word to make envelopes and mailing address labels. I want all of our mail to have a professional look, especially letters to important people.

Letterhead:
I have a CASI template document ready.
Change my name if you are writing in your own voice.
I have an envelope template document somewhere. I need to play with it more.

Central name and address file: this is a big mess. Looks like the main databases is going to be

split between the b-card stuff and the MailingAddress.source stuff. Because the Mailing Address stuff works nicely on UNIX with PERL/TeX, but the carefile stuff won't work with anything else.

Express Mail service:
Actually, it is legal to get something to the express mail when it is not legal to get it to federal express. Go Know ?
But once you give it to express mail, it is as good as served on the government. No such thing for Fed Ex.

Nice auto stamper.
I would like one.

Account at Charettes, or Staples
To get nice stationery stuff.

Account at Fed Ex
We Have an active account with Fed Ex now. The Account number is as follows. <1872-0220-5>. Rachel is the contact person on the account and you should let her know of any changes with it. Also we have Fed Ex Ship 2.0 on the PC and we should try to make it useful. E-forms title is CASI

Personal Use of Office Computers:
I encourage it. It gives us a sense of belonging and means you will have a better knowledge of the machine. You should have your work done before you hang on the IRC for the night...

Changing configurations of the computers:
Make your own bootable disks if you must. If you change the default boot disk, make certain you put it back.

What to do when the printers fail
Change printers. We will have 3 on the network.

What to do when the lights fail
Turn off the computers and reset the circuit breaker that is tripped (not all of them dummy)

What do when all hell breaks out:
Stop Whining.

Vital Office Papers:
Must never walk. They should all be scanned. Right now the scanner software is no good, but the SGI's and network file system will improve matters soon.

Paper Files:
Every file has a hanging folder it lives in, and a kraft insert folder.
The kraft folder goes back into the hanging folder every time. Everything in the kraft folders should eventually be scanned, and only current material retained.

Personal Files:
Make your own copies, and keep your own files, keep your own papers.
Don't keep books or papers from CASI.
Consider keeping scanned copies as much as possible.

Titles
Dr. K is President and Chief Technical Officer (CTO). Lead Genius and Trouble
Chris is Lead Research Technician Franz List look-alike and apprentice genus in training
Rachel is Office Administrator, and Secretary.
She will also be the SWMBO (She Who Must Be Obeyed)

Charged with keeping the two above in line.

Badges:
Hey,
We don't need no stinking Badges.
Actually, we do. Try getting into a government installation without picture ID.
We need to make some picture ID badges.
And get id pictures on the web pages. We need a color digital camera, or at least scan the company pictures.

Corporate Picnic:
yeah, lets go apple picking soon.

Corporate Party:

CERTIFICATE OF INCORPORATION

OF

Computer Aided Surgery, Incorporated

UNDER SECTION 402 OF THE BUSINESS CORPORATION LAW

* * * * * * * *

I, THE UNDERSIGNED, of the age of eighteen years or over, for the purpose of forming a corporation pursuant to Section 402 of the Business Corporation Law of New York, do hereby certify:

FIRST: The name of the corporation is:

Computer Aided Surgery, Incorporated

SECOND: The purposes for which it is formed are:

To engage in any lawful act or activity for which corporations may be organized under the Business Corporation Law provided that the corporation is not formed to engage in any act or activity which requires the consent or approval of any state official, department, board, agency or other body, without such consent or approval first being obtained.

THIRD: The office of the corporation is to be located in the County of New York, State of New York.

FOURTH: The aggregate number of shares which the corporation shall have authority to issue is Ten Thousand (10,000) of the par value of One Cent ($.01) each.

FIFTH: The Secretary of State is designated as the agent of the corporation upon whom process against the corporation may be served. The post office address to which the Secretary of State shall mail a copy of any process against the corporation served upon him is: c/o CT Corporation System, 1633 Broadway, New York, New York 10019.

SIXTH: The name and address of the registered agent which is to be the agent of the corporation upon whom process against it may be served, are CT Corporation System, 1633 Broadway, New York, New York 10019.

SEVENTH: No director shall be personally liable to the corporation or its shareholders for damages for any breach of duty in such capacity, except that this provision shall not eliminate or limit the liability of any director if a judgment or other final

adjudication adverse to such director establishes that such director's acts or omissions were in bad faith or involved intentional misconduct or a knowing violation of law or that such director was not legally entitled or that such director's acts violated section 719 of the Business Corporation Law, nor shall this provision eliminate or limit the liability of any director for any act or omission prior to the adoption of this provision.

IN WITNESS WHEREOF, I have made and signed this certificate this 7th day of December, A.D. 1995 and I affirm the statements contained therein as true under penalties of perjury.

JPMorgan Chase Bank

CHASE

06013

Corporate Resolutions

I, the undersigned Secretary, hereby certify to JPMorgan Chase Bank, that at a meeting of the Board of Directors of COMPUTER AIDED SURGERY INC NIST ATP DMT PROGRAM ("Corporation") a corporation organized and existing under the laws of NY duly called and duly held on the 21 day of November, 2001, the following Resolutions were duly adopted, and that the said Resolutions have been entered upon the regular minute books of the Corporation, are in accordance with the By-Laws and are now in full force and effect.

RESOLVED:

1. The Officers of Corporation, or any one or more of them, are hereby authorized to open a bank account or accounts from time to time with JPMorgan Chase Bank and its subsidiaries and affiliates (each being hereinafter referred to as "Bank") for and in the name of Corporation with such title or titles as he or they may designate.

2. The President
(Indicate by Title person(s) authorized, for example, President, Treasurer, etc.)

of Corporation, signing Singly
(For purpose of signing items, indicate for example, singly, any two, etc.)

and their successors and any other person hereafter authorized by any means to sign on behalf of Corporation ("Authorized Person(s)") are hereby authorized to sign, by hand or facsimile (including, but not limited to, computer generated) signature(s), checks, drafts, acceptances and other instruments (hereinafter each collectively referred to as "Item(s)"). Notwithstanding the above, any Authorized Person is authorized singly to: (1) initiate Automated Clearing House ("ACH") debits without a signature; (2) initiate payments by use of Depository Transfer Checks ("DTC") without a signature other than the name of Corporation printed on the DTC; or (3) give instructions, by means other than the signing of an Item, with respect to any account transaction, including, but not limited to, the payment, transfer or withdrawal of funds by wire, computer or other electronic means, or otherwise, or of money, credits, items or property at any time held by Bank for account of Corporation ("Instructions").

3. Bank is hereby authorized to honor and pay Items, whether signed by hand or by facsimile (including, but not limited to, computer generated) signature(s). In the case of facsimile signatures, Bank is authorized to pay any Item if the signature, regardless of how or by whom affixed, and whether or not the form of signature used on such Item was actually prepared by or for Corporation, resembles the specimens filed with Bank by Corporation. Bank if further authorized to honor and pay DTCs, ACHs, Instructions, and other orders given singly by any Authorized Person, including such as may bring about or increase an overdraft and such as may be payable to or for the benefit of any Authorized Person or other Officer or employee individually, without inquiry as to the circumstances of the issuance or the disposition of the proceeds thereof and without limit as to amount.

4. Bank is hereby authorized to accept for deposit, for credit, or for collection, or otherwise, Items endorsed by any person or by stamp or other impression in the name of Corporation without inquiry as to the circumstances of the endorsement or any lack or endorsement or the disposition of the proceeds.

5. Any one of the Authorized Person(s) of Corporation are hereby authorized to secure from Bank one or more Chase Business Banking Card(s) (the "Card(s)") on behalf of Corporation which may be used by any cardholder named by such Authorized Person(s) to initiate electronic fund transactions as described in the Chase Business Banking Card Agreement (the "Agreement") with respect to any and all such accounts of Corporation as Corporation or such Authorized Person(s) may designate, including without limitation, transfers from business credit line accounts. Such Authorized Persons(s) be, and each of them hereby is, further authorized to execute and deliver in the name and on behalf of this Corporation an Agreement and supporting

a corporation organized and existing under the laws of NY
duly called and duly held on the 21 day of November, 2001, the following Resolutions were duly adopted, and that the said Resolutions have been entered upon the regular minute books of the Corporation, are in accordance with the By-Laws and are now in full force and effect.

RESOLVED:

1. The Officers of Corporation, or any one or more of them, are hereby authorized to open a bank account or accounts from time to time with JPMorgan Chase Bank and its subsidiaries and affiliates (each being hereinafter referred to as "Bank") for and in the name of Corporation with such title or titles as he or they may designate.

2. The President
(Indicate by Title person(s) authorized, for example, President, Treasurer, etc.)

of Corporation, signing Singly
(For purpose of signing items, indicate for example, singly, any two, etc.)
and their successors and any other person hereafter authorized by any means to sign on behalf of Corporation ("Authorized Person(s)") are hereby authorized to sign, by hand or facsimile (including, but not limited to, computer generated) signature(s), checks, drafts, acceptances, and other instruments (hereinafter each collectively referred to as "Item(s)"). Notwithstanding the above, any Authorized Person is authorized singly to: (1) initiate Automated Clearing House ("ACH") debits without a signature; (2) initiate payments by use of Depository Transfer Checks ("DTC") without a signature other than the name of Corporation printed on the DTC; or (3) give instructions, by means other than the signing of an Item, with respect to any account transaction, including, but not limited to, the payment, transfer or withdrawal of funds by wire, computer or other electronic means, or otherwise, or of money, credits, items or property at any time held by Bank for account of Corporation ("Instructions").

3. Bank is hereby authorized to honor and pay Items, whether signed by hand or by facsimile (including, but not limited to, computer generated) signature(s). In the case of facsimile signatures, Bank is authorized to pay any Item if the signature, regardless of how or by whom affixed, and whether or not the form of signature used on such Item was actually prepared by or for Corporation, resembles the specimens filed with Bank by Corporation. Bank if further authorized to honor and pay DTCs, ACHs, Instructions, and other orders given singly by any Authorized Person, including such as may bring about or increase an overdraft and such as may be payable to or for the benefit of any Authorized Person or other Officer or employee individually, without inquiry as to the circumstances of the issuance or the disposition of the proceeds thereof and without limit as to amount.

4. Bank is hereby authorized to accept for deposit, for credit, or for collection, or otherwise, Items endorsed by any person or by stamp or other impression in the name of Corporation without inquiry as to the circumstances of the endorsement or any lack or endorsement or the disposition of the proceeds.

5. Any one of the Authorized Person(s) of Corporation are hereby authorized to secure from Bank one or more Chase Business Banking Card(s) (the "Card(s)") on behalf of Corporation which may be used by any cardholder named by such Authorized Person(s) to initiate electronic fund transactions as described in the Chase Business Banking Card Agreement (the "Agreement") with respect to any and all such accounts of Corporation as Corporation or such Authorized Person(s) may designate, including without limitation, transfers from business credit line accounts. Such Authorized Persons(s) be, and each of them hereby is, further authorized to execute and deliver in the name and on behalf of this Corporation an Agreement and supporting documentation governing the issuance and use of such Cards with such changes, if any, as the Authorized Person(s) executing the same shall approve, and to otherwise conduct any business whatsoever relative to the account(s) and Cards as may be necessary or advisable in order to carry out the full intent and purpose of said Agreement and of these resolutions.

N/A
(Indicate account numbers to be accessed by Card)

06014

13. Bank is hereby released from any liability and shall be indemnified against any loss, liability or expense arising from honoring any of these Resolutions.

14. Subject to paragraph 10 above, each of the foregoing Resolutions and the authority thereby conferred shall remain in full force and effect until written notice of revocation or modification by presentation of new Corporate Resolutions and signature cards shall be received by Bank; provided that such notice shall not be effective with respect to any revocation or modification ot said authorities until Bank shall have had a reasonable opportunity to act thereon following receipt of such notice or with respect to any checks or other instruments for the payment of money or the withdrawal of funds dated on or prior to the date of such notice, but presented to Bank after the receipt of such notice. The Secretary or any Assistant Secretary or any other Officer of Corporation is hereby authorized and directed to certify, under the seal of Corporation or not, but with like effect in the latter case, to Bank the foregoing Resolutions, the names of the Officers and other representatives of Corporation and any changes from time to time in the said Officers and representatives and specimens or their respective signatures. Bank may conclusively assume that persons at any time certified to it to be Officers or other representatives of Corporation continue as such until receipt by Bank of written notcie to the contrary.

I FURTHER CERTIFY that the persons herein designated as Officers of Corporation have been duly elected to and now hold the offices in Corporation set opposite their respective names and that the following are the authentic, official signatures of the said respective Officers and of the named signatories who are not Corporate Officers, to wit:

Name (Typewritten or Printed)	Office	Signature
x Dr. David B. Karron	President	
	Vice President	
	Secretary	
	Treasurer	

IN WITNESS WHEREOF, I have hereunto set my hand as Secretary and affixed the seal of the said Corporation this 21 day of January, 2021.

FF-A

FINANCIAL STATUS REPORT
(Short Form)

(for information)

Please type or print legibly. The following general instructions explain how to use the form itself. You may need additional information to complete certain items correctly, or to decide whether a specific item is applicable to this award. Usually, such information will be found in the Federal agency's grant regulations or in the terms and conditions of the award. You may also contact the Federal agency directly.

Item	Entry

1, 2 and 3. Self-explanatory.

4. Enter the employer identification number assigned by the U.S. Internal Revenue Service.

5. Space reserved for an account number or other identifying number assigned by the recipient.

6. Check yes only if this is the last report for the period shown in item 8.

7. Self-explanatory.

8. Unless you have received other instructions from the awarding agency, enter the beginning and ending dates of the current funding period. If this is a multi-year program, the Federal agency might require cumulative reporting through consecutive funding periods. In that case, enter the beginning and ending dates of the grant period, and in the rest of these instructions, substitute the term "grant period" for "funding period."

9. Self-explanatory.

10. The purpose of columns, I, II and III is to show the effect of this reporting period's transactions on cumulative financial status. The amounts entered in column I will normally be the same as those in column III of the previous report in **the same funding period.** If this is the first or only report of the funding period, leave columns I and II blank. If you need to adjust amounts entered on previous reports, footnote the column I entry on this report and attach an explanation.

10a. Enter total program outlays less any rebates, refunds, or other credits. For reports prepared on a cash basis, outlays are the sum of actual cash disbursements for direct costs for goods and services, the amount of indirect expense charged, the value of in-kind contributions applied, and the amount of cash advances and payments made to sub-recipients. For reports prepared on an accrual basis, outlays are the sum of actual cash disbursements for direct charges for goods and services, the amount of indirect expense incurred, the value of in-kind contributions applied, and the net increase or decrease in the amounts owed by the recipient for goods and other property received, for services performed by employees, contractors, subgrantees and other payees, and other amounts becoming owed under programs for which no current services or performances are required, such as annuities, insurance claims, and other benefit payments.

10b. Self-explanatory.

10c. Self-explanatory.

10d. Enter the amount of unliquidated obligations, including unliquidated obligations to subgrantees and contractors.

Unliquidated obligations on a cash basis are obligations incurred, but not yet paid. On an accrual basis, they are obligations incurred, but for which an outlay has not yet been recorded.

Do not include any amounts on line 10d that have been included on lines 10a, b or c.

On the final report, line 10d must be zero.

10e, f, g, h and i. Self-explanatory.

11a. Self-explanatory.

11b. Enter the indirect cost rate in effect during the reporting period.

11c. Enter the amount of the base against which the rate was applied.

11d. Enter the total amount of indirect costs charged during the report period.

11e. Enter the Federal share of the amount in 11d.

Note: If more than one rate was in effect during the period shown in item 8, attach a schedule showing the bases against which the different rates were applied, the respective rates, the calendar periods they were in effect, amounts of indirect expense charged to the project, and the Federal share of indirect expense charged to the project to date.

Form 269/269A

Legend

√ agreed to prior report

F footed and/or cross footed

√ agreed ledger check log for award funding rec'd during the period reported

A agreed to ATP award funding for first year

X1 reports recipient's match which was not made to project

X2 includes recipient's match which was not made to project (see X1)

CASI
Program-Specific Audit and Attestation
ATP Cooperative Agreement Award # 70NANB1H3050
For the Year Ended September 30, 2002

Form 269/269A

Exceptions Noted

Client match was reported as a source of funds. Client match was not made.

Funds deposited by client were a repayment of funds which were "borrowed" for business / personal reasons from NIST funds.

Above was discussed with Ms. Faulds
Ledger was adjusted to not report "match."

INSTRUCTIONS (for information)

Public reporting burden for this collection of information is estimated to average 120 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0003), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

Please type or print legibly. Items 1, 2, 8, 9, 10, 11d, 11e, 11h, and 15 are self explanatory, specific instructions for other items are as follows:

Item	Entry
3	Enter Employer Identification Number (EIN) assigned by the U.S. Internal Revenue Service or the FICE (institution) code.
4	If this report covers more than one grant or other agreement, leave items 4 and 5 blank and provide the information on Standard Form 272A, Report of Federal Cash Transactions - Continued. Enter Federal grant number, agreement number, or other identifying numbers if requested by sponsoring agency.
5	This space reserved for an account number or other identifying number that may be assigned by the recipient.
6	Enter the letter of credit number that applies to this report. If all advances were made by Treasury check, enter "NA" for not applicable and leave items 7 and 8 blank.
7	Enter the voucher number of the last letter-of-credit payment voucher (Form TUS 5401) that was credited to your account.
11a	Enter the total amount of Federal cash on hand at the beginning of the reporting period including all of the Federal funds on deposit, imprest funds, and undeposited Treasury checks.
11b	Enter total amount of Federal funds received through payment vouchers (Form TUS 5401) that were credited to your account during the reporting period.
11c	Enter the total amount of all Federal funds received during the reporting period through Treasury checks, whether or not deposited.
11f	Enter the total Federal cash disbursements, made during the reporting period, including cash received as program income. Disbursements as used here also include the amount of advances and payments less refunds to subgrantees or contractors; the gross amount of direct salaries and wages, including the employee's share of benefits if treated as a direct cost, interdepartmental charges for supplies and services, and the amount to which the recipient is entitled for indirect costs.
11g	Enter the Federal share of program income that was required to be used on the project or program by the terms of the grant or agreement.
11i	Enter the amount of all adjustments pertaining to prior periods affecting the ending balance that have not been included in any lines above. Identify each grant or agreement for which adjustment was made, and enter an explanation for each adjustment under "Remarks." Use plain sheets of paper if additional space is required.
11j	Enter the total amount of Federal cash on hand at the end of the reporting period. This amount should include all funds on deposit, imprest funds, and undeposited funds (line e, less line h, plus or minus line i).
12	Enter the estimated number of days until the cash on hand, shown on line 11j, will be expended. If more than three days cash requirements are on hand, provide an explanation under "Remarks" as to why the drawdown was made prematurely, or other reasons for the excess cash. The requirement for the explanation does not apply to prescheduled or automatic advances.
13a	Enter the amount of interest earned on advances of Federal funds but not remitted to the Federal agency. If this includes any amount earned and not remitted to the Federal sponsoring agency for over 60 days, explain under "Remarks." Do not report interest earned on advances to States.
13b	Enter the amount of advance to secondary recipients included in item 11h.
14	In addition to providing explanations as required above, give additional explanation deemed necessary by the recipient and for information required by the Federal sponsoring agency in compliance with governing legislation. Use plain sheets of paper if additional space is required.

This space for agency use

Public reporting burden for this collection of information is estimated to average 60 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0004), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET, SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

INSTRUCTIONS

Please type or print legibly. Items 1, 3, 5, 9, 10, 11c, 11e, 11f, 11g, 11i, 12 and 13 are self-explanatory; specific instructions for other items are as follows:

Item	*Entry*
2	Indicate whether request is prepared on cash or accrued expenditure basis. All requests for advances shall be prepared on a cash basis.
4	Enter the Federal grant number, or other identifying number assigned by the Federal sponsoring agency. If the advance or reimbursement is for more than one grant or other agreement, insert N/A; then, show the aggregate amounts. On a separate sheet, list each grant or agreement number and the Federal share of outlays made against the grant or agreement.
6	Enter the employer identification number assigned by the U.S. Internal Revenue Service, or the FICE (institution) code if requested by the Federal agency.
7	This space is reserved for an account number or other identifying number that may be assigned by the recipient.
8	Enter the month, day, and year for the beginning and ending of the period covered in this request. If the request is for an advance or for both an advance and reimbursement, show the period that the advance will cover. If the request is for reimbursement, show the period for which the reimbursement is requested.
Note:	The Federal sponsoring agencies have the option of requiring recipients to complete items 11 or 12, but not both. Item 12 should be used when only a minimum amount of information is needed to make an advance and outlay information contained in item 11 can be obtained in a timely manner from other reports.
11	The purpose of the vertical columns (a), (b), and (c), is to provide space for separate cost breakdowns when a project has been planned and budgeted by program, function, or activity.

Item	*Entry*
	If additional columns are needed, use as many additional forms as needed and indicate page number in space provided in upper right; however, the summary totals of all programs, functions, or activities should be shown in the "total" column on the first page.
11a	Enter in "as of date," the month, day, and year of the ending of the accounting period to which this amount applies. Enter program outlays to date (net of refunds, rebates, and discounts), in the appropriate columns. For requests prepared on a cash basis, outlays are the sum of actual cash disbursements for goods and services, the amount of indirect expenses charged, the value of in-kind contributions applied, and the amount of cash advances and payments made to subcontractors and subrecipients. For requests prepared on an accrued expenditure basis, outlays are the sum of the actual cash disbursements, the amount of indirect expenses incurred, and the net increase (or decrease) in the amounts owed by the recipient for goods and other property received and for services performed by employees, contracts, subgrantees and other payees.
11b	Enter the cumulative cash income received to date, if requests are prepared on a cash basis. For requests prepared on an accrued expenditure basis, enter the cumulative income earned to date. Under either basis, enter only the amount applicable to program income that was required to be used for the project or program by the terms of the grant or other agreement.
11d	Only when making requests for advance payments, enter the total estimated amount of cash outlays that will be made during the period covered by the advance.
13	Complete the certification before submitting this request.

Public reporting burden for this collection of information is estimated to average 60 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0004), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

INSTRUCTIONS

Please type or print legibly. Items 1, 3, 5, 9, 10, 11e, 11f, 11g, 11i, 12 and 13 are self-explanatory; specific instructions for other items are as follows:

Item	*Entry*
2	Indicate whether request is prepared on cash or accrued expenditure basis. All requests for advances shall be prepared on a cash basis.
4	Enter the Federal grant number, or other identifying number assigned by the Federal sponsoring agency. If the advance or reimbursement is for more than one grant or other agreement, insert N/A; then, show the aggregate amounts. On a separate sheet, list each grant or agreement number and the Federal share of outlays made against the grant or agreement.
6	Enter the employer identification number assigned by the U.S. Internal Revenue Service, or the FICE (institution) code if requested by the Federal agency.
7	This space is reserved for an account number or other identifying number that may be assigned by the recipient.
8	Enter the month, day, and year for the beginning and ending of the period covered in this request. If the request is for an advance or for both an advance and reimbursement, show the period that the advance will cover. If the request is for reimbursement, show the period for which the reimbursement is requested.
Note:	The Federal sponsoring agencies have the option of requiring recipients to complete items 11 or 12, but not both. Item 12 should be used when only a minimum amount of information is needed to make an advance and outlay information contained in item 11 can be obtained in a timely manner from other reports.
11	The purpose of the vertical columns (a), (b), and (c) is to provide space for separate cost breakdowns when a project has been planned and budgeted by program, function, or activity. If additional columns are needed, use as many additional forms as needed and indicate page number in space provided in upper right; however, the summary totals of all programs, functions, or activities should be shown in the "Total" column on the first page.
11a	Enter in "as of date," the month, day, and year of the ending of the accounting period to which this amount applies. Enter program outlays to date (net of refunds, rebates, and discounts), in the appropriate columns. For requests prepared on a cash basis, outlays are the sum of actual cash disbursements for goods and services, the amount of indirect expenses charged, the value of in-kind contributions applied, and the amount of cash advances and payments made to subcontractors and subrecipients. For requests prepared on an accrued expenditure basis, outlays are the sum of the actual cash disbursements, the amount of indirect expenses incurred, and the net increase (or decrease) in the amounts owed by the recipient for goods and other property received and for services performed by employees, contracts, subgrantees and other payees.
11b	Enter the cumulative cash income received to date, if requests are prepared on a cash basis. For requests prepared on an accrued expenditure basis, enter the cumulative income earned to date. Under either basis, enter only the amount applicable to program income that was required to be used for the project or program by the terms of the grant or other agreement.
11d	Only when making requests for advance payments, enter the total estimated amount of cash outlays that will be made during the period covered by the advance.
13	Complete the certification before submitting this request.

On a separate sheet, list each grant or agreement number and the Federal share of outlays made against the grant or agreement.

6 Enter the employer identification number assigned by the U.S. Internal Revenue Service, or the FICE (institution) code if requested by the Federal agency.

7 This space is reserved for an account number or other identifying number that may be assigned by the recipient.

8 Enter the month, day, and year for the beginning and ending of the period covered in this request. If the request is for an advance or for both an advance and reimbursement, show the period that the advance will cover. If the request is for reimbursement, show the period for which the reimbursement is requested.

Note: The Federal sponsoring agencies have the option of requiring recipients to complete items 11 or 12, but not both. Item 12 should be used when only a minimum amount of information is needed to make an advance and outlay information contained in item 11 can be obtained in a timely manner from other reports.

11 The purpose of the vertical columns (a), (b), and (c) is to provide space for separate cost breakdowns when a project has been planned and budgeted by program, function, or activity. If additional columns are needed, use as many additional forms as needed and indicate page number in space provided in upper right; however, the summary totals of all programs, functions, or activities should be shown in the "Total" column on the first page.

11a Enter in "as of date," the month, day, and year of the ending of the accounting period to which this amount applies. Enter program outlays to date (net of refunds, rebates, and discounts) in the appropriate columns. For requests prepared on a cash basis, outlays are the sum of actual cash disbursements for goods and services, the amount of indirect expenses charged, the value of in-kind contributions applied, and the amount of cash advances and payments made to subcontractors and subrecipients. For requests prepared on an accrued expenditure basis, outlays are the sum of the actual cash disbursements, the amount of indirect expenses incurred, and the net increase (or decrease) in the amounts owed by the recipient for goods and other property received and for services performed by employees, contracts, subgrantees and other payees.

11b Enter the cumulative cash income received to date, if requests are prepared on a cash basis. For requests prepared on an accrued expenditure basis, enter the cumulative income earned to date. Under either basis, enter only the amount applicable to program income that was required to be used for the project or program by the terms of the grant or other agreement.

11d Only when making requests for advance payments, enter the total estimated amount of cash outlays that will be made during the period covered by the advance.

13 Complete the certification before submitting this request.

(301) 975-3176

5. PROJECT DESCRIPTION

All research shall be conducted in accordance with the Recipient's proposal dated 07/06/01 (Gate 1), and 08/06/01 (Gate 2), and all revisions/late documentation dated 08/21/01, 08/27/01, 09/06/01, 09/12/01, 09/14/01, and 08/--/01, including revised budget dated 09/--/01.

6. FUNDING LIMITATIONS

The scope of work and budget incorporated into this award cover a three-year period (referred to as the "project period") for a total amount of $2,000,000.00 in Federal funds. However, Federal funding available at this time is limited to $800,000.00 for the first year period from October 1, 2001 through September 30, 2002 (referred to as the "budget period"). The Grants Officer may require additional clarification to support the budget. If that results in changes to the budget or budget narrative, the Recipient shall submit, in writing, a revised budget and/or budget narrative to the Grants Officer for approval. Receipt of any funding beyond the first year up to the level projected under this award is contingent upon the availability of funds from Congress, satisfactory performance, and will be at the sole discretion of the National Institute of Standards and Technology (NIST). The Recipient may not obligate, incur any expenditure, nor engage in any activity that involves a commitment of Federal funds under this Agreement in excess of the Federal amount presently available. No legal liability exists or will result on the part of the Federal Government for payment of any portion of the remaining funds, which have not been made available under the award. If additional funds are not made available, any expenses incurred related to closeout activities must be funded from the amount already made available under this award. The notice of availability or non-availability of additional funding for the second and third year(s) will be made in writing by the Grants Officer. Only the Grants Officer is authorized to obligate funds. No other verbal or written notice should be relied upon by the Recipient. In the absence of a written notice of additional funding, no assumption should be made by the Recipient that the funds will be forthcoming.

AWARD PERIOD October 1, 2001 through September 30, 2004 (project period)*	TOTAL ESTIMATED COST $843,000.00 * 836,500

AUTHORITY
P.L. 100-418, Section 5131 (codified at 15 USC 278n) as modified by P.L. 102-245

CFDA NO. AND PROJECT TITLE 11.612, Advanced Technology Program (ATP), Proposal No. 00-00-4807
Project Title: Anatomic Computer Modeling for Precise and Accurate Therapies

This Award approved by the Grants Officer is issued in triplicate and constitutes an obligation of Federal funding. By signing the three documents, the Recipient agrees to comply with the Award provisions checked below and attached. Upon acceptance by the Recipient, two signed Award documents shall be returned to the Grants Officer and the third document shall be retained by the Recipient. If not signed and returned without modification by the Recipient within 30 days of receipt, the Grants Officer may unilaterally terminate this Award.

This space for agency use

Public reporting burden for this collection of information is estimated to average 60 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0004), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

INSTRUCTIONS

Please type or print legibly. Items 1, 3, 5, 9, 10, 11e, 11f, 11g, 11i, 12 and 13 are self-explanatory; specific instructions for other items are as follows:

Item	Entry
2	Indicate whether request is prepared on cash or accrued expenditure basis. All requests for advances shall be prepared on a cash basis.
4	Enter the Federal grant number, or other identifying number assigned by the Federal sponsoring agency. If the advance or reimbursement is for more than one grant or other agreement, insert N/A; then, show the aggregate amounts. On a separate sheet, list each grant or agreement number and the Federal share of outlays made against the grant or agreement.
6	Enter the employer identification number assigned by the U.S. Internal Revenue Service, or the FICE (institution) code if requested by the Federal agency.
7	This space is reserved for an account number or other identifying number that may be assigned by the recipient.
8	Enter the month, day, and year for the beginning and ending of the period covered in this request. If the request is for an advance or for both an advance and reimbursement, show the period that the advance will cover. If the request is for reimbursement, show the period for which the reimbursement is requested.
Note:	The Federal sponsoring agencies have the option of requiring recipients to complete items 11 or 12, but not both. Item 12 should be used when only a minimum amount of information is needed to make an advance and outlay information contained in item 11 can be obtained in a timely manner from other reports.
11	The purpose of the vertical columns (a), (b), and (c) is to provide space for separate cost breakdowns when a project has been planned and budgeted by program, function, or activity. If additional columns are needed, use as many additional forms as needed and indicate page number in space provided in upper right; however, the summary totals of all programs, functions, or activities should be shown in the "total" column on the first page.
11a	Enter in "as of date," the month, day, and year of the ending of the accounting period to which this amount applies. Enter program outlays to date (net of refunds, rebates, and discounts), in the appropriate columns. For requests prepared on a cash basis, outlays are the sum of actual cash disbursements for goods and services, the amount of indirect expenses charged, the value of in-kind contributions applied, and the amount of cash advances and payments made to subcontractors and subrecipients. For requests prepared on an accrued expenditure basis, outlays are the sum of the actual cash disbursements, the amount of indirect expenses incurred, and the net increase (or decrease) in the amounts owed by the recipient for goods and other property received and for services performed by employees, contracts, subgrantees and other payees.
11b	Enter the cumulative cash income received to date, if requests are prepared on a cash basis. For requests prepared on an accrued expenditure basis, enter the cumulative income earned to date. Under either basis, enter only the amount applicable to program income that was required to be used for the project or program by the terms of the grant or other agreement.
11d	Only when making requests for advance payments, enter the total estimated amount of cash outlays that will be made during the period covered by the advance.
13	Complete the certification before submitting this request.

Subject: CASI Milestone to Equipment information

ALL_INVENTORY.doc (2 MB)

EquipmentDetails.xls (524 KB)

milestone_inventory.doc (133 K...

Joan,

I am attaching several files for your review.

First file is a word document that justifies equipment purchases, connects them back to project milestones. I want to draw extra special attention to a few things here:

1) We have included a contribution from CASI to ATP of 41,800 in hardware owned by CASI and used for NIST-ATP project.
I am listing 3 SGI Indigo CASI workstations in this report. I believe during our physical inventory you counted 3 machines but I only gave you the supporting inventory list from 2 SGI Indigo machines and not all 3.
Also, Casi00?s inventory list detail is missing but was counted physically by you during audit. Casi00 is a raid server with a lot of disks in it (varies depending upon our usage). I can generate that list if required (take me an hour or so to install the software to do it). I am hopeful it?'s not needed because that machine?s value is in the disks attached to it.

Second file is excel spreadsheet which lists milestones, all our bills, bills summaries (Last two items were already given to you for review during physical inventory). Milestones are new information that will hopefully answer ATP questions.

Lastly, I am including a large appendix (over 500 pages) which has supporting inventory detail. This should also be familiar to you as I gave you a CD with the inventory details during physical inventory audit.

Doc K has reviewed this mail message and the accompanying files.

Thanks for your help!

Matthew Bart Rothman

Subject: Yahoo Messenger and Free phone calls

FYI Joan,

Doctor Karron asked me to setup yahoo messenger accounts for both you and frank.

I set up a yahoo messenger id for you called casi_hayes@yahoo.com Note, I can also setup a yahoo account for you without the casi prefix if you prefer, so that you can use the messenger account

for other clients & friends.

It's against general CASI policy to send passwords in clear text so I will leave the password on your voice mail tomorrow.

What is this good for you may ask?

1) You can send text messages back and forth to Doctor Karron , myself or Peter Ross instantly. The hip computer geek jargon for this is called IM (Instant messaging). You also have a little screen that tells you when we are logged in (online) and when we aren't. You can also have other clients & friends IM you and be able to see if they are available as well.

2) You can buy a $50 headphone/microphone combination for your computer and do voice chats (very similar to a phone call except the quality is a bit lower) with Doctor Karron, me or Peter Ross. Note, Voice chat only works well over a fast internet connection like cable broadband (Road Runner or Cablevision etc.) or DSL from the phone company.

It's also easy to do conference calls and conference text messaging.

If you would like to trial test the voice chat feature before buying a headset, feel free to try voice chat at CASI's office to see if you like it.

I can also spend a few minutes and walk through some of the features of yahoo messenger with you if you like.

Hi Joan,

I just spoke with Dr. Karron via yahoo messenger. Dr. Karron is currently in washington D.C.

I had some questions about your request which Doctor Karron asked that I confirm with you.

I apologize in advance if my lack of accounting background is slowing you down!

Anyhow here are my accounting questions!

- What is "prior" year? Is that 2001 or 2002 (calendar year?) or project year 1 or year 2 ?
- Do you want a paid invoice or an unpaid invoice?

And on the technical front...
- Doctor Karron reminded me that faxing loses a lot of detail like color.
- Is a pdf file okay? Black and White? Color?

Thank you!

Subject: RE: last copy of quick books

Lets chat/chew this up.
I would like to close up the burguney casi inc nist account;
I don't have up to date books to figure out how much money is needed to zero it out.
There may be other outstanding checks;
I have no idea at this point.
I need to see the account on quick books.
The copy I got from Ken on Friday is from 6/23.

There should be no checks written on the account if it is negative, why were checks written and no one Mentioned the account needed money ?

This note does not warrant a reply.

If you do not intend to maintain a proper accounting system, as you agreed to upon receipt of the grant, please let me know, and I will document your wishes accordingly.

Subject: Re: last copy of quick books

the problems is that I don't have current balances and the bookkeepers are not warning us of negative balances; they should have every check accounted for;
something i have not seen since i turned over business management to Bob.

God is in the details here.
I live or die by these numbers and I don't have good data to make good decisions on.

My partners are going to be all over bob now that we are starting to burn their real cash.

Subject: RE: last copy of quick books

The new ledgers for CASI and for NIST should fit on a disc and do not require a CD. The old ledgers should

06312

no longer be used. The new ledgers can easily be e-mailed, as the files are now small.

I do not understand the confusion between checking accounts. You should not be changing checking accounts without providing advance notice to The Jackson Group and without coordinating any changes with them. You must also coordinate any online payments, as this distorts the cash balance. It may be better to pay all bills by check to ensure proper approval and proper handling within the ledger system.

The ledger, not the bank on-line system, should be used for cash balances. Using the bank system disregards any checks that have been written and are not yet cashed, and should not be used for proper cash management.

These communications are a strong indication that procedures are not in place and that CASI management is not supporting the procedures that are being implemented.

Dear Ken, Frank and Bob;

The CD I picked up Ken is not current; it shows books as of 6/23.
I need current checking accounts with good balances.

I will put cash in the burgundy account tomorrow;
I may close the account and cause more checks to bounce.
I need to know what is going on with all of the accounts.

Subject: RE: TransitChek MetroCard Program FAQ

If the employer is giving TransitChek in addition to the employees' regular compensation – or as a reward or incentive – no payroll deduction arrangements are necessary; the employer fills out the Enrollment Form and distributes the Vouchers and/or MetroCards. The first order of TransitChek is sent within three weeks of receipt of payment.
TransitChek has few record-keeping requirements. There's no need for a bona-fide reimbursement arrangement, unlike other benefit programs. There are no expense receipts, reports, plan filings, or other detailed paperwork required. Only a record of TransitChek purchases is required.

Subject: TransitChek MetroCard Program FAQ

Dear Joan and Bob;

I called the TransitCheck MetroCard program office here in NYC; I am talking to their Benefits Advisors, who work with employers on compliance issues for their various Benefits Programs employers can purchase. I am asking them for the precise verbiage to put in our benefits package as it evolves. Here is an abstract from some documentation I am putting in the material I am working on with Avery and Ira.

http://www.transitcenter.com/benefits/tc_co/FAQ.htm

How does my company get started?
Employees decide how much they want deducted from their pre-tax salary every month. The employer arranges for the amount to be deducted, then uses the Enrollment Form to order the TransitChek options it wants to distribute – Vouchers, Cards, or both. If the employer is giving TransitChek in addition to the employees' regular compensation – or as a reward or incentive – no payroll deduction arrangements are necessary; the employer fills out the Enrollment Form and distributes the Vouchers and/or MetroCards. The first order of TransitChek is sent within three weeks of receipt of payment.

What are the maximum employees can deduct for Premium TransitChek?
For calendar year 2002, federal limit allows your employees to use up to $100 a month/$1,200 a year of their pre-tax salary to pay for their commutation expenses with TransitChek.

!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
What records need to be kept for the TransitChek program?
TransitChek has few record-keeping requirements. There's no need for a bona-fide reimbursement arrangement, unlike other benefit programs. There are no expense receipts, reports, plan filings, or other detailed paperwork required. Only a record of TransitChek purchases is required.
!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Is the pre-tax TransitChek program a section 125-cafeteria plan program that must be included in my section 125 plan?
No. TransitChek is authorized under Internal Revenue Code (IRC) section 132(f), as amended on June 9, 1998. Cafeteria plans are governed by IRC section 125, which specifically excludes IRC section 132 benefits. That means that TransitChek cannot be part of cafeteria plans and is not subject to the regulations governing cafeteria plans. Therefore, such rules as "use it or lose it" or limited annual enrollment are not required. Consult your tax advisor for specific details.

If TransitChek is given to employees as a fringe benefit, does everyone have to get the maximum?
No. Employers can decide whom to reward and how much to give. It can be used as an annual benefit, as a reward, an incentive, or a bonus. TransitChek can be distributed monthly, quarterly, or even once a year, as long as the amount provided for that period does not exceed $100 times the number of months in that period.

Is the TransitChek program exempt from state as well as federal taxes?
In most cases, the benefit is excluded from taxes. Pre-tax TransitChek is exempt from federal taxes, New York and Connecticut taxes. New Jersey does not exempt pre-tax transportation benefits from state taxes. However, it is exempt from New Jersey state taxes only if you give it free to your employees as a fringe benefit. Consult your tax advisor for details.

When can my company begin a pre-tax program?
You can start a TransitChek program at any time. The pre-tax TransitChek program is not subject to the requirements common to cafeteria plans that limit when an enrollment can be done.

Subject: Marian Karron/Dr. K's Mom

Dear Joan, Ken, Frank and Bob;

I am borrowing money to cover the current overdrafts from my mom (in addition to the money I am borrowing on my apartment). As my mom is a partner, and has a stake in the business (she has already given me 20K for her share in the company, and since I have to go to her to get cash, she will be calling to try to understand how with the bookkeepers and management I am turning the company over to we are coming up so short.

Please be polite, explain to her (and eventually to me) why we can't keep the checking account registered straight, that there is no missing money, no one is stealing and that I am in the process of repaying the government for overpayments and co-payments because we did not get co-investors.

She has been calling me insessently since I made the mistake of telling her that checks were bouncing and I needed to borrow more money from her. I am going out to visit her today, and it is the most I could do to keep her from calling all of you Sunday morhing; I am not answering my phone now.

Subject: RE: TransitChek MetroCard Program FAQ

Bob,

06330

I suggest you discuss this with ProPayroll. Since it is a payroll deduction, they will have worked out the logistics and can advise how employers handle the program efficiently.

Dan, Bob,
From a benefit package point of view – one sentence is needed.

From an administrative point of view – a log of transit checks, by number, must be maintained. Each check is recorded on the log when purchased (with date of purchase). Each check is recorded on the log when distributed to the employee upon receipt of their payroll deductions (with name of employee and date).

This benefit allows employees to pay for a certain portion of their transportation with pre-tax dollars. A portion of the cost, as determined by the employee up to the maximum, is taken out of each pay check. Each month, the applicable, paid-for transit check is given to the employee. The cost to the employer is the cost of administration of the program. The transit checks are not given to the employees for free.

Dear Joan and Bob;

I called the TransitCheck MetroCard program office here in NYC; I am talking to their Benefits Advisors, who work with employers on compliance issues for their various Benefits Programs employers can purchase. I am asking them for the precise verbiage to put in our benefits package as it evolves. Here is an abstract from some documentation I am putting in the material I am working on with Avery and Ira.

http://www.transitcenter.com/benefits/tc_co/FAQ.htm

How does my company get started?
Employees decide how much they want deducted from their pre-tax salary every month. The employer arranges for the amount to be deducted, then uses the Enrollment Form to order the TransitChek options it wants to distribute – Vouchers, Cards, or both. If the employer is giving TransitChek in addition to the employees' regular compensation – or as a reward or incentive – no payroll deduction arrangements are necessary; the employer fills out the Enrollment Form and distributes the Vouchers and/or MetroCards. The first order of TransitChek is sent within three weeks of receipt of payment.

What are the maximum employees can deduct for Premium TransitChek?
For calendar year 2002, federal limit allows your employees to use up to $100 a month/$1,200 a year of their pre-tax salary to pay for their commutation expenses with TransitChek.

!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
What records need to be kept for the TransitChek program?
TransitChek has few record-keeping requirements. There's no need for a bona-fide

reimbursement arrangement, unlike other benefit programs. There are no expense receipts, reports, plan filings, or other detailed paperwork required. Only a record of TransitChek purchases is required.
!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Is the pre-tax TransitChek program a section 125-cafeteria plan program that must be included in my section 125 plan?
No. TransitChek is authorized under Internal Revenue Code (IRC) section 132(f), as amended on June 9, 1998. Cafeteria plans are governed by IRC section 125, which specifically excludes IRC section 132 benefits. That means that TransitChek cannot be part of cafeteria plans and is not subject to the regulations governing cafeteria plans. Therefore, such rules as "use it or lose it" or limited annual enrollment are not required. Consult your tax advisor for specific details.

If TransitChek is given to employees as a fringe benefit, does everyone have to get the maximum?
No. Employers can decide whom to reward and how much to give. It can be used as an annual benefit, as a reward, an incentive, or a bonus. TransitChek can be distributed monthly, quarterly, or even once a year, as long as the amount provided for that period does not exceed $100 times the number of months in that period.

Is the TransitChek program exempt from state as well as federal taxes?
In most cases, the benefit is excluded from taxes. Pre-tax TransitChek is exempt from federal taxes, New York and Connecticut taxes. New Jersey does not exempt pre-tax transportation benefits from state taxes. However, it is exempt from New Jersey state taxes only if you give it free to your employees as a fringe benefit. Consult your tax advisor for details.

When can my company begin a pre-tax program?
You can start a TransitChek program at any time. The pre-tax TransitChek program is not subject to the requirements common to cafeteria plans that limit when an enrollment can be done.

Because I know what I did before Bob came on board and I can speak for policy prior to Bob.
Bob can edit it as he sees fit and Ira can edit is more. Avery can redact, suggest, or inform.

This has been in editorial stages for a long time.
It is actually never done; it is a work in progress.
It goes round and round and round evolving, hopefully getting better all the time from polishing.

Each bullet heading contains one thought on the matter, expressed as succinctly or prolix as required by the readers.
The goal is that each reader have the same concept for that heading as the others, and not to leave anything to the readers immagination.

Subject: RE: CASI Benefits Program dbk 4.doc

Why did you send such extensive wording when you had a more concise document from Bob? It would have been more efficient to amend Bob's draft. My recommendation is to: (1) talk with Ira, (2) select your benefits, (3) update Bob's draft, (4) send it to Avery, (5) discuss it with Avery, (6) execute a plan.

In order for any plan to be deemed "reasonable" under FARS cost principles, the sponsoring company must be able to afford the benefits and any costs related to the plan's compliance.

Thank you. I spoke with Ira. He is also reviewing possible solutions to your health benefits and will be able to discuss further next week. All of these solutions, and the related expenses, should be discussed and considered before a benefits plan is executed and before significant expenses are incurred to properly execute a benefits plan.

Needless to say, this does not alter the prior period findings regarding a benefit plan which was not only not written, it was not consistently followed nor predetermined. We have two separate issues here.

I will be happy to discuss further. If Bob is available, perhaps a telephone conference would be helpful. In the meantime, I will call Avery to answer his questions.

Please advise, did you send Avery the benefit plan template drafted by Bob or the much lengthier document that you sent to me?

I called the TransitCheck MetroCard program office here in NYC; I am talking to their Benefits Advisors, who

work with employers on compliance issues for their various Benefits Programs employers can purchase. I am asking them for the precise verbiage to put in our benefits package as it evolves. Here is an abstract from some documentation I am putting in the material I am working on with Avery and Ira.

http://www.transitcenter.com/benefits/tc_co/FAQ.htm

How does my company get started?
Employees decide how much they want deducted from their pre-tax salary every month. The employer arranges for the amount to be deducted, then uses the Enrollment Form to order the TransitChek options it wants to distribute – Vouchers, Cards, or both. If the employer is giving TransitChek in addition to the employees' regular compensation – or as a reward or incentive – no payroll deduction arrangements are necessary; the employer fills out the Enrollment Form and distributes the Vouchers and/or MetroCards. The first order of TransitChek is sent within three weeks of receipt of payment.

What are the maximum employees can deduct for Premium TransitChek?
For calendar year 2002, federal limit allows your employees to use up to $100 a month/$1,200 a year of their pre-tax salary to pay for their commutation expenses with TransitChek.

!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
What records need to be kept for the TransitChek program?
TransitChek has few record-keeping requirements. There's no need for a bona-fide reimbursement arrangement, unlike other benefit programs. There are no expense receipts, reports, plan filings, or other detailed paperwork required. Only a record of TransitChek purchases is required.
!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Is the pre-tax TransitChek program a section 125-cafeteria plan program that must be included in my section 125 plan?
No. TransitChek is authorized under Internal Revenue Code (IRC) section 132(f), as amended on June 9, 1998. Cafeteria plans are governed by IRC section 125, which specifically excludes IRC section 132 benefits. That means that TransitChek cannot be part of cafeteria plans and is not subject to the regulations governing cafeteria plans. Therefore, such rules as "use it or lose it" or limited annual enrollment are not required. Consult your tax advisor for specific details.

If TransitChek is given to employees as a fringe benefit, does everyone have to get the maximum?
No. Employers can decide whom to reward and how much to give. It can be used as an annual benefit, as a reward, an incentive, or a bonus. TransitChek can be distributed monthly, quarterly, or even once a year, as long as the amount provided for that period does not exceed $100 times the number of months in that period.

Is the TransitChek program exempt from state as well as federal taxes?
In most cases, the benefit is excluded from taxes. Pre-tax TransitChek is exempt from federal taxes, New York and Connecticut taxes. New Jersey does not exempt pre-tax transportation benefits from state taxes. However, it is exempt from New Jersey state taxes only if you give it free to your employees as a fringe benefit. Consult your tax advisor for details.

When can my company begin a pre-tax program?
You can start a TransitChek program at any time. The pre-tax TransitChek program is not subject to the requirements common to cafeteria plans that limit when an enrollment can be done.

Tax Compliance Caution Statement

The well-publicized mass transit fringe benefit now available to employers and employees under Internal Revenue Code Section 132(f) has given rise to new services that claim to satisfy the requirements to qualify for the benefit. Unfortunately, many of these services are based on cash reimbursement or debit card and credit card systems and do not actually qualify. Commuter Check Services Corp., as a pioneer in this field since 1990, offers the following guidance.

The key issues concern:

- the availability of cash reimbursement
- the substantiation requirements when cash reimbursement is used
- the availability of credit/debit cards

The purpose of the transit benefit is to increase use of mass transit. This is explicitly stated in the regulations and reflected in the entire legislative history of the transit benefit. Accordingly, the regulations pertaining to the benefit establish very strict procedures to insure that the tax benefit actually is provided only for transit use. The law makes it clear that whenever a transit pass (defined as a pass, token, fare card, voucher or similar item entitling a person to use transit) is readily available in an area, only a transit pass can be used to take advantage of the benefit. Under current law, the fact that employers may be charged a small administration fee in addition to the face value of vouchers does not keep the voucher from being treated as readily available, so long as the voucher program does not impose unreasonable advance purchase or quantity requirements or inappropriate limitations on the denominations of vouchers available. Commuter Checks fully meet the standards set forth in the regulations for being readily available.

Most major metropolitan areas in the country have voucher or pass programs which are readily available for direct distribution by the employer to the employee; thus only vouchers or passes can be used for the transit benefit in those areas. Debit cards and credit cards (unless they qualify as a voucher) and cash reimbursement cannot be used in these areas. Such areas include the metropolitan areas of Boston, MA, New York, NY, Buffalo, NY, Washington, DC, Philadelphia, PA, Wilmington, DE, Norfolk, VA, Columbus, OH, Cincinnati, OH, Chicago, IL, Minneapolis, MN, Louisville, KY, Providence, RI, Denver, CO, Los Angeles, CA, Sacramento, CA, San Francisco/Oakland, CA, San Diego, CA. and Seattle WA. In these areas, the transit benefit can only be obtained by the employer acquiring for its employees vouchers or transit media from a voucher provider.

To qualify as a voucher, the instrument must be exchangeable only for transit fare media. Accordingly, the instrument must be designed so that the value contained on it cannot be used for any other purpose. Thus, for a debit card or credit card to qualify as a voucher, it must preclude use of the value on the card for any purpose other than transit fares. Debit cards and credit cards offered for use which do not contain technology to prevent the card from being used for the purchase of other products in addition to transit media do not qualify as a voucher. In most cities this is not practical because most transit media is sold at multi-purpose retailers that do not have transit dedicated card readers.

Cash reimbursement can be used for the transit benefit only in areas where vouchers or pass programs are not readily available and, even in those limited circumstances, to qualify for the transit benefit, the program must include a bona fide reimbursement arrangement. The regulations state that the determination of whether an arrangement meets this standard depends on facts and circumstances that indicate whether or not the reimbursement is for a payment made to a mass transit system. Receipts and record keeping are generally required, and the following rules must be satisfied if the arrangement relies on employee certifications:

1. A certification by the employee alone without a receipt evidencing actual transit use can only be used if (i) a receipt is not provided in the ordinary course of business by the transit agency and (ii) the employer has no reason to doubt the employee's certification;

2. No payment can be made before the date the applicable expense was incurred; and

3. No payment can be made based on an employee certification of a transit expense the employee expects to incur at some future date.

It is clear that accurate record keeping ("substantiation") is required of all employers seeking to use cash reimbursement to take advantage of the transit tax benefit. In addition, the employer must take steps to avoid any inference that it had reason to believe that an employee certification substantiating the reimbursement is subject to doubt. Credit or debit card services with uses not limited to transit are effectively cash reimbursements subject to substantiation requirements. These requirements do not exist when employers obtain and distribute transit fare media or vouchers such as Commuter Checks.

Debit /credit cards or cash reimbursement programs that do not meet these requirements impose a risk on the employer and its employees that upon audit the claim of a qualified transit benefit program will be denied, exposing the employer and its employees to income and payroll tax charges including interest and penalties. Accordingly, we recommend that any employer being offered a cash reimbursement or debit card/credit card based program for the transit tax benefit obtain from the provider a representation that the program as used by that employer will insure the employer's qualification for the transit tax benefit. In addition, indemnification for any losses the employer or any of its employees may incur if the program does not qualify should also be obtained. In any event, we recommend that any employer interested in using a cash reimbursement or debit/credit card program for the transit benefit consult with the employer's accountant to make certain that such program qualifies for the benefit in accordance with the strict requirements of the Internal Revenue Code and its regulations.

Of course, these precautions do not need to be taken when the employer distributes transit fare media or qualified vouchers to its employees as its transit tax benefit program since such a program will not be subject to a risk of denial upon audit.

Tax Compliance Caution Statement

The well-publicized mass transit fringe benefit now available to employers and employees under Internal Revenue Code Section 132(f) has given rise to new services that claim to satisfy the requirements to qualify for the benefit. Unfortunately, many of these services are based on cash reimbursement or debit card and credit card systems and do not actually qualify. Commuter Check Services Corp., as a pioneer in this field since 1990, offers the following guidance.

The key issues concern:

- the availability of cash reimbursement
- the substantiation requirements when cash reimbursement is used

Thank you. I spoke with Ira. He is also reviewing possible solutions to your health benefits and will be able to discuss further next week. All of these solutions, and the related expenses, should be discussed and considered before a benefits plan is executed and before significant expenses are incurred to properly execute a benefits plan.

Needless to say, this does not alter the prior period findings regarding a benefit plan which was not only not written, it was not consistently followed nor predetermined. We have two separate issues here.

I will be happy to discuss further. If Bob is available, perhaps a telephone conference would be helpful. In the meantime, I will call Avery to answer his questions.

Please advise, did you send Avery the benefit plan template drafted by Bob or the much lengthier document that you sent to me?

It was 20 days a year that encompassed vacation time, sick days and personal leave time. They could use the time any way they wanted to. Jewish holidays catholic holidays, birthdays etc. They accumulated two days for every month the worked too a maximum of twenty and before new employees started to accumulate there was a 60 day wait.

8.2 Introduction and Intent of Plan

8.2.1.1 History

CASI is a Limited Liability Company (LLC) formed from the merger / absorption of its predecessor corporation Computer Aided Surgery Inc. Computer Aided Surgery, Inc, was formed from a loose association of surgeons and scientists derived from New York University Medical Center and New York University Medical School, as well as colleagues from St. Louis University Medical Center in 1995 with funding from DARPA. It has consisted mainly of university faculty and students, and was closely held by Dr. Karron and family. As the company grew, its ability to perform groundbreaking medical research depended on its faculty and employees.

As such, CASI has maintained a policy of paying for the health and well being of its senior employees far beyond legal minimum requirements. Employment at CASI has always featured full medical benefits for senior employees. Catastrophic Medical exposure has always been minim zed because most of the employees of CASI have traditionally maintained health insurance with their primary employer and coordination of benefits has kept benefits plan costs far below the normal rates for comparative companies. This is done by using a high deductible medical benefits insurance plan offered by Oxford Health Plans to cover all costs above the 1000 deductible (which covers catastrophic

06347

illness).

12 The intent of the plan is to encourage employees to become vested in the benefits package, and to enable our employee's to grow both professionally by paying for job and task related training at a high level as well as physical well being so important to the high stress levels of this kind of work.

13 Finally a new feature is planned for implementation to include retirement plans as well as the formalization of the pre-existing casi heath benefits plan being implemented this year 2003.

13.1 1 Personnel Definitions

14 These are the terms used throughout this document and define company policy in these employee classes.

14.1.1 Part Time Employee

15 A part time employee is an employee who works twenty (20) hours per week or less.

15.1.1 Full Time Employee

16 A part time employee is an employee who works strictly more than 20 hours per week.

16.1.1 Junior Employee

17 A Junior Employee is a full time employee who has worked less than 3 (Three) years for CASI

17.1.1 Senior Employee

18 A senior employee is a full time employee who has worked 2 years or more for CASI.

18.1.1 CASI Workday

The nominal CASI workday is from 9am through 5pm, Monday through Friday, exclusive of holidays and weekends.

18.1.2 CASI Workday Length

19 CASI workdays are 8 hours in length.

19.1.1 CASI Flextime

20 CASI has a flexible working schedule, employees are not required to report to work at a fixed time, nor are required to leave work at a fixed

time. However, in the weekly aggregate, full time employees are expected to work 20 or more hours on billable activities for recording.

CASI billable hours policy

Preface

CASI tracks employee time and pay through a system of timesheets that document employee work time and task billing.

21 Recovery of unbilled hours is possible by affidavit (???)

22 All employees of CASI work very hard and long hours. It is expected that employees work a minimum of their billable hours, but generally the long time practice is that employees work more than they bill for and record on their time sheets.

23 All time spent doing CASI work can be billed, but only the pre-allocated amount of hours may be billed on a project timesheet. This means that there are may be unbilled and unrecorded hours associated with each project.

24 Pending the revision of the semiautomatic project billing hour system, employees are to bill only the time for paying projects, and are not required to bill for hours spent not spent on specific paid projects.

Payment is mainly, through not exclusive through these documents and tracking facilities.

2. Vacations

24.1 Part Time (PT) employees will not be eligible for paid vacation days.

24.2 Full Time (FT) employees will receive paid vacation coverage on the following schedule. (CHECK WITH IRA)

CASI Vacation Policy

The number of days eligible for vacation depends on the years of CASI Employment according to the following schedule:

Earned Vacation Days

24.3 1

24.4 10

24.5 15

25 > 8 20

Advanced Scheduling of Vacations Required

25.1 Employees are required to inform management of their

06349

vacation plans at least two weeks prior to the actual taking of vacation..

25.2 Unless there is a pressing business need employees may schedule their vacation at their discretion with management approval.

25.3 All vacation days not taken in the calendar year earned will be forfeit.

Vacation days may not be carried forward.

CASI Sabbatical Policy

Put this in

3. CASI Holidays

NEEDS TO BE FIXED to correspond to practice.

26 CASI employees will receive 12 paid Holidays per calendar year.

27

27.1 The following National Holidays are fixed.

27.2 New Years Day

27.3 Presidents Day

27.4 Memorial Day

27.5 4th of July

27.6 Labor Day

27.7 Thanksgiving Day

27.8 Christmas Day

28 Personal holiday preferences.

29 In addition, CASI employees will be allowed to take 5 additional optional days to allow for personal Holiday preferences.

4. Sick Days

Junior employees are can take up to 5 sick days per year.

30 However after five consecutive days of absence an employee must contact a physician for a medical release to return to work.

31 Senior Employees may take up to 10 sick days, however all days in excess of 5 days are counted against accrued vacation days.

Payment for Sick Days

32 CASI employees will be paid for sick days.

Dismissal for excessive Sick Days

Excessive (>5) sick days without medical support are ground for dismissal.

Severance Policy

Termination by conveyance

CASI may terminate employees at any time, at will, at its connivance.

CASI will attempt to give 30 days notice for termination.

In the situation where termination notice is not given, employees will receive two weeks severance payments commencing 4 weeks after termination and return of all CASI property, books, paper, computer materials, and resign non-disclosure and secrecy agreements.

Termination for cause

CASI employees who are terminated for cause

Causes of termination include, but are not limited to:

Malfeasance,
Incompetence,
Excessive non sick absence,
Failure perform job functions, poor job performance (fines, penalties, or other problem costs associated with poor job performance)
Other job related problems.

Termination Procedure

Termination will be by verbal notification followed by certified letter and e-mail.
Terminated for cause employees will not receive any severance benefit and forfeit their vacation days and medical benefits.
Termination notification will explain in full detail the reasons for the termination and the employee's options to appeal, and COBRA options).
They will not be eligible for unemployment, and employees who file for unemployment will be challenged by CASI shall they receive unemployment funding.

New Hire and Probation Policy

New Hires must pass through a probation period, in which they are being evaluated for full time employment.
Some employee's may be initially engaged as independent contractors, and their fitness and suitability for a particular position evaluated by seeing how they handle the various difficult tasks assigned to them They are contractors because CASI does not dictate precisely how the task will be accomplished, but CASI will evaluate the suitability of a potential employee based on how they approach a problem.

Probation Period

The current CASI probation period is 30 days from the first day of the first full calendar month worked.
For example new Hires that occur midmonth conclude their probation on the last day of the following month.

Probation terms

During the probation period an employee may be terminated without prior notice.

Probation evaluation

At the conclusion of the probation period, Management will make an oral report to the employee of its findings on the suitability of the employee. This report can be written if requested by either party.

Probation Evaluation Criteria

Technical Ability to accomplish tasks assigned.

Willingness to work harmoniously with others
Ability to focus on assignments
Ability to meet deadlines.
Creativity
Ability to balance conflicting priority
Makes a good appearance to customers and clients

CASI Medical Coverage

CASI, as a medical research firm, maintains a comprehensive employee health program, consisting mainly, but not exclusively, Oxford Health Plans as main insurer, First Rehabilitation as Disability Insurance carrier, and Princeton Insurance for Workman's Compensation. CASI full time employment AND Stock/Partnership is required for full participation in the CASI health plan. Part time Employees are not eligible. Non-Vested, non ownership employees are not eligible. Employees on track for being vested (partnership) after passing their 30 day probation, and earning time toward their 3 years of continuous employment are eligible.

CASI Medical Coverage Definitions

Partial Medical Benefits

Limited to Oxford Health Plan Benefits with the deductible not being reimbursed by CASI. No Dental Benefits, no Optical Benefits.
Fitness Reimbursement
Childcare Cost Reimbursement

Full Medical Benefits

Oxford Health Plans benefit
Dental Benefit
Optical Benefit
Outpatient Visits
Pharmacy Benefit
Fitness Benefit

Transportation to and from any approved Medical Benefit, including Taxi, Ambulance (not otherwise covered by Oxford), Airfare, associated meals and incidental costs on the day of visit.

Emergency Medical Benefits

All employees, regardless of status, appearing at work with any sufficiently serious medical problem, will be escorted to the hospital and / or medical facility for immediate treatment.

Payment for emergency treatment will be limited to 500 $ and must be made through approved CASI medical practitioners.

Examples of Emergency Medical Benefits are:

Dental Emergencies requiring extraction, lancing, or re-insertion of avulsed teeth.

Heart Attack and Resuscitation.

Trauma producing syncope, broken bones, excessive exsanguinations

Fitness Benefit

Gym Attendance at an approved Gym

Approved Medical / Dental / Optical Pharmacy Providers

CASI approved vendors are the vendors selected for services in these specialties by the CASI directories. Recommendation of a provider makes them selected.

An approved provider is a provider who has established a relationship with CASI in the past as vendors or as research collaborators. The CASI management must approve new providers.

Medical

New York University Medical Center
Davies Medical Center
St. Louis Medical Center
Columbia Presbyterian Medical Center

Specialists

Dr. Allan Grayson
Dr. Gail Schupak (orthodontic)
Others as approved.

Optical

Kips Bay Optical
Others as approved.

Pharmacy

Corner Pharmacy

Fitness

New York Sports Club
Crunch Sports Clubs

Medical Insurance Probation Period

Employee medical coverage does not begin until 30 days from their first billable service day.
Medical Probation subordinates to the Oxford Health Plans, or the current health insurance carrier in effect probation policy, such that etc. etc.

5. Medical Coverage

33 FT, CASI employees are covered by a company-paid Oxford Health Care Plan.

34 A company-paid Oxford Health Care Plan subject to the plan rules and policies covers all Full Time CASI employees.

35 Coverage commences at the conclusion of the Probationary, as specified by the Oxford Health Plan Benefits Manual. Further this benefits manual is modified, limited or extended by the CASI Oxford plan description and contract.

36 A copy of the Oxford Health Plan manual is available on request to the CASI Benefits Coordinator.

37 The CASI Managing Partner shall name the CASI Benefits Administrator.

38 The duties and obligations of the CASI benefits administrator mainly consist of interfacing with Oxford Health Plans in matters of Partnership and Employee benefits and communicating changes in Oxford Policy and Law.

39 The CASI Business Manager will serve as Benefits Administrator.

40 As an additional benefit CASI will reimburse all FT employees for their legitimate medical and ancillary costs not covered by the Oxford Health Care Plan.

41 Legitimate medical and ancillary cost are as defined by the IRS guidelines and rules.

42 Legitimate medical and ancillary costs include Oxford Health plan doctor co-payments and drug plan co-payments.

43 CASI has a preferred vendor for all Oxford drug plan purchases. Eligible employees are advised to use their Oxford Health Plan identification card to obtain their prescription supplies.

44 The CASI preferred Oxford Health Plan Prescription Drug Benefit is: **The Corner Pharmacy**, located at the corner of 31st Street and Third Avenue.

45 The CASI preferred Oxford Health Plan prescription vendor would directly invoice CASI on a monthly basis for the Oxford co-payments instead of the eligible employee paying. The intent of this is to minimize out of pocket cash and to reduce plan costs by obtaining generic equivalent drugs wherever possible with the patient and physician consent.

46 In addition, CASI will reimburse all FT employees for their co-pays, not covered by the Oxford Health Care Plan, with submission of their co-pay receipts.

Surgical Coverage

Dental Coverage

Optical Coverage

Mental Health Coverage

Pharmacy Coverage

Fitness Coverage

6. Traisit-Chek Metro Cards Benefit

47 CASI will purchase New York City (NYC) Metro Cards for employee use in traversing NYC.

48 CASI will control the use of these cards by following all, City, State and Federal requirements related to the use of NYC Metro Cards.

Unlimited Ride MetroCard
Terms and Conditions

49 **Where Accepted**
50 MTA New York City Transit subways and local buses
MTA Long Island Bus
MTA Staten Island Railway
Most NYC private bus lines
Only 7-Day Express Bus Plus accepted on express buses

51 **Restriction**
52 Cannot be used again at the same subway station or the same bus route for 18 minutes. The acceptance or solicitation of compensation for use of an Unlimited Ride MetroCard by other than authorized agents of MTA New York City Transit is prohibited.

53 Use of Regular MetroCard is subject to MTA New York City Transit tariff.

7. Job related training and Education

Justification

Advanced Research Requirements

54 CASI will pay for employee education when warranted for Company benefit and when pre-approved by CASI Management.

55 Employees will pay for the approved education out-of-pocket and will be reimbursed by earning a Grade of C or better. A report from the educational institution of such an earned grade must accompany the request for reimbursement.

Parking Benefit

Justification

Parking is a major problem in midtown Manhattan. Many CASI employee's hold primary jobs at nearby universities and must split their time during the day across the metropolitan area. As an inducement to get professionals to come and stay, and to reduce the wasted time of visitors, employees and professional staff searching for parking, CASI has had a practice of paying for on street parking using the NYC Muni Meter program. This program enables CASI to pre-pay for blocks of parking time that can be used only by the insertion of a MuniMeter card, much the same way as the MetroCards can be used for subway and bus fare.
Parking at private and more expensive garages must be approved in advance.

Muni Meter Program

Description of NYC Parking Program.
Street Parking Agents will feed the meter on your card.

Muhammad Islam

Parking Tickets

Many companies in the metropolitan area view parking tickets incurred during the execution of business functions as a routine cost of doing business. Parking tickets obtained by failure to feed the MuniMeter are not reimbursable by CASI unless submitted with a justification statement.

06358

Childcare Benefit

Casi will pay bona fide child care costs where the an employee is otherwise unable to work unless a child under 10 requires day care or transportation to and from a day care facility, to the extent provided by IRS section XXX.

Late Night Ride Home Benefit

56

57 CASI will pay for reasonable and actual employee travel when commuting from work to home after 9:00 PM. The purpose of this is to protect and keep safe employees traveling late at night.

Late Night Meals Benefit

CASI employees working later than 8PM may have meals paid for.

NO OVERTIME PAYMENT BENEFIT

Late Hours/Overtime TIME NOT BEING LOGGED

Other Benefits

EXPLANATION AND INSTRUCTIONS

A penalty is being assessed under section 685(v)(1) of the New York State Tax Law because, according to our records, you have not filed a complete Quarterly Combined Withholding, Wage Reporting and Unemployment Insurance Return(s), form NYS-45. Refer to the DELINQUENT RETURN/REPORT SECTION of this notice for the tax period affected and the return(s) due.

THE RETURN(S) MUST BE FILED EVEN IF THERE IS NO TAX DUE FOR THE TAX PERIOD.

IF YOU HAVE NOT FILED THE REQUIRED RETURN(S) BUT DO SO WITHIN 30 DAYS FROM THE DATE OF THIS NOTICE, BY 08/06/03, THIS PENALTY MAY BE ABATED OR ADJUSTED. If you file the return(s) more than 30 days from the date of this notice, you may be subject to a higher penalty amount, which can increase the later the return(s) is filed.

NOTE: FILING OF THE REQUIRED INFORMATION DOES NOT PRECLUDE THE STATE FROM ISSUING ADDITIONAL BILLING NOTICES AS THE RESULT OF A REVIEW OF YOUR TAX RECORDS.

If you do not have the required return(s), call 1 800 972-1233 for forms and instructions. From areas outside the U.S. and outside Canada, call (518) 485-6800. Mail completed return(s) to:

NYS EMPLOYMENT TAXES
CHURCH STREET STATION
P O BOX 1417
NEW YORK NY 10008-1417

If you do not need returns, but have questions about this notice, please call 1 888 899-8810. When calling, please refer to the Employer Registration number on this notice.

To pay this penalty, complete the Payment Application Section on the enclosed Payment Document and mail with your remittance. Interest will be assessed unless the penalty is abated or you pay the total amount due within 21 days from the date of this notice, by 07/28/03. If you also wish to protest this assessment, refer to the protest instructions on the back of this page.

Although you may pay the penalty amount assessed in this notice, payment of this amount DOES NOT constitute filing the required return(s) due. Unless the return(s) is filed, the Department of Labor

(CONTINUED ON BACK)

06363

EXPLANATION AND INSTRUCTIONS (continued)

will estimate wages and amounts due, which may adversely affect your future tax rate calculations. In addition, the Department of Taxation and Finance has an unlimited period of time in which to further assess taxes, (and interest and/or penalties) that may be due.

If you HAVE ALREADY FILED or believe you are NOT REQUIRED TO FILE the return(s) due, or you DISAGREE WITH THIS ASSESSMENT and wish to protest, you must complete the enclosed PROTEST DOCUMENT and mail it to:

NYS DEPARTMENT OF LABOR
P O BOX 1939
ALBANY NY 12201-1939

PROTEST OF THIS PENALTY ALLOWS THE DEPARTMENT OF TAXATION AND FINANCE TO DISCLOSE WITHHOLDING TAX INFORMATION TO THE DEPARTMENT OF LABOR.

TO PRESERVE YOUR RIGHT TO FURTHER REVIEW, YOU MUST REPLY WITHIN 90 DAYS FROM THE DATE OF THIS NOTICE (150 DAYS IF THIS NOTICE HAS BEEN MAILED OUTSIDE OF THE U.S.). Refer to the enclosed Notice of Taxpayer Rights for a detailed explanation of the options available to you.

DELINQUENT RETURN/REPORT SECTION

TAX PERIOD ENDED DATE: 03/31/03 ORIGINAL FILING DUE DATE: 04/30/03

Section 685(v)(1) penalty is imposed for failure to file the Quarterly Combined Withholding, Wage Reporting and Unemployment Insurance Return. The penalty is the greater of $1,000 or $50 times the number of employees as determined by information on our files, up to a maximum of $10,000.

You have not filed Part B and Part C of the Quarterly Combined Withholding, Wage Reporting and Unemployment Insurance Return, Form NYS-45.

In order to file correctly, YOU MUST:

- Complete Part B and Part C of the Quarterly Combined Withholding, Wage Reporting and Unemployment Insurance Return, NYS-45 and submit payment for the Total WT amount due shown on the return to avoid further accrual of interest. The return MUST be filed even if there is no tax due, or you are unable to pay the amount due at this time.
- If you have more than five employees, make no entries in Part C. All employees must be reported on Form NYS-45-ATT.
- If you would like to set up an installment payment agreement, call 1 800 570-4372 (From areas outside the U.S. and outside Canada, call (518) 485-6800).

The minimum penalty amount of $1,000.00 has been imposed.

NOTICE OF TAXPAYER RIGHTS

The NYS Tax Law provides that the NYS Department of Labor is responsible for resolving protests concerning failure to file penalty assessments.

If you disagree with the penalty assessment, you have three options (listed below) and certain rights with regard to the enclosed notice. You must reply within 90 days from the date of the enclosed notice to preserve your right to further review.

Whether you agree or disagree with the assessment, interest and/or penalties will continue to accrue unless you file the return **and**

- the penalty is abated,
  or
- you make full payment within the time period indicated on the enclosed notice.

1. Pay the total amount due and request a review by the NYS Department of Labor

Most differences can be resolved with this review, avoiding costly and time consuming hearings or appeals.

- Complete the enclosed *Payment Document* and submit with your remittance. Also complete the enclosed *Protest Document*. To ensure timely receipt of your protest, return each document to the address indicated on that document. Please do not send these documents together.

The information that you furnish will be reviewed provided you file your written explanation within the required 90 day period. You will be notified of the findings.

- If there is agreement with your position, you will be issued a refund for the amount of the penalty plus any applicable interest. However, if you have any other outstanding liabilities the refund may be applied to the amount(s) due.

- If there is disagreement with your position, you will be advised of your right to request a hearing with the NYS Department of Labor. The hearing will be conducted by an impartial Administrative Law Judge.*

You also have the right to file a formal claim for a refund. To obtain a claim form and inquire about the time period for filing a claim for a refund, call 1 800 462-8100. Refund claim forms will be considered a protest and will be reviewed by the NYS Department of Labor as described above. If you pay and complete a *Protest Document* within 90 days from the date of the enclosed notice, it is not necessary to also complete a formal refund claim form.

2. Make no payment now and request a review by the NYS Department of Labor

You are not required to pay the total amount due to obtain a departmental review of the enclosed notice. However, interest will continue to accrue on any unpaid amounts.

- Complete the enclosed *Protest Document* and return it to the address indicated on the document.

The information that you furnish will be reviewed provided you file your written explanation within the required 90 day period. You will be notified of the findings.

- If there is agreement with your position, the amount due will be adjusted or canceled.

- If there is disagreement with your position, you will be notified of the amount remaining due and be advised of your right to request a hearing with the NYS Department of Labor. The hearing will be conducted by an impartial Administrative Law Judge.*

3. Request a hearing with the NYS Department of Labor (with or without payment)

You are not required to pay the total amount due (although you may pay if you wish) to obtain a hearing with the NYS Department of Labor. However, interest will continue to accrue on any unpaid amounts. Your written request for a hearing must be submitted within 90 days from the date of the enclosed notice. Send your written request for a hearing and the basis for which you are requesting the hearing to:

NYS Department of Labor
Liability and Determination Section
State Office Building Campus
Albany, NY 12240

*A hearing by the NYS Department of Labor is an adversarial proceeding before an impartial Administrative Law Judge. It may involve submission of briefs and the use of lawyers, accountants, or other representatives. Decisions rendered are subject to appeal by all parties.

Call the Liability and Determination Section of the NYS Department of Labor at (518) 457-5807 if you have any questions regarding the hearing process.

Important telephone numbers

For information, call toll free 1 888 899-8810. To obtain forms, call toll free 1 800 462-8100. From areas outside the U.S. and outside Canada, call (518) 485-6800.

Subject: RE: last copy of quick books

The new ledgers for CASI and for NIST should fit on a disc and do not require a CD. The old ledgers should no longer be used. The new ledgers can easily be e-mailed, as the files are now small.

I do not understand the confusion between checking accounts. You should not be changing checking accounts without providing advance notice to The Jackson Group and without coordinating any changes with them. You must also coordinate any online payments, as this distorts the cash balance. It may be better to pay all bills by check to ensure proper approval and proper handling within the ledger system.

The ledger, not the bank on-line system, should be used for cash balances. Using the bank system disregards any checks that have been written and are not yet cashed, and should not be used for proper cash management.

These communications are a strong indication that procedures are not in place and that CASI management is not supporting the procedures that are being implemented.

Dear Ken, Frank and Bob;

The CD I picked up Ken is not current; it shows books as of 6/23.
I need current checking accounts with good balances.

I will put cash in the burgundy account tomorrow;
I may close the account and cause more checks to bounce.
I need to know what is going on with all of the accounts.

will be back in nyc tonight and i can compose a considered and considerate description of my problem and angst.

Basically, i wish i could look up the balance and know how much needs to go into the burgundy account to close the account.

The new ledgers for CASI and for NIST should fit on a disc and do not require a CD. The old ledgers should no longer be used. The new ledgers can easily be e-mailed, as the files are now small.

I do not understand the confusion between checking accounts. You should not be changing checking accounts without providing advance notice to The Jackson Group and without coordinating any changes with them. You must also coordinate any online payments, as this distorts the cash balance. It may be better to pay all bills by check to ensure proper approval and proper handling within the ledger system.

The ledger, not the bank on-line system, should be used for cash balances. Using the bank system disregards any checks that have been written and are not yet cashed, and should not be used for proper cash management.

These communications are a strong indication that procedures are not in place and that CASI management is not supporting the procedures that are being implemented.

Dear Ken, Frank and Bob;

The CD I picked up Ken is not current; it shows books as of 6/23.
I need current checking accounts with good balances.

I will put cash in the burgundy account tomorrow;
I may close the account and cause more checks to bounce.
I need to know what is going on with all of the accounts.

the problems is that I don't have current balances and the bookkeepers are not warning us of negative balances; they should have every check accounted for;
something i have not seen since i turned over business management to Bob.

God is in the details here.
I live or die by these numbers and I don't have good data to make good decisions on.

My partners are going to be all over bob now that we are starting to burn their real cash.

To: 'Joan M. Hayes'
Subject: RE: TransitChek MetroCard Program FAQ

If the employer is giving TransitChek in addition to the employees' regular compensation – or as a reward or incentive – no payroll deduction arrangements are necessary; the employer fills out the Enrollment Form and distributes the Vouchers and/or MetroCards. The first order of TransitChek is sent within three weeks of receipt of payment.
TransitChek has few record-keeping requirements. There's no need for a bona-fide reimbursement arrangement, unlike other benefit programs. There are no expense receipts, reports, plan filings, or other detailed paperwork required. Only a record of TransitChek purchases is required.

Subject: RE: TransitChek MetroCard Program FAQ

We don't subscribe to the TransitChek Voucher Program.
We subscribe to the TransitChek MetroCard program;

06378

We don't get checks or vouchers; we get actual MetroCards, effectively the same as you can get from a subway booth, only we pre-pay them from TransitCheck specifically for the assurances that they give
That the cards can only be used for the purposes intended. The rate that we have consumed TransitCheck MetroCards is clearly below the maximum permitted by law.
We don't need to keep records of dispersal within the company.
That is the beauty of the system; we have the records of delivery of the cards and the serial numbers;
We have purchased two kinds of cards: multiple use cards and unlimited use cards.
The main beneficiary of the unlimited cards was Nicky; I still have a stack of cards we can't use precisely because they are unlimited and no one here makes such heavy use of the subway that they Would want to use the card.

Subject: RE: TransitChek MetroCard Program FAQ

Bob,
I suggest you discuss this with ProPayroll. Since it is a payroll deduction, they will have worked out the logistics and can advise how employers handle the program efficiently.

Dan, Bob,
From a benefit package point of view – one sentence is needed.

From an administrative point of view – a log of transit checks, by number, must be maintained. Each check is recorded on the log when purchased (with date of purchase). Each check is recorded on the log when distributed to the employee upon receipt of their payroll deductions (with name of employee and date).

This benefit allows employees to pay for a certain portion of their transportation with pre-tax dollars. A portion of the cost, as determined by the employee up to the maximum, is taken out of each pay check. Each month, the applicable, paid-for transit check is given to the employee. The cost to the employer is the cost of administration of the program. The transit checks are not given to the employees for free.

Subject: TransitChek MetroCard Program FAQ

Dear Joan and Bob;

I called the TransitCheck MetroCard program office here in NYC; I am talking to their Benefits Advisors, who work with employers on compliance issues for their various Benefits Programs employers can purchase. I am asking them for the precise verbiage to put in our benefits package as it evolves. Here is an abstract from some documentation I am putting in the material I am working on with Avery and Ira.

http://www.transitcenter.com/benefits/tc_co/FAQ.htm

How does my company get started?
Employees decide how much they want deducted from their pre-tax salary every month. The employer arranges for the amount to be deducted, then uses the Enrollment Form to order the TransitChek options it wants to distribute – Vouchers, Cards, or both. If the employer is giving TransitChek in addition to the employees' regular compensation -- or as a reward or incentive – no payroll deduction arrangements are necessary; the employer fills out the Enrollment Form and distributes the Vouchers and/or MetroCards. The first order of TransitChek is sent within three weeks of receipt of payment.

What are the maximum employees can deduct for Premium TransitChek?
For calendar year 2002, federal limit allows your employees to use up to $100 a month/$1,200 a year of their pre-tax salary to pay for their commutation expenses with TransitChek.

!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
What records need to be kept for the TransitChek program?
TransitChek has few record-keeping requirements. There's no need for a bona-fide reimbursement arrangement, unlike other benefit programs. There are no expense receipts, reports, plan filings, or other detailed paperwork required. Only a record of TransitChek purchases is required.
!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Is the pre-tax TransitChek program a section 125-cafeteria plan program that must be included in my section 125 plan?
No. TransitChek is authorized under Internal Revenue Code (IRC) section 132(f), as amended on June 9, 1998. Cafeteria plans are governed by IRC section 125, which specifically excludes IRC section 132 benefits. That means that TransitChek cannot be part of cafeteria plans and is not subject to the regulations governing cafeteria plans. Therefore, such rules as "use it or lose it" or limited annual enrollment are not required. Consult your tax advisor for specific details.

If TransitChek is given to employees as a fringe benefit, does everyone have to get the maximum?
No. Employers can decide whom to reward and how much to give. It can be used as an annual benefit, as a reward, an incentive, or a bonus. TransitChek can be distributed monthly, quarterly, or even once a year, as long as the amount provided for that period does not exceed $100 times the number of months in that period.

Is the TransitChek program exempt from state as well as federal taxes?
In most cases, the benefit is excluded from taxes. Pre-tax TransitChek is exempt from federal taxes, New York and Connecticut taxes. New Jersey does not exempt pre-tax transportation benefits from state taxes. However, it is exempt from New Jersey state taxes only if you give it free to your employees as a fringe benefit. Consult your tax advisor for details.

When can my company begin a pre-tax program?

06380

You can start a TransitChek program at any time. The pre-tax TransitChek program is not subject to the requirements common to cafeteria plans that limit when an enrollment can be done.

This space for agency use

Public reporting burden for this collection of information is estimated to average 60 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0004), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

INSTRUCTIONS

Please type or print legibly. Items 1, 3, 5, 9, 10, 11e, 11f, 11g, 11i, 12 and 13 are self-explanatory; specific instructions for other items are as follows:

Item	Entry
2	Indicate whether request is prepared on cash or accrued expenditure basis. All requests for advances shall be prepared on a cash basis.
4	Enter the Federal grant number, or other identifying number assigned by the Federal sponsoring agency. If the advance or reimbursement is for more than one grant or other agreement, insert N/A; then, show the aggregate amounts. On a separate sheet, list each grant or agreement number and the Federal share of outlays made against the grant or agreement.
6	Enter the employer identification number assigned by the U.S. Internal Revenue Service, or the FICE (institution) code if requested by the Federal agency.
7	This space is reserved for an account number or other identifying number that may be assigned by the recipient.
8	Enter the month, day, and year for the beginning and ending of the period covered in this request. If the request is for an advance or for both an advance and reimbursement, show the period that the advance will cover. If the request is for reimbursement, show the period for which the reimbursement is requested.
Note:	The Federal sponsoring agencies have the option of requiring recipients to complete items 11 or 12, but not both. Item 12 should be used when only a minimum amount of information is needed to make an advance and outlay information contained in item 11 can be obtained in a timely manner from other reports.
11	The purpose of the vertical columns (a), (b), and (c) is to provide space for separate cost breakdowns when a project has been planned and budgeted by program, function, or activity. If additional columns are needed, use as many additional forms as needed and indicate page number in space provided in upper right; however, the summary totals of all programs, functions, or activities should be shown in the "total" column on the first page.
11a	Enter in "as of date," the month, day, and year of the ending of the accounting period to which this amount applies. Enter program outlays to date (net of refunds, rebates, and discounts), in the appropriate columns. For requests prepared on a cash basis, outlays are the sum of actual cash disbursements for goods and services, the amount of indirect expenses charged, the value of in-kind contributions applied, and the amount of cash advances and payments made to subcontractors and subrecipients. For requests prepared on an accrued expenditure basis, outlays are the sum of the actual cash disbursements, the amount of indirect expenses incurred, and the net increase (or decrease) in the amounts owed by the recipient for goods and other property received and for services performed by employees, contracts, subgrantees and other payees.
11b	Enter the cumulative cash income received to date, if requests are prepared on a cash basis. For requests prepared on an accrued expenditure basis, enter the cumulative income earned to date. Under either basis, enter only the amount applicable to program income that was required to be used for the project or program by the terms of the grant or other agreement.
11d	Only when making requests for advance payments, enter the total estimated amount of cash outlays that will be made during the period covered by the advance.
13	Complete the certification before submitting this request.

STANDARD FORM 270 (Rev. 7-97) BacF

Joan M. Hayes, CPA

From: dr d b karron [karron@casi.net]
Sent: Monday, November 24, 2003 2:14 AM
To: 'Joan M. Hayes'
Cc: 'Bob Benedict'
Subject: RE:

Dear Joan;

We do not have 12 approved (by myself) invoices from ATG;
They rendered a number of bills we did not honor, they were more like reminders;
We only honored the invoice I sent you invoice and I choose to pay them 1K/month against that invoice.

ATG provided telephone and written support (e-mail) mostly to Lee Gurfein, who abundantly availed himself to their services. ATG and Axiom provided the same services, mainly guidance to Gurfein and Myself on specific matters of ATP rules and practices. Mostly practices. The main consulting vehicle was extended telephone and e-mail support. I have the telephone bills and e-mail to back up the delivery of services.

I found their services not worth the cost and terminated them with Gurfein's termination. I also engaged Axiom and Bob Benedict, who, as you know, later joined CASI directly. Axiom also invoiced 2400$, of which we only paid 400$ of which.

Should these vendors actively try to collect on their open balances, and ATP specifically agrees to pay, in writing, I will honor the balance of these invoices.

As you know we have had problems with vendors over-invoicing, and myself overpaying (yourself included).

When I told ATG I would only pay them 1K/month, they started sending 1K invoices, but I did not post these as we already had posted their invoice and each 1K/ invoice did not mean that we owed them an additional 1K.

Similarly, we get invoices from Homefront hardware, but these are not really invoices, we do not calculate the dates for CASI payables from the charge tickets, but from their monthly invoice statement.

Similarly, we do not calculate payable dates from the date on AMEX ticket, but from the American Express statement.

I trust that the matter of Ferrand is settled. She did not render invoices. Ferrand did scanning and misc program support as well as cleaning. When she did leave notes, they were frequently wrong and overstated. I had to figure that when she was here and which days she did program work and which days she did cleaning. Cleaning was paid by my personal check.
When she did scanning and filing, I posted a 100$ charge as a bill.
However her notes, which I used as reminders to post bills, were clearly not invoices.

The matter of ATG I believe should likewise be settled by my explanation.

If you have any further questions, please advise. I sent you the controlling paperwork that we honored.
We did not honor the papers you may have seen in paperport, as they were never posted as approved invoices.
Similarly, I did not approve Homefront invoices because they were not paid as individual items, but at the end of the month.

Sincerely,

Dr. K

I received your two letters of comment and one invoice from ATG.

I did not receive copies of the twelve invoices that were paid to ATG during the first contract year. I think you had copies of these invoices on PaperPort. Each invoice was for a monthly payment of $1,000.

- Do you have monthly bills from ATG?
- What specific services were rendered by ATG?

Dear Ms. Hayes;

Please explain your comments;

You never got the material I sent, (I will refax)
The material I sent was the wrong material, (Please explain)
Or the material I sent you was not precisely and exactly what you requested,
Only close. (Please specify)

Here is what I sent you:
I sent you a letter on Ferrand;
She did not render bills, we just entered her days as invoices.
Did you get this letter.
What is wrong with the letter ?
Quick Books does not have any facility to print out bills received,
Only invoices to send out.
I (or you) can generate a listing of payments to Ferrand.
Please detail what more you require.

I send you the invoice from ATG;
Did you get it ?
We did not pay it in full.
We only paid partial for the first year and stopped paying when I decided enough was enough.
Please detail what additional you require.

I am in CT returning to NYC right now;
If you can answer the questions we can resolve this request.

If we can not resolve this question, I can ask Bob to talk to Belinda to resolve the request directly.

Sincerely,

Dr. K

Dear Joan;

Please e-mail documentation requests to me, and don't ask Matt to forward documentation or ask him business questions.

Even if the request you make to Matt is to be forward to me.

Matt does not always give me the correct details or context, or even the correct message.

Please do not hang up, cut off, on Matt.
There is no need to explain to Matt that you are doing CASI a favor by asking for this material and that you want it complied with immediately by Matt or Myself.

There is no need to make veiled or vaguely threatening comments about myself or CASI; this only upsets Matt more and distorts the nature substance or character of your request.

I received an hysterical instant message and e-mail message from him asking for me to get him material I don't have while on travel to fax to you that was clearly a misinterpretation of something you requested of him.

I will be back in NYC Sunday night we can talk on the phone if you don't want to make your request by e-mail.

If I understand your request for 12 ATG and 12 Ferrand invoices, you have them already as I know I printed them out multiple times for you and for OIG. If you wish to compare them with the postings in quick books, I believe you can run a report. Bob and Frank should have reposted them as they were entered in the original Quick Books file I kept for year 1. I have not looked at how they were posted in the revised year 1 pair of books as yet.

Based on our conversation, you are acknowledging compliance with some requirements and non-compliance or partial compliance with others. There are 5 such requirements that are stated in the Management Assertion Report which will be submitted with the report.

After we met, I had a thought:
Would you like to restate the assertions so as to clearly state the areas of compliance and non-compliance, in accordance with the audited findings? In this way, I could opine that your assertions are fairly stated, even though you are acknowledging certain non-compliance.

If you agree, I will e-mail the assertions for your review and sign-off, and you can e-mail your signed response back to me for quick turnaround.

Let me know your decision. Thank you.

Joan

FAST TRAC

ITAC

INDUSTRIAL & TECHNOLOGY ASSISTANCE CORPORATION

Growing NYC Businesses

Announcing Fall FastTrac®Beginning September 23rd, 2003

Business Skills Development for CEOs of High-Growth Technology & Manufacturing Firms

Business Leaders! Do you want to expand your business and raise capital? Sign up for ITAC's **FastTrac,** a 12-session program that develops the skills required by CEO's of high-tech and manufacturing firms to improve their business model and build relationships with lenders and investors. The program includes one-on-one coaching, peer learning, and prominent guest speakers from the Manufacturing sector and Silicon Alley to help entrepreneurs produce well-critiqued business plans and strategies for their business.

Attention Veterans! Through the **National Veterans Business Development Corporation,** we can now offer **FastTrac** to you at a greatly reduced cost. In addition, this non-profit organization also provides Veterans and Service-Disabled Veterans with the tools they need to start and expand successful businesses, including:

- Access to capital and services
- Access to markets
- Access to training and mentoring

(Please contact ITAC for more information regarding this program.)

Christopher Simmons of EurekaGGN raves, "FastTrac is highly relevant. I'd recommend this program to any

06412

young company looking to raise capital."

FastTrac is a comprehensive business program presented for the last 5 years by ITAC and created to address the needs of companies seeking to develop or improve their business model, develop strategic partners, and position their company to attract capital.

FastTrac Course Description:

CourseOverview
As a participant, you will refine your business plan as you enhance your understanding of the following topics:

Marketing
- Get ahead in a competitive market by anticipating and adapting to change
- Develop the marketing mix to carve out your niche
- Devise tactics for building a sales force or distribution network
- Hone sales skills

Management
- Build a strong management team
- Leverage professional services
- Negotiate deals

Finance
- Plan your cash flow
- Understand what investors are really looking for
- Develop realistic budgets
- Make the most of traditional and alternative money sources

Law
- Negotiate and close a venture investment;
- Structure technology transfers
- Form corporate partnerships
- Protect your intellectual property
- Understand term sheets

12 Session Outline
Session #1: Introduction & the Entrepreneurial Mindset
Session #2: Investor Mindset
Session #3: Management Team
Session #4: Understanding Your Market, the Business Model and USP
Session #5: Market Research, Analysis & Application to Business Plan
Session #6: Sales and Marketing; Penetration Strategy
Session #7: Building and Reading Financial Statements
Session #8: Cash Flow and Profitability
Session #9: Deal Structures, Due Diligence & Exit Strategy
Session #10: IP, Technology Transfers and Corporate Partnerships
Session #11: Presentation & Negotiation Skills
Session #12: Wrap-Up, Graduation and Party

Why Should I Take This Course?

You've established your business, but want to take it to a new level. You are increasing your sales, refining the business model, hiring the management team, and raising private equity all at once. FastTrac will help you to plan your growth wisely, successfully and

profitably. While "growing pains" are natural, through preparation, planning and action you can overcome the common obstacles that can cripple your company just as it's taking off. Invest three hours per week to work with your peers, top-flite business owners, and Resources who will help you think ahead and gain on your competitors.

Benefit from:

- FastTrac's proven program software. Manuals, cases, the latest scholarship on entrepreneurship and business development.
- Peer learning and networking
- One-on-one coaching
- Knowledge shared by two respected professors
- Advice from prominent guest speakers from the "Silicon Alley" community
- Business plan development
- Business resources

Attendees and Instructors

FastTrac attendees are the CEOs and corporate officers of high-growth technology and manufacturing firms. FastTrac is designed for existing firms who are seeking to raise capital or expand their market share. The course is suitable for businesses in a variety of technology, new media and manufacturing sectors that have developed proprietary products.

The program is headed up by Dr. Dan Nathanson, former NYU Professor and CEO of Washington Square Capital Partners, an angel investment firm. Speakers are fromcompanies such as JPMorganCHASE, NYCIC, and Trylon Communications.

When: 12 Sessions, Tuesdays, beginning September 23rd to December9, 2003, 6:00pm to 9:30pm.

Where: JP Morgan CHASE Bank, 1411 Broadway, between 39th and 40th Streets, 5th floor Conference Area, NY, NY. Refreshments will be provided.

Call ITAC at 212-442-2990 or email Franklin Madison at

fmadison@itac.org for more information.

Thank you. I left a message for Belinda, but she has not responded yet.
She travels a lot, and she will probably respond when she is in the office.

I think I have a stomach bug, so I should be fine by tomorrow. I was waiting for your response, and I'm going back to bed now.

I'll send you an e-mail later today or first thing in the morning. In any event, we'll get this thing mailed this week!

Subject: NIST

The situation at NIST is deteriorating.
They are planning on booking a receivable for 250K and are about to give me 30 days to give them a check before it goes into collections.
Belinda wants to return with a team of auditors, partly because we (you) were not prepared for her first visit.

You must give her and NIST what they want in a timely fashion.
When did you promise delivery to Marilyn Goldstein ? To Hope Snowden ?

Failure to deliver this week means the receivable gets posted and I am going to declare bankrupt.

06429

Dear Ms. Joan Hayes;

Please disregard the previous two notices from my partner and attorney, Ms. Frederica Miller, ESQ. She is being unnecessarily hot headed and inflammatory. Please accept my sincere apologizes and I trust that we can get past all of the tensions of getting this task completed while the grant is suspended.

I will meet with you at a time and place of your choosing, to provide vital information you need to complete this audit report.

I expect this audit report to be submitted to NIST ATP as soon as possible for overnight delivery to NIST with a copy to myself. I stand ready, willing, and able to drive up to your office and do whatever is required to complete this project.

Sincerely,

Dr. Karron

Dear Ms. Snowden;

Attached are our revised SF269, as revised by our project manager, Mr. Bob Benedict.

These revisions reflect changes in our books made by our accountant and auditor, Joan Hayes, CPA.

The cover letter explains the reasons for the changes in our business process and books since the beginning of the project.

I trust that these are acceptable.

I would appreciate positive acknowledgement that these are acceptable.

I look forward to restarting our grant and moving forward as soon as possible.

We are running on vapors and this project and our company is in real serious jeopardy at this point.

Sincerely,

Dr. Karron

done.
Dear Friends, Family and Colleagues;

During my visit at Montreal and McGill i am reachable via the office of my hostess,

Professor Jensen;

Please continue to e-mail me at karron@casi.net, and baring server problems, it never hurts to also send me CASI related important e-mail to casi@thorn.net.

Overnight and regular mail can be sent to me in care of Prof Jensen below;

I will get it same day as I am seeing Prof. Jensen daily. Please send me tracking information if you do send overnight packages so that I can tell when to pick ask Prof. Jensen to pick it up and bring it to lunch or dinner.

I expect to return to NYC Aug 28 through 29, depending on who drives down with me.

Dr. D B Karron

Dear Joan;

Please deliver the audit report to my deligate and manager, Bob Benedict by overnight or fax as soon as you are ready.
Please CC a copy to me at CASI. I will have it forwarded up here.

Please tell Hope when you expect to have it done. She is expecting your call.
Hope has specifically told me she is waiting for your report and would like to know whn you will be done.

I don't believe I will be able to make as effective comment or understanding of your audit report that Bob can; I hired Bob to be the fiscal manager and he knows our books better than I do at this point.
I expect both of you to try your best to work together.

Therefore, I insist that you deliver the report to Bob, as the designated CASI management and finance person in my stead,
and I will stand behind his review and comments as my own.

I expect to be available by e-mail this thursday, and we can arrange a phone conference by friday. My connectivity here in Montreal is sporatic, andI had to buy expensive roaming air service mainly for late night afterhours connectivity.

Sincerely,

Dan

Bob,

Footnotes are usually prepared by the auditee and presented for audit with the financial statements. Any applicable changes that may result from the audit are subsequently made to both the financial statements and the footnotes. Footnotes provide disclosures applicable to the financial statements and are not a response to the audit.

However, you were not involved when the financial statements were prepared and presented for audit, and could not have been aware of the lack of same before our discussions.

I appreciate your help and cooperation during your period of involvement in the audit process.

Joan

MEMORANDUM FOR: Shamim Shaikh, Acting Chief
Grants and Agreements Management Division
National Institute of Standards and Technology

Kathleen M. McKevitt

FROM: for William F. Bedwell, Jr.
Regional Inspector General
for Audits

SUBJECT: NIST Cooperative Agreement Number 70NANB1H3050
Computer Aided Surgery, Inc., NY
Final Report No. ATL-16095-3-0001

This report on our audit of the subject NIST Advanced Technology Program cooperative agreement with Computer Aided Surgery, Inc. is to inform NIST officials of significant findings that require their immediate attention. Based on Computer Aided Surgery's own accounting records, the company should reimburse NIST $205,126. The corporation has not contributed any of its required cost-share, which currently totals $54,068, and has drawn down $205,126 in excess of the federal share of ATP project costs identified in its accounting records. The Financial Status Reports filed with NIST are inaccurate because they show that the company contributed the required matching funds and the reports overstate ATP project expenses. We will issue a separate comprehensive audit report including questioned costs and other non-compliance issues covering the period October 1, 2001, through June 27, 2003.

We are providing a copy of this report to Computer Aided Surgery. However, we have not requested the company prepare a written response to NIST addressing the report findings or recommendations. We will include these findings in the subsequent comprehensive audit report to allow for due process. Requests from the public for copies of this report must be referred to the Office of Inspector General, Office of Compliance and Administration Publication Unit, Room 7009C, Herbert C. Hoover Building, for response under the Freedom of Information Act.

Any information or inquiry regarding this final report should be directed to me at (404) 730-2780, or Kathleen McKevitt of this office at the same number. We appreciate the cooperation and courtesies extended by NIST officials during our audit.

06454

Introduction

In September 2001, NIST awarded a $2,110,500 Advanced Technology Program cooperative agreement to Computer Aided Surgery, Inc., a for-profit company involved in innovative composite design and engineering. The agreement was for a 3-year period with $800,000 in federal funds for the first year, $600,000 for the second year, and $600,000 in the third year. The agreement required the company provide a matching share of $36,500 for the first year, $30,500 for the second year, and $43,500 for the third year.

The purpose of the agreement was to develop and demonstrate novel computer and engineering technology based on Digital Morse Theory to enhance the quality and usability of computerized anatomic models for precise and accurate cancer treatment therapies.

Purpose and Scope of Audit

We performed the audit of the NIST award at the company's office in New York City during June 2003. NIST requested that our office conduct the audit because the grants and program officials were concerned about Computer Aided Surgery's ability to account for federal funds being spent. The purpose of the audit was to determine the financial status of the award, the reasonableness and allowability of expenses charged against the award and review compliance with applicable laws and regulations. The audit covered the period from October 1, 2001, through June 27, 2003. We examined pertinent NIST and company records, and interviewed agency and company officials as deemed necessary.

We relied on computer-processed data supplied by the company as the basis for our audit findings and recommendations. Consequently, we tested the accuracy by tracing and comparing the data to original source documents and other supporting documents. Based on our tests, we concluded that the computerized data was sufficiently reliable for use in meeting our objectives.

We conducted the audit in accordance with generally accepted government auditing standards, and performed it under the authority of the Inspector General Act of 1978, as amended, and Department Organization Order 10-13, dated May 22, 1980, as amended.

Results of the Audit

During our audit, we found significant problems that we brought to the grants officers attention with a conference call on June 24, 2003 and are documenting with this report. Computer Aided Surgery has not contributed any of its required matching funds, which currently totals $54,068. In addition, the company drew down $205,126 in excess of the federal share of ATP project costs recorded in its accounting records. Finally, the Financial Status reports filed with NIST are inaccurate because they overstate expenses to justify the excess draw-downs and include a cost-share amount that was never contributed. NIST informed us that they suspended further award payments to Computer Aided Surgery as of June 27, 2003. We are working with the company to obtain additional documentation so that we can provide a comprehensive audit of the allowability and reasonableness of ATP project expenses for the period October 1, 2001 through June 27, 2003.

06455

$54,068 of Required
Matching Funds Not Contributed

Computer Aided Surgery has not contributed any matching funds to the project even though the NIST award agreement requires a cost share of 4.57 percent. The Chief Technical Officer of Computer Aided Surgery identified the State of New York as the source of the matching funds, but the funding was not received due to the state's budget problems after September 11, 2001. While the primary owner and Chief Technical Officer of Computer Aided Surgery intends to contribute his own funds to the ATP project, none of these required funds have been contributed to date.

The matching funds required for the project based on the ATP identified expenses in the company's accounting records are shown below:

Award Amendment	Period	Required Cost-Share	ATP Project Costs Per Books	Required Cost-Share
# 2	10/01/2001 - 09/30/2002	4.36%	$ 779,905	$ 34,004
#3	10/01/2002 - 06/27/2003	4.84%	414,537	20,064
Total			$1,194,442	$ 54,068

$205,126 in Excess Drawdowns

Our audit revealed that Computer Aided Surgery drew down $205,126 of federal funds over the 21-month period in excess of the federal share of ATP expenses identified in its own accounting records. A review of the company's financial records revealed that these excess draw-downs were not spent on ATP project expenses. The amount of drawdowns in excess of the federal share of ATP project expenses for the period October 1, 2002 through June 27, 2003 is shown below:

	10/01/01 – 09/30/02	10/01/02 – 06/27/03	Cumulative
ATP Project Expenses Per Books	$ 779,905	$ 414,537	1,194,442
Federal Share of Project	95.64%	95.16%	
Federal Share of ATP Expenses	$745,901	$394,473	1,140,374
Federal Funds Drawn-down	800,000	545,500	1,345,500
Excess Draw-downs of Federal Funds	$ 54,099	$ 151,027	$ 205,126

As shown above, the company drew down $1,345,500 in federal funds between October 1, 2001 and June 27, 2003. However, a review of the company's general ledger revealed only

06456

$1,194,442 in ATP project costs during this same 21-month period and based on the project's federal cost-share, Computer Aided Surgery was only entitled to $1,140,374. The $205,126 excess funds went to pay expenses not related to the ATP project. It appears that Computer Aided Surgery's only source of revenue during the period of the award has been the NIST funds.

The *Advanced Technology Program Special Award Conditions* Section 9. c. states:

> "Advances ... shall be limited to the minimum amounts necessary to meet immediate disbursement needs. Advanced funds not disbursed in a timely manner must be promptly returned .... Advances shall be for periods not to exceed 30 days."

Inaccurate Financial Status Reports

Computer Aided Surgery filed inaccurate Financial Status Reports (SF-269's) for each of the four quarters during the period October 1, 2001 through September 30, 2002. The erroneous reports show the amount of federal funds drawn down rather than actual federal expenditures in the box designated "federal outlays for the quarter," thereby, overstating expenditures. Additionally, Computer Aided Surgery claimed that it had contributed the required cost-share funds, when in fact; no matching funds have been contributed. The Financial Status Reports have not been completed for the periods ending December 31, 2002 or March 31, 2003.

The *Advanced Technology Program General Terms and Conditions* Section 7.c. (1) states:

> "By signing this award the Recipient agrees to ensure that only actual costs incurred will be charged to the award and that all costs will be reasonable, allocable, and allowable in accordance with the applicable Federal Cost Principles."

Additionally section 7.c. (3)(a) states:

> "The Recipient shall submit a "Financial Status Report" (SF-269) on a calendar quarter basis for the periods ending March 31, June 30, September 30, and December 31, or any portion thereof, unless otherwise specified in a special award condition. Reports are due no later than 30 days following the end of each reporting period."

06457

Recommendations

We are recommending that NIST:

1. Continue to suspend award payments to Computer Aided Surgery, Inc., until it meets with the following requirements:

   - Reimburse NIST $205,126 for funds drawn down in excess of the federal share of ATP project expenses.

   - File the Financial Status Reports (SF-269) for the quarters ending December 31, 2002, and March 31, 2003.

2. Designate the company as a "high risk" organization and, at a minimum place it on a reimbursement basis for future drawdowns, if the suspension of award payments is removed.

Funds to Be Put to Better Use

By implementing this recommendation, $205,126 in federal funds will be put to better use by returning the funds to NIST and ensuring that the funds are used only for the NIST project.

I'm sorry I missed you. I left right after our conversation and was out late last night. I'm leaving in a few minutes for another night out. Most of our family birthdays are in August and September, so the weekends get busy.

I'll be out of the office with clients most of Monday, but we can talk later on Monday or one of the following days. I would like to reschedule our conference call with Bob, so we can finish the audit. Once that is complete, we can focus on the other important tasks and issues.

I did not get your messages today.
If it is an emergency, page me; you can ask Matt to page me, or you can page me directly through this link:
http://www.casi.net/D.Karron/pagedbk.htm

If you are up, I can call you now (11 pm).
You can call me now; I am in.

Subject: tax levi cured

Dear Joan Hayes;

I called the IRS to check on the status of the Tax Levi;
I spoke to a Mr. John Snow, Tax Enforcement Number 2973971 at 4:30 pm, today July 23, 2003.

I gave him the CASI LLC EIN number, and he confirmed that there was an outstanding balance, penalties and interest, and that the Levi was still in effect.

I then had the bright idea to ask him to look up the CASI INC EIN number and see if there was an overpayment of the exact same amount (less penalties and interest) in the CASI INC account.

He found the missing/misapplied payments and immediately suggested that he can move the money internally from the CASI INC, number to the CASI LLC, Inc number. He then did so while I was on the phone with him.

He confirmed to me that the penalties and interest were removed and that BOTH accounts were precisely and exactly zeroed out.

He said a official notification would be issued within the next three weeks and the matter was resolved.

I am quite pleased to have solved this problem without resorting to having to provide any more gigabytes of backup documentation.

Dr. Karron

Subject: audit findings

I would like to complete the audit and send my final work papers to Belinda, and I have spoken with both Ira and Avery regarding employee benefits. I think it is important for us to discuss the following with Bob:

- Salary disallowances
- Employee benefits
- Responses to questioned costs
- Footnotes to financial statement

Can you set up a conference call this week with Bob?
I am available on Wednesday in the late afternoon (after 3 PM) and all day on Thursday.

Thank you.

Urgent !!

We intend to levy on certain assets. Please respond NOW.

(To avoid additional penalty and interest, pay the amount you owe within ten days from the date of this notice.)

Our records indicate that you haven't paid the amount you owe. The law requires that you pay your tax at the time you file your return. This is your notice, as required by Internal Revenue Code Section 6331(d), of our intent to levy (take) any state tax refunds that you may be entitled to if we don't receive your payment in full. In addition, we will begin to search for other assets we may levy. We can also file a Notice of Federal Tax Lien, if we haven't already done so. **To prevent collection action, please pay the current balance now.** If you've already paid, can't pay, or have arranged for an installment agreement, it is important that you **call us immediately** at the telephone number shown below.

Account Summary

Form: 941	Tax Period: 03-31-2003
Current Balance:	$19,723.17
Includes:	
Penalty:	$96.08
Interest:	$56.38
Last Payment:	$0.00

For information on your penalty & interest computations, you may call 1-800-829-0115

Questions? Call us at **1-800-829-0115**

1219B, Notice of Potential Third Party Contact, for additional information.

Please mail this part with your payment, payable to United States Treasury.

Penalty and Interest

About Your Notice - The penalty and interest charges on your account are explained below. If you want a more detailed explanation of your penalties and interest, please call the telephone number listed on the front of this notice. You may call your local IRS telephone number if the number shown on your notice is a long-distance call for you. All days mentioned in the paragraphs below are calendar days, unless specifically stated otherwise.

Penalty: $96.08

07 Paying Late

IRC section 6651 (a) (2)

We charged a penalty because you didn't pay your tax on time. Initially, the penalty is 1/2 % of the unpaid tax for each month or part of a month you didn't pay your tax.

If you think we should remove or reduce the penalty, see "Removal of Penalties - Reasonable Cause."

Removal of Penalties - Reasonable Cause

The law lets us remove or reduce the penalties explained in this notice if you have an acceptable reason. If you believe you have an acceptable reason, you may send us a signed statement explaining your reason. We'll review it and let you know if we accept your explanation as reasonable cause to remove or reduce your penalty. This procedure doesn't apply to interest and, in some cases, we may ask you to pay the tax in full before we reduce or remove the penalty for paying late.

Erroneous Written Advice from IRS

We'll also remove your penalty if:

- you wrote to IRS and asked for advice on a specific issue,
- you gave IRS complete and accurate information,
- IRS wrote back to you and gave you a specific course of action to take or explained what actions not to take,
- you followed our written advice in the manner we outlined, and
- you were penalized for the written advice we gave you.

To have the penalty removed because of erroneous written advice from IRS, you should:

- complete Form 843, Claim for Refund and Request for Abatement,
- request that IRS remove the penalty, and

USE OUR AUTOMATED TELEPHONE SERVICE— IT'S EASY AND IT'S FAST

HERE'S A LIST OF THE SERVICES AVAILABLE... AND INFORMATION YOU'LL BE ASKED FOR SO WE CAN HELP YOU

If you plan to call us (at the number shown on the front of the enclosed notice), and you have a touch-tone phone, you may find it convenient to use our automated interactive telephone service. Our automated service can help you quickly and easily if you are ready with just a few items of information.

IF YOU NEED...	YOU'LL BE ASKED...
To know when you can expect to receive your refund	Your social security number, the amount of the refund you're expecting, and your filing status, (single, married filing joint, etc.)
To know the current balance due on your account, whether payments have been credited to your account, or whether changes have been made to you account	Your social security number and personal identification number or PIN. If you have not set up a PIN, you'll be asked to do so using the information shown below
To set up a personal identification number to access your personal tax account information	Your social security number, the Caller ID number shown at the top of the enclosed notice and your date of birth (Use 8 digits, February 23, 1960 is entered as 02231960)
To request more time to pay or set up a payment plan More time to pay	Your social security number and the caller ID number shown at the top of the enclosed notice Whether you want a 30 or 60 day extension
To set up a payment plan	The amount you can pay each month
A transcript of your account or a copy of your return	Your social security number and the numbers in your street address
The address to file you return	Your zip code
The address to mail a payment	Your social security number and zip code

Notice **1212** (Rev. 5-2002)
Catalog Number 25924J Department of Treasury - IRS

06476

- send Form 843 to the IRS Service Center where you filed your return for the year you relied on erroneous advice from the IRS.

The three documents you must attach to your Form 843 are:

- a copy of your original request for advice from IRS,
- a copy of the erroneous written advice from IRS, and
- a notice (if any) showing the penalty we charged that you now wish us to remove.

Interest: $56.38

09 Interest

IRC section 6601

We charge interest when your tax isn't paid on time. Interest is computed from the due date of your return (regardless of extensions) until paid in full.

Interest compounds daily except on late or underpaid estimated taxes for individuals or corporations. Interest is also charged on penalties for late filing, over or understating valuations, and substantially understating the tax you owe.

Corporate Interest - We charge additional interest of 2% if, according to our records, you didn't make your corporate tax payment within 30 days after the IRS notified you of the underpayment of tax. This interest begins on the 31st day after we notify you of the underpayment on tax amounts you owe over $100,000, minus your timely payments and credits.

Re: Cooperative Agreement 70NANB1H3050, Amendment No. 6

Subject: Request for lifting of award suspension

Dear Ms. Goldstein;

This letter is to inform you that CASI LLC has made cash deposits into the CASI NIST Project checking account (JPMorgan-Chase Bank Account XXXXXXXX3166) totaling $47,000.00. This funds in part the CASI contribution of $67,000.00, as required by cooperative agreement 70NANB1H3050, Amendment No. 6, through the end of the current fiscal year through September 30, 2003

Additionally, CASI is providing $20,100.00 as 30% of its $67,000.00 contribution as an "in-kind" contribution, based on invoice or fair market value assessment noted in the attached spreadsheet and supporting documents. The equipment valued in the attached was purchased with CASI funds prior to the start of this current award, but has been used 100% for our current NIST project.

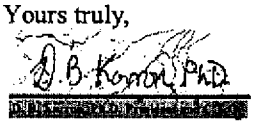
CASI has made, in good faith, previous match contributions totaling $16,600.00, however these were later re-classified as non-match by our accountant. The Project PI has taken a second mortgage on the project apartment to cover the new re-match payments made since the suspension.

Mr. Robert Benedict, our Administrator and Business Manager of CASI LLC has established management controls and procedures that will ensure the appropriate amount of Member Contribution will be made at the appropriate time for any future ATP fund draw to prevent this problem from happening during the remaining course of this year funding when resumed, and at any point in the future.

C. A. S. I.
Computer Aided Surgery, Inc.

Finally, with the CASI Member Contribution now met through the end of the second project year, as supported by the appended documents, CASI respectfully requests the lifting of the grant suspension amendment so that our research project may continue.

Yours truly,



Enc:

I just spoke with Avery regarding the benefit plan for CASI and its impact on grant funding. I would like to share the conclusions of this conversation with both of you. I would like to suggest a conference call (DBK, Bob, me) to save us all some time.

Do you agree? When are you available?

The new ledgers for CASI and for NIST should fit on a disc and do not require a CD. The old ledgers should no longer be used. The new ledgers can easily be e-mailed, as the files are now small.

I do not understand the confusion between checking accounts. You should not be changing checking accounts without providing advance notice to The Jackson Group and without coordinating any changes with them. You must also coordinate any online payments, as this distorts the cash balance. It may be better to pay all bills by check to ensure proper approval and proper handling within the ledger system.

The ledger, not the bank on-line system, should be used for cash balances. Using the bank system disregards any checks that have been written and are not yet cashed, and should not be used for proper cash management.

These communications are a strong indication that procedures are not in place and that CASI management is not supporting the procedures that are being implemented.

Dear Ken, Frank and Bob;

The CD I picked up Ken is not current; it shows books as of 6/23.
I need current checking accounts with good balances.

I will put cash in the burgundy account tomorrow;
I may close the account and cause more checks to bounce.
I need to know what is going on with all of the accounts.

Dear Joan, Ken, Frank and Bob;

I am borrowing money to cover the current overdrafts from my mom (in addition to the money I am borrowing on my apartment). As my mom is a partner, and has a stake in the business (she has already given me 20K for her share in the company, and since I have to go to her to get cash, she will be calling to try to understand how with the bookkeepers and management I am turning the company over to we are coming up so short.

Please be polite, explain to her (and eventually to me) why we can't keep the checking account registered straight, that there is no missing money, no one is stealing and that I am in the process of repaying the government for overpayments and co-payments because we did not get co-investors.

She has been calling me insessently since I made the mistake of telling her that checks were bouncing and I needed to borrow more money from her. I am going out to visit her today, and it is the most I could do to keep her from calling all of you Sunday morhing; I am not answering my phone now.

To: karron@casi.net; 'Bob Benedict'
Subject: RE: new procedures

It is not up to Belinda to "certify" the Jackson Group. The audit issue is the existence of a proper accounting system to support the financial requirements of the award. I don't see any problem with the Jackson Group, and I think it would be a severe detriment to the project to make any change that would impede the implementation of procedures. I'm sure Bob will monitor the process going forward. Frank will need your cooperation for a smooth process and Bob's response to his questions as they occur.

To: karron@casi.net; 'Bob Benedict'
Subject: RE: new procedures

We need to jointly review this ASAP.

The comment about Belinda is a gross misunderstanding. Based on my observation, Frank has answered all of Belinda's questions and provided whatever reports were required to substantiate his responses. Bob, is your observation consistent with mine?

-----Original Message-----
From: dr d b karron [mailto:karron@casi.net]
Sent: Sunday, June 22, 2003 12:07 AM
To: 'Joan M. Hayes'; 'Bob Benedict'
Subject: RE: new procedures

We need allowances for
1) I am on the road a lot and approvals can be given by e-mail if required; cc'ed to Bob I will give Bob countermand authority if he believes there is a misunderstanding.
2) Bob is traveling a lot; approvals can be given by Bob to Frank directly however I reserve the

06499

right to countermand them if there is a misunderstanding.\
3) submission of invoices and receipts by e-mail is allowed; paper is to follow.
3.1) certain regular vendors can be managed by website/e-mail, specifically,
Oxford, Verizon, American Express, con Edison, Con Edison solutions, sprint, RCN, etc. etc.
We can discuss that in detail later, but at some point, it needs to be done.
Insurance billing is still payable even if the bill is not posted; we need to allow for that.
4) when I am on the road I will e-mail receipts to Frank for posting. Frank can print things out if needed.
4.1) bills and account payable should be e-mailed with copies of the bills attached. This is to prevent Bob or myself from approving things blindly.
Any payment decision should have full support appended both in paper for paper presentment or e-mail presentment.
NO GUESSING AT ANY TIME/POINT in the PROCESS.
5) Frank should be courteous and not upset vendors when they call regarding payment and reconciliation of balances.
We have an emergency problem with Webworqs cutting us off Friday. I promised her full payment by the end of next week.

6) We should stop using the burgundy CASI INC NIST account as we are running out of checks and I don't want to order more. I have to shut down the account
and it does not pay to keep the accounts alive; they cost just to keep open especially with low/zero balances.

Co-Payment:
I need a statement of the co-payment due through now, less in-kind.
I will borrow the cash next week and deposit it into CASI LLC which will forward the money to CASI NIST.
>From that money I want to pay off SGI, Silicon City.
I need a budget for the rest of the year that is for real. The budget Bob just sent is no good.

Dis-allowed.
The copay should be for total allowed costs to date;
Making up Disallowed is another matter. If I understand things from Bob, co-pay is more important than disallowed.
As such, the money I put in last year should be re-classified as co-pay and NOT refund disallowed. This is my second request.

Belinda Certification of CASI Business Procedures:
My impression is that she is not going to certify things; based on Frank's errors, the difficulty he is having recreating a balanced new first year ledger, and the controversy concerning the classification of some marginal costs. Finally, Fink is making far too many judgment calls he should not, and making far too many outright errors in clear calls as to which vendor is paid how from what. Bob has a stack of checks in error to fix as well as invoices from Webworqs that need to be rushed through. We need Frank to appear to be supported by Bob; We also have to be careful that Belinda does not disallow Ken and Frank's invoices based on their being excessive and that NIST is not going to pay for error correction time; blab blab.

More later. Just back from all day with my mom cleaning her house....

-----Original Message-----
From: Joan M. Hayes [mailto:jhayes@jmhayescpa.com]
Sent: Saturday, June 21, 2003 12:53 PM
To: Dr. D.B. Karron; Bob Benedict
Subject: new procedures

06500

I would like to clarify our discussion, on Friday, related to the implementation of procedures.

Observation:
I have observed, over time, many bookkeepers who have an excellent knowledge of QuickBooks and perform proper bank statement reconciliations to support the cash transactions do not have the same level of knowledge related to balance sheet accounts. In addition, the outsourcing of payroll usually results in a cost-effective solution, so many bookkeepers do not develop a payroll practice. The unique manner in which QuickBooks handles payroll transactions can be confusing. The user-friendly functionality of QuickBooks simplifies income statement accounting while it does not enable an on-the-job learning of balance sheet accounts. Even with its limitations, QuickBooks is an affordable general ledger package which is widely used by small businesses, and I think it is reasonable to conclude that the benefits exceed the costs.

CASI Ledgers:
In my opinion, the Jackson Group has done an excellent job in preparing the project year one ledger for audit and in responding to the audit requests. I recommended the establishment of separate ledgers from the beginning of project year two, and I understand the reasons for the decision to establish separate ledgers starting with project year one. However, in my discussions with you prior to the development of these ledgers, I pointed out the need for management to be prepared to assist/train Frank with the proper recording of balance sheet and payroll items, as they relate to CASI. In the new CASI accounting environment, the balance sheet is very simple, so this should not be an extensive task. For the most part, the balance sheet accounts that are now needed result from the use of NIST funds to pay disallowed expenses, including CASI expenses, and this situation is not expected to continue going forward. However, the handling of these transfers between ledgers, and the use of appropriate balance sheet accounts in these entries, is very important.

The reconciliation of new ledger balances, which is currently underway, has become an extensive undertaking due to the condition of the old ledger. An extremely complicated old ledger, with multiple transactions that were not posted in an appropriate (according to the generally accepted rules of accounting) manner and an enormous number of changes to transactions, has resulted in the situation now at hand. In my opinion, this supports the need for the new ledgers which are now being created and for the need to maintain these ledgers in an appropriate manner going forward. The cost of this endeavor is primarily the result of the condition of the old ledger.

Implementation of Procedures:
I recommend that the new procedures continue to be implemented in the following order of priority:

1. The new procedures should continue to be implemented as the top priority. Frank should be provided with the documents required to fulfill his responsibilities, as described in the procedures, in a timely manner. Frank should be provided with written approval to pay bills (such as initials on the bills or the accounts payable report) in a timely manner. Proper balance sheet accounts should be established on the new ledgers and their use should be explained to Frank by management during the reconciliation period. A method of communication, that is reasonable and efficient to the interested parties, should be established, so Frank can receive timely responses to his questions and concerns. Management should closely monitor all aspects of the process.
2. Once the procedures are "up and running", the process should be continue to be monitored by management until it is stabilized over a period of time.
3. At that point, if management deems it necessary, it may be appropriate to discuss additional training/educational needs that may enhance Frank's tasks. This may also be an appropriate time to discuss any changes in the billing structure (such as job billing vs. hourly billing). However, at this point, the benefits to be acquired from a proper accounting system should be evident in the

billings due to the much reduced time the posting and reconciling of transactions will take.

In summary, the full implementation of the new procedures (# 1 above) is critical and should be completed as a top priority. Anything that could impede this project, including additional enhancements (# 3 above) which could impede the project if suggested at this time, should be considered after the new procedures have been fully implemented and the environment has been stabilized.

Please let me know if you have any comments or suggestions or would like to further discuss any of the items herein.

Thank you.

Frank did the dbk invoices; he should have the backup filed with the invoices;
I think he should finish with these; I am second guessing what he did to complete these.

I don't know if the attached will be useful to you. It is my open items (bills missing) from my testing work papers. The items marked "TRIP" will be closed out when you complete the trip log.

I would like to come by on Monday at 1:30 to retrieve these bills/documents. Will you, or someone else, be available to work with me?

Thank you.

Subject: RE: new procedures

We need allowances for
1) I am on the road a lot and approvals can be given by e-mail if required; cc'ed to Bob I will give Bob countermand authority if he believes there is a misunderstanding.
2) Bob is traveling a lot; approvals can be given by Bob to Frank directly however I reserve the right to countermand them if there is a misunderstanding.\
3) submission of invoices and receipts by e-mail is allowed; paper is to follow.
3.1) certain regular vendors can be managed by website/e-mail, specifically,
Oxford, Verizon, American Express, con Edison, Con Edison solutions, sprint, RCN, etc. etc.
We can discuss that in detail later, but at some point, it needs to be done.
Insurance billing is still payable even if the bill is not posted; we need to allow for that.
4) when I am on the road I will e-mail receipts to Frank for posting. Frank can print things out if needed.
4.1) bills and account payable should be e-mailed with copies of the bills attached. This is to prevent Bob or myself from approving things blindly.
Any payment decision should have full support appended both in paper for paper presentment or e-mail presentment.
NO GUESSING AT ANY TIME/POINT in the PROCESS.
5) Frank should be courteous and not upset vendors when they call regarding payment and reconciliation of balances.
We have an emergency problem with Webworqs cutting us off Friday. I promised her full payment by the end of next week.

6) We should stop using the burgundy CASI INC NIST account as we are running out of checks and I don't want to order more. I have to shut down the account
and it does not pay to keep the accounts alive; they cost just to keep open especially with low/zero balances.

06505

Co-Payment:

I need a statement of the co-payment due through now, less in-kind.

I will borrow the cash next week and deposit it into CASI LLC which will forward the money to CASI NIST. From that money I want to pay off SGI, Silicon City.

I need a budget for the rest of the year that is for real. The budget Bob just sent is no good.

Dis-allowed.

The copay should be for total allowed costs to date;

Making up Disallowed is another matter. If I understand things from Bob, co-pay is more important than disallowed.

As such, the money I put in last year should be re-classified as co-pay and NOT refund disallowed. This is my second request.

Belinda Certification of CASI Business Procedures:

My impression is that she is not going to certify things; based on Frank's errors, the difficulty he is having recreating a balanced new first year ledger, and the controversy concerning the classification of some marginal costs. Finally, Fink is making far too many judgment calls he should not, and making far too many outright errors in clear calls as to which vendor is paid how from what. Bob has a stack of checks in error to fix as well as invoices from Webworqs that need to be rushed through. We need Frank to appear to be supported by Bob; We also have to be careful that Belinda does not disallow Ken and Frank's invoices based on their being excessive and that NIST is not going to pay for error correction time; blab blab.

More later. Just back from all day with my mom cleaning her house....

Subject: new procedures

I would like to clarify our discussion, on Friday, related to the implementation of procedures.

Observation:
I have observed, over time, many bookkeepers who have an excellent knowledge of QuickBooks and perform proper bank statement reconciliations to support the cash transactions do not have the same level of knowledge related to balance sheet accounts. In addition, the outsourcing of payroll usually results in a cost-effective solution, so many bookkeepers do not develop a payroll practice. The unique manner in which QuickBooks handles payroll transactions can be confusing. The user-friendly functionality of QuickBooks simplifies income statement accounting while it does not enable an on-the-job learning of balance sheet accounts. Even with its limitations, QuickBooks is an affordable general ledger package which is widely used by small businesses, and I think it is reasonable to conclude that the benefits exceed the costs.

CASI Ledgers:
In my opinion, the Jackson Group has done an excellent job in preparing the project year one ledger for audit and in responding to the audit requests. I recommended the establishment of separate ledgers from the beginning of project year two, and I understand the reasons for the decision to establish separate ledgers starting with project year one. However, in my discussions with you prior to the development of these ledgers, I pointed out the need for management to be prepared to assist/train Frank with the proper recording of balance sheet and payroll items, as they relate to CASI. In the new CASI accounting environment, the balance sheet is very simple, so this should not be an extensive task. For the most part, the balance sheet accounts that are now needed result from the use of NIST funds to pay disallowed expenses, including CASI expenses, and this situation is not expected to continue going forward. However, the handling of these transfers between ledgers, and the use of appropriate balance sheet accounts in these entries, is very important.

The reconciliation of new ledger balances, which is currently underway, has become an extensive undertaking due to the condition of the old ledger. An extremely complicated old ledger, with multiple transactions that were not posted in an appropriate (according to the generally accepted rules of accounting) manner and an enormous number of changes to transactions, has resulted in the situation now at hand. In my opinion, this supports the need for the new ledgers which are now being created and for the need to maintain these ledgers in an appropriate manner going forward. The cost of this endeavor is primarily the result of the condition of the old ledger.

Implementation of Procedures:
I recommend that the new procedures continue to be implemented in the following order of priority:

1. The new procedures should continue to be implemented as the top priority. Frank should be provided with the documents required to fulfill his responsibilities, as described in the procedures, in a timely manner. Frank should be provided with written approval to pay bills (such as initials on the bills or the accounts payable report) in a timely manner. Proper balance sheet accounts should be established on the new ledgers and their use should be explained to Frank by management during the reconciliation period. A method of communication, that is reasonable and efficient to the interested parties, should be established, so Frank can receive timely responses to his questions and concerns. Management should closely monitor all aspects of the process.
2. Once the procedures are "up and running", the process should be continue to be monitored by management until it is stabilized over a period of time.
3. At that point, if management deems it necessary, it may be appropriate to discuss additional training/educational needs that may enhance Frank's tasks. This may also be an appropriate time to discuss any changes in the billing structure (such as job billing vs. hourly billing). However, at this point, the benefits to be acquired from a proper accounting system should be evident in the billings due to the much reduced time the posting and reconciling of transactions will take.

In summary, the full implementation of the new procedures (# 1 above) is critical and should be completed as a top priority. Anything that could impede this project, including additional enhancements (# 3 above) which could impede the project if suggested at this time, should be considered after the new procedures have been fully implemented and the environment has been stabilized.

Please let me know if you have any comments or suggestions or would like to further discuss any of the items herein.

Thank you.

we should review these finding and implement them.

CAREFUL WHAT YOU EAT!

For those of you who watch what you eat... Here's the final word on nutrition and health. It's a relief to know the truth after all those conflicting medical studies.

1. The Japanese eat very little fat and suffer fewer heart attacks than the Americans.

2. The Mexicans eat a lot of fat and suffer fewer heart attacks than the Americans.

3. The Japanese drink very little red wine and suffer fewer heart attacks than the Americans.

4. The Italians drink excessive amounts of red wine and suffer fewer heart attacks than the Americans.

5. The Germans drink a lot of beers and eat lots of sausages and fats and suffer fewer heart attacks than the Americans.

CONCLUSION: Eat and drink what you like. Speaking English is apparently what kills you.

Subject: CASI Benefits Manual Details

Here are important parts of the emerging CASI Benefits Manual;

We should review this with Ira and/or Avery and get specific justification for approvals.

Medical Advice Desk

Q. What does HMO stand for?

A. This is actually a variation of the phrase, "HEY MOE." its roots go back to a concept pioneered by Moe of the Three stooges, who discovered that a patient could be made to forget about the pain in his foot if he was poked hard enough in the eyes.

~~~~~~~~~~~

Q. I just joined an HMO. How difficult will it be to choose the doctor I want?

A. Just slightly more difficult than choosing your parents. Your insurer will provide you with a book listing all the doctors in the plan. These doctors basically fall into two categories -- those who are no longer accepting new patients, and those who will see you but are no longer participating in the plan. But don't worry; the remaining doctor who is still in the plan and accepting new patients has an office just a half-day's drive away and has a diploma from a Third World Country.

~~~~~~~~~~~

Q. Do all diagnostic procedures require pre-certification?

A. No. Only those you need.

~~~~~~~~~~~

Q. Can I get coverage for my preexisting conditions?

A. Certainly, as long as they don't require any treatment.

~~~~~~~~~~~

Q. What happens if I want to try alternative forms of medicine?

A. You'll need to find alternative forms of payment.

~~~~~~~~~~~

Q. My pharmacy plan only covers generic drugs, but I need the name brand. I tried the Generic Medication, but it gave me a stomach ache. What should I do?

A. Poke yourself in the eye.

~~~~~~~~~~~

Q. What if I'm away from home and I get sick?

A. You really shouldn't do that.

~~~~~~~~~~~

06511
~~~~~~~~~~~

Q. I think I need to see a specialist, but my doctor insists he can handle my problem. Can a general practitioner really perform a heart transplant right in his office?

A. Hard to say, but considering that all you're risking is the $15 co-payment, there's no harm in giving him a shot at it.

Q. Will health care be different in the next century?

A. No. But if you call right now, you might get an appointment by then.

Subject: Organization and Shareholders/Partners of CASI LLC

Dear Freddie and Joel;

We have the Dept of Commerce Inspector General's office here and we need, ASAP, details for her e-mailed to myself (karron@casi.net); Fax it out for the morning, I expect to have it back up later today.

This needs to be on letterhead, blue pen signed and followed up by surface mail to me.

1)Governing Body of CASI LLC

Who is the managing partner ?
Who is the senior partner ?

I expect that I fill the above rolls.

2) List of Partners and status as to Active or Passive and percentage of ownership.

1) D B Karron Active 95 % (not precisely accurate, I issued the certificates in error)
2) A B Karron Passive 2.5% (?)
3) M B Karron Passive 2.5 %
4) J Bernstein Passive 2.5 %
5) F Miller Passive 2.5 %
6) L Goldberg Passive 2.5 %
7) E Gurfein Passive 2.5 %

The above is my recollection from memory, and F Miller had noted when I did the initial certificates of participation for the partnership I got the total wrong and the certs needed to be re-issued.
Since we are not at that point, the certificates need to be re-issued such that there total is 100 %.

4) Statement of legal determination permitting CASI (the corporation) to continue to perform project objectives.

I saw a memo on this, but specifically we need a legal basis to operate as CASI INC all respects or limited respects until some point yet to be defined.

5) Operating agreement of CASI LLC

6) Articles of Organization of CASI LLC

Please prepare these documents and e-mail me adobe .pdf and or messenger/mail hard copy.

This is required for both our regular NIST audit and the special Inspector General representative, Belinda Reilly, who is staying with us until next Friday.

Please give me positive acknowledgement of this note by return mail and when the material will ready for delivery to the Inspector General's representative.

Cheers!

dB

Sent: Monday, June 16, 2003 5:01 PM
To: Joan Hayes; Frank Spring; Dr Karron; Jim Cox; Matt Rothman
Cc: benedict@casi.net
Subject: OIG Audit

The kick-off meeting will be at Dr. Karron's Office at 10AM on Wednesday morning.
I would think the meeting would last about 2 hours and I propose the following agenda.....

Also, I suggest we meet at 9AM to ensure we have a little time to get our ducks in order.

10:00-10:15	Introductions	Dr. Karron
10:15-10:45	Scope Review	Belinda Riley, OIG
10:45-11:30	Project Review	Dr. Karron
11:30-12:00	Q&A/Closing	Bob Benedict

>From this point on we will be on Belinda's dime. We'll do our best to provide what she's asked for in her scope letter and we'll do it in a timely manner.

I'm still not sure if she's going to do a random sample review or a 100% review of our data, but we should be ready to go in either direction.

Doc, you should have hard copies of the following ready for Belinda...

1) Copies of the Award and all amendments with attached Ts and Cs.

2) Hard copies of all correspondence/letters that have been sent to NIST and those received from NIST.

3) All reports you've sent to NIST, technical and financial.

4) Frank/Joan, we'll need to decide which ledger data format Belinda will use as her audit base and have it ready for her. Joan, have you sent Doc copies of all the signed time sheets you've received? If not, could you please do so? The rest of the supporting documentation in this area will depend on what, specifically, Belinda wants to see. Doc and I will have to go through PaperPort to find the back-up as requested since most of this I would expect is not current.

5) I'll bring the latest org chart and Procedures/Benefits documents.

6) Doc, you'll need to provide a complete listing of all CASI employees, since the beginning of the project.

7) A listing of all subcontractors with their respective assignements.

8) Joan, you'll provide Belinda with any audit work papers and I'll continue to try to get the audit work papers from Jill Feldman.

9) Doc, you'll need to have a list of the board members.

10)Matt, you'll need to have available our latest equipment inventory list.

Get to bed early Tuesday night, for all you late night folks, 'cause 9AM Wednesday will come early and we'll all have to be bright-eyed by 10AM.

Thanks and I'll see you all Wednesday.

Doc and I will have to go through PaperPort to find the back-up as requested since most of this I would expect is not current.

5) I'll bring the latest org chart and Procedures/Benefits documents.

6) Doc, you'll need to provide a complete listing of all CASI employees, since the beginning of the project.

7) A listing of all subcontractors with their respective assignements.

8) Joan, you'll provide Belinda with any audit work papers and I'll continue to try to get the audit work papers from Jill Feldman.

9) Doc, you'll need to have a list of the board members.

10)Matt, you'll need to have available our latest equipment inventory list.

Get to bed early Tuesday night, for all you late night folks, 'cause 9AM Wednesday will come early and we'll all have to be bright-eyed by 10AM.

Thanks and I'll see you all Wednesday.

Subject: Time Sheets

Received your voice mail re time sheets.

I am quite sure that I filled out time sheets for every pay period. I believe they were given to Charles or Nicki. Because I believe that they were all completed, I would be willing to attest to working 30 plus hours per week for any period in question. I would not be willing to give the daily hours worked, because I don't remember the hours/days and any notes related to that were in the CASI computer that I returned to you. Should those originals turn up and be at odds with any new data re hours/days, it could only cause confusion/problems.

For how many periods are you lacking time sheets?

EG

Subject: RE: Time Sheets

Dear Lee;

Joan has the time sheets that need signatures; there are gaps that she has found that need to be plugged.

Joan, can you work out with Lee how you want to get the forms signed ?
If necessary, I can pick them up from you, bring them to Lee, and return them to you, or if you two want, you can messenger the forms back and forth.

Thank you for your cooperation in this matter!

Cheers!

Subject: meeting Wednesday to review audit standing issues

Dear Bob;

We have a meeting with Joan Wednesday 1pm; over lunch, to review the outstanding audit issues.

We should discuss how you and I will behave during the audit, who will be the POC with Belinda, who will be living with us for about 10 days.

You should be here during that time.
I will be here during that time.

Since a lot of that time will Belinda reviewing audit work papers with Joan, we should plan on getting caught up on prospective issues, perhaps computer training and review of procedures.

Subject: computer literacy

Dear Bob;

We need you to come up to speed with the CASI computer conventions; Joan has offered to give you Quick Books tutorials and you need to learn how to make reports and manage basic operations without increasing CASI costs by asking Matt and Frank to do everything for you; as I am protecting their time and costs, I end up doing it. Same with your computer / laptop issues.

Also, the templates you gave us to run for timesheets and expense reimbursements won't run with our security setting, as the macros in the spreadsheets are not digitally signed and all of our Office Macros must be digitally signed in order to run at CASI.

This is because of problems with our exposure to the internet, we have a very high level of security in effect regarding attachments and macros.

RE: Margret D. Ferrand

Dear Ms. Hayes;

This letter is in response to your telephone call of Tuesday last regarding backup documentation on D. Ferrand payments made with NIST funds in Year 1 Specifically you had asked for 12 invoices for Ferrand. Ferrand did not bill monthly. She generally was paid weekly as both a program contractor and non program contractor.

Ms. Ferrand had worked for CASI for many years in multiple capacities. She started with me at in 1995 as my office and home cleaning contractor. She qualified as a contractor because I did not provide direct supervision, she came and went as she pleased, and had keys to my office/apartment. She purchased supplies as needed and I reimbursed her for her out of pocket costs. Her tasks included cleaning and cooking. As is CASI policy, I endeavor to promote from within my staff, I have asked her to do more than housekeeping.

She is bright and has a mathematical aptitude. I soon found out she knew how to reconcile checking accounts, and she did my reconciliations and served as junior bookkeeper and bookkeeper's assistant. Further, she had some facility with the computer and learned our paperless Paperport filing software and our filing conventions. She also scanned and filed papers for CASI.

With the start of the ATP-NIST program, she was paid approximately 100$ generally every week for from NIST program as well as funds from my personal account. She would clean on weekends and would come in during the week to scan and file papers. Considering the heavy useage of my apartment due to the number of program employees here, frequently round the clock I decided that some allocation of her cleaning costs could be made.

I can provide a list of her work products, specifically directories of scanned program invoices and research papers, by date performed and items scanned and filed should you wish more detailed support.

I can also provide copies of canceled personal checks in payment of her cleaning activities.

If you need further backup, we can research the bills entered on her behalf and I can provide a list of her days of office work and her days of cleaning work, program work performed as well as non program casi work performed.

Sincerely,

Dr. Karron

Tuesday, September 09, 2003 at 014:12:51 Hours

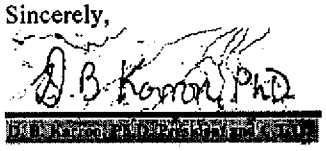
Dear Joan Hayes;

Please disregard the previous two notices from my partner and attorney, Ms. Frederica Miller, ESQ.
She is being unnecessarily hot headed and inflammatory.
Please accept my sincere apologizes.
I trust that we can get past all of the tensions of getting this task completed while the grant is suspended.

I will meet with you at a time and place of your choosing, to provide the vital information you need to complete this audit report.

I expect this audit report to be submitted to NIST ATP as soon as possible for overnight delivery to NIST with a copy to myself. I stand ready, willing, able to drive up to your office and do whatever is required to make this project completed.

Sincerely,



Dr. Karron

> > > > The P&L that is needed is from the same report that was given to Belinda for audit purposes. It is a canned report, and it should be generated from the same database (ledger) that was presented to Belinda. You can run the P&L for the individual periods needed (10/1/02 to 12/31/02 and 1/1/03 to 3/31/03). Once the report is run, you can "drill-down" on each line item to see the transactional level detail that makes up each account. I suggest you use the collapsed version of the report for this purpose, as the expanded version has too much detail to be understandable for budget/reporting purposes. It is much easier to work from Quick Books (due

to the drill down feature) than to work from a paper report.

Frank provided a copy of the ledger on Thursday. Do you want me to send you a copy?

Subject: IMPORTANT! Request from joan

Doc,

Just got off the phone with Joan Hayes.

These are her requests.

1) She has scheduled a meeting April 23, 2003 Wed (Next wed) to include Doctor Karron, Bob Benedict and others at her office in NYC.

2) Needs the following items shipped to her westchester office on or before Saturday 4/19/2003. So make sure you specify saturday delivery if it's shipped out on friday.

a) CD with our quickbooks data on it. The books should include payment of 4/18 paychecks.

b) Voided Check from EACH New Bank Accounts. The checks should NOT have a DBA on them and should be from CASI LLC.

c) Interpay blue forms should be filled out and signed by each employee. Matt Rothman, Jim Cox, DB Karron and Bob Benedict. If we don't have interpay blue forms then we a faxed blank form or downloaded form is also aceptable.

d) South Carolina Payroll forms should be filled out and sent to JOAN in this packet. do NOT send the forms to south carolina.

3) Checks for new accounts should be handed to Ken Jackson at the April 23,2003 meeting.

Computer Aided Surgery, Inc. (CASI)

Dear Ms. Snowden,

We have conducted a survey to determine the capabilities of the accounting system to be used by Computer Aided Surgery, Inc. of New York City, New York, for recording costs under a government sponsored grant to be awarded by the National Institute of Standards and Technology (NIST).

Our evaluation has confirmed that Computer Aided Surgery, Inc. has an accounting system in place that is capable of meeting the requirements of 15 CFR Part 14.21 Standards for financial management systems, as it relates to recording and accumulating costs under a government-sponsored grant.

We conclude that the accounting system has the capability of separately recording allocable costs under the NIST grant in conformance with the applicable cost principles as contained in the Code of Federal Regulations 48, Part 31.

Our effort on this engagement was limited to the specific agreed-to procedure identified in this letter. It did not include an audit or other verification of any cost data.

Sincerely yours,

Jill C. Feldman, CPA, PC

CONTRACT BETWEEN
ELISHA (LEE) GURFEIN
AND
COMPUTER AIDED SURGERY, INC.

TELEPHONE NUMBER FOR LEE GURFEIN
800-668-0189

EMPLOYMENT AGREEMENT

THIS AGREEMENT has been entered into as of October 1, 2001, by and between **COMPUTER AIDED SURGERY, INC.** (the "Company"), a New York corporation, of 300 East 33rd Street, Suite 4N, New York, NY 10016 and **ELISHA GURFEIN** (the "Executive"), of 156 Sherwood Place, Englewood, New Jersey 07631.

RECITALS

A. The Company will develop, through new mathematical theories, a novel computer application server that will transform encrypted data from imaging instrumentations into three-dimensional applications, for use in the medical field, as well as other non-medical areas.

B. The Company has been awarded a federal Advanced Technology Program Award 70NANBIH3050 (the "Award"), effective October 1, 2001 through September 30, 2004. A copy of the Award is appended hereto as Exhibit A.

C. The Company desires to employ Executive as its Chief Operating Officer upon the following terms and conditions;

NOW, THEREFORE, in consideration of the mutual covenants and obligations contained herein, the parties agree as follows:

1. Service. The Company hires and retains Executive as its Chief Operating Officer and the Executive agrees to act in this capacity upon the terms and conditions set forth in this Agreement.

2. Term. This Agreement's term will begin on October 1, 2001 and will remain in full force and effect for one year, unless terminated by the parties in accordance with this Agreement.

3. Automatic Renewal Upon Condition. Upon the expiration of the term of this Agreement and on the condition that the Company received continued funding pursuant to the Award, or other awards, or other financing that allows for payment of this Agreement for the designated year, this Agreement shall be deemed automatically renewed for an additional one-year term, unless either party gives forty-five (45) days prior written notice to the other party, in advance of the regular termination date, of the party's decision to terminate this Agreement. This Agreement may be renewed for two one-year terms.

4. Duties. During this Agreement's term, the Executive will perform the duties and services of the Chief Operating Officer, including the following:

06629

a) Meetings. Meet with Board of Directors at least quarterly to review progress of Company. Will prepare agenda for such meetings and propose topics for consideration. Will meet with individual directors and/or committees on a more frequent basis as necessary.

b) Fundraise. Raise funds and capital from public sector and private sector; coordinate meetings between potential investors and Company personnel; arrange and coordinate technical demonstrations, obtain booths at meetings and conferences; arrange hotel and travel plans for Company personnel.

c) Contract Administration. Obtain permission and approval from the federal government for future contracts and subcontracts; prepare Annual Reports, Quarterly Reports, and other writings on behalf of the Company.

d) Accounting System Certification. Submit to the federal government an accounting system certification issued by an independent certified public accountant within ninety days of October 1, 2001.

e) Financial Matters. Project and monitor fiscal budgets, analyze cash flow, monitor banking transactions, track time sheets and task/completion milestones, and supervise bookkeeper(s) in generating checks and making payroll payments.

f) Public relations. Promote public relations within the industry and the university communities.

g) Strategic Planning and Market Research. Write and update business plan and marketing plan.

h) Purchases and Leases. Make purchases for equipment, write purchase orders, bid out large purchases per federal acquisition rules; negotiate with vendors for Government Service Administration pricing, where appropriate; investigate state purchase contract discounts; maintain books and records for bid audits; authorize vendors, pay vendors, track deliveries; monitor accounts payable; manage discounts for prompt payment.

i) Personnel. Executive may retain, with the consent of the Company, the services of essential personnel to satisfy the responsibilities contained in paragraphs 4 (a) through (h) above. Consent herein will not be unreasonably withheld. Disputes herein will be determined by arbitration, unless resolved between the parties.

5. Other Services and Activities. Executive will devote 75% of his time to the Company's business.

2

06630

6. Salary. Executive will be paid an annual salary of $100,000.00, payable in monthly installments; however, the salary is expressly conditioned upon the continued and uninterrupted payment to Company of the Award, referenced above. If payment of the Award, or other awards, or other financing that allows for the payment of this Agreement, ceases for any reason, then payment of the Executive's salary will also cease and Company will have no further obligation under this Agreement.

7. Incentive Compensation. In order to encourage Executive to pursue corporate development, Executive will receive incentive compensation in the form of shares of the corporation. At the beginning of the one-year term of this Agreement, Executive will be entitled to an amount of shares equal to three percent (3%) of the outstanding shares of the Company based upon the total issuance of one hundred thousand (100,000) shares, or 3,000 shares. In the middle of the second term of this Agreement, or after 18 months, Executive will be entitled an amount equal to three percent (3%) of the outstanding shares of the corporation based upon the total issuance of one hundred thousand shares.

8. Stock Redemption. For a period of three years, Executive will grant a right of first refusal to Company on the private sale of any stock owned by Executive. If Executive leaves the Company prior to or at the end of a term, the Company may, at its option, buy back Executive's shares at a dollar amount to be determined between the parties or by a certified public accountant or other professional. The parties agree to use their best efforts to select a certified public accountant or other professional who will be acceptable to each other. If the parties are unable to agree upon the certified public accountant or professional within a reasonable period of time, a claim under this clause shall be settled by arbitration pursuant to this Agreement. Executive agrees that at the time of the stock redemption, the shares of stock of the Company will be free and clear of all liens, pledges, encumbrances or claims.

9. Fringe Benefits. The Executive will be entitled to participate in all benefit plans or programs of the Company currently in existence or to be established including medical, dental, life insurance, retirement, pension, vacation, sick leave and holidays.

10. Expenses. The Company will reimburse Executive, upon presentment of bills, for all reasonable business expenses incurred by Executive, based upon the Company's guidelines in effect for management personnel.

11. Illness or Disability of Executive. If executive is unable to perform services for the Company for a period of more than thirty (30) continuous days, or forty-five (45) aggregate days within the course of a term, Company may terminate this Agreement upon not less than five (5) days'

written notice to Executive. In the event of such termination, all of the Company's obligations hereunder will terminate immediately. This provision will operate and take effect only in the second or third term of this Agreement and it will not be in effect during the first term of this Agreement.

12. Death of Executive. This Agreement will terminate immediately upon the death of Executive. If Executive dies during the term of this Agreement, Company will pay to Executive's estate the compensation that would otherwise be payable to Executive through the end of the month. This provision will operate and take effect only in the second or third term of this Agreement and it will not be in effect during the first term of this Agreement.

13. Termination for Cause. Company may terminate this Agreement and all of its obligations hereunder upon a determination of an occurrence, as defined below, of any one of the following events: (a) Executive's material breach of this Agreement; (b) Executive's negligent or willful misperformance of his duties; (c) Executive's conviction of a felony or any other crime involving moral turpitude or dishonesty which, in the good faith opinion of the Company, would impair Executive's ability to perform his duties or the Company's business reputation; (d) Executive's failure or refusal to comply with Company's policies, standards and regulations; and (e) Executive's unauthorized disclosure of Company's trade secrets and other confidential business information. A determination of an occurrence, as stated above, will be determined by a panel of three arbitrators no more than thirty (30) days after written notice to the breaching party. A panel will be comprised of one partisan arbitrator selected by each party and a third neutral arbitrator to be selected jointly by the two arbitrators. If the two arbitrators fail to agree upon a third arbitrator, then the American Arbitration Association will select a third neutral arbitrator. Discovery between the parties may take place prior to the case being presented to the panel. A written decision will issue upon presentment of the case, which decision will be binding upon the parties. The fees and expenses of the neutral arbitrator will be borne equally by the parties, and each party is responsible for its own costs, including legal fees, in connection with this procedure. If Executive defaults in this procedure, then Company may terminate this Agreement on its own after ten days written notice to Executive. If Company defaults in this procedure, the breach is deemed waived after ten days written notice from Executive.

14. Trade Secrets. With respect to Company's special techniques, patents, analyses, methods, forms, hardware systems, software programs, and customer lists, Executive acknowledges that this information: (a) belongs to Company; (b) contains specialized and confidential information not

generally known to the industry; (c) and constitutes Company's trade secrets. Executive recognizes and acknowledges that it is essential to Company to protect this trade information. Executive agrees to act as a trustee of this information and of any other confidential information learned in connection with the Executive's employment with Company. Executive further represents to Company that, as an inducement to Company to retain Executive, Executive will hold the information in trust and confidence for Company's sole use and benefit. During this Agreement's term, and for five (5) years thereafter, Executive agrees not to disclose this information to any person, firm, association, or other entity for any reason or purpose whatsoever unless the information has already become common knowledge or unless Executive is required to disclose it by government process.

15. Noncompetition. Company has retained Executive only for the purposes set forth in this Agreement, and the relationship to Company is that of an employee. During this Agreement's term, Executive will not enter into or take part in any business, profession, or other endeavor that competes with Company. Executive agrees not to compete either as an employee, agent, independent contractor, owner, or otherwise.

16. Restrictive Covenants. Executive agrees that for two (2) years after this Agreement's termination for any reason, with or without cause, or for a period of time equal to the length of the Executive's retention by Company if this period has been for less than six months, Executive will not directly or indirectly contact these then current Company clients and/or sponsors, including, but not limited to, the federal Defense Advance Research Projects Administration (DARPA), Advanced Technology Program (ATP), Department of Defense (DOD), or National Institute of Health (NIH), for the purpose of soliciting or servicing contracts for high technology development that competes with the Company. Executive agrees not to contact the above-mentioned clients and/or sponsors that directly compete with the Company, either on his own or on behalf of any other person, firm, company, or corporation. The parties acknowledge that they have attempted to limit the Executive from unfair competition. The parties recognize, however, that reasonable people may differ in making this determination. Consequently, the parties agree that, if the scope of enforceability of the restrictive covenant is in any way disputed at any time, a court or other trier of fact may modify and enforce the covenant to the extent that it believes to be reasonable under the circumstances existing at the time. Executive further acknowledges that in the event employment with Company terminates for any other reason, Executive will be able to earn a livelihood without violating these restrictions and that the ability to earn a living without violating these restrictions is a material condition to employment with Company.

17. Indemnification. The Company will indemnify Executive against any and all costs, expenses, losses, claims, damages, obligations or liabilities reasonably incurred by him in connection with any proceeding if, with respect to the acts or omissions of Executive which are the subject of the proceeding, Executive acted in good faith and in a manner he reasonably believed to be in the best interests of the Company and, in the case of a criminal action or proceeding, had no reasonable cause to believe Executive's conduct was unlawful. Executive shall promptly notify the Company in writing if any claim, action, suit or proceeding is brought against Executive with respect to which indemnity may be sought against the Company. The Company shall have the right to participate in and assume and control the defense thereof.

18. Breach of the Agreement. In the event of any claimed breach of this Agreement, the party claim to have committed the breach will be entitled to written notice of the alleged breach and a period of ten (10) days in which to remedy such breach.

19. Assignment. Executive agrees that this Agreement and its rights, interests, and benefits cannot be assigned, transferred, pledged or hypothecated in any way and will not be subject to execution, attachment, or similar process. Any attempt to do so contrary to the terms of this Agreement will be null and void and shall relieve Company of any liability under this Agreement.

20. Separability. If any provision, paragraph, or subparagraph of this Agreement is adjudged by any court of law to be void or unenforceable in whole or in part, the adjudication shall not be deemed to affect the validity of the remainder of the Agreement, including any other provision, paragraph, or subparagraph. Each provision, paragraph or subparagraph of this Agreement is declared to be separable from every other provision, paragraph, and subparagraph and constitutes a separate and distinct covenant.

21. Modifications. No change or modification of this Agreement will be valid unless in writing and signed by Company and Executive. No waiver of any provision of this Agreement will be valid unless in writing and signed by the person or party to be charged.

22. Binding Effect. This Agreement will be binding upon and inure to Company's benefit and be binding upon Company, Executive, and their respective successors, assigns, heirs, legal representatives, executors and administrators.

23. Arbitration. Any controversy or claim arising out of or related to this Agreement or its breach will be settled by arbitration in the City of New

York, in accordance with the governing rules of the American Arbitration Association then in effect. Judgment may be entered on the arbitrator's award in any court of competent jurisdiction.

24. Notice. All notices will be given in writing by certified mail and will be addressed to Company at its registered office in the State of New York and to Company's attorney, Frederica L. Miller, Esq., 60 East 42nd Street, Suite 2001, New York, NY 10165 and to Executive at the last known place of residence.

25. Attorney's Fees. If any party to this Agreement willfully breaches any of this Agreement's terms, then that party will pay to the nondefaulting party all of the nondefaulting party's costs and expenses, including attorney's fees, incurred by that party in enforcing this Agreement's terms. Loss to Company of the Award, and/or Company's discretionary evaluation of its employment needs is not a basis for a claim of willful breach.

26. Complete Agreement. This Agreement constitutes the entire agreement between the parties and contains all of the agreements between the parties with respect to this subject matter. This Agreement supercedes any and all other agreements, whether oral or in writing, between the parties with respect to this subject matter.

27. Governing Law. This Agreement will be subject to and governed by the laws of the State of New York.

28. Headings. The headings in this Agreement are inserted for convenience only and are not to be considered in construction of this Agreement's provisions.

IN WITNESS WHEREOF, the parties have caused this Agreement to be executed and delivered as of the date written below.
